

Turn the key!  
and your Buick

is  
**Double  
Locked**

No lock could be safer! One turn of the key locks both *ignition and steering wheel*. But merely turning off the ignition *does not* lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.

And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.

The Buick double-lock is an exclusive Buick feature — one of many important refinements which characterize Buick for 1928.

MADE IN ENGLAND

them in expressing my entire agreement with the views you have indicated. It is that where such a central role will open every African collaborator throughout Uganda should be given complete and unqualified security of tenure of that sort of the tribal lands in which he has traditional and customary rights and which he can himself with his family occupy and develop. I use the word tenure, but what I have in mind is a right which falls short of freehold, resembling only in respect of restrictions which should be imposed for the general welfare and as well as in the interests of the occupier himself, an indeterminate alienation whether by way of sale or mortgage.

Without such individual security it is not believe that any permanent progress in agriculture will be achieved by the native population and such individual security, even though it was liable to be distributed by the caprice of an arbitrary and despotic ruler, is as much in accordance with progressing native ideas and custom as it is with our own. And I believe that similar views are held by the Governments of Kenya and Malaya as far as I am concerned from public pronouncements on the question.

That is one essential condition of material progress, but there is a fundamental factor without which men will have no stimulus to avail themselves of the conditions of security which are provided for them to that end. In the long run nothing will serve to bring about the development of their own land by population of this country except that desire for a higher standard of life and civilization and these will be satisfied only when only education will ensure that only a highly trained system of education that is not merely for the people but for the people who will direct towards the goal which will provide the stimulus of our greatest value to the country as well as to know to this matter to me as I hope that the United States that we have taken on the right hand and the right direction.

**The Railway.**  
I hope gentlemen that our Chairman was wisely prescient when he expressed the hope that the Government would be able to do so. I am sure that you can only say that we have had and are having the most successful of the High Commissioner of Transport and the former Minister of the Railway and that we have had the most successful of the High Commissioner of Transport and the former Minister of the Railway and that we have had the most successful of the High Commissioner of Transport and the former Minister of the Railway.

In a reference to the Kenya Railway, I am sure that you will be able to find that the Government has been able to do so. I am sure that you can only say that we have had and are having the most successful of the High Commissioner of Transport and the former Minister of the Railway.

It is a pleasure to be able to find that the Government has been able to do so. I am sure that you can only say that we have had and are having the most successful of the High Commissioner of Transport and the former Minister of the Railway.

READ WHAT THE S. & MEDICAL RESEARCH INSTITUTE HAVE TO SAY.  
THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH  
Conducts an Exhaustive Test and PROVES THE VALUE OF KOMO.  
With many years practical experience Medical Authorities have been investigating the merits of spraying fluids as a means for the destruction of flies and other disease-carrying insect pests.  
Recently the South African Institute for Medical Research conducted a series of experiments in which were tested a number of Spraying Fluids, and in making this investigation the efficiency of KOMO as an insecticide was taken as the minimum standard at which to aim.

It was found that some 24 fluid ounces of KOMO—the quantity suggested by the manufacturer—definitely killed every fly in a room of 1,000 cubic feet within three hours from spraying.  
ALTHOUGH NO LESS THAN THIRTY THREE LIQUID OUNCE PER CUBIC FOOT, USED IN THESE EXPERIMENTS, KOMO GAVE BY FAR THE MOST SATISFACTORY RESULTS.

## New lines ~ New Colors and a host of other improvements

IN ADDITION to introducing a new order of elegance, style and distinction into the field of low priced automobiles, the most beautiful Chevrolet also represents a marked mechanical advancement. Examine any one of the seven attractive models and you will find so many improvements that you will be literally amazed.

Improvements that contribute to even longer life, greater dependability and finer performance! Improvements that assure more pronounced economy, easier operation and a keener sense of owner satisfaction. Improvements that place Chevrolet far ahead of any other car in its price class.

We are holding a special showing of the new models. May we urge you to visit our showroom and study the cars? From the new larger radiator shell to the new automatic stop light, you will find new and finer construction, new and more desirable features—features that will give you a new idea of what the buyer of the low priced car has a right to expect for his money.

A new selection just received.

**Lock Agony.**  
During yesterday morning a woman in Nairobi that her car had been stolen what she had been told by her husband's story. On the suggestion of the P.C. she should look again and if she was unable to find the car she should report the loss. She had a description to Police Headquarters the lady deposited. The car was later yesterday no report had been received.

**The Government Bill.**  
The Government is explaining the new Petroleum Bill in the offering to the Council. It is suggested that the Bill should be passed by the Council as the Bill contains a provision whereby the Local Authority had a right to charge 2.50 for permits and the fee had to be paid into the general revenue of the Colony. The Council said they had no objection to the Bill but they said that they should have the money if they imposed the charge.

**Coffee Prices.**  
A cable received on December 27 from C. C. Mendenhall, Agent for Messrs. T. H. Allen & Co. of London reads—  
"Coffee market generally is dull. East African kinds are scarce. Kenya offered in auction during the week 1,000 bags of which 750 had a value of £4.0. Kenya amount 132. Value of Fine-Kenya was £145. Value of Standard Kenya 1st size 198. Value of Fine-Tanzania size 195."

**To-night's Aero Dance.**  
To-night all outfits will lead to the City Park where they are sponsored by the Aero Club of Kenya will commence at 8.0 p.m. There are many attractions a good floor, the K.A.R. Band, and a full programme of dancing. The Aero Club's Tannara Road has recently been improved and is now in an excellent condition. With a full programme, the City Park should prove to be a beautiful setting for a bright and merry evening entertainment. Tickets will be obtainable the evening of December 27 at the Standard in North-Western Road or in the evening at the Club.

**Supreme Court Building.**  
In the course of a letter to Justices of the Peace, Mr. Justice at present in England says that it is his hope that a copy of your widely circulated paper, to bring to the notice of the authorities the state of the Supreme Court buildings in Nairobi. The fact that the building is merely a few feet above the ground and is a shoddy structure is a matter of which Mr. Justice is very much surprised. He says that the building is shoddy and that the judges, who are not at all satisfied with the present state of the buildings, are very much surprised at the amount of the structural condition of the law Courts. I know from my own knowledge that one of the Judges in Nairobi does feel very sorry over the shoddy state of the buildings in which he is required to work during the day. It is the hope of those who have not been given a shoddy house to live in.

**PROSECUTOR.**  
The Town Planning Commission's preliminary report on the proposed changes in the Nairobi Town Planning Act, 1928, was presented to the Council on December 23. The Council approved the report and the Commission will now proceed to prepare a draft of the proposed changes. The Commission's report is a comprehensive one and covers all aspects of the town planning problem in Nairobi. It is a very valuable document and should be read by all those who are interested in the future development of Nairobi.

Private Bridge Scheme for Mombasa and the Mainland.  
OPENING UP NYALI ESTATES.

£70,000 Scheme with the Approval of the Kenya Government.

negotiations are now practically completed for an important development by private enterprise at Mombasa which, it is generally believed, will be the first step in the development of a new Durban of the East Coast—a planning scheme with bathing beaches and longhouses and all the attractions of a modern seaside resort.

The bridge to extend over the Nyali Estates on the mainland and the outlines of the proposal are set out below.

A SYSTEM OF TOLLS.  
It would prove an immense boon to the district, and would naturally raise the present congestion and delay in the area, and would be a valuable asset to the Government.

The design for the proposed project is such that the proposed bridge between Mombasa and the mainland will be a toll bridge, and will be a valuable asset to the Government.

There is a number who are interested in the proposed project, and it is hoped that the Government will be able to carry out the scheme.

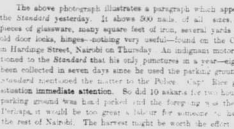

Ceremony in a Charming Home Setting.

BOWEN-BALLOWS

A very pretty wedding was celebrated at Ruira in December 7, the contracting parties being Miss Maria Francis Holloway and Mr. Leonard Reginald Bowden-Bowen.

The ceremony took place at 11 o'clock in the morning at the residence of the bride's father, Mr. H. H. Bowen, at Ruira. The bride was accompanied by her father and mother, and the groom by his parents and two bridesmaids.

The bride's mother is Mrs. M. J. Bowen, and the bride is Miss M. J. Bowen. The groom is Mr. L. R. Bowen-Bowen.

The above photograph illustrates a picture which appeared in the Standard yesterday.

STANDARD CORRESPONDENT.  
In London, December 6, the House of Commons held a special sitting in reply to Mr. J. H. Hubert Lee, a Member of Parliament, who stated that the Government had recently expressed his own views on the subject of a Central Authority to deal with the running of the Railways in Kenya, Uganda and Tanganyika.

The question of authority from the Home Government therefore did not arise.

The above photograph illustrates a picture which appeared in the Standard yesterday. It shows a woman in a long dress, likely the bride, standing in a field or garden.

OUR RESPONSIBILITY GRASSES ON DELIVERY TO BALANCE

**GOOD CONCRETE REQUIRES GOOD Notice.**

With all persons having claims against Mr. A. N. Erwin and the late Mr. H. E. Hoyle of Kinamba in connection with the farming business, they are invited to come in their partnership together at Kinamba, please submit full details of such claims to the undersigned on or before the 15th January, 1928.

## CORRESPONDENCE

**THE EDITOR DOES NOT ACCEPT RESPONSIBILITY FOR THE OPINIONS EXPRESSED BY HIS CORRESPONDENTS IN THESE COLUMNS. HE WILL, HOWEVER, BE GLAD TO PRINT THE NAME AND ADDRESS OF THE WRITER OF ANY LETTER, AND WILL, NECESSARILY, BE OBLIGED TO TRIM IT TO A GUARANTEE OF GOOD FEELING. HE WILL, HOWEVER, BE GLAD TO ENQUIRE CONCERNING IT.**

**KENYA FINANCES**

**As the Editor, "E.A. Standard," is gratified to note the prominence afforded by your paper to the financial problems of this Colony. But in the other hand, it is not greatly to be deplored that you should have given so large a space to the controversy over the proposed extension of the tax upon motor vehicles.**

**We have at the moment no special matter to lay before you, but the period of the tax upon motor vehicles is of such importance that we cannot ignore it. It is a subject which has already been discussed in your issue of the 12th inst., and it is not surprising that you should have given it so large a space.**

**Monday 19th December**

In experiments conducted in growing coffee recently carried out it was found that the best results were obtained from a mixture of the following fertilisers in equal quantities per acre: 230 lbs. Sulphate of Ammonia, 150 lbs. Muriac of Potash, 200 lbs. Epsom.

It was found that the trees were far healthier, the crops bigger and the quality of the coffee berries better than in any other way. We carry stocks of Epsom, Sulphate of Ammonia and Muriac of Potash.

"KENYA CALLING"

Wireless Signals Exchanged Between Kabete and London.

TESTS BY THE BROADCASTING COMPANY.

Telegraphic Service in January and Broadcasting in Three Months.

During the past week the British East Africa Broadcasting Company has been carrying out tests and established satisfactory communication with Great Britain, where the Nairobi station was kept for the first time.

The telegraphic service is expected to be ready for use in January and work will then be concentrated on the completion of its broadcasting station which it is anticipated will be operating at the end of three months.

A 24-HOUR SERVICE.

During the past week extensive tests were carried out between London and the East Africa station. The tests have shown that the service is capable of operating 24 hours a day. The tests were carried out during the week-end and the results were most satisfactory. It is expected that the service will be ready for use in January.

personally. This is the reason why the tests were carried out during the week-end. The tests were carried out during the week-end and the results were most satisfactory. It is expected that the service will be ready for use in January.

# Turn the key! and your Buick

## is Double Locked

No lock could be safer! One turn of the key locks both *ignition* and *steering wheel*. But merely turning off the ignition *does not* lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.

And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.

The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928.

### ACROSS THE LAKE.

#### Improved Organization for Cotton Season.

**["STANDARD" CORRESPONDENT.]**  
Kampala, Dec. 9.—The twenty-fourth Annual Dinner of the Calcuttina Society was held in the Imperial Hotel, Kampala, on Wednesday last, November 30. About 100 ladies and guests were present and both the dinner and the evening were a great success.  
Mr. J. E. Calvert, president, occupied the chair, and in reply to his toast "The Land We Live In," His Excellency Sir William Gowers made one of the finest speeches that has been heard in the country for some time. His Excellency spoke for nearly an hour but most of us at the dinner would he could have gone on longer, for actually the time did not seem anything like an hour.

#### Obituary.

A very much regret to announce the death here of Captain Turner, a new arrival in Uganda and who I understand, his relatives in Kenya. Captain Turner came on a visit to this country and was about to take up an interest in land in Toro, when he tragically died on his way to Kampala to settle such negotiations as were necessary, when the end came.

#### Notes.

There is no further change to report in the state of the coming crop, though a better feature of season seems to prevail generally throughout the lower Nile valley, due to the formation of the Uganda Fertilizer and Phosphate Association. This Association is certainly here these days and we are informed that most of the ginners in the Province have been lulled and lulled.  
Meetings are being held frequently and extensive arrangements are being made for the division of the cotton in proportion to the size of each ginner's. A lot of work and organization is necessary, but as we said before this is in the hands and those responsible are getting right down to it. The crop I think will come on to the market at about its usual quantity or about at least know people have right all the many projects have been.

#### A Club Dance.

A most excellent dance was held at the Kampala Club on Saturday

last, the music at which was provided by the K.A.R. band. His Excellency the Governor was present and also a large number of people both from Kampala and Entebbe. Dancing commenced at a quarter past nine and went on until twenty past ten. In spite of a very warm night, a most enjoyable evening was spent and very few of those present found it too hot.  
Another dance, which promises to be very good, is the Kampala Sports Club Dance to be held in the near future. This is to be a fancy dress affair and prizes will be given for the best costumes. A good many people are expected to appear and the fun is bound to be fast and furious.

#### Sitting on a Volcano.

WARM CONDITIONS IN UGANDA.

#### ["STANDARD" CORRESPONDENT.]

Kampala, December 9.—The weather here gets hotter and hotter every day and whatever the cooling devices may have had, we ourselves have had abnormally little rain this past month. At the moment of writing, the weather looks more settled than ever and I fear that we are going to enter into our dry spell without even having had a moist one. The tendency is that of dust and it is almost impossible to see across the road after a motor car has gone by. What it will be like in another month or six weeks, I should like to think. Meanwhile the mornings get hot, the afternoons are positively stifling and the nights sultry. Just a few days ago, however, the temperature there was 92 in the shade yesterday and we have something to be thankful for.

Meanwhile I understand that they are getting observers in other parts of the world. It makes one wonder what is the matter with the world and what is going to happen in the future. Also, whether it is wise of us to go on making things in what is one of the most volcanic parts in Africa and only ignoring it. The above and only ignoring it. The above and only ignoring it. The above and only ignoring it.

KO MO The Insecticide. IT POSITIVELY KILLS FLIES, FLEAS, BUGS, ANTS, HOACHES AND MOSQUITOES. READ WHAT THE S. A. MEDICAL RESEARCH INSTITUTE HAVE TO SAY. THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH Conducts an Exhaustive Test and PROVES THE VALUE OF KO MO FOR many years past eminent Medical Authorities have been investigating the merits of spraying fluids as a means for the destruction of flies and other disease-carrying insect pests. Quite recently the South African Institute for Medical Research conducted a series of experiments in which were tested a number of spraying fluids, and in making this investigation the efficacy of KO MO as an insecticide was taken as the minimum standard it was to aim.

It was found that some 10 cubic ounces of KO MO—the quantity suggested by the Manufacturer—definitely killed every fly in a quart of 1,500 cubic feet within three hours from spraying. ALTHOUGH NO LESS THAN THIRTY-THREE LIQUID SPRAYS WERE USED IN THESE EXPERIMENTS, KO MO GAVE BY FAR THE MOST SATISFACTORY RESULTS. Vide "Journal of the Medical Association of South Africa," July 27, 1927.

WHAT IS A GOOD CAR? 49

What the Buyer Really Needs.

MENTAL EASE.

Dealing with the subject of the lightest cars which are now being popular as American motor trucks popular in the service. What is a good car—means for easy work in the service. Most people don't know that you have thought it out. A good car is one which allows you to work with ease. After all that is what everybody wants—freedom from the salesman can tell you all about the safe and light and strong. The main trouble is the gas, the oil, the maintenance, the service, the maintenance, the maintenance, the maintenance, the maintenance.

ing. That's the other fellow's business. What you want is a result. You are buying satisfactory transportation, and the car which delivers that is a good car. You are spending your money for daily transportation and from here and there with the regularity of clockwork, comfort and cleanliness and getting freedom from maintenance, noise, and mental ease. Mental ease is not possible without physical ease, so you want a car that runs itself as your lightest touch. It is your thought and easy to control that it seems to answer your thoughts and control your hand and feet. The means physical relaxation and mental ease.

Buy a car on demonstration. They think it is easy to see and go—good place in it, wide angle of vision, so that you can see the car perfectly, and send your eyes see them unconsciously. They are used with any kind of motion, and small clutch and do some something that you can get used to naturally as when walking and get out of a car without excitement.

How does the ride make after miles? Is it comfortable and quiet? Is vibration strong? The cylinder reduce gear shifting and if the clutch operates easily you are a lot of lag by this combination. How easy is the work of your eyes about convenience of adjustment? Think about the things that might cause you worry. Try them out on the car you have in mind and if you are satisfied, refer to those points that can be a good car for you.

Performance is the outstanding feature. It makes for the car. Now performance is the result of maintenance with your eyes. Now we do not want to call maintenance with your eyes. Now we do not want to call maintenance with your eyes. Now we do not want to call maintenance with your eyes. Now we do not want to call maintenance with your eyes.

are willing to consider the type of car that will come out. That makes it easy. The only type of car that will give the type of performance desirable today is the cylinder car. There need be no further argument on that score because wherever you go, the best performance car on the road today we see cars of at least six cylinders doing the performing. There are too many big and little six-cylinder arguments to name, and for anything else to have much chance to show up. We will share up our hands right now.

One other thing is just as vital as without disturbing your mental ease—the six-cylinder argument. It is obvious that the best motor has to pull a big good deal more work than the four cylinder. It is obvious that the best motor has to pull a big good deal more work than the four cylinder. It is obvious that the best motor has to pull a big good deal more work than the four cylinder.

Remember the old pocket book. A light car that can never take its power is common. The heavy front end of such a type is a good car and the right car to buy. When you come to think of it, what is good for the driver and the passenger is good for the car itself. Remember that for the car itself there is one day. The chassis and the body take the first shocks. What you get is essentially the car as you can imagine in some cases what purchase the car must take. In the other hand it is easy to see that a car in which the chassis is weak is a car that is weak.

The driver's motor in a light chassis gives you the results as far as driving units are concerned and a chassis light but tough holds in the first place is done not offer the resistance in its equilibrium of surface that heavier cars do. In the second place it is more flexible.

Two other points are important for consideration in a good car. First, one must be ready for any weather. There is nothing more irritating than to be caught with inadequate protection in a storm. You feel that one might not be comfortable sitting out in any temperature. The closed car in the proper choice for unvarying protection of mind. A spindly type in this respect is the convertible car. If an open type is selected, top and side curtains should be well fitted and easy to handle.

Appearance is the factor most usually considered in the choice of a car, although other things add to comfort. While the owner is usually made aware, figuratively, the owner is himself as others see him. Still he is very conscious of the effect upon others. He wants to feel proud of his appearance. If he can look directly at him can have little peace of mind. Stream line and rich colors are now universally recognized as good taste. Look for them. A good feeling car is a good car for you.

THE ROADSTER For You, Tomorrow

**New Lines, New Colors and a host of other improvements**

IN ADDITION to introducing a new order of elegance, style and distinction into the field of low priced automobiles, the most beautiful Chevrolet also represents a marked mechanical advancement. Examine any one of the seven attractive models and you will find so many improvements that you will be literally amazed.

Improvements that contribute to ever longer life, greater dependability and finer performance! Improvements that assure more pronounced economy, easier operation and a keener sense of owner satisfaction. Improvements that place Chevrolet far ahead of any other car in its price class.

We are holding a special showing of the new models. May we urge you to visit our showroom and study the cars? From the new and larger radiator shell to the new automatic stop light, you will find new and finer construction, new and more desirable features—features that will give you a new idea of what the buyer of the low priced car has a right to expect for his money.

# Run Your Transport On Sound Lines

Transport owners should carefully study this:

**"The Laws of Mechanical Transport as applied to operating Costs."**

- (1) The cost per day will vary with the miles travelled per day. The cost will increase as the daily mileage increases.
- (2) The cost per mile will vary with the miles per day. The cost will decrease as the daily mileage increases.
- (3) The daily cost per ton will vary with different vehicle capacities and the distance travelled. The cost will decrease with the increase in capacity and it will decrease with an increase in daily mileage.
- (4) The cost per ton mile will decrease as the capacity increases, and decrease with an increase of daily mileage.

YET no doubt every individual records of the turnover, expenses and profits of the various departments of his business as being the only reliable method of finding whether savings is occurring. Why not adopt the same practice with the various motor vehicles you use, probably the motor vehicle of first-class design and manufacture comes over in the saving offered in running and maintenance costs throughout its life.

**And then consider this:  
"An 8 ton pay load hauled at an average speed of 20 M.P.H.**

Increased Capacity. Increased daily mileage.

## The Albion 4 Ton Rigid Six Wheeler and 4 Ton Trailer

Low Cost per ton Mile.

The advantages of the Rigid 6 Wheeled Vehicle.

- 1. Economy in Running and Maintenance. 9 m.p.g. per gallon for fuel.
- 2. High speed in proportion to load carried.
- 3. High tractive power, enabling vehicle to negotiate wet, mud, sand and other two gradients on virgin ground.
- 4. Four driving wheels under load.
- 5. Increase in load capacity for a given size weight of load divided over 6 axles.
- 6. Big towing capacity, as much as 2100 lbs.

### A PRIEST'S DEADLY INVENTION.

Harzard of a New Explosive.

#### COMBUSTIBLE AIR.

A German priest who claims to have perfected an explosive far superior to dynamite, had public demonstrations on a mountain summit in the town of Munich, near Nuremberg.

He is the Rev. Johann Braun, a Catholic parish priest in the town of Munich, near Nuremberg.

Father Braun has already taken out twenty-one patents for his explosive and in his lecture he explained that he first began to experiment during the war when every available man was required to find a more deadly weapon.

He continued his work after the war and was twice, actually in jail before he was able to perfect his experiments.

Father Braun who explained that his invention was based on the principle of liquid air and as a consequence he had applied for a patent in Germany and in other countries.

#### Large Orders.

This he emphasized was of vital importance to armaments and ammunition dumps which would be well placed to attack from a secret in the near war.

Experiments which have been conducted in Germany, he said, have proved the value of this type of explosive, and I have already received large sums of money for it from German coal-mines who now use it in their blasting operations.

Father Braun has also applied for another patent at Washington for his explosive and is waiting for the patent to be granted.

When an airplane is in danger he explained, the pilot or passenger may compress a little bit from the machine.

Once clear, the air pressure in tubes, a new type of firing and which is filled with a mixture of gas, and the air flows quickly to earth.

Father Braun has given all the details of his invention to the Italian Government and he has received the Italian license to Catholic churches in Germany.

### UGANDA DISCUSSIONS ON FEDERATION.

Preparing to Face the Inevitable Development.

#### STANDARD CORRESPONDENT.

Kampala, Dec. 6. There were two meetings this week on the subject of the Union of the Chamber of Commerce and the Uganda Association.

At both meetings there was a tendency to hold back on account of a feeling of uncertainty as to what type of Federation was likely to be proposed or offered.

Several opinions were expressed, however, and the general feeling seemed to be that Federation was bound to come sooner or later and that the country had better get down to its duties, and put on paper what it did want and what it did not. There were also particular points which were raised at both meetings which seemed to be the main idea of Federation.

It was in the end, after much discussion and deliberation, that the Chamber of Commerce and the Uganda Association agreed to send a joint mission to the Government to discuss the matter.

#### England's Thanks.

Gifts to a peasant for rescuing a miner.

The members of the staff of the British Legation in Vienna attended a special meeting of the town Council recently and made provisions for the gift of a sum of money to a peasant who gallantly rescued a miner from the jaws of death.

When the news of the rescue was received, the town Council, who had in the meantime been holding a meeting, decided to give the peasant a sum of money.

Once clear, the air pressure in tubes, a new type of firing and which is filled with a mixture of gas, and the air flows quickly to earth.

Father Braun has given all the details of his invention to the Italian Government and he has received the Italian license to Catholic churches in Germany.

**CORRESPONDENCE**

The editor does not accept responsibility for the views expressed by the correspondents in these columns, and in all cases the names and addresses of the writers must accompany a letter, not necessarily for publication, but as a guarantee of good faith. Privacy is also reserved to the editor.

**THE CROWN AGENTS**

To the Editor, "E.A. Standard"—Sir:—In a recent article published in the Standard of the 2nd December, you have stated that any special qualifications are required to possess very special qualifications and that you do not know what such qualifications are, but that you do not know what such qualifications are, but that you do not know what such qualifications are.

**THE ORIGIN OF MAN**

What the origin of man is, and how he came to be on this planet, is a question that has long interested the human mind. The theory of evolution, which suggests that man is descended from a lower form of life, has been widely discussed in recent years.

**A GOVERNOR'S PERSONAL OPINION**

It is a pleasure to receive the personal views of the Governor on any subject of public interest. The Governor's opinion is always given in a frank and candid manner, and is of great value to the public.

**MOTOR CARS**

The motor car has become an essential part of modern life. It provides a means of rapid and comfortable transport, and is particularly useful in a large city like Nairobi.

**M. R. de Souza & Co.**

Our Xmas stocks have now arrived. They include a wide variety of chocolates, sweets, and Christmas cards. We also offer the best wines, spirits and liquors at competitive prices.

**GEORGE WASHINGTON—THE LOVER.**

**Secret Letter to His Friend's Wife.**

**BALLY FAIRFAX.**

A love letter that George Washington wrote to Bally Fairfax, the wife of his best friend, is a striking feature of a new book. The letter is a beautiful specimen of 18th-century style.

**BRITISH SETTLEMENT IN EAST AFRICA.**

The British settlement in East Africa has been a subject of much discussion. It has led to the development of a large and prosperous colony.

**Tragedy.**

A tragedy has occurred in Nairobi, involving a young man who was killed while playing football. The incident has caused much grief among the community.

**Justice Dwaived.**

Justice has been dwaived in a recent case involving a dispute over land. The court's decision has been widely criticized.
