Considering the great power of these new Buicks -- their matchless acceleration and speed capabilities...their ample size...weight and strength, **what rival car equals or approaches the new 1927 Buicks in fuel economy?**

She knows that beauty is nine parts complexion

Pearson's Erasmic has been a famous toilet soap for many years, particularly among women who consider their complexions are worth preserving in all surroundings and to any age.

Pearson's Erasmic is made up of the light and airy soap which makes it so easy to use. It is the purity which makes Erasmic the one soap for all who realize that complexion, which is nine parts of beauty, is often ruined by coarse, harsh, impure soaps.

Petrol economy without a parallel

Owners of the new 1927 model Buicks are reporting mileages as high as 22 and 24 miles per gallon of petrol and 1,500 miles per gallon of oil.

Considering the great power of these new Buicks--their matchless acceleration and speed capabilities--their ample size--weight and strength, **what rival car equals or approaches the new 1927 Buicks in fuel economy?**

Read the following unqualified Testimonials.

I have shot over 60 Elephants with your S.E. Rifle. I consider it the best rifle on the market. Animals and superior to .318 or .300 Magnum. Your '20' Barrel is the best Gun on the Market. (Sd) F. R. Evans, Game Department, Tanganyika.

I have been the killing of 6 big Elephants and a Rhino during the past month. I consider your D.W.M. ammunition "The Best" and would use no other. (Sd) J. A. Sherrin.

I think you for the 350 Rifle was not, it just came in time for a prize shooting competition. We had a prize out of which I took six, though the rifle was strange to me I had no time feeling pleased with it myself. I am highly with all my friends. (Sd) C. J. Brown, Fern, 900 Eldoret.

I have the pleasure in telling you that I have just dropped a huge Elephant with your rifle. As you know, I am using one of your 10.75 Rifles and have had wonderful results and I find your D.W.M. ammunition very satisfactory. (Sd) H. P. James, Box 200, Nairobi.

The special issue of the Kenya Official Gazette containing the Customs Management Ordinance has brought within sight one of the most important improvements in internal commercial legislation which has emerged for several years. Under the new legislation the internal barriers against the interchange of goods between the three principal territories will be broken down. The Ordinance came into force on August 1st last. Since 1912 the East African Chambers of Commerce individually and through the Association have been pressing for the establishment of a single Customs Union to include Tanganyika and the hinterland of Kenya and Uganda territories. They do not rest on the basis for an extension. Although it was suggested at one time that Kenya and Uganda should have separate Customs Departments, it was understood that the new legislation would provide for the unification of Customs control and administration, with a view to the unification of the two territories and of their unity in the commercial sense (instead of two separate territories). The unification of Customs control and administration will be of great value to both. The Confederation of Customs which has been formed in Kenya and Uganda approved upon the need for uniformity of administration which will be necessary in any way to the commercial question of the unification of the territories. This matter will be discussed in relation to the larger subject of a single Customs Union. These matters are of importance to the commercial community whose main concern is with the new Regulations.
