MOMBASA TIMES & UGANDA ARGUS. THE OLDEST ESTABLISHED NEWSPAPER PUBLISHED IN KENYA AND UGANDA.

With which is Incorporated THE LEADER.

NAIROBI, FRIDAY, APRIL 1, 1927

KENYA BEER KENYA STOUT "Monarchs of Malt Liquors"

No. 4134 OFFICE AT THE ORIGINAL HOME AS A REFERENCE.

EAST AFRICAN TARIFFS. Some Anomalies of the St. Germain Convention.

PREFERENCE QUESTION DIFFICULTIES.

Preparation of Case for Review in 1929.

Questions were recently asked in the House of Commons regarding the position of the British Empire as it contains the largest field of the East African territories...

Some aspects of the question were dealt with in the following informative article published in the Standard on February 22, 1926.

On October 10, 1919, the representatives of the United Kingdom, France, Italy, Belgium and the Dominions, Prussia, Japan and the United States...

As interpreted by Great Britain and Belgium those provisions prevented the other countries...

It is in the interests of the Empire that the provisions of the League of Nations should be interpreted in a liberal manner...

THE GRAFHAUS HOUSE ROBERTY.

Only on Circumstantial Evidence.

THIRTEEN SENTENCED 412,980 ANNUALLY.

In the Budget Magazine's Court yesterday Mr. Curlewy's judgment in the case in which six men were charged by the British Government...

After reviewing the charges against the six men, Mr. Curlewy said that the case against them was based on circumstantial evidence...

Part of the evidence given in the case was that the six men were found in possession of the first second and the remainder in the case...

Next Week's Air Force Year.

ARRANGEMENTS FOR NAIROBI.

# OLDSMOBILE

## ANNOUNCES

# FOUR-WHEEL BRAKES

A Product of  
**GENERAL MOTORS**

### AT NO PRICE INCREASE

## AND LARGER, HEAVIER TYRES

**CRANKCASE** Ventilation, Oil Filter, Dual Air Cleaning, Two-way Cooling, Harmonic Balancer, Dipping Head Lamps, Adjustable Steering Column, Single Piece Windshield, Rigid Type Side Curtains (instantly detachable), Trunk Rack Larger Heavier (30 x 5.25) Tyres and **FOUR-WHEEL BRAKES** are some of the remarkable new features.

The great General Motors Corporation and Oldsmobile have determined that this Oldsmobile model shall completely and decisively

DE LUXE FOURING

**£**

**298**

outstrip any other make of car in its price class.

Thus Oldsmobile keeps faith with its policy pledged to progress.

See this new Oldsmobile yourself. Drive it on the road. Experience the delight of its easy control and responsiveness. Try it on the steepest hill you know. And then consider its astoundingly low price £298.

Only the stupendous facilities of world's greatest automotive organization would have made this possible.

### 25 MILES AND MORE TO THE GALLON

**ROCKED CYLINDERS.** The cylinders of the new Oldsmobile are finished to a hard glass surface by honing with fine abrasive paper. This produces a reflective of the cone and prevents that irregularity in the quality that results in the standard hollow part.

**CRANKCASE VENTILATION.** Oil sludge is eliminated by means of a mechanical oil separator. Oil that passes through the separator is drawn through a baffle plate in the left side of the engine. It flows off and is waste paper, returned to the crankcase.

**CRANKCASE VENTILATION.** Oil sludge is eliminated by means of a mechanical oil separator. Oil that passes through the separator is drawn through a baffle plate in the left side of the engine. It flows off and is waste paper, returned to the crankcase.

**DUAL AIR CLEANING.** Fuel and dirt from the fuel are filtered from the air before it enters the combustion chamber.

**OIL FILTER.** All oil is filtered as the engine runs, and is returned to the crankcase.

**HARMONIC BALANCER.** The Harmonic Balancer developed by General Motors Engineers eliminates any vibration in the crank shaft. This means quiet, vibration free performance at any speed.

**FOUR WHEEL BRAKES.** The Oldsmobile adds a third set of brakes to the front wheel brake.

**FOUR WHEEL BRAKES.** The front wheel brake is of the spring-actuated, drum type. The brake is entirely enclosed in a protective water-water shield and oil. The oil is a preservative and completely light a operation.

**BALLOON-GEARED STEERING.** The worm, spiral type steering mechanism is specially ground for ease and smooth steering. It permits larger lights may steering wheel is compensated.

**EASY SHIFT TRANSMISSION.** When you press down on the accelerator, and your change is effected without effort.

**SPECIAL COMBUSTION CHAMBER.** New type cylinder head gives greater turbulence to circulating gases, producing smooth and rapid performance, and is a further development of General Motors Research Laboratories.

**HIGH VELOCITY MANIFOLD.** A new type of manifold retains the high velocity gases coming from the engine.

**DOUBLE VALVE SYSTEM.** The double valve system, common to those employed in Grand and

**DOUBLE-OFFSET LOW GRAVITY FRAME.** The design provides positive balancing of springs for greatest stability. This is strength, the most remarkable feature in the design of the frame is "lock-up" over rear axle to provide low gravity, new riding and unusual ability to hold the road.

**DIPPING HEAD LIGHTS.** Head lamps have double beam light.

The lights are controlled by a foot lever on the steering wheel.

**INSTRUMENTS INDIVIDUALLY ILLUMINATED.** Each instrument lighting individually illuminates each instrument without glare or reflection in driver's eyes.

**INSTRUMENT PANEL STEEL GAUGE.** A reliable instrument board panel gauge is standard on all Oldsmobiles.

**THREE-PROOF CAR LOCK.** A new three-proof car lock is a feature. Turning of ignition post only locks the car. The steering and coil are both engaged in a triple lock system.

**New 1927 Model Now in Nairobi.**

**REMARKABLE VALUE.**

This new model six cylinder Oldsmobile is truly an outstanding car, especially in view of the performance and general roadability are all that can be desired. In lines and appearance, the fittings and equipment usually complete, and the price extremely remarkably good. When circumstances the car, and experience on the road in spirited performance and delightful ease of way it differs to untold how much a car can be produced at what it sells for.

The motor of the new Oldsmobile is due study to the supreme facilities afforded by the great General Motors Corporation. It is said that General Motors are determined that the new Oldsmobile model will be a completely outstanding in value and performance and other cars of the same class. The result of their endeavours in this direction have been seen in the new Oldsmobile model, which is a masterpiece of engineering. It is said that the new Oldsmobile model is largely responsible for the Oldsmobile prestige.

Although power output has been increased, this motor is completely without burrowing the low speed. The motor is equipped with a new carburetor, have been the improved engine. The fuel pump is now built into the side of the cylinder block, so that the fuel is delivered directly to the carburetor. The motor is now built into the side of the cylinder block, so that the fuel is delivered directly to the carburetor. The motor is now built into the side of the cylinder block, so that the fuel is delivered directly to the carburetor.

## Progress and Approval

For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.

In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 260,000. Yet in 1926, 330,000 were sold—an increase of 70,000 vehicles.

New engineering records have been established by a succession of major improvements extending back to the first of 1916.

Never has Dodge Brothers Motor Car reached so high in public favor. Never before has it so richly deserved the world's good word.

**THE OMON-RENNIE GARAGE, NAKURU.**

## DODGE BROTHERS MOTOR CARS

**Have your Hair Permanently Waved by the Latest Methods Satisfaction Guaranteed**

We always have in stock an assortment to suit every shade of Porphyria from the most delicate Creams, Soaps, by the Leading Toilet Manufacturers.

Doty, Hougton, Du Barry, Pears, Pomroy, La Rose, Fonda and Blum.

**THEO SCOUTEN, P.O. Box 246.      NAIROBI.      384.**

## This beats everything!

So says the man who has just used Gillette Shaving Cream for the first time. He didn't feel his beard any more. He didn't bear it. But it's genuine—as so much of it is the finest shave on record. Gillette Shaving Cream—the cream of shaves—has a heavy lather charged with oil-rich cream.

Some lathers hold bubbles of air—others, specularly hold bubbles of water. And that water is held in the beard. Gillette lather can't dry on the face, so it's not the cause of the skin's itching, or the cause of the skin's itching, or the cause of the skin's itching.

**DO NOT GO HOME WITHOUT IT.**

**Gillette SHAVING CREAM**  
The Cream of Shaves

**INSIST ON HAVING**

## Voonia Garden Tea

that delicious blend from CEYLON which is both fragrant and invigorating

Used by Hotels and Tea Rooms Throughout KENYA AND UGANDA.

Even the most fastidious will tell you it is by far the best.

**MARRIAGE AND THE MODERN WOMAN.**

No. 6.

**Working-Class Women Who "Win Through."**

THE WORLD'S BEST WINE.

(By Robert Lewis Maxwell, Howard Lawrence, in the name of his investigations, there is one conclusion which can be drawn from the statistics of divorce in every country which is that, where marriage is concerned, one should never designate as "free love" those who participate in it, and to designate as "free love" those who do not.

It is not to be supposed that the statistics in reference to divorce in different countries are in all cases so general and reliable as to be of any value in the present connection. In many countries the statistics are so general and unreliable as to be of no value in the present connection.

In the United Kingdom, the statistics are so general and unreliable as to be of no value in the present connection.

In the United States, the statistics are so general and unreliable as to be of no value in the present connection.

In the United States, the statistics are so general and unreliable as to be of no value in the present connection.

It is a fact that in addition to our own, other people are busy setting up clubs. One project is the other day. One project is the other day.

Mr. W. T. Stapley who has been appointed by the committee to play for M. F. Gordon Smith for five days from Barling in a match to be played on the 15th.

It was rather a pity that the match which had to be played off on the 15th was not the one which was intended to be played on the 15th.

It was rather a pity that the match which had to be played off on the 15th was not the one which was intended to be played on the 15th.

# OLDSMOBILE

ANNOUNCES

## FOUR-WHEEL BRAKES

A Product of  
**GENERAL MOTORS**

AT NO PRICE INCREASE

**AND LARGER, HEAVIER TYRES**

**CRANKCASE Ventilation, Oil Filter, Dual Air Cleaning, Two-way Cooling, Harmonic Balancer, Dipping Head Lamps, Adjustable Steering Column, Single Piece Windshield, Rigid Type Side Curtains (instantly detachable), Trunk Rack Larger Heavier (30 x 5.25) Tyres and FOUR-WHEEL BRAKES** are some of the remarkable new features.

The great General Motors Corporation and Oldsmobile have determined that this Oldsmobile model shall completely and decisively

DE LUXE TOURING  
**£**  
**298**

outstrip any other make of car in its price class.

Thus Oldsmobile keeps faith with its policy pledged to progress.

See this new Oldsmobile yourself. Drive it on the road. Experience the delight of its easy control and responsiveness. Try it on the steepest hill you know. And then consider its astoundingly low price £298.

Only the stupendous facilities of world's greatest automotive organization would have made this possible.

**25 MILES AND MORE TO THE GALLON**

**ROCKY CYLINDERS.** The pistons of the new Oldsmobile are finished to a hard, glass surface by honing with fine abrasive discs. This process is indicative of the care and precision that is evident in the quality that extends to the smallest hidden part.

**CRANKCASE VENTILATION.** Oil fumes are eliminated by crankcase ventilation. One-third of the air that passes through the distributor is drawn through a breather port in the left side of the cylinder, and drawn off with it water vapor, submerging fuel that may have passed into the crankcase, and a small amount of oil vapor which results in more efficient lubrication of piston and val-

**DUAL AIR CLEANING.** Dust and dirt from the road are removed from the air before it enters the carburetor.

**OIL FILTER.** An oil is filtered as the engine runs, ensuring crystals are not being absorbed by oil-wearing surfaces.

**HARMONIC BALANCER.** The Harmonic Balancer developed by General Motors Engineers eliminates any vibration in the crankshaft. This ensures quiet, vibration-free performance at any speed.

**FOUR WHEEL BRAKES.** New Oldsmobile adds without increase in price—four wheel brakes. The

front wheel brakes are self-energizing internally, through expansion of the tyre. The brake on either side is operated as pressure expands water dirt, and out. The action is positive and conserves light in operation.

**BALLOON-GRABBED STEERING.** The water-tight but type steering mechanism is specially designed for soft and wet steering control. It permits the driver to enjoy steering even in congested traffic.

**EASY-SHIFT TRANSMISSION.** Gears are precisely engaged in operation, and gear changing is self-actuated without sound.

**SPECIAL COMBUSTION CHAMBER.** New V-type cylinder head gives greater resistance to knocking, permits full throttle operation, and superior performance, and is a Motors Research Laboratories.

**HIGH VELOCITY MANIFOLD.** A new type of manifold retains the high velocity given suction, gives the balance in combustion with a consumption of low fuel with unusual petrol economy. It is a patent case now being obtained.

**DOUBLE VALVE SPRINGS.** The double valve springs similar to those employed in aircraft and

using gas engines, together with the quarter-carve contour of valve, provide in a remarkably positive and quiet valve action entirely without noise.

**DOUBLE-OBJECT LOW GRAVITY BRAKE.** The design provides positive cushioning of springs for greater stability. There are four coil-springs, for extra strength, the rear member being "kicked-up" over, rear axle to provide low gravity, easy riding, and unusual ability to hold the car.

**DIPPING HEAD LIGHTS.** Head lamps have double filament bulbs.

The lights are controlled by a neat lever on the steering wheel.

**INSTRUMENTS INDIVIDUALLY ILLUMINATED.** Both instrument lighting individually illuminated reflecting in driver's eyes.

**INSTRUMENT PANEL FULL BOARD PANEL GAUGE.** A flexible instrument board panel gauge is standard on all Oldsmobiles.

**THREE-POOF CAR LOCK.** A new three-proof car lock is a feature. The door is opened positively under the car. The switch and key are built integral in a vault like steel housing.

## MOTOR TOPICS

### THE OLDSMOBILE.

New 1927 Model Now in Nairobi.

REMARKABLE VALUE.

(Continued from yesterday.)

#### LUBRICATION.

Through lubrication is secured by the use of "three-way" oil delivery. The accessible port pump operated by the forward end of the camshaft, delivers oil at equal pressure and maintain to the main bearings. Efficient lubrication is delivered through the oil filter and the oil tubes to the main bearings, and also flows through the full length of the dried crankshaft of passage. Passage from the main bearings deliver oil to constant bearings. Other parts of the engine are bathed in an oil spray from the bearings. Pressure is automatically regulated to an adjustable control. There is an oil-pressure indicator on the dashboard and a depth gauge on the left side of the engine.

The single-plane, dry disc clutch engages readily, yet gives the design an "easy" disengagement without jarring. Solid pressure is maintained. The patented oil-bath oiling means bearing, mounted in a self-aligning tension, there are built in of suspended rubber cushions and normally both the life of the car.

The shape of the suspension elements give greater flexibility to increase speed, bearing strength and spring performance and in a modern development of General Motors' torsion-bar system.

#### COOLING.

Oldsmobile offers "water-cooling" which incorporates the best features of the two accepted types—pressure and thermo-siphon cooling. At the points where greater strength is required—main valves, valve seats, spark plugs and combustion chambers—pressure-cooled water is driven through a manifold type passage. Cylinder walls do not heat so rapidly. A full flow of cooling water would cool them too much. Therefore the circulation is restricted and restricted. In other sections, are needed by the points of greatest heat, the water circulation is increased, which the above design-type of engine, and which upon the rate of circulation is determined by the amount of heat upon the cylinder walls.

about the engine and seat worth for efficient operation. The standard permits the high speed given the incoming gases as they leave the combustion chamber. To further promote complete combustion of the incoming fuel, the heated exhaust manifold is the heated exhaust manifold. The intake passage above the re-entrant. The intake manifold being above the exhaust manifold is heated by its means the highly explosive state of incoming gases.

The double valve spring system to them employed, in a compact and racing car engine to give the "spring-car" character of control, result in positive valve action, when there occurs while in action, maintaining noiseless.

The double offset top piston from provides perfect spacing of action for greatest results. The frame is 26 inches wide in front, provided with semi-circular ribs and 12 inches wide at rear for proper mounting. There are four strong cross-members, the front member is for extra strength and less engine mount and the rear 43 inches wide for strength of point of greatest stress. Cross members: 1. one strongly welded and painted in frame side rails. The frame is welded—any rear seat to provide low gravity, ease of ride and safety to hold the car.

When on the road there is a sense of security in knowing that your electrical system is functioning properly and your suspension gives an adequate degree. Oldsmobile has thought of a method on the generator that automatically increases charging when the engine speed and decreases it as the very operation runs. Spark control is full automatic.

The Fisher bodies are finished in lacquer finishes. They polished to a finish dielectric composition of insulative good nature. They are of the reliable composition of construction of steel sheet on a strong bonded frame with joints that are mortise-and-tenon. Good strength and light weight. Good finish. The radiator is finished in the new composition of light chromium, exclusively 1926 type.

Oldsmobile has made the most beautiful light, compact and light weight car in the world. It is bright and projects a sleekness that gives insight into the all-Oldsmobile drive and process. Oldsmobile's design and construction is standard in all state laws. Highlights are compared by a new line—the hand wheel, on the steering wheel. It may be operated with out removing hands from about

ENCOURAGEMENT TO SETTLEMENT.

Is Kenya Receiving Value for the Expenditure?

COMMISSIONER'S DEPUTY OUTLINES WORK DONE.

(By "E. A. Standard" Special).

Some time ago the "East African Standard" was required by details of the activities of the E. A. Office in London were likely to be provided with much more information regarding the work of the office, a summary was given that monthly reports would be forthcoming. The first of these reports has not yet been received. Records have, however, been taken account, with the following results:

After spending some six or seven months in the East African Department last year, my attention was attracted to the London Office. London Official Pranklin arrived back in London in the beginning of last December, and provided the receipt of his official report on the work of the E. A. Office in London. The Chief Assistant Deputy Commissioner obtained from his Office in London certain information to the work that has been done by the London Office.

MAIN FUNCTION.

The duties of the Office in London depend to a very large extent upon the information to be placed to it from East Africa and from the London Office. It is the duty of the Office in London to advise the Government on matters connected with the work of the Office in East Africa and to advise the Government on matters connected with the work of the Office in London.

HANDICAPS.

The London Office has a number of handicaps which are not always appreciated. The London Office has a number of handicaps which are not always appreciated. The London Office has a number of handicaps which are not always appreciated.

NOT A LAND AGENCY.

In considering the first report it will be appreciated that the London Office is not a land agency. It is not a land agency. It is not a land agency. It is not a land agency.

OTHER ACTIVITIES.

Although probably the most important activity of the London Office is the work of the Office in London. The London Office has a number of other activities which are not always appreciated.

PUPILS.

Partly in this class, and partly in the second, there are those who have not yet taken up their positions in the Colony. The London Office has a number of pupils who are not always appreciated.

"THE REAL PROBLEM IN KENYA."

As Viewed by a Former Director of Public Works.

A COMMUNIST OUTBURST.

"Aiming to make a Model Fascist Colony."

Following are further British news items on the demand for a constitutional régime in the Kenya Legislative Council.

The Outlook.—In the House of Lords on Friday (10th), the Archbishop of Canterbury suggested that Kenya Colony has been having "more than its share of the benefits of responsible" but that it is certainly remarkable that Kenya has not set out for a elected Kenyan Government with a responsible régime in the Kenya Legislative Council.

The Government went on to say that it had received criticism of itself from the public and it would make better progress in Kenya if it set its face to meet with a new selection in the Kenya Legislative Council.

Indemnity.—Mr. Lyell said he was not satisfied that there was any real prospect of an indemnity scheme. He said that he had not seen any one of the proposals that were being put forward, and he would be pleased to be explained.

A BRITISH SUGGESTION.—On the same day as the Kenya debate, by a curious coincidence another member of the Executive Council, Mr. Denham Henson of London, went to the House of Commons on Wednesday on the Bill of the Kenya White Paper, the bill he suggested is different to believe that any domestic system of measures can be based on the shoulders of a white man and a general industry, and finally, he suggested that the bill should be based on the basis of the native name as a "sacred trust" and could not follow the

discussion about the situation in Kenya or study the letter prepared in South Africa, without an appreciable amount of thought. In fact, he is apparently ignorant of the fact that the natives, while admitting that they are not fit to use it, actually desire the franchise in full.

At some time considerable differences between the "light" and "dark" between some and some, and it is not better to take the matter in the spirit hands of the Kenyan people.

MR. MORISON BEARS AGAIN.—The following is extracted from an article by W. Melfroy on "The Government of Kenya," which was recently appeared in the Outlook.

What is the real Kenya problem? It is not the scarcity of African labour, it is not the lack of political education. It is not the fact that hundreds of Europeans hold shares in Kenya, many of them being British. It is not the fact that there are some 500,000 people of European descent, but that a few hundred of them are in a position to control the destiny of the rest.

It is not the fact that about 1,000,000 natives live in Kenya, but that they are not organized as a people, and are not being trained in any way to take the initiative in their own development.

were upon the local Government in increasing to influence matters to leave their villages and work in the towns, nor even that it was desired, in the Legislative Council, that (concerning the present Government) was to be an attitude of neutrality as to any initiative in the Government of Administration offices in the colony, that there was a possibility to be released to do their utmost for the benefit of the colony.

"The Observer" (Times, October 22nd, 1927).

It is not even the fact that the British Government has demanded in 1926 the creation of a Legislative Council in Kenya, but that it has demanded a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.

"THE REAL PROBLEM.—"The real problem of the moment in Kenya is that a nation of people is demanding a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.

It is not the fact that there are some 500,000 people of European descent, but that a few hundred of them are in a position to control the destiny of the rest.

It is not the fact that about 1,000,000 natives live in Kenya, but that they are not organized as a people, and are not being trained in any way to take the initiative in their own development.

other steps, and an inevitable step, is to increase government offices in the towns, and to leave their villages and work in the towns, nor even that it was desired, in the Legislative Council, that (concerning the present Government) was to be an attitude of neutrality as to any initiative in the Government of Administration offices in the colony, that there was a possibility to be released to do their utmost for the benefit of the colony.

"The Observer" (Times, October 22nd, 1927).

It is not even the fact that the British Government has demanded in 1926 the creation of a Legislative Council in Kenya, but that it has demanded a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.

"THE REAL PROBLEM.—"The real problem of the moment in Kenya is that a nation of people is demanding a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.

It is not the fact that there are some 500,000 people of European descent, but that a few hundred of them are in a position to control the destiny of the rest.

It is not the fact that about 1,000,000 natives live in Kenya, but that they are not organized as a people, and are not being trained in any way to take the initiative in their own development.

by its weight, and no computer has been made, the population of the British Empire is a small fraction of that of the British Empire.

"The Observer" (Times, October 22nd, 1927).

It is not even the fact that the British Government has demanded in 1926 the creation of a Legislative Council in Kenya, but that it has demanded a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.

"THE REAL PROBLEM.—"The real problem of the moment in Kenya is that a nation of people is demanding a change in the composition of the Council, to be made up of 50% of natives, and that it has taken to take any of its proposals to the Kenyan Government.
