Buick carries the Desert Mail

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped—mails delayed. By the established trade route, Bagdad was 30 days from London.

A new way, and a shorter one, had to be found to carry passengers and the mail to Bagdad. The motor car suggested itself. And the difficulties of the situation suggested Buick. The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean —500 miles through the mountains and across the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn Transport Company has this to say of his fleet of Buicks:

- "I should always use Buick again under the
- same circumstances.
 "This car maintains a high speed for hours on end.
- "It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, without adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.

Buick carries the Desert Mail

Oil discovered in Irak!

Overnight sleepy Bagdad became a feverish center of commerce. Transportation facilities were swamped—mails delayed. By the established trade route, Bagdad was 30 days from London.

A new way, and a shorter one, had to be found to carry passengers and the mail to Bagdad. The motor car suggested itself. And the difficulties of the situation suggested Buick. The route chosen was an abandoned camel trail, leading from Beirut on the Mediterranean —500 miles through the mountains and across the Syrian Desert.

This happened two years ago. To-day Major McCallum of the British Army and the Nairn Transport Company has this to say of his fleet of Buicks:

- "I should always use Buick again under the
- same circumstances.
 "This car maintains a high speed for hours on end.
- "It has the power to carry excessive weight over two ranges of mountains and the desert, without overheating. Our cars go to Bagdad and back again, 1000 miles, without adding a drop of water to the radiator."

Buick quality and design produce a reliability of performance known and spoken of all over the civilized world. Whenever there is hard work to be done, Buick is the car to do it.

Cormorant Decorticate

RESULT OF COMPARATIVE TEST.

The following is the result of an INDEPEND TEST, conducted by a well-known Sisal Planes Kenya abowing yields of Fibre from the CORMON POHTABLE DECORTICATOR, compand with of a Standard Machine in penal use in Kenya. The Tests were carried out ander preserve. The conditions, the sums weight and quality of leave is

		Cormorant.	Oth
umber of leaves	1	1,000,	
Veight of leaves		935lbs	
Veight of fibre before	brushing	38lbs.	
do fater	brushing	321bs.	
Veight of Tow	200 3	21bs.	
ercentage extracted,	exclusiv	3.42%	
	A This.	- and Tam	antwante

In addition to the Fibre and Tow extracted by Cormorant as stated above, 1lb. of Tow (which a sents the total wasle), was recovered from the mea After washing the Fibre, with the Machine in or adjustment, the Fibre from this Machine can be cla as No. 1 Kenya quality No. 1 Kenya quality.

The above Test proves conclusively that the p from the Gormorant exceeds that of other machine 33.1/3%; in other words, the Gormorant will give tons as against 100 tons.
