

KISUMU-KHARTOUM Air Service Selects Buick

DEMANDING a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

MOTOR TOPICS

DISMANTLING A CAR.
REQUIRES ONLY REASONABLE CARE.
HOW TO GO ABOUT IT.

In a recent article we wrote a South African motor paper, it dealt with entirely correct means of safekeeping vintage cars and mentioned that engine and accessories should be removed, disassembled, and packed in boxes for shipping. The author's idea was to disassemble the engine in the garage at home, packing them up in the necessary fashion. As a matter of fact, in the case of the small car, which comes to be given its popularity, the task can be undertaken with confidence by the amateur mechanic.

THE WINDY WAY.
 Personally I prefer to clean all the removable parts as soon as disassembled and store them in paper bags and covers, wherever possible, replaced.

With all the intricate detail and close work in a car's engine it will be found that the removal of the parts is often a tedious and time-consuming task. The most efficient way of removing the parts is to use a screwdriver and a wrench, and to use the correct tools for the job. The most common mistake is to use a screwdriver to remove a nut, which will damage the threads. The correct tool is a wrench, and the correct way is to use it in the correct position.

CARE OF NUTS AND SCREWS.
 First of all the nut should be removed. Then the screw should be removed. The nut should be removed by using a wrench, and the screw should be removed by using a screwdriver. The nut should be removed by using a wrench, and the screw should be removed by using a screwdriver. The nut should be removed by using a wrench, and the screw should be removed by using a screwdriver.

TO BE LET
GOOD spacious and airy office to be let on upper floor in our building on Government Road, now under construction from 1-4-27. All the offices available to use tonight if desired. For further particulars apply to Messrs. Wajda Hjerpe and Sons, P.O. Box 223, Telegraph 47, Nairobi.

CLEANING THE CYLINDER.
 The piston rings should be removed carefully, after which all the carbon deposits removed from the piston heads and from the ring grooves. The done, attention should be given to the cylinder. It is found the best method is to grind in the valve before taking the cylinder deposit from the inside of the cylinder. When grinding in the valve, by the way, a complete circle should not be made. The emery solution should be placed round the ring, a slight backward and forward movement made, the valve lifted, and the process repeated.

THE WINDY WAY.
 Personally I prefer to clean all the removable parts as soon as disassembled and store them in paper bags and covers, wherever possible, replaced.

OUR WOMEN'S PAGE

A Letter from Paris

(By Yvonne Roussin)

Starting early from the Yvonne Roussin

Some of the beauties have long thin fingers in contrast to the average woman. A simple square-cut diamond brooch is worn on the bridge of the nose. Brooches and open buckles are wrought in this case.

A quaint feature of the up-to-date toilette de soirée in the French court circles is to wear a small, square, diamond brooch in the hair, or on a gold or silver net, adorned with delicate drapery to match. These "diamond" brooches have long, tapered points and are frequently set in sparkling diamonds or rubies. The crown for masses of hair.

Very easy to see the above that appear to be made in two pieces, the

two pieces of gold, and the head of gold.

Single tassels and tassels are now being made in the shape of animals.

A small departure from the things made in the three-quarter century ago is the use of silver and colored metals, the latter of which is used to produce the effect of a necklace.

ELECTRIFIED FURNITURE

Furniture that is especially fitted with electric lighting in the shape of shades and electrically controlled, electrically operated lamps.

The dining table, for example, may have electrically controlled lamps and shades fixed to its surface. The electric lamp is controlled by a switch in the back of the chair, which is controlled by a second plug in the side of the dining room. The electric lighting and the heating of the dining room.

Whichever, too, may be kept and fixed with a low-pressure light.

It is desirable the darkest region and certain. This lamp is fixed by an automatic switch which operates on the opening and closing of the door.

Being made in the shape of the lamp, the lamp is controlled by a switch in the back of the chair, which is controlled by a second plug in the side of the dining room. The electric lighting and the heating of the dining room.

There is no doubt, however, that the lamp is controlled by a switch in the back of the chair, which is controlled by a second plug in the side of the dining room. The electric lighting and the heating of the dining room.

IN THE SOUTHERN AFRICA
P.O. BOX 417, NAIROBI.

A quality for evening wear in the "chic" fashion is the fact of the fact that the fabric is a soft, lustrous material, and the color is a rich, deep red. The dress is made in a simple, elegant style, and is suitable for a variety of occasions.

The sequel to the afternoon frock is now seen in the form of a light-colored dress with a wide, white collar and a long, flowing skirt. The dress is made of a soft, lustrous material, and is suitable for a variety of occasions.

Not only are dresses worn with the same accessories as in the past, but the same accessories are also worn with the dresses. The accessories are simple and elegant, and are suitable for a variety of occasions.

They prefer dresses in the popular jumper frock: the first of which is a simple, elegant style, and is suitable for a variety of occasions. The second is a more elaborate style, and is suitable for a variety of occasions.

South African Railways and Harbours
THE FACTORY PRODUCTION OF THE UNION OF SOUTH AFRICA is valued at £75,000,000 a year and the ABUNDANCE OF NATURAL RESOURCES is evidence of the scope for expansion. SOUTH AFRICAN food products are gaining in favour and the quality is constantly being improved. **BET THEM SOUTH AFRICAN PRODUCTS ARE EMPIRE PRODUCTS.**

KISUMU KHARTOUM Air Service Selects Buick

DEMANDING a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

A RUGAR PROBLEM.

CAN UGANDA PROTECT BELIN IN SAUNDING?

Can a Wabale carrying a bag of sugar in Nairobi, having been charged with an attempt to smuggle it into the Machakos reserve? This was a point which Mr. Gaultier raised yesterday at the meeting of the Executive Council of the Government of Kenya held at the Government House, Nairobi.

Mr. Gaultier stated that while he had very little doubt that he did not care to go to take the sugar into the Wabale Reserve he did not doubt that he had been caught in Nairobi and that the case must be referred to the reserve. Admittedly the case must be referred to the reserve. Admittedly the case must be referred to the reserve. Admittedly the case must be referred to the reserve.

MOTURING TOPICS

RUBBER PRODUCTION.

THE FIBRESENE GOV. IN LIBERIA.

A RUBBER SCHEME.

[FROM OUR OWN CORRESPONDENT.]
 London, Jan. 9.
 When the Fibrestone Company started its whole plantation scheme in the West African country of Liberia, it was on a contract period of 18 months, as was the case with a large number of other plantations, to include the planting, the tapping, and the processing of the rubber. Unusually, however, the scheme was originally engaged on and under the name of the Fibrestone Company, which is now, however, in the hands of the Fibrestone Company of London.

I enquired whether there had been any change in the management of the scheme since the expiry of the contract period. It is reported that the Fibrestone Company is still in the country, and that the rubber is being produced in a very good way. The scheme is a very good one, and it is particularly interesting to note that the Fibrestone Company has been able to secure a very good price for the rubber, and that the scheme is a very profitable one.

It is also reported that the Fibrestone Company is now in a position to produce a very good quality of rubber, and that the scheme is a very profitable one. The Fibrestone Company is now in a position to produce a very good quality of rubber, and that the scheme is a very profitable one.

LABOUR SUPPLY.

Labour is in short supply in the West African countries. It is reported that the Fibrestone Company is now in a position to produce a very good quality of rubber, and that the scheme is a very profitable one.

There are about 70 European engaged, of whom about 50 speak English with fluency as persons though the latter will not be able to do any work. The language spoken by the natives is not the same as that of the country, and it is reported that the Fibrestone Company is now in a position to produce a very good quality of rubber, and that the scheme is a very profitable one.

THE GOVERNMENT.

The language spoken by the natives is not the same as that of the country, and it is reported that the Fibrestone Company is now in a position to produce a very good quality of rubber, and that the scheme is a very profitable one.

So long as the American Government is at the back of the rubber scheme, it is fairly certain that the rubber will not be quite good. The only objection which can be made is that the rubber is not being taken from the best trees, which is not the case in the Malay States.

Unseen Sources of Long Life

A motor car, like a house, may LOOK a great deal more substantial than it really is. Dodge Brothers Motor Cars, however, have proved through twelve years of use that their motors are even more deeply concerned with the unseen goodness than with the seen.

The expense saved, the trouble avoided and the dependability enjoyed in control by owners of Dodge Brothers Cars over a period of years are quite as important as the more obvious details of equipment and style.

CROSS Power KEROSENE

Pulling Power For Every Tractor

KEROSENE is a power fuel for tractors which has been perfected by Shell petroleum chemists in co-operation with the world's recognized authorities on internal combustion engines.

Being an exceptionally volatile power kerosene, Cross provides complete combustion in tractor engines, thus ensuring the maximum amount of power with low fuel consumption and minimum carbon deposit.

Your tractor will run better and deliver more power on CROSS.

THE EAST AFRICAN STANDARD

Thursday, 21st, 1927.

FURNIVARDI.

The general public do not take the interest in the problem of Native Housing in Nairobi which has been its importance to the health and general sanitation of the community. It deserves. We should like to see a much more widespread public opinion on the native question than the present amount which promotes and plunges us into a mire of mud and grime. The Native representatives on the Legislative Council of the Colony, who are the trustees of the people, have been grossly deceived. It is the duty of the Government to see that the native housing problem is not left in the hands of the present Legislative Council. A closer working arrangement with the Municipal Council, either directly or through an intermediate channel such as a Native Housing Committee, would lead to greater prominence being given to native housing elsewhere in the councils of the Colony when the broad principle of democratic control of economic and social life is being debated. One subject which we believe could be introduced and discussed with advantage to the people of Nairobi is the housing of the Native. It is the duty of the Government to see that the native housing problem is not left in the hands of the present Legislative Council. A closer working arrangement with the Municipal Council, either directly or through an intermediate channel such as a Native Housing Committee, would lead to greater prominence being given to native housing elsewhere in the councils of the Colony when the broad principle of democratic control of economic and social life is being debated. One subject which we believe could be introduced and discussed with advantage to the people of Nairobi is the housing of the Native.

THE EAST AFRICAN STANDARD

WAVELIGHT.
 The young day of Kikuyu and the majority of the population in the country are still in a state of ignorance as to the value of electricity. The Government is to be congratulated for its policy of making electricity available to the people of Kenya. The Government is to be congratulated for its policy of making electricity available to the people of Kenya. The Government is to be congratulated for its policy of making electricity available to the people of Kenya.

Another Column.
 The names of the members of the Legislative Council of the Colony for the 1928-29 session have been published.

Shipping Schedule.
 The Kenya Steamship Company's schedule of service between Nairobi and Mombasa is as follows:

TEAU AND THE ELECTIONS. T. J. O'Shea Outlines His Political Convictions. WHY ELECTED MEMBERS CO-OPERATE.

WHY AMBROS IS SHORT OF WATER. TOWN ENGINEERS ON THE POSITION. IMPROVEMENTS COMING.

BURNS' ANNIVERSARY. CELEBRATION IN NAIROBI. GRACED BY THE LADIES.

CORRESPONDENCE. A LAMBO CASE. THE Bungalow Magistrate, Nairobi.

Eighteen Months in which to Await Representative Government. FAILING WHICH—DEFINITE OPPOSITION.

During the past couple of weeks, as has been intimated, there has been a good deal of discussion in Nairobi, particularly among the members of the Legislative Council, regarding the position of the Government.

To the Editor "The Standard": The Editor has just published an article regarding the late Mr. J. H. O'Shea, which is a very interesting and well-written article.

LYRIC HALL AT 8-45 TO-NIGHT. THE LAUGH OF THE SEASON. NOTHING FUNNIER EVER SEEN IN NAIROBI.

January 27, 1927. The position of the Government in Nairobi is a subject which has been discussed in the columns of this paper for some time past.

Some time ago it was decided to call a meeting of the members of the Legislative Council, and it was decided to call a meeting of the members of the Legislative Council.

It should be noted that the Government has not yet received any reply from the members of the Legislative Council regarding the proposed amendments.

LEAVE AND THE ELECTIONS.

(Continued from page 2.)

in self-protection, and that the result of the election will be the resignation of Mr. King's administration. Mr. King's claim, as he has stated, is that he will resign only if a majority of the country support him. He is a very simple man, and it is not surprising that he should have been misled in the course of his career by those who have sought to deceive him.

NO ILLUSION.

The resignation he had accepted was not a matter of course, and it would not be called upon to consent to it. It was a matter of fact that he had accepted it, and it was a matter of fact that he had accepted it.

THE RESIGNATION.

The resignation he had accepted was not a matter of course, and it would not be called upon to consent to it. It was a matter of fact that he had accepted it, and it was a matter of fact that he had accepted it.

FINANCE.

Considering the Finance of the country, the Government of Kenya has a very large deficit. It is a matter of fact that the Government of Kenya has a very large deficit, and it is a matter of fact that the Government of Kenya has a very large deficit.

IN HIS MAJESTY'S SUPREME COURT OF KENYA AT NAIROBI
Civil Case No. 11 of 1927.
In the Matter of J. JACOBS, LTD., AND REDUCED TO NAIROBI
In the Matter of The Companies Ordinance, 1921 and 1923.

NOTICE is hereby given that a Petition was on the 14th day of January, 1927, presented to His Majesty's Supreme Court of Kenya at Nairobi for the confirmation of the reduction of the Capital of the above named Company from Shs. 1,000,000 to Shs. 325,307 50.

AND Notice is hereby further given that the said Petition is directed to be heard in the said Court on Monday the 14th of March, 1927, at 10.30 o'clock in the forenoon.

Any person interested in the said Company whether or not a shareholder or otherwise, desiring to object to the making of an Order for confirmation of the said reduction of Capital, should appear at the time of hearing by himself or his Advocate for the purpose, and a copy of the said Petition will be furnished to any such person requiring the same, on payment of the regulated charge for same.

Dated at Nairobi this 94th day of January, 1927.
