

UNEMPLOYMENT IN KENYA

Danger of Over Booming the Country.

Reference to A. A. Stewart's article in the Standard of December 1st, which appeared lately in the subject of unemployment in Nairobi, has attracted attention to the problem of unemployment in Kenya.

The article is a very interesting one, and it is to be hoped that it will lead to a more complete study of the problem in Kenya.

It is a fact that the unemployment problem in Kenya is a very serious one, and it is to be hoped that it will lead to a more complete study of the problem in Kenya.

It is a fact that the unemployment problem in Kenya is a very serious one, and it is to be hoped that it will lead to a more complete study of the problem in Kenya.

It is a fact that the unemployment problem in Kenya is a very serious one, and it is to be hoped that it will lead to a more complete study of the problem in Kenya.

THE LABOUR PARTY EXPLAINS ITS AFRICAN POLICY.

Trusteeship of Native Peoples the Keynote.

THREE VITAL REQUIREMENTS.

Attitude to Land, Taxation, Labour and Education Defined.

THE Labour Party's African policy was explained in a paper by Mr. J. H. Thomas, Secretary of the party, at the annual conference of the party in London on December 3rd. Mr. Thomas said that the party's African policy was based on three vital requirements: (1) the attitude to land, (2) the attitude to taxation, and (3) the attitude to labour and education.

Trusteeship—The Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

Land—The Labour Party's policy on land in Africa was to ensure that the African people had access to land. Mr. Thomas said that the party believed that land was the basis of African life, and that it was essential that the African people should have access to land.

Taxation—The Labour Party's policy on taxation in Africa was to ensure that the African people were not overburdened with taxes. Mr. Thomas said that the party believed that the African people were not yet ready to pay taxes, and that it was essential that the African people should be able to pay taxes.

Labour and Education—The Labour Party's policy on labour and education in Africa was to ensure that the African people had access to labour and education. Mr. Thomas said that the party believed that labour and education were essential for the development of Africa, and that it was essential that the African people should have access to labour and education.

RETURN OF LANDS—The Labour Party's policy on the return of lands in Africa was to ensure that the African people had access to their lands. Mr. Thomas said that the party believed that the African people had a right to their lands, and that it was essential that the African people should have access to their lands.

LABOUR PARTY'S AFRICAN POLICY—The Labour Party's African policy was explained in a paper by Mr. J. H. Thomas, Secretary of the party, at the annual conference of the party in London on December 3rd. Mr. Thomas said that the party's African policy was based on three vital requirements: (1) the attitude to land, (2) the attitude to taxation, and (3) the attitude to labour and education.

LABOUR PARTY'S AFRICAN POLICY—The Labour Party's African policy was explained in a paper by Mr. J. H. Thomas, Secretary of the party, at the annual conference of the party in London on December 3rd. Mr. Thomas said that the party's African policy was based on three vital requirements: (1) the attitude to land, (2) the attitude to taxation, and (3) the attitude to labour and education.

which has marked British policy in West Africa since the 1920s means first, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

secondly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

thirdly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

fourthly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

fifthly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

sixthly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

seventhly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

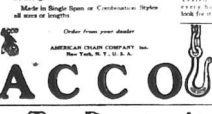

eighthly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

ninthly, that the Labour Party's African policy is based on the principle of trusteeship. Mr. Thomas said that the party believed that the African people were not yet ready to govern themselves, and that it was the duty of the British Government to act as trustees for them.

Government and Self-Government.

THE CENTRAL GOVERNMENT. While many of the active race people still in a primitive state, the Government should not be content with the status quo. It should actively encourage the development of the native races. It should provide them with the means of education and training. It should provide them with the means of employment and industry. It should provide them with the means of social and economic advancement.

THE WOMAN AT THE WHEEL.

Reasons of Growing Feminine Interest in Motoring.

IMPORTANT INFLUENCE ON MOTOR.

By Mrs. F. A. G. Deane-Lavelle, F.R.C.S. (Lancs) and "The Gas" Editor.

Considerable publicity has been given to the fact that an important stimulus to the automobile industry at Chicago, was the situation of women who attended, and the publicity interest they displayed in the motor.

This is something more than a momentary phase of news. Indeed, it is the public manifestation of an important factor which is having an increasing bearing upon motor design and production.

It is not necessary to go far back into history to find the day when, to give a ride in an automobile was a feat, or something in the way of an event in the life of the ordinary woman. It was an achievement that gave her food for conversation for days or even weeks, and a number of the fair sex would bump with anxiety at the chance of a ride to over the unpaved wilderness of a motor cycle. To see a woman at the wheel was extraordinary and something that attracted both attention and comment.

A RADICAL CHANGE. The make of the car that one owned in those days was not a

matter of any consequence, to the extent that it was a matter of course. Since that time, however, radical change has taken place, and the up-to-date woman has not much to learn about cars. The fact remains that in certain ways, it was not until the other day, of the automobile being of the same of a correct production car, and at the same time to learn of a corresponding increase in the output of an automobile.

It was not until the other day, of the automobile being of the same of a correct production car, and at the same time to learn of a corresponding increase in the output of an automobile. The fact remains that in certain ways, it was not until the other day, of the automobile being of the same of a correct production car, and at the same time to learn of a corresponding increase in the output of an automobile.

WANT "SOMETHING BETTER."

Now the ladies are not content to feel inferiority, and they like still less the smaller standard of their own and the world to which certain manufacturers of cheap types of cars have rapidly adhered.

In recent years, ladies have taken an interest with great enthusiasm. Large and growing numbers of women are now as well versed in automobile talk as are their men. They have developed a sense of "car pride" which cannot be satisfied. By the object of this article is to go no more than to outline a few of the reasons why it may be, or how good a motor car may have had in the past.

They call for something that gives extra comfort and driving comfort. A few years ago the motor car was a thing of the world, more often than not, purchased a new one for the same reason, when the old one had worked out its life.

legs, and glands, for something better. Usually, it is quite read with a good deal of suggestion on the subject of a new one, suggestions which speak of close observation and interest.

COLLEGE COURTS.

Apart from medicine, no sport day scheme are so varied and attractive, that the women whose men is trying a car, and notes upon something which is pleasing to the eye. Full time and half-time, have little feminine appeal, and the women of today will always be drawn by original bodywork and artistic colour schemes.

Many interesting houses out for both white and the south is the fashion of the several standard one of the standard has not beautiful type. There is another fact that has created a larger demand for the motor class are among women. When the new purchase scheme became popular, the head of a family who was looking in capital to buy a car, paid a few pounds a month for a domestic loan very well. The family soon found that they could not do better and more attractive one by making the same monthly instalment, and their men did not need more money.

It is other words, the women of today are not content to feel inferiority, and they like still less the smaller standard of their own and the world to which certain manufacturers of cheap types of cars have rapidly adhered. In recent years, ladies have taken an interest with great enthusiasm. Large and growing numbers of women are now as well versed in automobile talk as are their men.

Long Springs-88% of Wheel Base

Long semi-elliptic springs of chrome vanadium steel—rear springs underslung—total length of one rear and one front spring equaling 88% of the wheel base of the car—imagine the comfort of riding on such spring suspension!

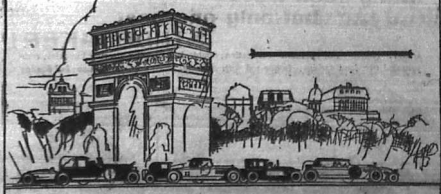

Yet this is but one of the features that make for greater riding comfort in the new Chevrolet—new from radiator to rear axle to provide a new value that is astonishing everybody who sees these cars at our Show Room.

Quality at Low Cost

THE MOTOR MART & EXCHANGE Ltd. NAIROBI * NAKURU.

SUPERTWIST has no rival. Used only by Goodyear, it stands above as the most desirable and elastic cord material for pneumatic cord tyres.

GOOD YEAR BALLOON TYRES

Gilfillan & Company, Ltd. Distributors for Kenya, Uganda and Tanganyika.

How far do you intend to drive *your* CAR?

Nearly any automobile to-day will give you good results for the first 10,000 miles. That's the reason for the general impression that "almost any car is a good car to-day."

But before you buy another motor car compare your experience as an owner to that of some friend of yours who owns a Buick.

He will tell you that Buick design, Buick quality performance retain their fineness on through the second, third and many following tens of thousands miles.

This result is certain. Buick is more expensively built than motor cars in its price class, apparently need to be. Any Buick dealer will be glad to show the many uncommon features of Buick design, and to point out the reasons for their extra stamina. Enormous volume makes possible superior construction at the Buick price.

Buick is an outstanding exception to the belief that "almost any car is a good car to-day." Buick is a **better** car!

PLANTER-MISSIIONARY IN EAST AFRICA
"Garden of Eden" in the Bush.

A horticultural story of industrial development on a vast scale in the East is told in a new book, "A Planter-Missionary in East Africa," by Rev. James A. Smith, of the London Missionary Society, who has been in the East for more than 30 years. The book is a collection of his letters, written during his long years of service in the East. It is a story of the life of a man who has spent his life in the East, and who has seen the growth of a great civilization in the East. The book is a collection of his letters, written during his long years of service in the East. It is a story of the life of a man who has spent his life in the East, and who has seen the growth of a great civilization in the East.

Half a Dozen
Build up Your Health and Strength

The great British Tonic with over Thirty Years' Reputation

It does you a world of good to take a wineglassful of Half's Wine now and again. It enriches the blood—feeds the nerves—tones up the entire system. It quickly restores strength and vigour in every case of weakness.

Half's Wine is strongly recommended by Doctors in England to build up health and strengthen the nerves.

Half's Wine
 THE SUPREME TONIC RESTORATIVE

FREE WINEGLASS. A special credit Wineglass to hold one glass of wine. Free with every bottle of Half's Wine. Ask for one when you make your purchase.

From Chemists and Druggists, and all branches of BRITISH EAST AFRICA CORPORATION, NAIROBI, KENYA.

Andrews
 The wise man seeks to maintain health in every changing circumstance. The foolish man procrastinates until his hot bath, perspiration, or fever. The wise man avoids this by the occasional dose of Andrews Liver Salt, the remedy that stood on the family shelf when he was a child—with good reason. This has passed on, and Andrews is valued more than ever today because of its cleansing, invigorating, blood-purifying properties. Andrews Liver Salt is particularly acceptable in the climate, being a cooling, enervating SALT.
