

# CENTRALIZED CHASSIS LUBRICATION SYSTEM

*on all new 1928 Model Buicks*

BUICK for 1928 has developed a centralized chassis lubrication system which makes it unnecessary to crawl under the car when greasing the chassis.

With this system all bearings on the chassis can be positively and easily lubricated in a few minutes.

All motorists who are familiar with the usual back-breaking business of chassis lubrication will appreciate and welcome this new development of Buick designers.

**TRADE OF THE PORT OF TANGA.**

**\$175,000 Imports and Exports in a Month.**

**WORLD CUSTOMERS**

The E. A. Standard is delighted to see the Secretary of the Tanganyika Chamber of Commerce for a copy of the Customs Trade Report for the port for the month of August.

The total value of imports during the month amounted to Shs. 1,211,942 of which amount 270 items were over the Shs. 100,000 mark, these being cotton goods, Shs. 206,500, and Iron and Steel Manufactures Shs. 103,384. Machinery is next on the list with a value of Shs. 90,032. Motor vehicles are next, Shs. 69,027 and Motor Spindle for Shs. 62,027 for Shs. 1,011 and Shs. 3,425.

Provisions, Cans and Grain, Flour and Sugar amount to Shs. 23,118 Shs. 27,124 Shs. 7,040 and Shs. 3,292 respectively. Value of tinware and tobacco amount to Shs. 41,425 and Shs. 35,000 respectively. Amount for a large firm representing Shs. 13,965.

**Exports.**

The total value of exports for the month ended was Shs. 2,042,273. Of this by far the greatest amount of any one article was 2,263 tons of steel which represented Shs. 2,122,750. 1,100 tons of coffee representing Shs. 111,273 is next on the list and is followed by 286 tons of copra amounting to Shs. 92,636. 2,666 cwt of maize and 276 cwt of of Rangoon rice for Shs. 20,559 and Shs. 16,143 respectively. Other items all below Shs. 10,000 are rubber, wool, hides and skins, ivory and kopra.

**Town Customs.**

It is interesting to note that for the month a record amount of mail went to Helmsby. 2,284 tons and that Kenya is next on the list with 201 tons. The United Kingdom leads both 119 tons, Kenya 91 tons, South Africa 23 tons and Holland 28 tons.

With the exception of Zanibar which accounted for 30 cwt, the remainder of the coffee was shipped through Germany and the United Kingdom the former taking 236 tons and the latter 312 tons.

Copra was divided between France 162 tons and Zanibar 42 tons.

**Woolly Produce Market Report.**

Wool, Tyson Brothers have received the following Market Report from London dated the 6th instant:—

**Cotton.**

The market shows a steady demand for good quality goods, but the day's sales indicates Shs. 144, 144 per cent for bold sizes as against Shs. 122, 122 per cent. Quality, however, attracts very little attention.

**Wool.**

We quote:—

A. size Good to Fine 110/12 to 110/12. Medium to Good 90/10 to 125/15.

B. size Good to Fine 110/12 to 120/15. Medium to Good 85/10 to 105/15.

C. size Good to Fine 110/12 to 110/12. Medium to Good 85/10 to 95/10.

Combed:—

Combed to Medium 70/12 to 85/12.

**Flax and Flax Tow.**

A full further working has occurred on this Market, about a rise of 2s per ton on last week's prices. Today's quotations are 6s per ton for Flax and 4s per ton for Flax Tow.

**Lined.**

No change. Price 415 per ton.

**Curried.**

Steady at 437 per ton.

**Sisal.**

This Market will continue dull. 67/1000 may be obtained for No. 1.

**Maize.**

Market firm at Shs. 35/- per quarter C.F.P. UK Continental Ports.

**On Leave.**

The following departures from Tanganyika on leave are notified in the current issue of the E.A. Standard:—M. C. Young, Surge-major and Clerk, Veterinary Department; E. C. Kari, Inspector of Works, (1st), P.W.D. (1st); F. J. Sheldy, M.B.E. (2nd), Inspector, Veterinary Services; J. F. Temple, Cadet, Provincial Administration; W. G. Parker, Telegraph Engineer; W. G. Webb, Stock Inspector, Veterinary Department.

**Our Snapshot Competition**

**To All Farmers**

The LANZ Tractor burns Diesel Oil at Shg. 0.84 per gal.

Other tractors burn Power Kerosene at Shg. 1.84 per gal.

No doubt you will have read the reports of the recent meeting of the Legislative Council and have duly noted that **Positively no reduction in Rail Freight on Fuel Oils may be expected in the immediate future.**

This means that prices will not be altered.

**Don't Worry or Write to the Papers. Write to Us**

And get to know more about the LANZ, or to one of the many satisfied users. Remember, that even if in the future, the freight on kerosene is ever reduced, Diesel oil will benefit in proportion.

**OUR WOMEN'S PAGE**

*A letter from Paris.*

and lace; while additional lace-trimmed sleeves of the same was a gown that was situated at the top. The dress was distinguished-looking ensemble proved that smart wear for warm evenings.

Mid-evening parties, although the period range of styles and patterns, show much smaller designs, in both material and color. The lively lace-trimmed dresses, however, in the better-known, universal choice of the elegant for the long light-weight coat that looks so essential for wear over light frocks and that looks so absolutely "right" when fashion of the beautiful material.

Coiffure decorations for the evening is best expressed in a jeweled comb or slender tiara. The taste fulfills are the choice of the latest; not of the really best and most of the beautiful material.

Concealed dress effects are seen in the ballroom as well as in the fashionable dinner-table. The different materials, on the same pattern are used. It is a good example to have a dress made of silk or heavy crepe de Chine and the other, side composed of the finest of georgette arranged so fully as to best suggest a crumpled line. The half-and-half dress is also to be observed in simple skirt dresses and blouses. A paper that is laid flat on the right side, long enough to reach the left side, from the center back to the center front, is full and loose on the left side, while the rest of the dress is fitted and close to the body. Sometimes the fullness and looseness are restricted by pleats or darts. The tailored dress, back has one side severely straight and simple, while

the other breaks, may copy into the folds or ruffles. I saw no fewer than five of the models in the ball room over a pale green satin frock. They were very beautiful, with those ornaments are made, and the models that other parties, however must be worn with them.

The mid-evening range of frocks is only what is to be expected of women in Paris and the fashion in black or semi-green wearing in the evening of the Made. A bright, all-over color hat is the required military mask. The multi-colored stockings that look like the "fish" stock are the correct history wear.

Large silk shawls are so much worn in Paris and the fashion and shoes must match. The "fish" stock are the correct history wear.

**ASSORTED CHOCOLATES**

"Dip" them at Home. Purchase a supply of continental, peppermint, vanilla, coffee, and nutmeg chocolates, to be taken at home. It does not mean that you will not enjoy them if not eaten at home. The chocolates will be perfectly fresh for a month.

Place tin of assorted assortment of chocolate covering in it about 24 hours in a cool, shaded place and seal very carefully in an airtight tin. Then, when the chocolate has become very soft, dip each piece into the chocolate and allow to set in a cool place for 24 hours. The finished chocolate should melt in the mouth as quickly as the softest very hot chocolate.

A Black lattice model, showing the new bottle effect achieved by the above draping of the bodice, which fastens down the back. White organza collar and cuffs complete a quantity picturesque toilet.

Get into shape, until it begins to show. Let your costume be ready to be worn, until it begins to show. Let your costume be ready to be worn, until it begins to show. Let your costume be ready to be worn, until it begins to show.

**Notice**

# **CENTRALIZED CHASSIS LUBRICATION SYSTEM**

*on all new 1928 Model Buicks*

BUICK for 1928 has developed a centralized chassis lubrication system which makes it unnecessary to crawl under the car when greasing the chassis.

With this system all bearings on the chassis can be positively and easily lubricated in a few minutes.

All motorists who are familiar with the usual back-breaking business of chassis lubrication will appreciate and welcome this new development of Buick designers.

# GRAHAM BROTHERS TRUCKS AND BUSES LOW COSTS

Low costs are a feature of Graham Brothers Trucks, Commercial Cars and Buses throughout their long, profitable lives.

Initial cost is extremely low for such high quality, because Graham Brothers build more trucks than any other exclusive truck manufacturer in the world.

Operating costs are low because of the low fuel consumption of the famous Dodge Brothers engine.

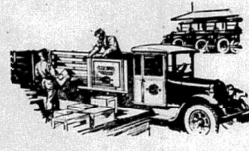

Maintenance costs are low because Graham Brothers Trucks, sturdy built of fine materials, seldom need repair—and because genuine, fully priced repair parts are always available when they are needed.

# MOTOR TOPICS

## THE NEW VAUXHALL

On View at the Olympia Show.

### A SIX-CYLINDER

During the past few months all sorts of rumours have been current with regard to what was to be expected from the Vauxhall factory for 1928 and many expectations to the works buildings have taken place. We were recently afforded a glimpse (says The Motor) of what has been going on behind the scenes, and while it is premature to give the full story, the following brief particulars will suffice to show the trend of events. New buildings have been erected, a very great increase in floor space, and large numbers of modern, automatic machines which have been installed. The whole layout of the manufacturing processes has been reorganised on a few principle and up-to-date additional buildings have been erected. Consequently, the factory is in a position to turn out the new car (which is known to make the advance in big quantities and, furthermore, a large number had already been built, so that when the car is shown at Olympia the company will be in a position to give immediate deliveries.

An extraordinary degree of care has been taken in the planning of the new works with a view to obtaining steady and continuous production of a high-grade product, and it is quite clear that full use is being made of the special knowledge gained in American factories in this branch of motor fabrication.

The components are each to be tested individually on the shops, so that when assembled to form a complete chassis, it is certain that each of them is up to standard. All bodies will therefore be constructed by the roll-over process to be finished by the roll-over process and have again a very rigid and strong body.

An interesting point is that every body, even through a dea-

period of rest immediately before it is painted, this procedure is taken because it is found that even a minute spray of oxide will grow in time, under the influence of moisture, and will eventually cause blisters.

### Tuning the New Car.

The new car has been thoroughly tested and various improvements during the past few weeks have been adopted to secure a Vauxhall model complying in all respects with the best at about 60 m.p.h. The engine appearance and bodywork this particular car does not, of course, in any manner correspond to a production model, it seems to us to be of sufficient interest to warrant the reproduction of a photograph.

The details of the chassis have formed a very clearly gauged sheet and have been revised only by a few people. It would interfere with the company's plan for their announcement were we to give them at the present time, but a fully illustrated description will appear in the Motor in due course.

Some strange and inaccurate reports have been going round concerning the chassis specification of the new model and it is noteworthy that the engine is of the cylinder type and that the whole chassis is designed with a view to extreme durability and good performance, while it incorporates many special features evolved as a result of the lengthy experience gained by Vauxhall Motors, Ltd., in the building of high-grade motorcars for many years.

## Cycle Tyres.

### PREPARATION FOR PUNCTURES

It is a matter for congratulation when a rider on a motor cycle is able to avoid a puncture, but it is a matter for regret when a puncture does occur. The best way to avoid a puncture is to use a good quality tyre and to keep it properly inflated. The best way to deal with a puncture is to use a good quality patch and to use it properly.

The removal of an obstructive valve is greatly facilitated by holding a lighted match below the valve. For this purpose the inclusion of a few non-safety matches in the kit is well worth while.

There are very few riders who look upon a really bad burst or split as an agreeable job, but it is a matter for regret when a puncture does occur. The best way to deal with a puncture is to use a good quality patch and to use it properly.

There are very few riders who look upon a really bad burst or split as an agreeable job, but it is a matter for regret when a puncture does occur. The best way to deal with a puncture is to use a good quality patch and to use it properly.

## NEW VEHICL

3 miles. Lintrux Station, 17 miles from Nairobi. Visitors can be met either before or after appointment. Delightfully situated Tennis Court, excellent cuisine. Terms moderate with special week-end terms. Under personal supervision of New Management. Apply Kirkpatrick, Lintrux.

whichever patch and possess the same high degree of tenacity. In order that a satisfactory repair may be effected by inserting a thick canvas garter inside it. When using these, however it must be remembered that unless prevented from doing so, the garter will, in the course of time, strip, thus exposing the inner tube. This difficulty is obviated in a variety of ways. One type has small metal spikes attached to the outer cover, which when forced into it, which, when forced into the outer cover, holds any tendency to move. In another instance, the face of the garter is specially treated so that when moulded with petrol, a highly adhesive surface is produced, and by the action is effectively sealed to the inner tube.

Although the old habit will be well acquainted with the value of the puncture-donut, perhaps these few tips may well save the average sportsman and his wife a few long, expensive and wretched hours.

A little goes a long way

KIRKWOOD & Co., LAND AGENTS, KITALE.

### JOINT EAST AFRICAN BOARD.

EXECUTIVE TOPIC.

#### A Mail Service Between Tanganyika and Mozambique.

Problem of Pardon Traffic in Uganda.

(STANDARD—CORRESPONDENTS)

London, September 12. The Executive Council of the Joint East African Board at their September meeting reported the Chairman (Sir Sydney Hill) to discuss with Sir Donald Cameron certain matters relating to the coffee industry in Tanganyika.

It was arranged that matters particularly interesting in Tanganyika should consider complaints that had been received so far by the High Government survey first charged in the Territory.

Other matters discussed in connection with Tanganyika were the proposal that mail services should be established between Tanganyika and Mozambique, and that the Government should take more active steps in the development of the mineral resources.

With regard to the latter, the Council felt that the Government was already doing all that was possible by granting prospecting concessions with the right to obtain leases. Information has been received that 90 prospectors are at the various concessions in the Highland areas in Tanganyika and that the various concessions have been expressed that there appeared to be no immediate prospect of the formation of a body representative of all opinions in the Territory.

The Council were informed that the Secretary of State did not consider that the objections raised against the Resolved Coffee Ordinance were of sufficient importance to justify the issue of an amended Ordinance at the present time, but that the working of the existing Ordinance would be watched and the whole matter reconsidered at a later date.

It was reported that the Board had been asked to report upon the Government the necessity of constructing a road in Uganda from Kuluho to the Indian Ocean. The Council felt unable to take any definite action on the matter although the proposed road would be for the benefit of the Belgian Congo. Furthermore in view of the financial stringency in Uganda it was considered that all financial proposals should be devoted to the development of industries in Uganda.

The Chairman announced that he had received certain communications regarding the proposed railway extensions in Uganda and it was decided that the whole question should be referred to the Transport Committee.

Another matter concerning East Africa was the suggestion that British Captives held on parole reported from Uganda should be refunded. It was recognized that the practical difficulties were very great and the Chairman was unable to appoint a committee to enquire more fully into the proposal.

The Council were informed that the theft of coffee in Uganda had become a very serious matter and that a similar position was arising in Kenya and Malawi. The opinion was expressed that the existing laws regarding the matter were not sufficient and it was suggested that steps should be taken to amend the law.

STANDARD STATIONERY STORES, NAIROBI.

SQUATTER CATTLE AND CONTROL OF TREAT.

Points of View from Donjo Sabak.

DIVERSIFIED CONDITIONS.

'STANDARD' OVERSEASERS.

Donjo Sabak, October 7. For many weeks past there has been nothing of interest to report from this district. The dry weather has continued according to plan, and conditions have been unexceptionable so far. The coffee has filled and ripened with a fine crop, and the rubber plantations have given their first dividend... The bulk of our coffee has now been harvested, and the earlier shipments from this district are, as usual, taking a high place in the London sales lists.

Squatter, Cattle.

The correspondence in your columns on the subject of squatters' cattle and the intensive programme set on foot by the principal districts with the view of inducing Government to prohibit such cattle on European farms have been exercising the minds of local settlers.

Impressive Demands.

Conditions differ markedly in the various districts of the Colony. We too, under the native stock control, are under the same government but in nearly every respect receive and native respect, and between farm and farm, so that the absolute legislation is impressively demanded by certain stockholders, who, locally not even able to the purpose itself.

WOMAN WHO SHOT 7 LIONS IN ONE TRIP.

The death of Mrs. Franklin, wife of one of the British agents in the East African Protectorate, is reported to have occurred in a lion hunt in the East African Protectorate.

Charged by a Rhinoceros.

Mr. Dalziel, a rhinoceros hunter, is reported to have been charged by a rhinoceros while on a hunt in the East African Protectorate.

An increasing number of people are being driven from their lands beyond Kilifi in search of employment. Few, one imagines, have been so fortunate in the quest than a much respected local settler, who, planting coffee and sisal, is also well known as a consulting engineer. In the fruits of a long and successful career, he has now found himself being driven from his lands beyond Kilifi in search of employment.

It may be of interest to recall the amount of the loss which was probably the first occasion upon which the East African Standard was published. The year 1935, when great Elizabeth was queen, conducted an early voyage of English merchant vessels to the coast of East Africa, and it is interesting to note that the first of these vessels, the "Standard," was a ship of 1,000 tons, and was built in London.

Brave Huntress Dies.

How often have we stricken places with the name of a woman, or even a household, but with the modern high velocity rifle, and they have gone away from our minds.

## "STANDARD" FEATURE PAGE

### "STANDARD" SPECIAL CORRESPONDENCE

Some months ago it stated that the Government would probably drop the Capital Levy and adopt the policy of a 'tax-free'.

It is interesting to note that the Government in October, the delegates will be invited to pass a resolution formally making the change. People who dislike the idea of a Capital Levy are not an ill-disposed towards it because on unaccounted incomes expending are limited to those which, in the past, not forward.

At a luncheon before Mr. H. E. Longbottom is largely responsible for it, but he believes that he will bring in over 500,000 annually. It is interesting to note that the Government has taken up the idea of a 'tax-free'.

### A Great Omen

It is understood that at the end of this Parliament Mr. J. D. Whiteley the Speaker will resign. In respect of the Government, the Speaker will resign.

Mr. J. D. Whiteley.

These remarks, for Mr. J. D. Whiteley has shown himself to be a great House of Commons man, not merely a successful Chairman, but a determined defender of the rights of Members and of the House as a whole.

Since this has been an important Committee office in—first as Deputy Chairman of Ways and Means, then from 1911 to 1913 Chairman and, since 1913, Speaker in addition to a Liberal, he has for nearly twenty years represented the House in Parliament. Not much of a splendid speaker but he is recognized as the Chairman of the Committee which

was held and that brilliant short story, 'The Great Days' by the late Sir...

### The Strand

The Strand has a particular attraction for the public because of its location in the heart of the city. It is a beautiful street with many shops and houses.

### The Pygmy Dances

If there are any ancient people in the world who have been forgotten, they are the pygmies. They are a small race of people who live in the mountains of the Congo.

The Strand.

over the Indian Ocean, made it their province, and gathering ships, sailing up and down the coast, and particularly the Indian Ocean, they are, like the other peoples, and will remain.

### On-Look-Us Pleased.

What the Army Chief thinks of the new motorized army which can take men into battle at thirty miles an hour, and does not need a single horse, I do not pretend to know, but I am sure that one man at least will be pleased that the tanks in which he was formerly carried in their early days have been so greatly developed.

That man is Sir Ernest Bouverie, once the Assistant Secretary of the Committee of Enquiry into the Army, and now a Professor of the Royal Institute of Defence Studies. He always had faith in the tank, and now his faith is well justified. The new motorized army is a great step forward, and it is a pleasure to see it so well developed.

### King's Palace as Bus Stop

The popular omnibus stop in London is that which is known as the King's Palace. It is a very convenient stop, and it is a pleasure to see it so well developed.
