BAGDAD

## Buick carries the Desert Mail

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped—mails delayed. By the established trade route, Bagdad was 30 days from London.

A new way, and a shorter one, had to be found to carry passengers and the mail to Bagdad. The motor car suggested itself. And the difficulties of the situation suggested Buick. The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean —500 miles through the mountains and across the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn Transport Company has this to say of his fleet of Buicks:

"I should always use Buick again under the same circumstances.
"This car maintains a high speed for hours on end.

"It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, without adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.

## **Buick carries the Desert Mail**

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped-mails delayed. By the established trade route, Bagdad was 30 days from

A new way, and a shorter one, had to be found to carry passengers and the mail to Bagdad. The motor car suggested itself. And the difficulties of the situation suggested Buick. The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean —500 miles through the mountains and across the Syrian Desert the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn Transport Company has this to say of his fleet

- "I should always use Buick again under the same circumstances.
  "This car maintains a high speed for hours
- on end.
- "It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, with-out adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.
