## THE SETTLEMENT.

The settlement is a significant one. It is a settlement that is significant. It is a settlement that is significant. It is a settlement that is significant.

GUARANTEED THE LARGEST CIRCULATION OF ANY NEWSPAPER  
IN KENYA, UGANDA, TANGANYIKA AND ZANZIBAR.

# The East African Standard

MOMBASA TIMES & UGANDA ARGUS. With which is incorporated THE LEADER.

NAIROBI, WEDNESDAY, APRIL 27, 1927

## DUKE OF YORK AT ANZAC DAY.

Celebrations in Melbourne and Sydney.

## CONTRAST SALUTE.

His Majesty King George V. was welcomed at Anzac Day in Melbourne, April 25. The Duke of York, who was accompanied by his wife, the Duchess of York, arrived in Melbourne on the morning of the 25th. The Duke and Duchess were met at the railway station by a large number of officials and members of the public. They were then taken to the Anzac Day services at the Shrine of Remembrance. The Duke and Duchess were present at the services and were seen to be deeply interested in the proceedings.

## JAPAN'S FINANCIAL CRISIS.

Exchanges Close During the Moratorium.

## TO RESUME OF THE BANKS.

The Japanese financial crisis has reached a critical stage. The moratorium on foreign payments has been extended, and the banks are now closed. The Government has announced that it will not resume payments until the crisis has passed. This has led to a loss of confidence in the Japanese Government and a sharp decline in the value of the Japanese Yen. The international community is watching the situation with interest, and it is expected that the crisis will have a significant impact on the world economy.

## AN EAST AFRICAN DINNER CLUB.

New Proposal Made in London.

## "MORE SATISFACTORY"

The proposal for an East African Dinner Club has been met with a more favourable response than was expected. The club is intended to provide a social and dining facility for the East African community in London. It is expected that the club will be a success and will provide a valuable service to the community.

## MEETING OF THE MEN ON THE SPOT.

Delegates to the Colonial Conference.

## SEVEN GOVERNORS.

The meeting of the men on the spot, who are delegates to the Colonial Conference, has been held in London. The delegates are from seven different colonies and are discussing the issues of the conference. The meeting is expected to be a successful one and will provide a valuable opportunity for the delegates to discuss the issues of the conference.

## AMERICA'S FOREIGN POLICY.

## Speech by President Coolidge.

President Coolidge's speech on America's foreign policy is a significant one. He has outlined the principles of American foreign policy and has emphasized the importance of maintaining peace and stability in the world. He has also stated that the United States will not support any policy that would be detrimental to the interests of the American people.

## MEXICO EXPELS HER PRELATES.

## Search for Clergy Raining the Country.

The Mexican Government has expelled its prelates and is now searching for clergy to replace them. This is a significant move and is expected to have a significant impact on the Catholic Church in Mexico. The Government has stated that it will not tolerate any interference with its policies and that it will take any necessary steps to ensure that its policies are implemented.

## The Defence Bill.

## MR. AMERY AWARDS KENYA GOVERNMENT'S VIEWS.

Mr. Amery has awarded the Kenya Government's views on the Defence Bill. He has stated that the Government's views are well-founded and that they are in the best interests of the country. He has also stated that he will support the Government's views on the Defence Bill.

## Native Land.

## FURNISHING SUFFICIENT FOR THE FUTURE.

The Government has announced that it will furnish sufficient native land for the future. This is a significant move and is expected to have a significant impact on the native population. The Government has stated that it will take any necessary steps to ensure that the native population has sufficient land to live on.

THE Goodyear Supertwist Balloon is generally recognized as the foremost example of the tyre-building art.

The superiority of the celebrated cord material Supertwist lies in its greater elasticity; under road shock it stretches and recovers without breaking. This flexibility is inherent in the very structure of the Supertwist cords themselves and is not dependent upon latex gum or filler of any kind.

**The Trade Union Bill.**  
The British Government proposes, by amending legislation, to make important alterations in the law relating to trade unions and trade union officials. The Bill contains for the first time provisions for the registration of trade unions which are not independent of non-unionists. The purpose of the Bill is to prevent the union being held up by a general strike similar to that of last year from the worker the attack upon the law is determined to the furtherance of a Labour Party in any industry. Labour has at once made its determination clear to fight the Bill by force and the British Worker's magazine newspaper which played a part in the general strike has already been sent for special purpose of the opposition to the Bill. After the strike, the Government must make definite promises to the trade union public in order that it may be satisfied that the Government has not broken from the wrong side of the law. The Government's good faith in public opinion will be tested by the way in which it deals with the Bill. It is the duty of every responsible man to be in favour of the Bill.

# Announcing Goodyear's Sensational Achievement in Tyre Construction

**Goodyear now offers a tyre that completely eclipses all previous experience in mileage and serviceability; a tyre giving maximum comfort—yet possessing amazing durability and ruggedness**

**THIS is the greatest tyre** that has ever been offered to the public, and is a typical expression of Goodyear's progressive policy.

**The first advantage** to you of this new Goodyear tyre is far greater traction and non-skid efficiency. This is achieved not only by placing the diamond shaped All-weather blocks in the centre of the tread, but also by flattening the profile of the tyre to insure greater road contact.

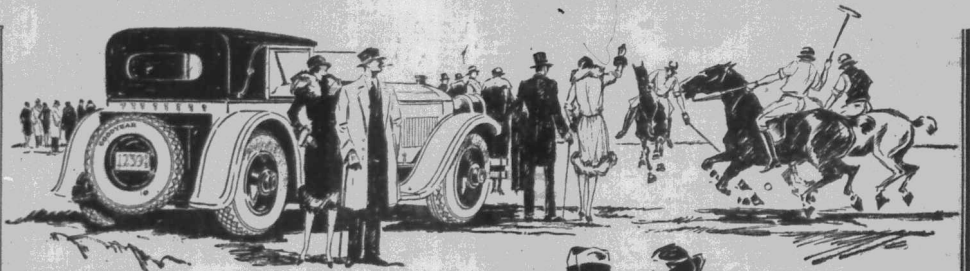

**The second advantage** to you is greatly improved tread wear.

This is accomplished by the flat design, and by placing two circumferential ribs in the tread at scientifically determined points where the greatest wear takes place. The new All-weather tread wears evenly and smoothly without wavy spots or "pot holes", and at any given mileage shows less wear and less obliteration of the non-skid design than is the case with other types of tyres.

**The third advantage** is greater protection against punctures and tyre damage owing to the immensely superior protection afforded by the new broad thick tread which extends part way down the sidewalls of the tyre.

**In addition** to these important benefits the new Goodyear tread makes for greatly increased total tyre mileage, for quieter and smoother running, and for an even better looking tyre.

*You will want these new tyres. You will want them for the sensible reason that these new Goodyears cost no more, and that you cannot afford to pay the same price for another tyre that will give you considerably less mileage.*

USE OF THE HORN.

Misuse of Warning Signals.

A COMMON PRACTICE.

Sometimes it has happened in a decade or so, appears that a driver expert may use the horn to clear the path, but never simply and solely as a warning signal.

PRECAUTION NEEDED.

The rule let it be thought that we are advising the too frequent blowing which, as a rule, is the result of the nervous driver.

driver, so that, as a rule, the use of the horn is about to be both used to clear the road and to warn other drivers.

Then again the driver of a car taking care should remember that every horn has a limit.

The Doldrums.

It has been said with a considerable degree of truthfulness that if Kenya was weather the dangerous days of the political doldrums between February and May, the rest of the year has an opportunity of progressing along normal lines. It is certainly untrue that some of the Colony's most important business have been hindered or have reached their critical phases during the first quarter of the year.

Normally there is a lull in the Legislature Council in March which is confined to urgent business. It is a pleasant word the effect has been picked from the time and labor wasted in this identical business; on the former the advent of rains—when they come—brings a large amount of work for the farmer who is bent on farming; the addition of the rains throughout the country at this time is a not unimportant blessing because it prevents political outbreaks; if the farmer has a grievance—and we have not met the farmer who does not possess the confidence—is satisfied by conditions to keep it to himself and if nothing is said the political influence of speeches given and held promises given are made less long-lived; or at least softened. The Spring season to the farmer means for the farmer and the wealthy and the expectation of extended holiday is sufficient to induce the thought

NEW CINEMA PROBLEM IN BRITAIN. Hand-Holders, Music Lovers & Sleepers. WHO REFUSES TO LEAVE. His Amalgamations in London Hall.

[P. One Over Correspondent.] London, April 7. One of the best known cinema managers in London has just been bought for £50,000 by a new concern which represents a complete amalgamation of film interests in this country. The new concern is headed by the Marquis Ash Pavilion, which has the most magnificent view in the Strand. The Marquis Ash Pavilion, Chaplin, and the American Pavilion. Together these three theatres employ more than 5,000 people. Details of the amalgamation of film interests responsible for this deal are to be made public in a few days. A company has been formed with a proposed capital of £25,000,000. Besides the four cinema mentioned above and eighteen other concerns already bought in different parts of London and the provinces—films of the type originally belonging to the Bioscope Circuit—the new corporation has acquired the interests of the General Film Corporation, the British Distributors of Films, the W. and F. W. W. Company, the British Company, distributors of films. Each company will continue to act independently of the others, and will have one or more directors on the board of the corporation, which is to be called the British Picture Corporation. This amalgamation is the first formal film move on the part of the American film industry, which usually purchases the large shares of cinemas in which it exploits the picture theatre.

CINEMA TROUBLES. Many cinema managers in the provinces are faced by the problem of patrons who stay on after they have seen the complete programme, and thus prevent people waiting outside from obtaining seats. They complain of the loss of hand-holding lovers who face the programme all too short, and find out means where they may just hear the credits again and see the film on a comfortable arm-chair, who just close their eyes and sleep. The London cinema proprietor believes the fact that some of his patrons arrive when the doors open, and stay till closing time. "The West End cinema circuit" suffer all in this way, and a man well known in cinema circles has said in "London East

THE DEFENCE FORCE

To the Editor, "E. A. Standard."—In reply to Mr. Austin's article in the East African Standard of 21st March, 1927, on the subject of the Defence Force, I am glad to hear that the Government are taking steps to improve the position.

It is a pity that the Government have not yet decided to increase the number of the Defence Force to 10,000 men, as proposed in the Defence Force Bill of 1926.

Yours truly,  
GEOFFREY HOLLAND,  
Nairobi, April 27, 1927.

# Announcing Goodyear's Sensational Achievement in Tyre Construction

**Goodyear now offers a tyre that completely eclipses all previous experience in mileage and serviceability; a tyre giving maximum comfort—yet possessing amazing durability and ruggedness**

**THIS** is the greatest tyre that has ever been offered to the public, and is a typical expression of Goodyear's progressive policy.

**The first advantage** to you of this new Goodyear tyre is far greater traction and non-skid efficiency. This is achieved not only by placing the diamond shaped All-weather blocks in the centre of the tread, but also by flattening the profile of the tyre to insure greater road contact.

**The second advantage** to you is greatly improved tread wear.

This is accomplished by the flat design, and by placing two circumferential ribs in the tread at scientifically determined points where the greatest wear takes place. The new All-weather tread wears evenly and smoothly without wavy spots or "pot holes", and at any given mileage shows less wear and less obliteration of the non-skid design than is the case with other types of tyres.

**The third advantage** is greater protection against punctures and tyre damage owing to the immensely superior protection afforded by the new broad thick tread which extends part way down the sidewalls of the tyre.

**In addition** to these important benefits the new Goodyear tread makes for greatly increased total tyre mileage, for quieter and smoother running, and for an even better looking tyre.

*You will want these new tyres. You will want them for the sensible reason that these new Goodyears cost no more, and that you cannot afford to pay the same price for another tyre that will give you considerably less mileage.*

MOTURING TOPICS

CAR INSTRUMENTS.

Checking Accuracy by Simple Tests.

THE SPEEDOMETER

CHECKING SPEEDOMETER.

To check the speedometer it is unnecessary to find a good open stretch of road with a good road surface and a steady wind.

Having found a suitable stretch, the car should be driven some 10 or 20 miles at various speeds and limited particularly with a stop-watch, if an actual road watch is used it is essential to have an observer who also takes the readings when the driver gives the word as to press the indicator.

The best way is to drive the road at 20 m.p.h., 30 m.p.h., 40 m.p.h., and 50 m.p.h., the corresponding times taken in covering a distance of three miles being 180 sec., 120 sec., 90 sec., and 72 sec. respectively.

For any other speed the following simple rule can be used: Divide 3,600 by the time taken in seconds, the result will be the speed in m.p.h.

A table showing how to calculate in order to drive the car at an absolutely steady speed, and if traffic obstructs the driver at a higher speed, a being made, the driver must give up and drive at the very strong possibility of being the speed by the registered gear.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

PRECAUTION TO OBSERVE

It will be noted that in each case the error indicates to 10 per cent of the registered speed, and that, if the error is in excess of 10 per cent, the car should be taken to a garage for inspection.

The best way is to drive the road at 20 m.p.h., 30 m.p.h., 40 m.p.h., and 50 m.p.h., the corresponding times taken in covering a distance of three miles being 180 sec., 120 sec., 90 sec., and 72 sec. respectively.

For any other speed the following simple rule can be used: Divide 3,600 by the time taken in seconds, the result will be the speed in m.p.h.

A table showing how to calculate in order to drive the car at an absolutely steady speed, and if traffic obstructs the driver at a higher speed, a being made, the driver must give up and drive at the very strong possibility of being the speed by the registered gear.

It is also worth remembering that the best of any car is not the one which has the most powerful engine, but the one which has the most efficient transmission.

GHANSA SCHEME

Investing Uganda with the Congo Frontier.

C. C. Serretion, Minister Extraordinary, who has just gone on a mission to the Government of Cameroons an Uganda railway scheme on the details of which he will report to the Government of the Congo.

The fact that there are no other important investments in this region is the reason why the Government of Cameroons is so anxious to see the Uganda railway scheme through.

**THE CHINESE SITUATION**  
Liberal Support for the Government.

SPEECH BY SIR JOHN SIMON.

(FROM OUR CORRESPONDENT.)

London, March 21.—The Liberal Party is now more than ever united in its support of the Government in its policy towards China.

Mr. Simon's speech at Liverpool, yesterday, on the subject of the Chinese situation, was a most important one. It was a most important one. It was a most important one.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

the Government, as it did not wish to approach the situation in a hasty manner. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

sanction for his statement. It is not true, it never was true. That was never the question in dispute. The question is whether it is true that British troops are in China.

Therefore, he took it that they had abandoned the policy of abstention and of trying to control the situation and of bringing about a settlement. The Government must now be prepared to face the situation as it is.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

He stated that the Government's policy towards China was based on the principle of non-interference. He stated that the Government's policy towards China was based on the principle of non-interference.

Adams Apple Wins by Short Head.
LARGE FIELD.
[THOMAS BUCKER'S ASSOCIATES]
The following is the result of the race at Newmarket today over a mile:
Mr. C. W. S. Williams's ALBANY APPL (Photo-gram-Mount) Whistler, c. (Leach).
Mr. Frank Curran's CALL BOY (Horn) (The Commodore) was runner-up.
Lord Derby's SIKKLE (Fletcher-Selous c.) (Winton).
A short three-run was won at about half with half-length before the end of the race.
Setting: 10/1. Adams Apple, 5/2 Call Boy, 10/1 Sikkle.

The Rugby Season.
OPENING MATCHES ON SATURDAY.
The official Rugby Football season is to be opened with a Borough of Nairobi match on Saturday between the Bulls and the Bulls and the Bulls and the Bulls.
Advantage is being taken of these matches to hold a Rugby Dinner, which has for its object the raising of funds for the entertainment of the Naval Veterans who will be with us once more this year.
The arrangements on the part of Mr. C. W. S. Williams, the committee, and the attending race officials, has been a job well done with every possible consideration for the welfare of the race.
Mr. Trevor Cole and his band, with their thrilling music, and the singing of the "Hymn of the Sea" were a feature of the evening.
The dinner was held at the "Hymn of the Sea" and was a most successful evening.
In this regard, the committee is to be congratulated for their excellent form at present.

UNION MEETING.
A meeting of the Executive of the Rugby Football Union of Kenya will be held today at the office of Mr. H. H. Trades Commissioner.
The agenda includes:
1. Report of the Secretary.
2. Report of the Treasurer.
3. Report of the Committee.
4. Report of the Executive.
5. Report of the Members.
6. Report of the Public.
7. Report of the General.
8. Report of the Special.
9. Report of the Extraordinary.
10. Report of the Ordinary.

Rackets Championship.
[FROM OUR CORRESPONDENT]
London, March 31.
Having beaten F. W. Kempson, who was runner-up in the first of the All-England Competition for the Rackets Championship, the Hon. N. Bruce qualified to meet C. P. Simpson, last year's winner, in the challenge round for the Cup.
Bruce played better than he had done since winning the championship in 1922 when he was runner-up. He played with more spirit and more energy than he had done in the challenge round for the Cup.
He was, however, with some strong service, unable to win by a margin of 10-11.
Simpson, however, with some strong service, was unable to win by a margin of 10-11.
He was, however, with some strong service, unable to win by a margin of 10-11.

Answers to Correspondents.
Interested Nairobi. You are quite right. Bolton should be given credit for his services as a player and as a captain. He was a very good player and a very good captain.
The best three have been mentioned in the list of winners. Bolton, however, was a very good player and a very good captain.
He was, however, with some strong service, unable to win by a margin of 10-11.

Professional Takes up His Duties.
THE CHAMPIONSHIPS.
A meeting of the Kenya Lawn Tennis Association was held last night at the Kenya Club.
The Chairman (Mr. H. H. Trades Commissioner) presided.
The Secretary (Mr. H. H. Trades Commissioner) reported that the Association had received a letter from the Lawn Tennis Association, London, asking for the names of the players who were to take part in the Championships.
The Chairman said that the Association had decided to send a team to London to take part in the Championships.
The Secretary said that the Association had decided to send a team to London to take part in the Championships.

The Hockey Field.
ENGLAND DEFEATED BY SCOTLAND.
[FROM OUR CORRESPONDENT]
London, March 31.
Scotland, who thoroughly deserved their 2-1 victory over England, at Aberdeen, on Saturday, were made out of at least a dozen international players last night, when they defeated England by 2-1.
The result of the match was a surprise to many, as England had been expected to win.
The match was a very close one, and it was only in the last few minutes that Scotland were able to take the lead.

A PROLONGED SEASON.
The last Saturday in March was at one time considered the official closing date of the season but the fact that the season of the Eastern Peninsula continues to be so long is a fact which is not to be wondered at.
The season is so long because of the fact that the weather is so good and the ground is so good.

CLUB MATCHES.
Tulse Hill playing their first home match at home on Saturday.
The match was a very close one, and it was only in the last few minutes that Tulse Hill were able to take the lead.

Little Indication for the Derby.
SOME OF THE POSSIBLES.
[FROM OUR CORRESPONDENT]
London, April 27.
The Derby will be run at Epsom on June 1. It is only now possible to assume that the present mode of race is as expected to see a prominent part in that great race should be held from it.
At the same time it is only reasonable to suppose that there should still be in something like the same physical condition two months before the race.
It is not without interest to consider, generally and not particularly for this season a general classification of the horses which are likely to be in the Derby.
