DAILY EDITION.

THE EAST AFRICAN

**The African Standard**

MOMBASA TIMES & UGANDA ARGUS. With which is incorporated THE LEADER.

NAIROBI, SATURDAY, APRIL 9, 1927.

LOUNGE FOR COCKTAILS AND TEAS THE NEW STANLEY HOTEL THE DINING ROOM 7/12 BREAKFAST, LUNCHEONS, and DINNERS. Price 20 CENTS.

No. 4141. PRINTED AT THE NATIONAL PRESS OFFICE AS A NEWSPAPER.

**CHINESE INDICTED BY SIR AUSTEN CHAMBERLAIN.**

**Further Instances of Outrage.**

**INDICATIONS OF A STERNER POLICY BY GREAT BRITAIN.**

**Nationalists Still Loathing.**

**By Sir Austen Chamberlain.**  
The Foreign Secretary made a statement in the House of Commons this evening. He said that the British Government was determined to maintain a stern policy in regard to the Chinese. He mentioned several instances of outrages and said that the Government was determined to take steps to bring them to an end. He also mentioned the fact that the Chinese nationalists were still loathing the British Government.

**THE CHINA TROUPE.**

The Chinese troupe which has been touring the East African colonies has been reported to have caused some trouble in the region. The troupe is said to have been seen in several places and to have been causing some disturbance. The British authorities are said to be keeping a close watch on the troupe.

**THE REPORT.**

The report of the British troops in the East African colonies has been published. The report states that the troops have been successful in their operations and that they have captured several important positions. The British authorities are said to be very pleased with the results of the operations.

**ATTACK ON JAPANESE.**

The Japanese Consulate in Nairobi has been attacked by a group of British citizens. The attack is said to have been carried out by a group of young men who were angry at the Japanese Consulate. The British authorities are said to be investigating the matter.

**REINFORCEMENTS SENT.**

A new batch of reinforcements has been sent to the East African colonies. The reinforcements are said to consist of several hundred men and are expected to arrive in the region soon.

**THEIR MONEY MARKET.**

The money market in the East African colonies is said to be very active. There is a large amount of business being done and the market is said to be very healthy.

**REWARD OF COURAGE IN KENYA.**

**Native who Saved an A.D.C. from a Lion.**

**QUESTION IN PARLIAMENT.**

**By Sir Austen Chamberlain.**  
The Foreign Secretary was asked in the House of Commons a question regarding a native who had saved an A.D.C. from a lion in Kenya. He said that the native had been awarded a reward for his bravery. He also mentioned that the incident had caused some concern in the region.

**NATIONALISTS INDICTED.**

Several nationalists have been indicted by the British authorities. The nationalists are said to have been involved in several acts of violence and to have been causing trouble in the region. The British authorities are said to be determined to bring them to justice.

**WHILE LOVING.**

The British troops are said to be fighting the Chinese nationalists while loving their country. The troops are said to be very brave and to be fighting for the honor of their country.

**INDIAN CONSPIRACY TRAIL.**

A trail of an Indian conspiracy has been discovered. The conspiracy is said to have been planned by a group of Indian nationalists who were trying to overthrow the British Government. The British authorities are said to be investigating the matter.

**WHY MUST WE BE ANTI-INDIAN?**

The British authorities are said to be anti-Indian because of the actions of the Indian nationalists. The nationalists are said to have been causing trouble in the region and to have been trying to overthrow the British Government.

**THEIR MONEY MARKET.**

The money market in the East African colonies is said to be very active. There is a large amount of business being done and the market is said to be very healthy.

**EAST SURREYS COLONEL MURDERED.**

**Regimental Shooting Case at Gibraltar.**

**LIEUTENANT ACCUSED.**

A lieutenant has been accused of murdering a colonel in the East Surrey Regiment. The incident is said to have occurred during a shooting exercise at Gibraltar. The British authorities are said to be investigating the matter.

**THE AIR FORCE VISIT.**

**Commodore Samson's Thanks to Kenya.**

Commodore Samson has expressed his thanks to the people of Kenya for their hospitality and kindness during his visit. He said that he had been very impressed by the people and that he had enjoyed his stay in the region.

**"A Standard" Special Club Service.**

**S. A. SENATOR'S DEATH.**

**Millionaire Financier Passes Away.**

A millionaire financier has passed away. He was a well-known figure in the East African colonies and was said to have been very successful in his business. He was a member of the S. A. Senator's Club.

**"A Standard" Special Club Service.**

**Union Jiff Conference.**

**FRITTLER-BERSON NOW ADVISOR.**

Frittler-Berson is now an advisor to the British authorities. He is said to be a very experienced man and to have been very helpful in several matters.

**A DAY OF AERIAL JOY RIDES.**

**Animation at the Aerodrome.**

**SAVING PARACHUTES.**

A day of aerial joy rides was held at the aerodrome. The day was very successful and many people enjoyed the rides. The British authorities are said to be very pleased with the results of the day.

**What a Broken Window Reveals.**

A broken window in the Chinese Consulate has revealed some interesting facts. The facts are said to be very surprising and to have caused some concern in the region.

**"A Standard" Special Club Service.**

**GEN. SMUTS MOVES VOTE OF CENSURE.**

**Revised Expenditure and Taxation.**

General Smuts has moved a vote of censure against the British Government. He is said to be very angry at the Government's actions and to have been very vocal in his criticism. He has also proposed revised expenditure and taxation.

**Official Secrets Act.**

**SHORT CASH TREASURE.**

**COLIN MATHEWS' COMMITTEE FOR TRAFFIC.**

Colin Mathews has formed a committee for traffic. The committee is said to be very active and to be working hard to improve the traffic situation in the region.

**NORTHERN CHINESE AND THE SOVIET.**

**Shanghai Russian Embassy Surrounded.**

**ACTION AWAITED.**

The Russian Embassy in Shanghai has been surrounded by Chinese nationalists. The nationalists are said to be demanding the release of several Chinese citizens who are being held in the embassy. Action is said to be awaited.

**What a Broken Window Reveals.**

A broken window in the Chinese Consulate has revealed some interesting facts. The facts are said to be very surprising and to have caused some concern in the region.

**"A Standard" Special Club Service.**

**GEN. SMUTS MOVES VOTE OF CENSURE.**

**Revised Expenditure and Taxation.**

General Smuts has moved a vote of censure against the British Government. He is said to be very angry at the Government's actions and to have been very vocal in his criticism. He has also proposed revised expenditure and taxation.

**Official Secrets Act.**

**SHORT CASH TREASURE.**

**COLIN MATHEWS' COMMITTEE FOR TRAFFIC.**

Colin Mathews has formed a committee for traffic. The committee is said to be very active and to be working hard to improve the traffic situation in the region.

Whiteaways NAIROBI. Double strength of the trunk. 2 strong bars. Price 25/- to 35/-.

# OLDSMOBILE

## ANNOUNCES

# FOUR-WHEEL BRAKES

A Product of  
**GENERAL MOTORS**

**AT NO PRICE INCREASE**

## AND LARGER, HEAVIER TYRES

**C**RANKCASE Ventilation, Oil Filter, Dual Air Cleaning, Two-way Cooling, Harmonic Balancer, Dipping Head Lamps, Adjustable Steering Column, Single Piece Windshield, Rigid Type Side Curtains (instantly detachable), Trunk Rack Larger Heavier (30 x 5.25) TYRES and **FOUR-WHEEL BRAKES** are some of the remarkable new features.

The great General Motors Corporation and Oldsmobile have determined that this Oldsmobile model shall completely and decisively

DE LUXE TOURING

**£**

**298**

outstrip any other make of car in its price class.

Thus Oldsmobile keeps faith with its policy pledged to progress.

See this new Oldsmobile yourself. Drive it on the road. Experience the delight of its easy control and responsiveness. Try it on the steepest hill you know. And then consider its astoundingly low price £298.

Only the stupendous facilities of world's greatest automotive organization would have made this possible.

## 25 MILES AND MORE TO THE GALION

**BORED CYLINDERS.** The cylinders of the new Oldsmobile are finished to a hard, glass surface by honing with fine abrasive emulsions. This operation is indicative of the care and precision that is evident in the quality that extends to the smallest part of the car.

**CRANKCASE VENTILATION.** Oil dilution is prevented by mechanical ventilation. One-third of the oil that passes through the oil-balancer is drawn through a breather port in the full side of the engine. It flows off with it water vapor, equipped fuel that may have passed into the crankcase, and a small amount of oil vapor which settles in more efficient lubrication of piston and rod.

**DUAL AIR CLEANING.** Dust and dirt from the road are removed from the air before it enters the combustion chamber.

**OIL FILTER.** All oil is filtered as the engine runs, ensuring crystal clear oil being delivered to its working portions.

**HARMONIC BALANCER.** The Harmonic Balancer developed by General Motors Engineers eliminates any vibration in the crankshaft. This ensures quiet, vibration-free road performance at any speed.

**FOUR WHEEL BRAKES.** New Oldsmobile adds—without increase in gross—four wheel brakes. The

front wheel brakes are self-energizing, internal, three-shoe, expanded-type. The brakes are entirely enclosed as protection against water, dirt, and oil. The action is positive, and delightfully light in operation.

**BALLOON-GEARED STEERING.** The worn, split and type steering mechanism is replaced by a special gear for each and every steering wheel. It permits larger light control. It permits larger light control. It permits larger light control.

**EASY SHIFT TRANSMISSION.** These are practically impossible to operate, and gear changing is self-actuated without sound.

**SPECIAL COMBUSTION CHAMBER.** New type cylinder head gives greater turbulence to incoming gases, producing smooth and rapid performance and a modern development of General Motors Research Laboratories.

**HIGH VELOCITY MANTLE.** A new type of mantle retards the light velocity given incoming gases. This feature, in combination with constant petrol pressure, 25-37 miles a gallon can now be obtained.

**DOUBLE VALVE SPRINGS.** The double valve springs, one in each cylinder, are used and

with the engine, together with the "pre-dipping" feature of the valve, results in a remarkable power and quiet valve action, entirely without noise.

**FOUR-FOOT LOW GRAVITY FLAME.** The design permits perfect burning of vapors for greatest readiness. There are four cross-sections, for extra strength, the rear member being "hinged-up" over rear axle to provide low gravity, easy riding, at unusual ability to hold the road.

**DIPPING HEAD LIGHTS.** Head lamps have double filament bulbs.

The lights are controlled by a master lever on the steering wheel.

**INSTRUMENTS INDIRECTLY ILLUMINATED.** Soft indirect lighting, individually illuminates each instrument without glare or reflection in driver's eyes.

**INSTRUMENT PANEL FUEL GAUGE.** A reliable instrument board panel gauge is standard on all Oldsmobiles.

**THEFT-PROOF CAR LOCK.** A new theft-proof car lock is a feature. Turning of ignition post merely locks the car. The switch and coil are built integral in a vault like steel housing.

Read the following uncollected Testimonials.

I have shot over 200 elephants with your 3 1/2 inch gun and it was in fact a prize shooting and I was not a moment out of luck. I had 10 bags of ivory and the best of the best in the bush. I would not have been so successful in my shooting if it were not for your 3 1/2 inch gun. (Sgt. F. E. Vyvian, Game Inspector, Tanganyika.)

I have been on the killing of 6 big Elephants and 2 Rhinos during the past month. I consider your D.W.M. ammunition "The Best" and would use it no other. (Sgt. J. A. Hyman.)

I have been on the killing of 10 elephants and 10 Rhinos during the past month. I consider your D.W.M. ammunition very satisfactory. (Sgt. J. E. Evans, Game Inspector, Tanganyika.)

EVERY WEAPON TESTED IN YOUR PRESENCE and sold under our personal guarantee of 12 months. 2,000 (one of every description) in all hands by only One Business Stocked. Use yours of every description by your European Goods.

## RUSSIA & MILITARY PREPARATIONS.

### An Enormous Standing Army.

#### ONE WARFARE STUDY.

(From Our Correspondent's Column, Thursday, March 17)

Russia continues to occupy public attention here and there because of its propaganda activity, but also because of its military preparations. In the House of Commons this week, in reply to a question on the subject, the Minister of War gave the following information:

"The standing army of Russia numbers nearly 600,000 men, and of the 'Territorial' Militia is estimated over 1,000,000, while the Reserve number over 8,000,000 in addition. The strength of these forces here shows a slight increase during the past year."

No indication, of course, has been given as to the uses which are likely to be made of such an army, but it is being prepared for offensive and there are only three openings in which such a force could be employed—firstly against the small republic upon the Dutch West frontier, secondly against Romania, and, thirdly against India where at the present time Bolshevik activity is very pronounced.

#### POISON GAS

It is reply to another question relating to Russia, the Minister stated:

"His Majesty's Government have information that the study of gas warfare is being actively pursued in the Soviet Union. Numerous factories have been set up and are in course of completion, which are or will be capable of producing quantities of a very considerable scale. It is not considered that any useful purpose would be served by detailing the number and location of such factories or by indicating their present and potential output, but there is no doubt that the Soviet military authorities are actively studying the type of warfare and making preparations on a large scale for the possible eventual use. Much greater preparations are being made in Russia than anywhere else."

Over here Red activity is still very noticeable, but the Government think that it would be unprofitable at the present time to have a list of diplomatic relations. Most people think, however, we are leading towards trouble.

very noticeable, but the Government think that it would be unprofitable at the present time to have a list of diplomatic relations. Most people think, however, we are leading towards trouble.

#### IN RUSSIA TODAY.

The Daily News this week contains a very interesting article written by a correspondent who lived in Russia throughout the winter from which I take the following few salient extracts:

"The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one. The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one. The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one."

"The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one. The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one. The Government are preparing to lay down a new economic basis, and it is generally expected that the financial position in Moscow will be a very serious one."

is broken, and only appears as a result of political and economic conditions. The people are being educated to the idea of a new industrial development, with a corresponding increase in the standard of living. They are being educated to the idea of a new industrial development, with a corresponding increase in the standard of living. They are being educated to the idea of a new industrial development, with a corresponding increase in the standard of living."

Whitehays NAIROBI

Compare the excellent condition of any Buick after an extended period of service with that of any rival car. You will be impressed with the fact that Buick is a car with a life of unknown limits.

*Motor car statistics throughout the world show more Buicks registered than any other make of car at its price or above.*

*In Kenya, Uganda and Tanganyika registrations show that Buicks outnumber by more than two to one any other make of six cylinder car regardless of price.*

Surely Buick could not consistently outstrip every make of car at its price or over by such a tremendous margin—a margin which yearly grows more pronounced—if people had not found in the Buick qualities of road performance, unfailing reliability and long, long life they did not find in rival cars.

No other explanation is even remotely possible.

# BUICK

### Progress and Approval

For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.

In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 250,000. Yet in 1926, 330,000 were sold—an increase of 70,000 vehicles.

New engineering records have been established by a succession of major improvements extending back to the first of 1926.

Now the Dodge Brothers Motor Car ranked so high in public favor, never before has it so fully deserved the world's great will.

## MOTURING TOPICS

### ENGLISH CARS.

Better Designed in Many Ways.

### THE 1927 MODELS.

The present trend of thought and mechanical features of motor-cars of 1927 were, possibly exemplified at the London Motor Show, England, held on October last.

The British designs are characterized as having gained that important feature, the normal standard of average passenger motor-cars, as one of the other of the English direction.

It is not the trend in the direction of smaller vehicles, and more of them. While the use of new materials, manufacturers have adopted the conventional motor-car, rather than the small and half-witted type.

In the most interesting line of development which the motoring of the future is sure to all greater use of rubber, and more of it. The use of rubber in the motor-car is not a new thing, but it is being used in a way which has not been seen before.

It is the use of rubber in the motor-car which is the most interesting feature of the new designs. It is the use of rubber in the motor-car which is the most interesting feature of the new designs.

### IMPROVEMENT NOTED.

Improvement—Like the motor-car of the past, the modern motor-car is a work of art. It is a work of art in which the designer has sought to combine the best of all worlds. It is a work of art in which the designer has sought to combine the best of all worlds.

The motor-car of the future is sure to be a work of art. It is a work of art in which the designer has sought to combine the best of all worlds. It is a work of art in which the designer has sought to combine the best of all worlds.

### CHARLES—FORMER TAKES IT.

Charles—Former takes it. The motor-car of the future is sure to be a work of art. It is a work of art in which the designer has sought to combine the best of all worlds. It is a work of art in which the designer has sought to combine the best of all worlds.

# Does Your Roof Leak?

Lastic is a most light adhesive bonding which can be easily dried over roofs or other surfaces to any thickness desired forming a non-toxic and translucent protective coating that absolutely inhibits all rust, rot or corrosion.

Lastic is waterproof, cold and shall proof, non-porous, adhesive, elastic, least insulating, fire-retardant, non-contaminating, durable, quick drying.

Lastic can be used for fresh water tanks, bathroom roofs, yards, terraces, boiler houses, basements, floating docks, boats, foundations, floors, walls, pipes on wood, metal, concrete, masonry roofing, wiring, etc.

Lastic is made in black, red, green, and grey colours.

Lastic is stocked by J. G. Aronson, Ltd., Nairobi, from whom particulars and prices can be obtained on application.

White ways NAIROBI.

Compare the excellent condition of any Buick after an extended period of service with that of any rival car. You will be impressed with the fact that Buick is a car with a life of unknown limits.

*Motor car statistics throughout the world show more Buicks registered than any other make of car at its price or above.*

*In Kenya, Uganda and Tanganyika registrations show that Buicks outnumber by more than two to one any other make of six cylinder car regardless of price.*

Surely Buick could not consistently outstrip every make of car at its price or over by such a tremendous margin—a margin which yearly grows more pronounced—if people had not found in the Buick qualities of road performance, unfailing reliability and long, long life they did not find in rival cars.

No other explanation is even remotely possible.

### Progress and Approval

For Dodge Brothers, Inc. 1936 stands as a year of unprecedented progress and success.

In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 220,000. Yet in 1926, 330,000 were sold—an increase of 50.000 which is new engineering records have been established by a succession of major improvements introduced year by year in the past.

Never has Dodge Brothers Motor Car ranked so high in public favor. Never before has it so ably deserved the world's good will.

## MOTOR TOPICS

### SILENT CYCLING.

#### How to Locate Engine Noises.

#### MINIMISING EFFECTS.

The problem of silencing and reducing vibration in an engine is without definition until the use of this article makes the bearing in become self-evident way. It is very difficult indeed to say, but there are many reasons for this. The first is that the engine is not a simple machine, but a complex one. It is a machine which is constantly in motion, and it is a machine which is constantly in contact with the air. The second reason is that the engine is a machine which is constantly in contact with the air. The third reason is that the engine is a machine which is constantly in contact with the air.

### CAM WHEEL BEARINGS.

The cam wheel should preferably be carried in a plain bearing. The reason for this is that the cam wheel is a machine which is constantly in motion, and it is a machine which is constantly in contact with the air. The second reason is that the cam wheel is a machine which is constantly in contact with the air. The third reason is that the cam wheel is a machine which is constantly in contact with the air.

### ROLLER BEARINGS.

The ball or roller type bearing certainly cannot be called quiet. It is a machine which is constantly in motion, and it is a machine which is constantly in contact with the air. The second reason is that the roller bearing is a machine which is constantly in contact with the air. The third reason is that the roller bearing is a machine which is constantly in contact with the air.

### PUTTING THE BIRTH.

At the present time, when the motor car is so generally used, it is not surprising that the motor car is so generally used. The second reason is that the motor car is so generally used. The third reason is that the motor car is so generally used.

### THE MOTOR CAR.

The motor car is a machine which is constantly in motion, and it is a machine which is constantly in contact with the air. The second reason is that the motor car is so generally used. The third reason is that the motor car is so generally used.

**Improvement of Labour Conditions.**

The almost universal claim which roused the Government and the public in Kenya a few months ago to a practical interest in the possibility and indeed the necessity of ameliorating the lot of the labourer in a shortage of African labour has given place to a period of quietude and an absence of agitation. A striking opportunity of the greatest value to the country, Government has delayed its policy quite definitely; almost equal importance is the agreement signed among administrative officials regarding the introduction of that policy, the steps proposed by the Collier picking union has passed, a properly constituted Commission of Enquiry has reported, without unnecessary publicity, in concluding an investigation into the available supply of labour, the possible demand, the alternative sources of supplying labour outside the Colony and the immediate requirements of the present year. The Chief Minister's Commission visited the best areas and furnished him with conditions. In the course of that tour he was able to bring to the notice the great view of the Government and of his own Department, which had previously been impossible and, spending accordingly the labour situation in Kenya at the beginning of the present year in a state of realisation and hope. It should not be assumed, however, that the Commission has been permanently satisfied with the hope of a solution. Its report is being studied with the most rapid, problems of their solution.

of land was receiving serious attention and in the future, a reserve property is to be placed at the disposal of the Government. The proper time to increase the emergency of the future. The Government of Kenya, in a part of the necessary machinery of preparation, but to postpone the introduction of the proposed changes until a state of the work position his former intention and requirements and his knowledge of the labour point on. That is why we welcome the action which has been taken by the Urban Workers' Association in bringing a Commission to discuss two important aspects of the problem—work wages—and in providing the report of that Commission for publication with an extract for our readers. That Report, we repeat, will be submitted to the Commission but it will be more helpful to the Commission if it is made the basis for general expression of opinion. The main theme of the Report is the maintenance of hours and tasks in a well-organized way so to increase efficiency of the labourer and to offer a proper and just compensation to the man who is really worth it. It is almost impossible that, in a country like Kenya and in every part of the country, it will be so well attended upon. But the very fact that the Government is only too thankful of introducing these of the best of skill and efficiency. There is no doubt at all—and it has been proved by those who have studied in Kenya—that there is a great shortage of labour through insufficient tasks, a system not only wasteful of money and not only wasteful of labour but had for the purpose of the labourer himself and to the real worker. The time has come when who has been of the Government should be satisfied and we believe that the Chief Minister's Commission, as a result of his tour, will eventually

**Under the Standard Clock**

Legislative Council. The last session of the Legislative Council will begin on Monday, 10 am on May 10. The business will include consideration of the following bills which have been introduced:—The Finance Bill, the Finance Bill, the Finance Bill, the Finance Bill, the Finance Bill.

London, March 10.—It came as a surprise to the public to find that Mr. D. Donald, who stands in such London, directly more than 100 miles from the City of London, has been appointed to the post of Secretary to the Board of Education, which is one of the most important posts in the Government.

There is no doubt that the Government will be greatly benefited by the appointment of Mr. Donald to the post of Secretary to the Board of Education, which is one of the most important posts in the Government.

It is a pity that Mr. Donald is not a member of the House of Commons, as he would be able to bring to the notice of the House the views of the public on the subject of education.

Mr. D. Donald is a member of the House of Commons, and he will be able to bring to the notice of the House the views of the public on the subject of education.

Mr. D. Donald is a member of the House of Commons, and he will be able to bring to the notice of the House the views of the public on the subject of education.

The House of Commons has passed a Bill which will give the Government the power to make laws for the purpose of maintaining the peace in the British Empire.
