

for the first time

# an engine- vibrationless beyond belief

Buick now presents a new and finer motor car with an engine, vibrationless beyond all previous experience!

At every point in its whole power range, this engine will remind you of the smoothness and quietness of electrical operation.

No other car to-day, regardless of its price, accomplishes the same freedom from noise and rumble.

Smoothness, power range, and flexibility are amazingly revealed in the smart new Buicks—the fastest of all cars for their price and size, faster than practically any car, except a purely racing machine.

No speed you wish to travel is restricted by the capacity limit of the new Buick models.

Buick engineering has achieved the result that all motor car engineers have sought for for years.

Come in and take out one of these 1927 Buicks for your first ride in the Greatest Buick Ever Built.

**CHANGING LONDON.**

**Undergoing Complete Transformation.**

**NEW STRUCTURES.**

London, February 27.—London, as I have often occasion to say, is still undergoing complete transformation. The House of Commons is to be moved to the Park Lane there is the Great Park about adjoining, and the Metropolitan Devolution House also, to be opened in March. In a certain time, Lyons will start at Marble Arch at the gateway of the Edgewood Road, and, facing the whole stretch of Hyde Park, on a road which they say will be no longer than the Promenade in New York City. The Western says in a 12,000 feet class hotel, to be built, there is a great effort on foot to supply the deficiency.

There is a still more important scheme, a building project which, when completed, will involve a sum of £1,000,000 is now being developed with a view to bringing about the long delayed completion of the Albert Memorial. Subsequent to the time of the promoter is to cover the large vacant plots of land on

**NEW THEATRES.**

The plan is to build one of the theatres on the east side of Hyde Park, in the street, Mr. Charles Gwynne, Managing Director of the London Theatre of Varieties, Ltd., one of the biggest theatre-going companies. The construction of this theatre is now being prepared by Mr. Milner. It will be the most modern of its kind in the world, and is planned for the Metropolitan Theatre, which is now being equipped and constructed by the London Theatre of Varieties. The building of the theatre is to be done privately, and it is not proposed to bring the public into it.

Mr. Gwynne will be expected to be able to lay his detailed plans before the House of Commons, the centre of the vacant projects, which he has been for some weeks. A building lease of 99 years will be sought from the Council. It is felt that the members of the Council will be disposed to consider the proposal favourably.

**A WORKSHOP CITY.**

It would be fitting if, before the twenty-second anniversary in the solar, on the opening of Kingway, work could be begun on the construction of one of the most important London street improvements of the century. London is becoming more and more a huge workshop, and now and then a place to be built.

**THE LONDON COUNTY COUNCIL.**

An annual statement just issued by the London County Council, in 1926 there were 128,129 people living in London. The population of London, as estimated, only 13,270,000. The same year, the population of London, as estimated, only 13,270,000. The population of London, as estimated, only 13,270,000. The population of London, as estimated, only 13,270,000.

# "STANDARD" FEATURE PAGE

A COMING CATASTROPHE?  
 Prophecy of a Canadian Professor.

YEARS OF SEVERE DROUGHT BEGINNING IN 1928.  
 Biblical Prophecies Regarding Russian Nemesis.

The following interesting articles regarding the scientific of severe droughts and the prophecy of coming famines, has been written in a recent issue of the "National Geographic and Banner," the organ of the British-Learned Paleontologist.

The article states:  
 "One of the 'Watchesmen' of the world, Mr. F. W. Gould, a keen biologist of 69 years' standing, writes in an issue of Nature, B.C. I have told you a little more about British and Canadian droughts. I must close this month's last column in my old paper, therefore, Atlanta where I went in 1922, before the railway. The two Canadian articles reported to my house for Russia, have been published after delivering 1,000 boxes at Leningrad. The Canadian Government intended to pay me before the general fall of Canada. The details of prices paid here, cost of shipping, and cost of Leningrad. I need not give but the buying agents stated on their return that the Soviet Government have also bought 1,000 boxes in Hungary, and that they want to buy 200,000 boxes. How wonderfully the Russian Government's prophecy of the Russian Army. Many people within all of them riding upon horses."

The Soviet Government has tripled the horses among the peasants for use on the land, but with the promise that the Government will give them for creating an army of war. They are kept free of expense till needed. This is all most significant ever to be heard. I may further inform you that Russia and China are buying together of our wheat from our private, and the export rates are made so favorable to the shipping companies that it is cheaper for our enemies than it is for us in Vancouver. Anything for the deficit in it. I believe that we may now be suffering for want of that wheat. If all the authorities on coming weather conditions are correct, Dr. R. D. Delany, Assistant Director of the Dominion Observatory at Ottawa, advised that drought has three recurring periods, of 11, 60, and 260 years, and the 260 year period may always be subdivided into 11 and 60 years. The Chinese records also show that the 260-year cycle has been observed, and that the 60-year cycle will reach the maximum of its intensity at the same time, reaching winter conditions on the earth seven before appearing in the known history of man. The present 60-year cycle is the second since 1918, known as the year without a summer, and the 260-year cycle to the past coincides with pestilence, poor crops, little or no summer, and other distress. Six of these 260-year cycles have long ago to be the time of the great famine of Dinosaur.

Chinese astronomers record a great hurricane in 1872, during a sun-spot period. The likelihood is that next summer and the two or three immediately following it, will be periods of many storms, much rainfall, and a minimum of sunshine. These tremendous meteorological changes in the United States agree in the main, with the above. "One eye sees it, this, how it is possible for there to be a time of unimagined trouble, even from war. Famines leads to pestilence, one that shall be found written in the annals of the world. Therefore, all British-Learners are reminded to act in the light of God's deliverance and we do, in spite of trouble, realize and accept, I may repeat, Let your dependence be known unto all men. The Lord is at hand. To those very people to whom he was writing, he was on one occasion in great trouble and affliction. He and his were beaten with many stripes and their feet made fast in the stocks in the same prison; but an angel of the Lord appeared and gave praise unto God and inspired the people to keep the complete deliverance message. This shall be shortened."

"For nations shall be against nations and kingdom against kingdom, and there shall be earthquakes in divers places, but they shall be terrified and trouble these as the beginning of sorrows."

"And there shall be signs in the sun and in the moon, and in the stars; and upon the earth distress of nations, with perplexity, the sea and the waves roaring; men's hearts failing them for fear, and for looking after those things which are coming upon the earth, for the power of heaven shall be shaken."

This is the time foretold by the prophet in his second chapter. There shall be a time of trouble such as never was since there was a nation, even to that time this shall be delivered, every people shall be delivered, every

SIXTH AVENUE, NAIROBI.

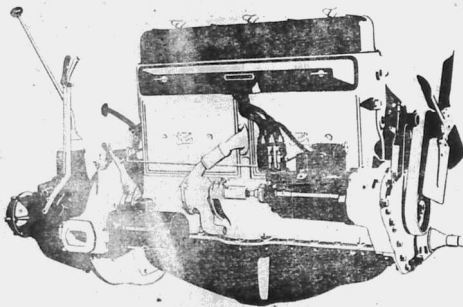

for the first time

# an engine- vibrationless beyond belief

Buick now presents a new and finer motor car with an engine, vibrationless beyond all previous experience!

At every point in its whole power range, this engine will remind you of the smoothness and quietness of electrical operation.

No other car to-day, regardless of its price, accomplishes the same freedom from noise and rumble.

Smoothness, power range, and flexibility are amazingly revealed in the smart new Buicks—the fastest of all cars for their price and size, faster than practically any car, except a purely racing machine.

No speed you wish to travel is restricted by the capacity limit of the new Buick models.

Buick engineering has achieved the result that all motor car engineers have sought for for years.

Come in and take out one of these 1927 Buicks for your first ride in the Greatest Buick Ever Built.

Up-country charges cannot be accepted unless suitably endorsed by Local Bank.

### FURTHER CONVICENCE NEEDED CAN ANYTHING BE BETTER PROOF???

We have received the following letter from:  
 Tanganyika Territory reading as follows: F. E. VIVIER, Agr. Game Department.

"I have tried the 2.5 lb. long barrel of Eposh in a number of experiments. I have killed something like 40 Elephants with the 2.5 lb. barrel and consider it a most efficient weapon on Elephants. The long barrel gun shows superior power in killing and in penetrating the hide of the animal. I consider on thick animal such as Elephants and Rhinos, the 2.5 lb. barrel of Eposh Magazine. Moreover your D.W.M. ammunition can be relied on. I shall will your short barrel gun and keep the 2.5 lb. barrel gun in the best medium line on the market. Personally I will send everything from a 200 rounds on Elephants and I consider the 2.5 lb. long barrel magazine."

Yours Sincerely,  
 (sd.) F. E. VIVIER, Game Department, Tanganyika Territory.

### MITCHELL COTTS & Co.

P.O. Box 141. Phone No. 280 MOMBASA. and at P.O. Box No. 664, NAIROBI.

### FERTILISE WITH EPHOS

A consignment of Ephos will arrive at Kilindiini about the 29th March and orders are now being limited at Shs. 14/6 per ton for 10-12 ton delivered to any station under the control of the Kenya and Uganda Railway. An only a limited quantity will be available. Farmers of the Kenya and Uganda Railways will be advised to book their orders before the arrival of the steamer after which the price will be automatically increased as compared with other orders will be booked.

The use of Ephos can be as follows:  
 1. It may be used in the form of a top-dressing on the soil.  
 2. It may be used in the form of a fertilizer for the roots of the plants.  
 3. It may be used in the form of a fertilizer for the leaves of the plants.

It is a most powerful fertilizer which will be used to the best advantage in the form of a top-dressing on the soil.

Yours Sincerely,

## Promises Married

**THE FURBER-ALDRIDGE**  
WEDDING

A very pretty ceremony in the  
Cathedral, on Tuesday  
last, joined together in  
marriage Miss  
Kerrie M. Aldridge and  
Mr. Len FURBER.  
Both bride and bridegroom have  
been in the service of the  
Cathedral for several years and  
represent the best of the  
Cathedral staff.

The bride was attended at the altar  
by Miss  
C. Aldridge, her sister, and  
the best attendant, Miss  
H. Aldridge.  
The bride was dressed in a  
white gown, and the bridegroom  
in a dark suit.

The bride was attended at the altar  
by Miss  
C. Aldridge, her sister, and  
the best attendant, Miss  
H. Aldridge.

The bride was attended at the altar  
by Miss  
C. Aldridge, her sister, and  
the best attendant, Miss  
H. Aldridge.
