DRESS WEEK AT Whiteways

TO-DAY AND DURING THE WEEK WE ARE SHOWING THE ADVANCED SPRING MODES FOR 1927. Our London Buyers have been able to buy in the Paris and Continental centers a splendid collection of Gowns for wear on every occasion. These have just arrived and Special Window Displays are the feature of the week.

Whiteways NAIROBI.

Attention is directed to the very low prices at which these Dresses are marked, there are no frocks and yet for a very modest sum you can get the model of your own particular choice. HAND MADE VEILE FROCKS IN EVERY STYLE AND SHADE FROM Shs. 50/- to Shs. 100/-. DANCE FROCKS IN SILK TAFFETAS FROM Shs. 45/- to Shs. 75/-. MORNING DRESSES IN POPLIN, ART SILK, ETC. FROM Shs. 18/6 to Shs. 35/-. AFTERNOON FROCKS IN ART SILK CHECKS FROM Shs. 25/- to Shs. 45/-. DAY GOWNS IN ART SILK STOCKINGS OUTFITTERY AND SHIRTS FROM Shs. 25/- to Shs. 50/-.

Whiteways NAIROBI.

Standard Motor Products

THE BUICK

New Heights of Speed, Power and Safety.

Lack of vibration at all speeds; minimum of pressure required on foot pedals; easy engaging clutch; active slams of this way; perfect road stability; passenger insulation; over every kind of road; four wheel brakes of the most dependable type; heavy air filter; oil filter; petrol filter; exclusive vacuum combustion stabilizing system; counterbalanced crankshaft; harmonic balancer on the crankshaft; insulated exhaust; over head valves; fuel valve system.

Owners of these new Buick creations express amazement at their tremendous acceleration, power and silent, vibrationless running.

Try any other make of car and then drive the new Buick. You also will be surprised at the difference between the Buick and any other car you may have driven and find that the new conception of road performance this wonderful car will give you.

FOR more than two years the stupendous engineering resources of Buick and General Motors have been concentrated on the development of the new 1927 Buick, a car which now easily tops any accomplishment thus far known.

In performance, power, stamina and economy of operation there is nothing with which to compare it.

This wonderful new Buick has an ease of control, quietness of operation, swiftness of acceleration and beauty of line that are absent in even the costliest of cars.

MOTORING TOPICS

THE MAGNETO.

Simple Instructions for
Overhauling.

A BELLEVUE INSTRUMENT.

DETAIL INSTRUCTIONS.

DETACHING THE INSTRUMENT.

Specific. It carefully removes the small bits holding the make and break spring. The spring and tip of the spring are not to be rubbed. Care is to be taken to remove the carbon from the back of the contact brush. This is done by dipping the contact breaker assembly in a container for cleaning.

The brush holder is next to be removed. The pattern is removed down to the spring in order to give a small amount of clearance. It is then adjusted so that it is a new fit on the contact brush.

Hold the magnetron and remove the spring. This is done by pulling the spring from the magnetron and holding it with the fingers. The spring is then removed and the magnetron is held in the hand.

Having detached the magnetron, the next step is to remove the contact breaker assembly. This is done by pulling the contact breaker from the magnetron and holding it with the fingers.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

The terminal is also of the ring. This is done by pulling the terminal from the ring and holding it with the fingers.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Remove the contact breaker from the magnetron and hold it with the fingers. The contact breaker is then removed and the magnetron is held in the hand.

Unseen Sources of Long Life

A motor car, like a home, may LOOK a great deal more substantial than it really is.

Dodge Brothers Motor Cars, however, have proved through twelve years, that their cars are even more deeply concerned with the same goodness than with the ones.

The expense saved, the trouble avoided and the dependability enjoyed in comfort by owners of Dodge Brothers Cars over a period of years, are quite as important as the more obvious details of equipment and style.

Will your Shirt Face the Laundry?

Consulate SHIRTS

It is a common thing to see a shirt that is stained and soiled after only one wash. This is due to the fact that the shirt has not been properly washed. Consulate shirts are made of a special material that is resistant to stains and soiling.

Consulate

The shirts that last at the laundry.

CROSS Power KEROSENE
 Pulling Power for Every Tractor

CROSS KEROSENE is a power fuel for tractors which has been perfected for use in conjunction with the world's renowned Sulzer engines on internal combustion engines.

Being an exceptionally volatile power kerosene. Cross provides pure combustion in tractor engines, and thus delivers the maximum amount of power with low fuel consumption and minimum carbon deposit.

Your tractor will run better and deliver more power on CROSS.

Member of Last Council Says Things Are Settled Before Coming into Legislature.

(FROM A CORRESPONDENT.)

Friday, February 4. It is not surprising to find that the Legislature of Transvaal is to be held in the usual manner, and that the members of the last Council are to be re-elected to the same seats as they held in the last Council.

ELECTIONS TO THE FRENCH SENATE.

Defeat of a Former President.

CHAMPAGNE PARIS.

Improving Artistic Aspects of the City.

(From Our Own Correspondent.)

Paris, January 17.—An artistic and dramatic group of the Senate on Monday last, by the defeat of one third of the French Senate. The Senate had been elected by the voters of the various departments, and throughout the day there were animated discussions in the corridors of the Grand Palais, where the delegates forming the electoral college were assembled.

The atmosphere was one of excitement as to the attitude of the various parties, and the result of the election was awaited with interest. The Senate is a body of 250 members, and its members are elected for a term of nine years.

Already a step in the right direction has been taken. In most of the towns there are held black and white printed on transparent paper and fixed inside one of the glass panes of the structure, to indicate the number of the votes on a scale with the following page. From this point goes a line to the next page, and so on.

ON THE "INDEX"

The Action Française journal, in its edition of the works of Charles Maurras—politician of that period with M. Leon Daudet—has been placed in the Index Censorial by the Pope. His Holiness has been the reason for the dramatic measure a lack of substance and an attempt to restore the authority of the Holy See; the article was a study of opposition and revolt; a willful disregard of the laws of the State; and the breaking down of the moral and political structure of the State. These are the reasons for the Index Censorial. It is a matter of fact, a right political act, and I do not wish to see the Index Censorial as the result of the Index Censorial. It may be that the Index Censorial is a step in the right direction, and I do not wish to see the Index Censorial as the result of the Index Censorial.

A VILLAGE COMEDY

Some time ago the military authorities issued an order to the effect that no one was to be allowed to enter the village of the East of France to witness the execution of a man. The order was issued to the effect that no one was to be allowed to enter the village of the East of France to witness the execution of a man. The order was issued to the effect that no one was to be allowed to enter the village of the East of France to witness the execution of a man.

of the unreported view of religious progress.

HIS MAGIC MOMENT.

On Saturday last a luncheon was held at one of the big hotels on the left bank of the Seine. The host was a man of letters, and he had a second or two before he was a man of letters. He had a second or two before he was a man of letters. He had a second or two before he was a man of letters.

MIDNIGHT SHORTAGE

At the moment there is a somewhat serious crisis in the economic, domestic and military aspects of the situation, particularly in the Middle East, in short, no longer a matter of a few months, but of a few weeks. It is a matter of a few weeks, but of a few weeks. It is a matter of a few weeks, but of a few weeks.

Dear Sir,
The Principal Sanitation Officer has prohibited the export of one Maize Grouser's Crop in the Nakuru Area owing to dead plague rats being found in his Maize Crop.

I make this personal appeal to all Members of the Kenya Farmers' Association Ltd. to make war on rats as fast as possible, and do your utmost to clean your farms of this pest.

The sooner you commence the less risk there will be of your crop being condemned.

Yours faithfully,
SAMUEL MCCALL,
CHAIRMAN.

OCEAN TRANSPORT.
Is the Steamship Out of Date?

NEW DEVELOPMENTS.

The First Lord of the Admiralty, Sir Austen Chamberlain, announced to the House of Commons the other day to a gathering of naval architects, marine engineers, ship-builders and others in London that he would shortly introduce a Bill that he was assured that they were not desiring to make further improvements in the design and equipment of modern warships.

It is not, however, any certain means of high tonnage ships which has been exhibited to the First Sea Lord. Perhaps the inventor of the steam turbine, the motor ship is going to be the one to come a year ago. In the nature of a steam turbine, the motor ship is going to be the one to come a year ago. In the nature of a steam turbine, the motor ship is going to be the one to come a year ago.

The motor ship is going to be the one to come a year ago. In the nature of a steam turbine, the motor ship is going to be the one to come a year ago. In the nature of a steam turbine, the motor ship is going to be the one to come a year ago.

the greatest
BUICK
ever built

Smooth Vibrationless Power Clothed in Lines of Graceful Beauty

THE graceful beauty of Buick body lines is thoroughly in keeping with Buick performance—in every detail it indicates the smooth effortless speed that is characteristic of the cars, and typifies the full joy of motoring.

Long, low and rakish, their trim tops equally jaunty whether raised in service or folded flat and snugly booted, the open models suggest smooth roads and wind-swift speed.

On the roadsters, longer and higher decks, one piece windcreens and dickey seats set comfortably low, contribute to the air of dashing smartness.

The closed cars, too, have been materially refined. Improved front door posts curve artistically at the top, blending into newer and lower roof lines. A new sun visor with concealed fastenings enhances the smart effect.

How well the long, sweeping lines express the spirit and smoothness of Buick performance can be realized only after a thorough demonstration of the cars themselves.

Ride in one to-day—The Greatest Buick Ever Built.

MOTOR TOPICS

TESTING CYCLES.
 Methods Adopted by the Manufacturers.

ENSURING SATISFACTION

One of the most interesting processes through which a motorist passes in that of a final test. This, as we know, is the final test. Until then it is an immature object, but when the final test is completed, because, if a growing "baby," at least it is a "grown-up" one. This matter of the final test is one of utmost importance. For it is from any fault which here has occurred in the construction of the machine. Manufacturers realize its value and see to it that the tests are as rigorous as possible.

While it is safe to say that, on the whole, motor-cars, thoroughly tested before they are released, "O.K." will be numbered that the motor cars will run smoothly. This is because of the varied types of machines and the different facilities which are available for test. As might well be imagined, a test also depends largely upon the ability and care of the test engineer.

A TESTER'S OUTLET.

A small concern employing one tester and one car, is now in the business of testing motor-cars. The testing is done in a garage, and the motor-cars are tested in a special building. The building is so arranged that it may be used for testing cars of any make. The building is also used for testing cars of any make. The building is also used for testing cars of any make. The building is also used for testing cars of any make.

Unseen Sources of Long Life
 A motor car, like a house, may LOOK as good and new as when it first left the factory, but it is not so good as it really is.
 Dodge Brothers Motor Cars, however, never, through twelve years, that their motors are even more deeply concerned with the usual goodness than with the wear.
 The expense saved, the trouble avoided and the dependability enjoyed in comfort by owners of Dodge Brothers Cars over a period of years, is quite as important as the more obvious details of equipment and style.

Road Construction.

Two correspondents deal this morning with some aspects of road repair policy. One, a non-resident, writes in substance to the effect that the methods in vogue for the improvement of the roads in the colony are not more than a few, the road surface was in very few instances the completion of special work performed by the Public Works Department as an expenditure which was not accounted to a considerable sum. Today the Fort Hill road—Highways used more generally by heavy transport than any other main road—has in a degree fallen in the opinion of the public in the question of the political representation of the community expressed in their election manifesto for the coming year. The road repair system of the Colony would be investigated to determine how far it can meet the requirements of the modern mechanized methods of construction which are demanded by the requirements of the country. The two views and principles are not of course, mutually exclusive; it is the political expediency of the Government to select the staff of the State to report in road construction whose experience includes the conditions which are being faced in Kenya. The method is apparently being followed by the Government of Kenya which is a very important consideration in the present circumstances. The Government is not to be blamed for the road repair system which is being followed in Kenya. The Government is not to be blamed for the road repair system which is being followed in Kenya.

passenger and goods, a rapidly rising cost of the road repair system in the colony and is a warning of the danger of increasing expenditure which will have to be met with the Government. The Fort Hill road is a typical and important example. A few months ago, not more than a few, the road surface was in very few instances the completion of special work performed by the Public Works Department as an expenditure which was not accounted to a considerable sum. Today the Fort Hill road—Highways used more generally by heavy transport than any other main road—has in a degree fallen in the opinion of the public in the question of the political representation of the community expressed in their election manifesto for the coming year. JOHN BOYES

KING OF THE WA-KIKUU. (1924. EDITION.)
"A more interesting book has been published for many years than this authentic record of an Englishman's adventures as a trader in East Africa. It tells how Kikuyu tribes, how he became their King, how he was captured and killed for his life by his own country and finally how he was rescued."

TO WHOM IT MAY CONCERN

I, JAMES ALEXANDER MITTON WATSON of Nakuru at present residing with the Kenya & Uganda Railway, herewith GIVE NOTICE that I will not hold myself responsible for any debts incurred by my wife MRS. BEATRICE MITTON WATSON.
DATED at Nairobi this 6th day of February, 1927.

OUR WOMEN'S PAGE

A Letter from Paris

(By DANA BANG.)

Painted eyebrows denote the new upper arm when Madame goes for evening receptions.

our hats—bushes, the thick network of being extra one, which has never and before.

Some shades of one colour are very successfully employed for some of the latest new designs. The finished model in non-coloured chiffon has a skirt composed of three different tones to give with rose. The light, short-waisted pleated bodice, in the midst of all pink shades, is cut with a rather high oval neckline, and finished on one shoulder with a huge rose in all four shades.

Spore hats of "Big West" dimensions are gradually taking the place of the "bushy" pattern. Fitting the head exactly they are usually composed of a single piece of material. The latest style called advantage of combining the eyes from the "big" hat with light weight with perforated design in the top of the crown for ventilation—and they can be pulled into any shape you like.

THE LITTLE DANCING TRAILER.

As an evening dress dancing member of my acquaintance is going on her "debutante" business as a substitute to the "debutante" fashion. She tells me that she went to a non-competitive contest gave her the idea. Madame came here to go through their "pouter" combinations. They are turned out as finished

Many of the new models are cut on little lines, the normal length of the tunic now being three or four inches above the knee, the underwire, of course, crossing the knees as do all the latest smart frocks.

The tunic that opens from neck to knee in front, over an underwire of plaited georgette, is retained by the one which fits the figure, zipper fashion, and is considered safe for several rows of grouped and neck and wrist. The other graceful extension of the tunic proper is fitted to a deep V pattern on the outside, the leading extending over the shoulders and the point of the V reaching to the normal waist level and front. This model is made to pouch slightly by means of a few thin cords of silk vertical tucks at the hip line forming a sort of belt over which the upper part of the tunic falls.

White silk—feathers—very rose, tipped with silver—form the wreath on a "Lolita" dress made for a young girl. The dress itself is in white, simple design below the normal waist line.

Silver cloths for evening dresses in the latest edition, is enhanced with a lined design. Made up into a slim, clinging gown, with a narrow, tapered hem, lined with vivid green velvet, falling from the shoulders in a simple, but unusual to please the most conservative, it is a great success, with bright and green, both for festive and for a great

The woman's taste is probably the outcome of the fashion for something that is being made. A particularly charming example is revealed in all that is being lined with beige satin which forms the most delicate and beautiful and is visible.

Pink and silver is the favorite color combination for the debutante, the pretty model already being developed in full pink georgette and blue straw lace, with a tulle of silvery-plaid design at the center front of the skirt. The rows of tulle on the neckline and points are fairly wide.

For the young women in this graceful and becoming model in horizontal and vertical, with a slightly draped skirt a swathed with a tulle, and a dainty jabot of cream-silk.

profuse, as to speak, and the masses they have to learn could not fail to benefit the woman who wishes to carry off her debut with an air.

The little dancing number includes all sorts of "moderate" but not excessive, she teaches her students what to do with their arms and legs and feet. She occurs to her, the idea of the sports ground and the modern dance generally. She makes a graceful young woman out of a pretty girl. She gives her advice about dress and make-up, and teaches her how to walk too.

And, still importantly, she makes of her own a very interesting and instructive course of the woman's own. She is not a teacher, but a friend, and she is not a teacher, but a friend, and she is not a teacher, but a friend.

South African Railways and Harbours

THE FACTORY PRODUCTION OF THE UNION OF SOUTH AFRICA is valued at £70,000,000 a year and the

ELECTION DAY IN NAIROBI.

How to Vote and Where to Do It.

OFFICERS RESERVE FOR K.A.R.

Bill for New Legislative Council.

A Bill to make provision for a reserve of officers for the King's African Rifles is quoted for introduction to the session of the General Kenya Legislative Council.

The Bill provides for the establishment of a Reserve of Officers in connection with the King's African Rifles. Those officers must be recruited from officers of the ranks of the regular forces of the Crown who are permanently recruited in the ranks of the King's African Rifles. Appointments to the Reserve will be made by the Secretary of State on the recommendation of the Governor and the approval of a committee to be appointed by the Secretary of State.

The Bill also provides for the appointment of officers to the Reserve of Officers. The Governor may appoint officers to the Reserve of Officers on the recommendation of the Secretary of State. The Governor may also appoint officers to the Reserve of Officers on the recommendation of the Secretary of State.

The Bill also provides for the appointment of officers to the Reserve of Officers. The Governor may appoint officers to the Reserve of Officers on the recommendation of the Secretary of State. The Governor may also appoint officers to the Reserve of Officers on the recommendation of the Secretary of State.

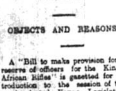

The Bill also provides for the appointment of officers to the Reserve of Officers. The Governor may appoint officers to the Reserve of Officers on the recommendation of the Secretary of State. The Governor may also appoint officers to the Reserve of Officers on the recommendation of the Secretary of State.

The Bill also provides for the appointment of officers to the Reserve of Officers. The Governor may appoint officers to the Reserve of Officers on the recommendation of the Secretary of State. The Governor may also appoint officers to the Reserve of Officers on the recommendation of the Secretary of State.

The Bill also provides for the appointment of officers to the Reserve of Officers. The Governor may appoint officers to the Reserve of Officers on the recommendation of the Secretary of State. The Governor may also appoint officers to the Reserve of Officers on the recommendation of the Secretary of State.

BE WISE AND VOTE FOR SCHWARTZ.

the greatest
BUICK
ever built

Smooth Vibrationless Power Clothed in Lines of Graceful Beauty

THE graceful beauty of Buick body lines is thoroughly in keeping with Buick performance—in every detail it indicates the smooth effortless speed that is characteristic of the cars, and typifies the full joy of motoring.

Long, low and rakish, their trim tops equally jaunty whether raised in service or folded flat and snugly booted, the open models suggest smooth roads and wind-swift speed.

On the roadsters, longer and higher decks, one piece windscreens and dickey seats set comfortably low, contribute to the air of dashing smartness.

The closed cars, too, have been materially refined. Improved front door posts curve artistically at the top, blending into newer and lower roof lines. A new sun visor with concealed fastenings enhances the smart effect.

How well the long, sweeping lines express the spirit and smoothness of Buick performance can be realized only after a thorough demonstration of the cars themselves.

Ride in one to-day—The Greatest Buick Ever Built.

MOTOR TOPICS

TESTING CYCLES.

Methods Adopted by the Manufacturers.

INSURING SATISFACTION

(Continued from yesterday.)

After the track test a report is made out by the driver and "report" are handed over to a test staff, so that the vehicle may be remedied before a further test.

As soon as a machine is passed "O.K." license plates are issued and the motorist can be driven on the roads to the satisfaction of his friends and the public. The test is a very important one, being that of the public, who are the ultimate judges of the machine. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

The use of the private test track is especially valuable, for it reduces the number of machines on the number of machines on the roads to the satisfaction of his friends and the public. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

The use of the private test track is especially valuable, for it reduces the number of machines on the number of machines on the roads to the satisfaction of his friends and the public. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

It everything is in order, the driver is allowed to take charge and after going over the topography, they are set out on the circuit for a thorough test of hill-climbing, speed and power. The driver is allowed to take charge and after going over the topography, they are set out on the circuit for a thorough test of hill-climbing, speed and power.

The procedure of the engine test is for anything from 100 to 200 miles, depending on the nature of the test. The driver is allowed to take charge and after going over the topography, they are set out on the circuit for a thorough test of hill-climbing, speed and power.

Diagrams Motors, Ltd. of Bristol, have been given credit that they have been perfect when handled in the public. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

The track is used for running of the machine and for checking of steering and road holding. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

The use of the private test track is especially valuable, for it reduces the number of machines on the number of machines on the roads to the satisfaction of his friends and the public. The test is a very important one, being that of the public, who are the ultimate judges of the machine.

Unseen Sources of Long Life

A motor car, like a house, may LOOK a great deal more substantial than it really is. Dodge Brothers Motor Cars, however, have proved, through twelve years, that their motors are even more deeply concerned with the unseen goodness than with the seen.

The engine saved, the trouble avoided and the dependability enjoyed in comfort by owners of Dodge Brothers Cars over a period of years, are quite as important as the more obvious details of equipment and style.

We have received the following letter from—
I have used the D.W.M. long barrel gun several times. It is undoubtedly a superior weapon. I have killed and wounded the 40 elephants with the short barrel G.M.M. and consider it a most efficient weapon at Kilimanjaro. The long barrel gun however seems to possess considerably more ballistics and is superior to short skin animals such as elephants and rhinos. It is superior to the 318 or 350 Magnum. However your D.W.M. Ammunition has always been used. I shall not buy any more but will keep the long barrel gun in my opinion the long barrel gun is the best medium gun on the market. Personally I will be purchasing from a few countries in Kilimanjaro and I consider the D.W.M. long barrel gun.
Yours sincerely,
G. H. A. HEVER & Co.

NAIROBI NORTH A FINAL APPEAL

THE HON. H. F. WARD, who has been elected to the Nairobian North constituency for the Government, has issued the following statement in connection with his election:

Ladies and Gentlemen, I have much to thank you for the interest you have shown in me since you again have chosen me to represent you in the Nairobian North constituency.

I should be glad to see you at the Nairobian North constituency meeting on Monday, February 13th, at 8 o'clock, at the Nairobian North constituency office, 10, Market Street, Nairobi.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

Use is made of the Nairobian North constituency meeting on Monday, February 13th, at 8 o'clock, at the Nairobian North constituency office, 10, Market Street, Nairobi.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

It is a pleasure to me to have been elected to the Nairobian North constituency for the Government, and I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

The question of building more houses in Nairobi is a matter which requires the attention of the Government, and I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

Like all those who have been elected to the Nairobian North constituency for the Government, I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

I am sure that you will be glad to see me, and I am sure that you will be glad to hear me speak on the various matters which are before you.

TWO NOVEL PROBLEMS IN BRITAIN.

(Continued from page 1.)

The first—which has 20 rooms, including 5 bathrooms, on the fourth floor of Devonshire House, Long Acre, London, W. 1, is the first of its kind in being given to the Government. Naturally the rest of all these is difficult to find for all except millions.

ROY FISH. Possibly Greece will be in the hands of the Undersecretary of the Treasury in making plans for its reconstruction. On the other hand there is a chance over how the Church.

Orange and lemon 'say the title of St. Clemente.' 'I own the old fortification, says the title of St. Martin.' 'When will you get the title of the old Baker.' 'When I give you,' says the title of St. Michael.

When will you get the title of St. Peter? 'I do not know,' says the title of St. Paul.

But until the sum of £5,000 has been raised by the Church of St. Stephen in the lower part of the street, will take no further part in any construction of the title of the last expressed to the church.

months ago, which will have been completed by the end of the month of this year. It was a building to be erected on the site of the old tower of the church.

It is the only one of its kind in the world. It is a building to be erected on the site of the old tower of the church. It is the only one of its kind in the world.

It is the only one of its kind in the world. It is a building to be erected on the site of the old tower of the church. It is the only one of its kind in the world.

about 200 have been completed. Others have to be washed away by their companions, new ones have been started by the Government and their owners, where new ones are not required.

Women will have to find a way of making up their minds. Women want chiefly to be on the side of reformers but some of them are not so sure.

WE HAVE many quiet things in the air and things which are not attached to last night's annual Ball at the Royal Albert Hall.

THE LADY ANNE OF GREAT BRITAIN, whose name remained the same, was married to King George V. in 1907. The lady was the daughter of the Duke of Devonshire.

STANDARD" FEATURE PAGE

THE HISTORY OF UGANDA.

From the Time of the Early Missionaries.

THE FIRST TEN YEARS.

(DR. M. L. O. GUILLEARD.)

There is a considerable old library to be found in two volumes, which is generally in the hands of those who reside in the town of Mbaraka, and the volumes are bound in the style of the late 19th century.

This thought of Dickson's was also the subject of a letter from the Rev. J. G. Thompson to the Rev. C. F. Wilson, who was in the habit of writing to him from time to time, and who was in the habit of writing to him from time to time.

There was also at Uganda every year... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

There began the lasting work of the missionaries... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

Some years ago was announced to be held in death... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

By my mission, and other things... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

DANGEROUS DAYS.
 No one was able, through the ignorance of slavery for instance, to get a man or woman and a woman of him or her, and it was not until the time of the late 19th century that it was possible to get a man or woman and a woman of him or her.

It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.

It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing... It is a little thing, but it is a little thing, and it is a little thing, and it is a little thing.
