Explorers Use This Car Because It is Dependable

Pioneers and explorers, whose lives depend upon the reliability of the transportation they use, employ Dodge Brothers Motor Cars almost exclusively.

Stefansson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, on three different occasions, penetrated the innermost wastes of Mongolia in a Dodge Brothers Car.

The car's dependability is proverbial; and its exceptional riding comfort permits long travel over bad roads without fatigue.

Table with 2 columns: Car Model and Price. Includes Touring Car, Special Touring Car, and Aluminum Box Body.

THE EAST AFRICAN STANDARD

WEDNESDAY, JULY 12, 1927

Sir Edward Grigg at Home

Although the interview which His Excellency Sir Edward Grigg, the Governor of Kenya, accorded to our London correspondent does not reveal much of the more practical results of the work of the Governor in London, and does not comment upon the important outstanding question, it gives an indication of one aspect of the work in which Kenya comes out of the great interest or exhibit sufficient gratification for the already apparent results. In official circles Sir Edward received much sympathetic and understanding treatment in his discussions regarding Kenya and those engaged with East Africa in London who have returned within recent months to the Colony speak with considerable pleasure and conviction of the impression that the name of the present Governor of Kenya stands high indeed in the respect of responsible authorities in the Mother Country. The trust and confidence placed in him by the Colonial Office have been attested publicly and privately in several directions since he was first appointed and he has established a name in London which will serve the Colony and those directly responsible for its policy in London as a basis of understanding and co-operation which is particularly gratifying to a community gradually being to be recruited and surrendered to the work and aspirations of a new master of common knowledge as to a great degree from the country of their present application. It is possible, save without disclosing the nature of the

Mrs. Madge Maudslayi from Mombasa, arrived in England on July 12. Good Shooting! The Nairobi Rifle Range will be closed to practice to-day to permit of repairs to the targets for the 'Baker' meeting. The Police Prosecutor: The Police Prosecutor in the Magistrate's Court at Mombasa today to adjudge the case of a woman charged by Inspector Waide. 'Kilisi' Omer: The first dinner of the Nairobi Old Boys Association will be held at 7.30 at the Royal Hotel. The dinner will be presided over by Mr. W. H. B. M. Mombasa, Mombasa, P.O. Box 964, Mombasa.

Vertical text on the far right edge of the page, including dates and partial news snippets.

**'SINews OF WAR FOR THE FUTURE NAIROBI.'**

**Feetham Commission Outlines New Taxation Possibilities.**

**HEAVY GOVERNMENT CONTRIBUTIONS.**

**Land and Improvements; Rail, Municipal Motor Tax, Refuse Removal, etc.'**

There is likely to-day a further extract from the Report of the Feetham Commission on the problems of Nairobi, particularly from the finance point of view.

- The Commission recommends:
- (1) Adequate endowment by Government by the grant of Crown lands.
  - (2) Definite powers to the Council by the State for such services of certain contributions from the officials, half the cost of maintaining roads, etc.
- The Commission also enters into the details of Municipal revenue can be raised according to which more Tax, refuse removal fees, taxation of capital values of lands and improvements, etc.

**RAILWAY TO PAY AS WELL.**

London will propose the Council to increase rates, and further to be obtained by the public should be £100,000 per annum for the next five years. The charges for services should be reduced throughout the area and to mean the Council in recovering the balance throughout the area and return railway should be made to be a success.

**Rates.** The Rating System proposed in the Report on the Proposed New Rates on the Nairobi Municipal Improvements. The rate on the Nairobi Municipal Council is to be increased to 10s. 6d. per annum.

**Ownership of Land.** Owners of property and not owners should be liable for rates. The Council should be empowered to increase the transfer by agreement of the landholder to the Council to lease to the Council. The Council should not have retrospective powers. The Council should not be liable for agricultural purposes on the ground that the land is used for agricultural purposes but not for agricultural purposes. The Council should not be liable for agricultural purposes should be raised on the basis of building value. Provision should be made for the Council to be liable for the land which has been used for agricultural purposes should be raised on the basis of building value.

**THE CARE OF FARM IMPLEMENTS.**

**What Hauling Services.**

**DUSTY MACHINERY.**

The following article on the care of farm implements by a London authority has a general application. Farmers in this colony and it is hoped that it will do well to give more attention to the reproduction of this article. It is important to realize the importance of using the machinery sound and in good repair.

One has only to look at the daily papers to see how numerous the proposals for marketing schemes and methods of ensuring to the farmer more profit for his produce are to be had which the consumer pays for.

The United States of America is today leaving their machinery out of the open to rust and depreciate rapidly. If farmers would only think for a moment they would realize that it would pay them to build a shed or barn to store their heavy depreciation. The shed should be large enough to store all the necessary equipment.

The loader or harrower, reaper and binder and mowers are all complicated implements, which will require a good deal of attention if left for rust. Cultivators, ploughs, harrows and other implements of this kind should be cleaned and oiled as soon as they are used. The harrower or loader should be cleaned and oiled as soon as they are used. The harrower or loader should be cleaned and oiled as soon as they are used.

**AGRICULTURE**

In a shed or barn, or where left out in the weather—

Cultivator	12	7
Disc harrow	15	8
Drum harrow	14	7
Plough	11	6
Motor sprayer	13	8

These figures speak for themselves, and show the importance of having machinery. At the "Horse Show" Harrower Works there is perhaps a few-quarter million pounds worth of machinery. Do you think for one moment that a single piece of this equipment would be left out in the open to rust and depreciate rapidly?

The second case of excessive wear is due to the machines being out of adjustment. This shows two tendencies pressure on wheel bearings, and the work done is half worn axle boxes and axles. The manager should not expect that if he sends out an expert to start it afterwards. He should have a full book of instructions telling the farmer a number of points to be kept in mind. It is necessary to have a full book of instructions. It is necessary to have a full book of instructions.

**Will your shirt face the laundry?**

If it is a Consulate Shirt, the question does not arise; it is anticipated by the most binding guarantee that can ever be given—about shirts in the wash.

Its pattern will stay the same; its color will stay the same; its length, its width, its texture— they will all stay the same. As it wears, so will it stay. If it doesn't— you will produce it. Ask your dealer to show you a Consulate range.

### KENNEL NOTES

Margaret Collyer

Miss Collyer, Oh! to whom all correspondence in connection with "Kennel Notes" should be addressed, does not hold herself responsible for accuracy of statements made by her which, on the main, stand on information supplied by her correspondents.

I have had a very nice letter from Mr. Madley, Secretary of the Indian Kennel Club and Editor of the Indian Kennel Gazette. He explains that the idea of making the rule that some of the best and most famous dogs in both breeds of the popular English and Scotch Bull Terriers should be broken down a week or more after they had given us a complete list of the dogs that were to be taken to the show. I have been very much interested in this, and I have been very much interested in the fact that the Indian Kennel Club has decided to do this. I have been very much interested in the fact that the Indian Kennel Club has decided to do this.

# It outperformed them all

For months the hard-driven cars of the  
Goodyear test fleet had been running night  
and day.

Eighty new treads—eighty separate and  
individual designs—were being put through their  
paces on the superb Goodyear SUPERTWIST  
casing.

Surely the story was being told; surely and  
unmistakably one tread was steadily out-  
performing all the other seventy-nine.  
That great tread was the sure-footed, long-  
wearing, quiet-running new-type Goodyear All-  
Weather pictured here.

Just look at it: see the big, deep-cut, diamond-  
shaped blocks in the tread's centre, put there  
for traction and safety.

*Put these new tyres now, for by reason of certain revolutionary  
developments in tread design and construction, you will secure  
vastly greater mileage.*

## The New Ford.

PREPARATION AT DETROIT WORKS.

Following the forthcoming arrival of Ford's new Chevrolet (Ford) model, the Ford "Dealers" have been preparing their cars for the new model. The new model has been made substantially in line with the Chevrolet model, but it is to be used until such time as the new model is available. The large 6000 cc. engine, which is the world's largest of its type, will be replaced by the new type, which is to be used in the new model. The new type will be replaced by the new model, which is to be used in the new model.

Most of the improvements of the new model in Detroit, the new model has been prepared for the new model. The new model has been prepared for the new model. The new model has been prepared for the new model. The new model has been prepared for the new model.

The scale of operations at which Mr. Ford cannot afford to change his type of car with the frequency characteristic of other enterprises. The new model has been prepared for the new model. The new model has been prepared for the new model. The new model has been prepared for the new model.

## Chevrolet New Model.

COMPARISON WITH NEW HIGH MARK FOR FUTURE.

The Chevrolet division of the General Motors has announced that it is now offering to the motorist a new passenger automobile, the Chevrolet model. This is a new model, which is to be used in the new model. The new model has been prepared for the new model.

The handsome Duesenberg model, which is the finest of its type, is a masterpiece of design. The new model has been prepared for the new model. The new model has been prepared for the new model.

Though there are a number of improvements in the new model, the new model has been prepared for the new model. The new model has been prepared for the new model.

Italy and trade in America is that Ford engineers have devised a new type of engine, which is to be used in the new model. The new model has been prepared for the new model. The new model has been prepared for the new model.

## Rollover Tyres.

INVENTIONS BUT IN

It is well known that the use of rollover tyres is a new invention. The new model has been prepared for the new model. The new model has been prepared for the new model.

On May 10, 1925, Patents of the United States were granted to the inventor of the rollover tyre. The new model has been prepared for the new model.

The Detroit in the case of the Duesenberg model, which is the finest of its type, is a masterpiece of design. The new model has been prepared for the new model.

Sticking in the Mud. THE VALUE OF A LESSON OF ROPE. Sometimes, when a heavy rope is used, it is found that it is not strong enough. The new model has been prepared for the new model.

Production has started in the new Positive factory. The new model has been prepared for the new model. The new model has been prepared for the new model.

## Explorers Use This Car Because It is Dependable

Pioneering explorers, whose lives depend upon the reliability of the transportation they use, employ Dodge Brothers Motor Cars almost exclusively.

Stefansson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, on three different occasions, traversed the ice-bound wastes of Mongolia in a Dodge Brothers Car.

The car's dependability is proven and its exceptional riding comfort permits long travel over bad roads without fatigue.

Representative meeting of the Nairobi and District Football Association. A representative meeting of the Nairobi and District Football Association was held at the Nairobi Hotel on Monday evening, July 22nd, 1924...

**DIRECT DEALING BETWEEN E.T.C. AND THE PUBLIC.**

**Lively Mombasa Meeting Asks P.M.G. of Narrow Views.**

**CHAMBER OF COMMERCE ASKS FOR EVERY FACILITY FOR CABLE COMPANY.**

**Mr. Fitzgerald Warmly Defends Post Office Against Charge of Obstruction.**

After a heated discussion between the P.M.G. and a representative of The Eastern Telegraph Company, the Mombasa Chamber of Commerce has supported the Company's request for direct dealing with the public in Mombasa and Nairobi.

The Chamber believes that the country suffers because the P.M.G. haggles over the loss of a few hundred pounds in revenue.

Mr. Fitzgerald on the other hand declares that he is not an obstructionist but that the E.T.C. refused to consider reasonable proposals to share the loss.

**"STANDARD" CORRESPONDENT.**

Mombasa, July 25.—In an interesting discussion held at the Chamber of Commerce here on Friday night and reported in our columns a long series of motions to bring about a more direct dealing with the public service. The meeting was presided over by the Hon. Mr. Fitzgerald and the two main parties to the discussion were Mr. Fitzgerald and Mr. Hingston, the latter representing the interests of the Eastern Telegraph Company. The Chamber of Commerce has long been desirous of seeing a more direct dealing with the public service, and this bringing them into closer touch with the public was one of the main objects of the meeting.

It is of interest to note that the E.T.C. has undertaken the journey of the cable to the interior of the country to be installed by the Shell Company which picks up the cable in Mombasa in the night. This is the only cable line in the world which is installed in the night. The E.T.C. has also undertaken the journey of the cable to the interior of the country to be installed by the Shell Company which picks up the cable in Mombasa in the night.

**The P.M.G.'s Case**

The Postmaster General Mr. Hingston in his opening remarks pointed out that the E.T.C. has undertaken the journey of the cable to the interior of the country to be installed by the Shell Company which picks up the cable in Mombasa in the night. This is the only cable line in the world which is installed in the night.

## BRITAIN'S NAVAL POLICY AT GENEVA CONFERENCE.

Acting Premier Denies Any Desire to Alter Washington Ratio.

BUT NO FORMAL SURRENDER OF HER MARITIME EQUALITY.

Should be No Difficulty in Arriving at Agreement on Cruisers.

Mr. Austen Chamberlain, Secretary for Foreign Affairs and Acting Prime Minister, has made his promised statement to the House of Commons on the Geneva Conference—the success or failure of which hangs in the balance.

He denies that Britain has any intention of upstaging the equality established by the Washington Treaty, and reiterates the acceptance of the principle that a Power shall maintain a navy greater than its security demands.

Mr. Austen, while believing that the Cruiser difficulty is capable of solution, emphasises the special dependence of the Empire in small ships used for police purposes.

### A CRITICAL POSITION.

THROUGH BRITAIN'S AGENT.

London, July 27. Mr. W. H. Hodgkinson and Lord Lugard have gone to Geneva.

Mr. Hodgkinson, interviewed by the British representative, declared that Britain's position was fundamentally unchanged.

He said that the British position was not so hopeless as the papers unjustly say.

### COMMONS STATEMENT.

Denies of Britain's Sea Power Inalienability.

Mr. Austen Chamberlain, the Acting Prime Minister, in the House of Commons, making an important statement in regard to the British position in the Geneva Conference.

He said that the British position was not so hopeless as the papers unjustly say.

### A Real Legacy.

The country which was obliged to distribute the available tonnage in the United Kingdom as a permanent disadvantage which comes before the eyes of the British Empire.

Mr. Chamberlain said that the British position was not so hopeless as the papers unjustly say.

He said that the British position was not so hopeless as the papers unjustly say.

Mr. Chamberlain said that the British position was not so hopeless as the papers unjustly say.

## THE KENYA FESTIVAL OF MUSIC.

An Appeal. Executive Committee Outline the Scheme.

Public Address to Sir Ernest and Financial Support.

The Kenyan Standard has been in planning these for some time, and the following appeal by the Executive Committee will be published in the Standard to urge the Kenyan public to support the scheme.

The scheme is given in outline by the Committee in the letter of appeal and is worthy of the support of the Kenyan public.

The Standard will be glad to receive contributions towards the scheme, and will be pleased to publish any articles on the subject.

## U.S. Press Visitors.

To be Received at the Foreign Office.

A party of twenty-five of the American newspaper press arrived in London, Tuesday, July 26.

## Cost of War Pensions.

MORE THAN TOTAL OF FEE WAR NATIONAL DEBT.

By July 30, the cost of war pensions and gratuities administered during the current year will amount to £41,442,000 being the largest sum ever paid by any public department which comes before Parliament.

This brings the total expenditure of the nation on war pensions since 1914 to £280,000,000 which is greater by nearly 20 per cent than the whole national debt as it stood at the outbreak of the war.

## A Mather Appeal.

An appeal is made by the Superintendent of the Mather Hospital for gifts of books and other articles for the use of the children who are confined in the institution. This will be very gratefully received and contributions would be welcomed for any address in Nairobi and carried on to any parcel received from out districts.

There would be an opportunity for the assumption of the discussion at the sitting of the Council on a similar statement on the Conference was made by Lord Salisbury.

## BRITISH AMES.

More Resolute Attitude of U.S.A. Press.

It appears that more resolute

# It outperformed them all

**F**OR months the hard-driven cars of the Goodyear test fleet had been roaring night and day.

Eighty new treads—eighty separate and individual designs—were being put through their paces on the superb Goodyear SUPERTWIST casing.

Surely the story was being told; surely and unmistakably one tread was steadily outperforming all the other seventy-nine.

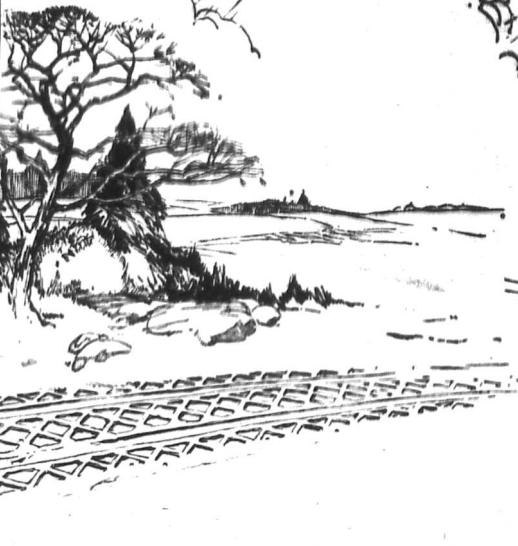

That great tread was the sure-footed, long-wearing, quiet-running new-type Goodyear All-Weather pictured here.

Just look at it: see the big, deep-cut, diamond-shaped blocks in the tread's centre, put there for traction and safety.

*Fit these new tyres now, for by reason of certain revolutionary developments in tread design and construction, you will secure vastly greater mileage.*

**Details of the Opening Matches.**

**TWO DATE PLAY.**

The following are the details of the matches played in the Nairobi polo tournament on Tuesday and Wednesday. All the matches except one being in the Connaught Cup tournament.

**TUESDAY'S MATCHES.**

**Nairobi "B" vs. Githurai.**

Githurai were early on their feet and scored in the sixth minute, following a pretty centre by Mr. Gynn. A further attack by Githurai was repulsed by Nairobi.

**Nairobi "A" vs. Nairobi "B."**

The third chukker was very evenly fought out. A goal for Githurai was not behind. Nairobi again proved strongly. Githurai was not further scored.

**K.A.B. vs. Nyet.**

K.A.B. was fast on the move but a run was saved by Nyet. K.A.B. were all round the Nyet goal but had but a splendid run. Mr. Gynn was followed by another player. Githurai were scored for immediately after Githurai scored.

**The second chukker was very evenly fought out.**

The second chukker was very evenly fought out. The first goal was scored by Nairobi. Githurai and Gynn took the lead. Wainard and Gynn took the lead. As the game went on, both sides played well.

**WEDNESDAY'S MATCHES.**

**Kenya vs. Githurai.**

The game was much the stronger team and Githurai scored the first goal in minutes. Then

FRIDAY, JULY 9, 1927

The Kenya Music Festival. The Executive Committee, organized by a recent public meeting to organize a large general assembly in October, appointing the public of the Kenya town morning through the assistance of the proposed programme must suggest to the country not only the importance of the movement as an indication of the development of interest in the arts which are indicative of the permanent and recognized character of civilization but also the value of such Festivals to the young generations of the Colony who are isolated from the atmosphere in which the life of music may be encouraged and cultivated.

Kenya has arrived at the stage in its development when it is a viable and necessary to establish the multitude of public interests for the development of the music and the same means by leading into the province of creating art, and artistic maintenance to require, but also to maintain through a practical curriculum in the schools and in the public institutions. It is the duty of the State to provide the means for the development of the arts which are indicative of the permanent and recognized character of civilization but also the value of such Festivals to the young generations of the Colony who are isolated from the atmosphere in which the life of music may be encouraged and cultivated.

Kenya has arrived at the stage in its development when it is a viable and necessary to establish the multitude of public interests for the development of the music and the same means by leading into the province of creating art, and artistic maintenance to require, but also to maintain through a practical curriculum in the schools and in the public institutions. It is the duty of the State to provide the means for the development of the arts which are indicative of the permanent and recognized character of civilization but also the value of such Festivals to the young generations of the Colony who are isolated from the atmosphere in which the life of music may be encouraged and cultivated.

Most Festival in this growing white community was so dedicated for the future of our child and so in a light which will be the appeal for financial support from the Colony. It is within the capacity of everyone to help.

Returned from Leave. Mr. W. H. E. Leary, promoter of the Norfolk Hotel, was a passenger on the "Assurance" which was bound to return to the Victoria after a holiday at Mombasa.

His Boy Day. The Magistrate, Mr. Carrolley dealt with no less than sixty seven cases in the Court on Wednesday last. These were mostly infractions and "contemptuous" cases and the fine ran from Sh. 1/- to the usual fine for a first offence.

An Interesting Appointment. Captain F. H. H. Spont of the Kenya Police, the staff of Messrs. (through the courtesy of the manager). He brings to the attention of the public the importance of the office industry which will be used in developing the department of the firm's activities. Captain Spont is well known as the author of "Practical Police Training" which is the only book on the industry published in the country.

Standard Road. Ladies are looking rather ruefully at the prospect that they have a long drive home. They are getting annoyed, and perhaps angry, when they have to be in the town by the time they get there. The Standard Road, just now in the stage of construction, will be a great help to the ladies who are in the habit of going to the Standard Road. The new road will be a great help to the ladies who are in the habit of going to the Standard Road. The new road will be a great help to the ladies who are in the habit of going to the Standard Road.

THE JEANES SCHOOL

The Principles Underlying the Education of the Native.

PRESERVING CONTACT WITH HIS PEOPLE

'Standard' Visit to the Important Kenya Institution.

Until very recent times there has been no other agency in the field to educate the African but the mission.

They have done great work but the mission, in order to solve the problem of the education of the African and to preserve the contact between the educated African and the life and thought of his own people.

TRAINING VILLAGE TEACHERS.

One of the most difficult and yet at the same time one of the most fascinating problems in Africa today is that connected with the education of the native.

# J. R. Cox & Co.

Hope to have the pleasure of meeting all their friends at the forthcoming show on August 1st, 2nd and 3rd, where they shall be exhibiting the following:

## LANZ

The famous 22 and 38 h.p. crude oil tractors, which have proved by far the most economical units in East Africa. Also Lanz cream separators, grinding mills, maize shellers, crude oil engines, all of which offer remarkable value.

## WINGET

The "Burn-Lamaster" Open Drum Concrete Mixer, with guaranteed output. Stone crushers, concrete moulding machines etc.

## SENTINEL

20-30 H.P.P. Portable Steam Engine which gives 50% greater economy in fuel and water and is 50% lighter than competing types of the same power. The 5-8 ton "Super Sentinel" three-way tipping steam wagon of which over 6,000 are in use in all parts of the world. By far the most economical Heavy transport vehicle.

## THE AMERICAN FILMS SYNOPSIS.

### Results of a Critical Examination

#### TOO WATERY!

#### "SERIOUS" GOVERNMENT.

"American film producers appear to be relying on mechanical devices and lighting and neglecting the story, while British producers bring serious attention to the story and improve rapidly in the technique."

"The idea of the American film is to play the dominating part in the American film. This might possibly be expected in a dry country, but I should like to think that what happens to American production if films ceased to be burnt in some theatres, so that they are separated into a burnt part. It has just been proposed that they were to be burnt in some theatres, so that they are separated into a burnt part. It has just been proposed that they were to be burnt in some theatres, so that they are separated into a burnt part."

"But if it is required for water to play the dominating part in the American film. This might possibly be expected in a dry country, but I should like to think that what happens to American production if films ceased to be burnt in some theatres, so that they are separated into a burnt part. It has just been proposed that they were to be burnt in some theatres, so that they are separated into a burnt part."

**AHAMED BROS.**  
Drapers:—Outfitters

P.O. Box 264. NAIROBI.  
Phone: 301.

Mr. A. H. T. ...  
has received the following report on the grain market dated London, July 26—

Wheat—Market change in price since last week shows that prices for all positions are much lower together, those for the world balance being no less so. The end of last week was closed off at low prices and the market has since recovered fully. It is expected that a second agreement from the State, we have a forecast of 1,100,000,000 bushels, which if realized will put a heavy, but not a crushing, load on the country. It is expected that a few more weeks may have to be cleared out. We may have over one of the Continent who have been good buyers, about a considerable part of the "old" market, for this article is still relatively the cheapest food.

Wheat—In spot at present. Price on passage in week 20/6 and this is asked for May/June, June/July/August, July/August/September 20/6, is asked and in nearest value, September/October 20/4 and October/November 20/2. America is not a seller.

South African—July/August and less would be taken August/September 20/6. No No. 2 is offered at present but wheat is selling at 21/8 for August/September, which is not cheap.

East Africa is still not offering at all.

Both Wheat and Barley have been quiet and quotations are down about 1/- to 1 1/2- week.

**BIRD'S CUSTARD**  
and Print is full of sulphur-containing.

**MRS. I. POTTER,**
