Whitways NAIROBI.

Compare the excellent condition of any Buick after an extended period of service with that of any rival car. You will be impressed with the fact that Buick is a car with a life of unknown length.

Motor car statistics throughout the world show more Buicks registered than any other make of car at its price or above.

In Kenya, Uganda and Tanganyika registrations show that Buicks outnumber by more than two to one any other make of six cylinder car regardless of price.

Surely Buick could not consistently outstrip every make of car at its price or over by such a tremendous margin—a margin which yearly grows more pronounced—if people had not found in the Buick qualities of road performance, unfailing reliability and long, long life they did not find in rival cars.

No other explanation is even remotely possible.

Compare the excellent condition of any Buick after an extended period of service with that of any rival car. You will be impressed with the fact that Buick is a car with a life of unknown limits.

Motor car statistics throughout the world show more Buicks registered than any other make of car at its price or above.

In Kenya, Uganda and Tanganyika registrations show that Buicks outnumber by more than two to one any other make of six cylinder car regardless of price.

Surely Buick could not consistently outstrip every make of car at its price or over by such a tremendous margin—a margin which yearly grows more pronounced—if people had not found in the Buick qualities of road performance, unfailing reliability and long, long life they did not find in rival cars.

No other explanation is even remotely possible.

Progress and Approval

For Dodge Brothers, Inc. 1920 stands as a year of unprecedented progress and success. In 1920 the sales of Dodge Brothers Motor Vehicles reached the total of 260,000. Yet in 1920, 300,000 were sold—an increase of 70,000 vehicles. New engineering records have been established by an accumulation of major improvements extending back to the start of 1920. Never has Dodge Brothers Motor Car ranked so high in public favor. Never before has it so fully deserved the world's good will.

MOTING TOPICS

MOTORISTS SHARE OF THE REVENUE.

Latest Figures of Customs Receipts.

CARS, PETROL, AND OIL.

In a circular letter to members of the R. E. A. A., Mr. Dalton, Finance, the Hon. Secretary, writes as follows—

Through the courtesy of the Customs Department of Kenya Customs Officers regarding the imposition of cars, lorries, motor cycles, petrol, etc. for the year 1920 they make such interesting reading that I thought you would appreciate a small précis of them.

The value of all merchandise imported into Kenya and Uganda for 1920 amounts to £7,485,685, which the most Customs Revenue Kenya's share is £272,657, and Uganda's share £412,556. The motor trade share of this total is as follows—

KENYA AND UGANDA MOTOR IMPORTS FOR 1920 ARE
£900,000

Value of Imports	For 1924	1925	1926
Motor	127,968	274,143	350,433
Motor Cycles	44,112	43,772	35,377
Petrol	107,880	157,500	158,900
Lorries	—	—	—
Trucks	64,087	245,320	234,943
Tyres	37,194	92,480	80,022
Accessories	—	—	—
Tyres and Spares	44,974	84,908	121,700
—	453,803	808,700	872,358

To the 1920 figure must be added lubricating oils, greases and paraffin, used for tractors, which approximately for that year cost £40,000, thus giving a total of £940,000.

HEAVY RAILAGE AND TAXATION ON PETROL.

The reports of Motor Sports have newly reached during the three years, amounting to 1926 to two and a half million gallons, valued at £120,000, which works out to nearly 1/2d per gallon.

The wholesale cost of petrol in Nairobi is 2/9 per gallon and this price is made up as follows—

Value of petrol on which duty is paid 1/10d. per gallon.

Customs duty and Excise 2d. per gallon.

Balance brought from Mondays to Saturdays 6d. per gallon.

Handling charges at the Coast and at Nairobi delivery to Great Road, interest on capital, etc. 1/4d. per gallon.

Total 2/8d. per gallon.

You will see therefore from the above that we are about 50 per cent short of the value of the petrol for a start, and that in Nairobi we are very nearly 60 per cent short of the value of the petrol for selling from Mondays and the 50 per cent of non-payment.

In the interests of motorists, and the community in general, who are dependent on cheap and quick transport facilities, we are taking the matter up again officially with the Government officials and hope it may be possible to get some form of relief straight away.

METROPOLITAN TRAFFIC REGULATIONS IN THREE YEARS.

The increase in motor lorries and tractors during the last three years, is really astonishing, as you will see by comparing the figures in the attached statement. Although in Kenya we have one motor vehicle to every 120 white adults in our opinion, a similar position will not be reached for some time to come as both the Indian and the Indian are taking more and more of the total population. The most that the figures for 1920 can show is that the increase, year by year, is in great part the result of motor in Uganda territory.

R. E. A. A. GENERAL MEETING.

An extraordinary general meeting of the members of the R. E. A. A. will be held at the Memorial Hall, Nairobi, on Monday, October 31, 1920, for the purpose of passing the resolutions to the

A Curious Point of Law.

FIXING IN INSURANCE CLAIM.

Judgment for £1,877 and costs was given in the King's Bench Division of the High Court, London, in favor of a motorist, who had been convicted of manslaughter for a fatal accident, as a result of a collision with a motor car.

The company had declined to indemnify plaintiff because it was held that the fact that plaintiff was liable for the damage awarded against him unless the insurance company indemnified him, was not a negligible consideration.

As was granted a view of an appeal.

present aims of the Association. The amount that 6 months motor is given that we now have members in Washington, West Africa, England, Australia, India, etc., and also a large number of East African members are out of the country, on leave. Attention of the R. E. A. A. is a very important matter, and therefore it is essential that every member should be kept in the right to state the proposals and forward his comments on the meeting.

Douglas Factory Fire.

Two huge assembling and finishing shops of the Douglas Motor Works at Langport, Bristol, have been transformed into a mass of charred walls and twisted girders by fire, estimated to have cost £200,000 damage, even. It occurred to the South African papers on March 28.

Four thousand completed machines in the underground department were destroyed.

Over a thousand employees were at work when the alarm was given. During the ensuing two hours many machines and rough machinery were rushed out of the workshops and stored in the open field. The morning of the alarm was wet by rain, suggesting the blowing up of the building.

The casualties were caused by the falling debris. Many hundreds have been severely injured or employed.

Asiatic Cars.

FACTORY REPRESENTATIVE IN NAIROBI.

The request that British motor manufacturers for such motor cars, conditions before designing their cars, no longer holds good, in the case of the Asiatic Motor Car. It never has been applicable. Today the Asiatic car is no longer thought of as the world's best for their efficiency and their reliability, and it has shown, time after time, that it is an excellent motor car to use in this country. British motor manufacturers have never recognized their worth.

Mr. Marry, the factory representative of the Asiatic Car, is expected to arrive in Nairobi on Tuesday or Wednesday, April 13 or 20, and he will be glad to get into touch with established dealers who are prepared to look after the interests of the Asiatic Car, and the marketing of these cars in British production. For further particulars, Mr. Marry will be glad to be of the British Trade Commissioner, P.O. Box 220.

 THURSDAY, APRIL 11, 1937.

The Native and the Law.
 We have harboured the foregoing prejudice to give point to our argument. Strongly it is desired that the "special provisions" for Muslims and Christians be cancelled or amended so that they be reduced to one uniform law for all. It is to be noted that the Government has been largely bound their reply on the extension of provisions for Muslims and Christians. The Law Officers say no ground for the suggestion that the application of the code may result from the unavailability of the law of procedure or evidence to such cases. They say that the primary legislation—law is not inapplicable to Muslims and Christians. They say that the primary legislation—the law of evidence or procedure or the enforcement of truth and they say it is inapplicable to Muslims and Christians. They say that the primary legislation—the law of evidence or procedure or the enforcement of truth and they say it is inapplicable to Muslims and Christians. They say that the primary legislation—the law of evidence or procedure or the enforcement of truth and they say it is inapplicable to Muslims and Christians.

With all respect, we beg to differ from that view. The Magistrate must argue from the possibility of evidence of his jurisdiction and which he is bound by a special "provision" which is not qualified by any subsequent legislation in the Order of the Crown in Council or in the Statute Book. It is to be noted that the Magistrate suggests, obviously, as if the Law Officers were not entirely satisfied with our own statement, that if there is any danger it lies with the courts themselves and not with the procedure. It is very properly pointed out that the procedure is an act of delegation from the Crown to the Magistrate and that the Magistrate is bound by the special "provision" which is not qualified by any subsequent legislation in the Order of the Crown in Council or in the Statute Book. It is to be noted that the Magistrate suggests, obviously, as if the Law Officers were not entirely satisfied with our own statement, that if there is any danger it lies with the courts themselves and not with the procedure. It is very properly pointed out that the procedure is an act of delegation from the Crown to the Magistrate and that the Magistrate is bound by the special "provision" which is not qualified by any subsequent legislation in the Order of the Crown in Council or in the Statute Book.

In connection with these it is to be noted that the Magistrate is bound by the special "provision" which is not qualified by any subsequent legislation in the Order of the Crown in Council or in the Statute Book. It is to be noted that the Magistrate suggests, obviously, as if the Law Officers were not entirely satisfied with our own statement, that if there is any danger it lies with the courts themselves and not with the procedure. It is very properly pointed out that the procedure is an act of delegation from the Crown to the Magistrate and that the Magistrate is bound by the special "provision" which is not qualified by any subsequent legislation in the Order of the Crown in Council or in the Statute Book.

LONDON REVIEW OF E. AFRICAN TRADE.

Progress Recorded During the Year.

(Continued from yesterday.)

The section was also able to dispel erroneous reports which were being circulated in East Africa regarding the General Strike in England. These reports, it was stated, were causing shipment to withhold lowered rates, and the intervention of the section did much to prevent a hold-up of trade.

Through the endorsement of the section a concession was allowed by the Postmaster-General that the telegraph correspondence which is conveyed to the French packets up to 7 pm. on alternate Tuesdays. The section wished to place on record its appreciation of the manner in which the steamship companies act and responded to its representations for a reduction in the homeward freight on cotton. This reduction (20 per cent.) was made notwithstanding that the firms had already warned their exporters to make a surcharge on the freight to meet losses sustained by them through the increased cost of the fuel. The loss, however, is regarded, as did the other interests affected, the best of a bad bargain. It is to carry the Uganda section live to a different port.

QUESTIONS OF FREIGHT.

The following matters were dealt with through the East African Railway Shippers Sub-Section:

Rates of freight on light rails and coasters.

Rates of freight on second-hand blankets, Army clothing, etc.

Minimum freight charged on goods included in a consignment ship-ment.

Rate of freight on second-hand blankets, Army clothing, etc.

Minimum freight charged on goods included in a consignment ship-ment.

Rate of freight on second-hand blankets, Army clothing, etc.

Minimum freight charged on goods included in a consignment ship-ment.

Rate of freight on second-hand blankets, Army clothing, etc.

Minimum freight charged on goods included in a consignment ship-ment.

books were not to be used, but suggest that if there were high to moderate rate and fitted with the necessary facilities to be at any of the points to transit would be highly appreciated.

It is to carry the Uganda section live to a different port.

It is to carry the Uganda section live to a different port.

The Bank also acts as Trustee and Executor.

DOYEN OF THE TRADE.

The Chairman then moved that Mr. W. H. Hooper, who he described as the doyen of the trading community of East Africa, should occupy the "vouchers," and that was unanimously agreed. Mr. Hooper, regarding, and the commercial associations with East Africa went back as far as 1862, as he did not think many were his senior.

Many other matters were dealt with at the meeting, there being a long discussion on the return of the general manager of the East African Railway to grant railway waybills for goods in transit on the ground that it would lead to commercial speculation.

The Chairman contended that the question of speculation had nothing to do with the general manager. At the present time, he added, there was probably about a quarter of a million pounds' worth of cotton on the railways, and there were no bills for that amount in use for financial purposes.

Mr. Dwyer obtained from Mr. Dwyer a representative of the

Does Your Roof Leak?

There is a new liquid Adhesive Roofing which can be easily spread over roofs or other surfaces to any thickness desired forming a membrane but retaining plasticity coating that absolutely inhibits all rain, rot or corrosion.

It is waterproof, acid and alkali proof, non-flammable, adhesive, elastic, heat insulating, fire-retardant, non-conducting, durable, quick drying.

It can be used for fresh water tanks, bathroom, roofs of vessels, transoms, motor frames, motorcases, fuel tanks, boats, buses, foundations, floors, walls, pipes on wood, metal, cement, composition roofing, wiring, etc.

It is made in black, red, green, and grey colours.

It is stocked by J. B. Aronson, Ltd. Nairobi, from whom particulars and prices can be obtained on application.

"STANDARD" FEATURE PAGE

With Kenney's help, to whom all correspondence in connection with "Margaret Clegg" should be addressed, and high services rendered, the necessary arrangements were made by her which are, in the main, based on information supplied by her correspondents.

I have to begin with a collection of apologies. First of all for neglecting my dear correspondents and secondly for not answering many letters that should have been answered.

My excuse is that I have been pretty badly ill with flu, and I am, though, but with fever still. The doctor has continued at all times to insist on a diet of his own book by digging needles into my legs, a painful business which is not conducive to much work and he has to get back to the farm and take up the lines of work once more to look for that new dog.

I am sorry that I cannot do the report on the Kenney Club general meeting. It was not all the time I was out there, with the paper very considerably I have seen the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year. And I am also glad to hear that the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

I can say that I met the Hon. Secretary, who told me it was a very satisfactory meeting and that there was no change made in the constitution of that year.

Compare the excellent
condition of any Buick,
after an extended period
of service with that of
any rival car. You will
be impressed with the
fact that Buick is a car
with a life of numerous
years.

*Motor car statistics throughout the world show
more Buicks registered than any other make of car
at its price or above.*

*In Kenya, Uganda and Tanganyika registrations
show that Buicks outnumber by more than two
to one any other make of six cylinder car
regardless of price.*

Surely Buick could not consistently outstrip every make of car at its price or over by such a tremendous margin—a margin which yearly grows more pronounced—if people had not found in the Buick qualities of road performance, unfailing reliability and long, long life they did not find in rival cars.

No other explanation is even remotely possible.

MOTOR TOPICS

ENGINE TROUBLES.

How to Save Time and Worry.

THEIR REMEDIES

Many of the stoppages which occur on the road due to some quite small trouble which can be remedied in a few minutes by someone who "knows how" instead of waiting in the modern car almost an intolerable time, when experienced motorists say, when running to schedule time even on a long journey.

It is the novice, however, who may waste hours and a great loss of time and temper on the roadside simply because he or she does not know exactly what to do. It is humiliating, to say the least of it, when, after the vehicle owner has laboured on his engine for two or three hours, on a report coming along and comes the trouble in a vehicle or car, at the most.

COMPLETE STOPPAGES.

We will deal first of all with causes of complete stoppage when for the engine begins to run the novice will prefer to carry on until a garage is reached, where someone with more knowledge than he possesses, can deal with the problem. Assuming the car to have been normal and that it suddenly comes to a standstill after a certain amount of running in the motor, either by hanging in the alternative, the first trouble to be considered should be with the fuel system. A most common cause of stoppage could be saved if it is first made certain that the fuel is not put into the tank. If there is a certain amount of fuel available, the next move should be to ascertain whether it is reaching the carburettor, which can be done by attempting to flood the instrument mentioned by pulling on the jet needle or depressing the flooding plunger provided. Unless petrol either passes through the vent hole in the float chamber lid, or flows regularly from the carburettor, the petrol jet should be disturbed where it joins the carburettor and it should be seen whether petrol flows freely

with the tap turned up; if it does not it is more than likely that the trouble is due to some blockage in the pipe, which should then be removed at the inlet and blown through, if necessary cutting into the pipe to the pump.

If it is found that the carburettor is simply obstructed, the car will sometimes be removed from the main jet at the time the stoppage occurred, the chamber above the main jet should be cleaned. The trouble may also arise from the makers of his car or carburettor an instruction book which will tell him what is the method of removing the jet on the type fitted to his engine. On some, as on the "Ford," a small plug beneath the bottom of the instrument is uncovered, after which, with the plug, provided, the jet can be removed. The other plug at the bottom of some jets is the non-removable jet. On the latter, the motor keeps after dislodging of the big air on the top of the float chamber lid, when the jet can be freed from a small aperture. The chamber over that it will be found that one of the jets is blocked with some, particle of foreign matter, and after it is removed and the jets are replaced the carburettor should be cleaned and turned off while the carburettor is being attempted to be turned on again before trying to start the engine.

An unlikely trouble, when it is known that the fuel is reaching the carburettor properly, is that one of the carburettor jets has fallen off, so that the three jets cannot be opened; but this can be continued; but this can be continued to run on the slow-running adjustment.

INSPECT THE FILTER.

A possible cause of stoppage may be an obstructed filter. If the petrol strainer is near the tank and happens to be choked it is evident that sufficient petrol will reach the carburettor, but when the strainer is in the base of the float chamber, the petrol will not flow from the petrol pipe, but will not reach the carburettor.

On cars, on which the Austro-Daimler system of petrol feed is used, it is known that the fuel is reaching the carburettor, and that the petrol is in the base of the float chamber, but when the petrol pipe is blocked, some petrol will not reach the carburettor, and the engine will not start. (Continued on page 11.)

Joint E.A. Board.

BUSINESS TO COME BEFORE MAY MEETING.

The second ordinary general meeting of the Joint East African Board will be held at Westminster Hotel, Nairobi, on Wednesday, May 11, at eleven o'clock in the morning to receive and consider the "Third Annual Report" of the Executive Council of the East African Board as at that date, 1926 (with the Accounts and Balance Sheet as at that date), and to consider, and if thought fit, to pass the following resolutions:—

- (1) That Mr. J. Henderson, A.M.P., be and is hereby appointed a Special Member of the Executive Council of Joint East African Board.
- (2) (a) That the right conferred by the Subscribers to the Memorandum of Association on the Uganda Planters Association; the Uganda Chamber of Commerce and the Uganda Cotton Association to appoint jointly one Appointed Member of the Executive Council shall be and is hereby cancelled, and
- (b) That the Uganda Planters' Association, the Uganda Chamber of Commerce and the Uganda Cotton Association shall be and is hereby entitled to appoint jointly two Appointed Members of the Executive Council, or alternatively
- (3) (a) That the right conferred by the Subscribers to the Memorandum of Association on the Uganda Chamber of Commerce and the Uganda Cotton Association to appoint jointly one Appointed Member of the Executive Council shall be and is hereby cancelled, and
- (b) That the Uganda Planters' Association and the Uganda Chamber of Commerce shall be and is hereby entitled to appoint jointly one Appointed Member of the Executive Council, and
- (4) That Mr. E. DUNCAN (Gold Coast), F.C.A., of Messrs. Goldsmith, Payne & Malvern, Chartered Accountants, be and is hereby appointed Secretary of the Joint East African Board for the year 1927.

PORTHCOMING LEGISLATION IN KENYA.

Customs Amendments, Railway Finances, and Town Planning.

OBJECTS AND REASONS.

Double Payment of Import Duties Inter-Colonial Rebates.

The Editor does not accept responsibility for the views expressed in the articles...

THE DEFENCE FORCE.

The Editor: "E. A. Standford." The question of Compulsory Service has been rather fully discussed...

KENYA FASHIONS.

The Editor: "E. A. Standford." Six-Year solutions have been full of controversy on the subject of the Defence Force Bill...

In the Executive the Acting Governor has approved of the following bills being introduced into the Legislative Council...

As proposed by this Bill in respect of the provisions which will apply to the levy and collection of import duty...

CUSTOMS ALLOCATION. The object of this Bill is to make provision for the allocation of Customs revenue between the Uganda, Porthcoming Kenya and the East Africa Protectorate...

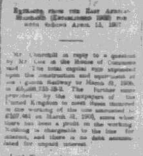

When, however, the new Customs Management Ordinance 1937 is brought into operation the provisions of this Bill will be automatically repealed...

The present Bill is repeated from the Customs (Amendment) Ordinance, 1932, after amendment...

THE RAILWAY FINANCE. The Bill is intended to amend the provisions of the Railways (Amendment) Act, 1935, and to amend the provisions of the Railways (Amendment) Ordinance, 1935...

The approval of the Municipal Council is required for the removal of any building or structure from the town planning scheme...

Twenty Years Ago

It is recalled in regard to a question which was asked in the House of Commons...

MOST ADMIRED BY ANY MAN. Ask a number of men what features of womanly beauty is most attractive to them...

PEERLESS ERASMIC SOAP. The woman who seeks skin loveliness must learn one great secret...

SAVE with SAFETY

Furniture covers with a lamin, discriminating sense of values will appreciate the quality, beauty in design and excellent finish of our furniture...

Progress and Approval. For Dodge Brothers, Inc. 1936 stocks on a year of unprecedented progress and success.

It is a curious fact that though we have mentioned my desire for a better change, I find myself most contented with those who see the most up-to-date ways of life.

All this of course is more funny and I leave the matter to those who wish to discuss it.

I will only suggest that the made-up car is the best of all.

I do not start at present and I think I would not start at present...

April 15, 1937.

Austin

The Name that stands for reliability is Austin in British Motor Engineering.
