BAGDAD

Cenva Beer, Stau!

uick carries the Desert Mail

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped—mails delayed, By the established trade route, Bagdad was 30 days from

A new way, and a shorter one, had to be found The motor car suggested itself. And the difficulties of the situation suggested Buick. The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean -500 miles through the mountains and across the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn

Transport Company has this to say of his fleet of Buicks:

BIIT

"I should always use Buick again under the

same circumstances.
"This car maintains a high speed for hours on end.

"It has the power to carry excessive weight "It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, without adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.

Buick carries the Desert Mail

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped—mails delayed. By the estab-lished trade route, Bagdad was 30 days from

A new way, and a shorter one, had to be found to carry passengers and the mail to Bagdad. The motor car suggested itself. And the difficulties of the situation suggested Buick.
The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean

—500 miles through the mountains and across the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn Transport Company has this to say of his fleet of Buicks:

- "I should always use Buick again under the same circumstances.
 "This car maintains a high speed for hours
- "It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, with-out adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.

Mairobi Ronds.

The following Road Report was presented to the Town Council at its meeting yesterday:

RIVER ROAD.

The work on this road is now progressing satisfactority. Semi-grouting with Bitumen has been started and, weather permitting, will be proceeded with continuously. The work of installing the new kerb and water table is being done as rapidly as possible.

SWAMP ROAD.

Work on these two roads is being done departmentally. Progress is slow owing to other urgent works being attended to have boys having to be withdrawn.

This road is being treated with road making machinery prior to Forest Road being repaired, The contractors are Galley and Ro-

RACECOURSE BOAD

Kilindini.
