Turn the key!  
and your Buick

is  
**Double  
Locked**

No lock could be safer! One turn of the key locks both ignition and steering wheel. But merely turning off the ignition *does not* lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.

And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.

The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928.

KOMO The Insecticide. IT POSITIVELY KILLS FLIES, FLEAS, BUGS, ANTS, BOACIES AND MOSQUITO. READ WHAT THE S. A. MEDICAL RESEARCH INSTITUTE HAVE TO SAY. THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH Conducts an Exhaustive Test and PROVES THE VALUE OF KOMO. FOR many years past eminent Medical Authorities have investigated the merits of spraying fluids as a means for the destruction of Flies and other disease-causing Insect Pests. Quite recently the South African Institute for Medical Research conducted a series of experiments in which were tested a number of spraying fluids, and in making the investigation the efficacy of KOMO as an insecticide was taken as the minimum standard which to aim at. It was found that some 24 fluid ounces of KOMO—the quantity suggested by the Manufacturers—definitely killed every fly in a net of 1,000 cubic feet within three hours from spraying.

# MOTING TOPICS

## NOVEL MOTOR "NOTIONS"

**Ingenious Suggestions by Young Engineers.**

### AMERICAN COMPETITION

The American Society of Automotive Engineers recently had a paper presented on them which will give the reader an insight into the minds of the young designers of considerable novelty and interest.

One of them was of a very far-reaching character, such as a suggestion that some form of reserve fuel be employed (instead of the ordinary tank) so that the engine could actually be made to drive against the car, which otherwise consisted of improvements in detail design which might well be adopted in the comparatively near future.

### Overhead Valve Gear.

Perhaps the most interesting of these improvements was that of the valve gear for the use of the piston rod of the intake valve, on which two pistons were mounted. One of these pistons was connected to the valve stem. The other was connected to the valve rod. The latter was connected to the valve stem. The other was connected to the valve rod. The latter was connected to the valve stem.

ball. Finally, there is a spring above the fulcrum which presses on the curved arm and tends to keep the finger always in contact with the rest of the ball.

It is claimed that so soon as the valve mechanism is open the heavy pressure exerted by the push rod will slip the ball firmly and prevent it from turning until the finger is in contact with the ball in being opened. When the valve is shut, the ball is freed and the curved arm and spring will take up the effects of vibration, preventing the ball from slipping.

(Continued on p. 10)

### Pedal Brakes.

Another clever idea relates to the operation of the brakes by the pedal. A lever pivoted at the front end is connected to the pedal. The other end of the lever is connected to the brake mechanism. This arrangement would enable the driver to operate the brakes without reaching for a separate pedal.

It is suggested that instead of making the lever operate the brake mechanism, the lever could be used to operate the clutch. This would allow the driver to operate the clutch without reaching for a separate pedal.

that a bell-crank lever should be interposed between the pedal and the brake gear mechanism so that the pedal would be connected to the brake gear mechanism by a bell-crank lever.

Various suggestions for improving the steering mechanism are also mentioned. One suggestion is to use a steering rack and pinion mechanism.

Another suggestion is to use a steering knuckle with a ball joint.

It is also suggested that the steering mechanism be made self-aligning.

When the car is in motion, the steering mechanism should be given the same amount of freedom as when it is at rest. This would allow the driver to steer more easily when the car is in motion.

the two arms connected to the steering knuckle and when they reach an intermediate position. The arms are connected to the steering knuckle by a ball joint.

Another suggestion is to use a steering knuckle with a ball joint.

It is also suggested that the steering mechanism be made self-aligning.

**Up hill on top!**  
The exhilaration of speed-burn, a sense of conquest, come from the feeling of infinite power at command with "BP" in the tank. And extra power means extra economy—the best for your engine with the least effort. Fill up with "BP" and add a new zest to your motoring.

**"BP"**

**IT PAYS TO FERTILISE**  
In experimental tests on growing coffee recently carried out it was found that the best results were obtained from a mixture of the following fertilisers in the named quantities per acre:  
250 lbs. Sulphate of Ammonia,  
150 lbs. Muriate of Potash,  
300 lbs. Epsom.  
It was found that the trees were far healthier, the crops bigger and the quality of the coffee berries better, resulting in a profit of £15 per-acre over areas which had not been treated in the above manner.  
We carry stocks of Epsom, Sulphate of Ammonia and Muriate of Potash.

TANGANYIKA AND ZANZIBAR CRITICISMS OF FEDERATION.

Opposition to Views in the Convention Memorandum.

AVERSION TO DOMINATION.

Sir Claude Hollis' Guarded References to the Work of the Commission.

The Memorandum prepared by the Executive of the Convention of Associations on the subject of Federation has certainly provoked a discussion outside the borders of Kenya. In addition to the striking criticism by the Governor of Uganda references have been made in Press and in public utterances in Tanganyika and Zanzibar.

The general tone of the criticism is quite frankly opposed to the proposals outlined by the Convention Executive and by any suggestion that Kenya should in any way be the predominant partner in any scheme of federation.

The Tanganyika newspaper declares that caution proceeded with the Zanzibar proposals. The British Resident in Zanzibar has declared that the Commission will in any case limit for itself its satisfaction there.

EFFECTS OF ALTITUDE ON MENTALITY.

The Government of Kenya has perhaps on the whole done more to advance the mental and physical health of its subjects than any other Government in the world.

THE EAST AFRICAN COAST.**

634,000 Tons Between  
1922 and 1926.

**INTERNATIONAL RACE FOR  
THE NEW TRAFFIC**

The importance of the increase of the trade between East Africa and Europe, and especially those aspects of it which are of growing movement which affect shipping, has been emphasized by the British Ambassador of the East African Coast, Sir G. G. B. Thomson, in a special article in the Liverpool Journal of Commerce, an article which is reproduced in this issue. In this article Sir G. G. B. Thomson states that the increase of the trade between East Africa and Europe is of such a nature as to require the development of the shipping service to the East African coast. He points out that the increase of the trade between East Africa and Europe is of such a nature as to require the development of the shipping service to the East African coast. He points out that the increase of the trade between East Africa and Europe is of such a nature as to require the development of the shipping service to the East African coast.

# DRY FACTS ON COFFEE DRYING

FOR DEAF-FARMERS TROUBLED WITH WET COFFEES, WET-FARMERS STRUGGLING TO DRY COFFEES, AND ALL FARMERS WHOSE GARAGE, VERANDA AND SPARE BED-ROOMS ARE DEVOTED TO MUSTY COFFEES.

Our Principals make two types of Mechanical Dryer—'Guardiola' and 'Okrasna'

The "Guardiola" type is available in seven sizes, handling from 500 lbs. to 5 tons of wet parchment per charge.

The "Okrasna" type comprises twelve sizes ranging over capacities of from one to thirteen ton-per-charge.

There is a choice of eight types of Heater for each type and size of Dryer—two live steam, two exhaust steam, three direct-fire, and one electric.

Prices of complete units, i.e. Dryer, Heater, Fan, and where necessary countershaft for the fan, range from **£125 to £1300** (f.o.r. Nairobi).

The cost of the "Five Ton Guardiola" (capacity 50 bags wet parchment), fitted with the most expensive of the above range of Heaters is **£840** (f.o.r. Nairobi).

The cost of the "Six Ton Okrasna" (capacity 60 bags wet parchment), with Heater as above is **£855** (f.o.r. Nairobi).

The above are the largest sizes of Dryers presently in use in this Colony, but we can quote similarly for any of the nineteen sizes, for any station in Kenya or Tanganyika.

We can, in certain cases, arrange for payment in two or three annual instalments.

We can supply illustrated catalogues, loose leaves, blue-prints, erecting instructions, feed and discharge and Dyer-house designs, or can quote for complete installation, inclusive or exclusive of the building to house the whole plant.

Our Principals are the oldest wholesale and retail manufacturers of Coffee Machinery in the world, while our own experience has been gained in seven different coffee-growing countries, after a full time in Messrs. McKinnon's shops and drawing office.

Our combined services awaits your enquiry.

The time required for delivery varies according to conditions at home, or ranging from four months from date of order to Nairobi. A further month should be allowed for installation.

### 20,000 COMMUNISTS LOOT AND BURN CANTON.

Armed Peasants and Workers Occupy Government Offices.

### PORTION OF THE ARMY ASSISTS.

Nationalist Dictator Narrowly Escapes Death and Finds Safety on Warship.

Taking advantage of the temporary absence of Nationalist troops, 20,000 Communist rose in Canton, dispersed the police, obtained control of the city and with the assistance of armed peasants and a disband portion of the army, occupied Government offices.

It is reported later that the local section of the army regained control after six hours fighting.

### TENSIONS IN SHANGHAI.

**THROUGH RUTHER'S AGENCY**  
Hankow, December 12.—It is reported from a reliable source that 20,000 Communist taking advantage of the absence of the troops sent to the West River to meet the Shanghai expedition, occupying and looted the Police and took over the portion of the city where the army had hoisted Nationalist flags.

Applications from Canton since the Communist parallel routes have taken some 200,000 and 100,000 respectively. The Government had to send the British and Irish consuls to maintain peace here.

General Chang Kai-shek has expressed his indignation over the Communist seizure of Canton which he regarded as an act of aggression. He has threatened to take the case off to the League of Nations.

All ships on the coast and Canton, a meeting with several consuls and without a word and have been suspended.

### Army Helping.

Relations between the army and the Communist have been tense since the capture of Canton. The army has been sent to the West River to meet the Shanghai expedition.

The Communist have been reported to have captured the Canton government offices in Canton and to have taken control of the city.

### A Soviet Model.

A Soviet Council has been formed in Canton. It has been reported to have a membership of 100,000 and to have a budget of 100,000,000 dollars. It is reported to have a membership of 100,000 and to have a budget of 100,000,000 dollars.

### French Finance.

THE BUDGET HURRIED THROUGH

**THROUGH RUTHER'S AGENCY**  
London, December 12.—The House of Lords has today passed the Finance Bill, which is expected to be passed in the Commons tomorrow. The bill is expected to be passed in the Commons tomorrow.

For Rose Downes

### ESPIONAGE CHARGE IN SWEDEN FALLS.

Young Officer Examined and Released.

**THROUGH RUTHER'S AGENCY**  
Stockholm, Dec 12.—The Swedish officer who was arrested on the doorstep of the Soviet Legation and charged with spying has been released by the Police.

The opening examination did not justify further legal proceedings.

### Escape from Custody.

**THROUGH RUTHER'S AGENCY**  
A man of Indian descent, who was reported to have escaped from custody yesterday and is now in search of a public Government Road was being taken in the shop when he was a victim of the robbery. He was taken away from the shop and his whereabouts are being sought.

### Injured Innocence of a Shot Thief.

A man of Indian descent, who was reported to have escaped from custody yesterday and is now in search of a public Government Road was being taken in the shop when he was a victim of the robbery. He was taken away from the shop and his whereabouts are being sought.

### British Trade.

London, December 12.—The Trade Department has today issued a statement regarding the British trade with the United States. The statement is expected to be issued in the Commons tomorrow.

### Escape from Custody.

A man of Indian descent, who was reported to have escaped from custody yesterday and is now in search of a public Government Road was being taken in the shop when he was a victim of the robbery. He was taken away from the shop and his whereabouts are being sought.

### British Trade.

GRAATIFYING INCREASE IN EXPORTS

**THROUGH RUTHER'S AGENCY**  
London, December 12.—The House of Commons has today passed the Finance Bill, which is expected to be passed in the Lords tomorrow. The bill is expected to be passed in the Lords tomorrow.

For Rose Downes

### THE NEW PRAYER BOOK BEFORE UPPER HOUSE.

Unusual Scenes in the Lords.

**THROUGH RUTHER'S AGENCY**  
London, Dec. 12.—The House of Lords presented the most lively appearance since the War when the Archbishop of Canterbury moved a resolution in favour of accepting the new Prayer Book measure.

There was an extraordinarily large attendance. Bishops in lawn being conspicuous. Deputies, Cabinet Ministers, including Mr. Baldwin, Members of the House of Commons and others filled the privileged accommodation.

The debate will last until Wednesday and if the resolution is carried a similar motion will be submitted to the House of Commons on Thursday afternoon which the measure will be presented for the Royal Assent.

# Whiteaways NAIROBI.

# Turn the key! and your Buick

is  
**Double  
Locked**

No lock could be safer! One turn of the key locks both *ignition* and *steering wheel*. But merely turning off the ignition *does not* lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.

And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.

The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928.

## TO MAKE MONROSA A FREE PORT.

Unheralded Discussions at  
the Coast.

DEBATE THIS WEEK.

["STANDARD" CORRESPONDENT.]

Monrovia, Dec. 10  
Possibly, in the near future, Monrovia, and the rest of Sierra Leone, will be made a free port. The three of a discussion which, from the point of view of general interest, will enlighten anything of a descriptive nature that has been discussed for some years.

Very suddenly, indeed, has the theme of Monrovia being a free port been thrust upon us by the stated by some of the apologetic, that the theme is not really a new one. Some years ago, say the investigators, the subject was discussed at considerable length but nothing came of it. So far as the present circumstances are concerned, the general public know nothing of the matter until the newspaper, followed by an editorial, outlining the proposal and the presence of the same.

From what one can gather, the committee for Monrovia, Hon. Mr. J. Cunningham, acting for Hon. Mr. O. J. Akpana, has been engaged in a series of heart-to-heart talks with the authorities in London, and with prominent politicians of all shades and equally prominent West African ones.

Mr. Cunningham, according to a statement in the agenda issued by the Monrovia Chamber for the coming month, covered meeting next week, a lot of the opinion that considerable support would be given to the scheme of making Monrovia a free port if the stand on only put up a reasonable case.

Up Country Views.

Not unreasonably, up-country people will want to know what the scheme is all about. The basic man will, with a few reservations, argue that all very fine but unworkable. Monrovia, as a port will benefit the people there but where do we come in? Will the country as a whole benefit? Or is the scheme merely one to benefit the Coast at the expense of the whole country? Monrovia's people will probably be to the effect that for as long as the present position at this stage that the country as a whole will benefit by increased shipping facilities and a greater amount of marketing of goods at the port but that, even if not, providing the country has no other means of reaching the coast, Monrovia should not benefit. The subject is one which will doubtless cause much debate and the results of the coming discussions in the Monrovia Chamber on Wednesday will be awaited with very great interest.

## THE VOYAGE OF A BOTTLE.

1,000-mile Drift in Three  
Weeks.

ATLANTIC PROBLEMS.

The Globe Toronto, publishes a remarkable story, which may prove of vital interest in solving the problem of the drift and direction of currents in the Atlantic.

A sealed bottle, containing a note, was thrown overboard by a passenger in the steamer *Islandic*, near Lethin on July 20 when the ship was more than 1,000 miles from the coast of Labrador. The note read as follows:

"Tossed overboard in mid-ocean. Please place communication with J. G. Blacklock, 29, Warren Road, Toronto, Canada."

The bottle was found on August 11, ten-and-a-half days later by a woman at Figueira, Belem, on Belle Isle, (St. John's, Labrador).

She opened it, read the contents, wrote on the short of her name and on the steamer *Islandic*, Straits of Labrador August 11, 1927. By Margaret Fowler & then then posted the note to the address given in contents.

The bottle and the short of paper have now been handed to the office of the clerk.

They prove conclusively, that the current which carried the bottle westward, must have moved at the rate of at least forty-five miles a day, or approximately twice as fast as the current.

Two Miles an Hour.

This figure does not take into consideration the time which probably elapsed before the bottle was found, and is based solely on a straight line drawn from the ship's position at sea to the point where the bottle was found.

Experts consider that the bottle may have travelled a far greater distance than the direct line shows.

They are also considering the question from the point of view of the S.O.S. which may be sent out by airplane when attempting a Transatlantic flight.

A current of two miles an hour would have the same effect on any floating object, and would mean that any ship which answered an S.O.S. from an airplane should be prepared to search a large area on the westward side of the locality from where the S.O.S. was sent.

*Before  
baby is born*

A PERIOD of anxious waiting and preparation. Will the little one be born strong and healthy—will you be able to do all you hope to?

Quaker Oats at this time like this vitamin and mineral salts, it builds up the mother's strength and aids greatly in helping baby being born healthy and vigorous.

During nursing time too, Quaker Oats supplements the milk and preserves the strength of both mother and child.

## For Those You Love

A man had been listening to advice on life insurance.  
"I'll go home," said he, "and talk it over with my wife."  
"Don't do that," said his adviser, "talk it over first with another fellow's widow."  
Not a cheerful suggestion, perhaps, but life insurance deals with fundamental facts.

## IT PAYS TO FERTILISE

In experimental tests on growing coffee recently carried out it was found that the best results were obtained from a mixture of the following fertilisers in the named quantities per acre:  
250 lbs. Sulphate of Ammonia.  
150 lbs. Muriate of Potash.  
300 lbs. Epsom.  
It was found that the trees were far healthier, the crop bigger and the quality of the coffee berries better, resulting in a profit of £15 per acre over areas which had not been treated in the above manner.

We carry stocks of Epsom, Sulphate of Ammonia and Muriate of Potash.

### New lines - New Colors and a host of other improvements

IN ADDITION to introducing a new order of elegance, style and distinction into the field of low priced automobiles, the most beautiful Chevrolet also represents a marked mechanical advancement. Examines any one of the seven attractive models and you will find so many improvements that you will be literally amazed.

Improvements that contribute to even longer life, greater dependability and finer performance? Improvements that assure most pronounced economy, easier operation and a keener sense of owner satisfaction. Improvements that place Chevrolet far ahead of any other car in its price class.

We are holding a special showing of the new models. May we urge you to visit our showroom and study the cars? From the new and larger radiator shell to the new automatic stop light, you will find new and finer construction, new and more desirable features—features that will give you a new idea of what the buyer of the low priced car has a right to expect for his money.

**CAIRO-CAPE TOWN AIR ROUTE.**

**Experts' Views on its Practicality.**

**A CIVILIAN AGENCY.**

**"STANDARD" CORRESPONDENT.**

The Cairo-Cape Town Air Route was the subject of discussion at the dinner of the Imperial Airways Club, which was held at the May Fair Hotel, London, on Tuesday last.

George Trevelyan, President of the Air-Vice-Admiral Sir Selwyn Selous, Director of Civil Aviation, and other prominent airway leaders, were present, and the latter had been invited to give a lecture on the subject of the route.

A flight for various purposes was made from London by the Great Eastern, which had been invited to take part in the competition. It was found that the route was well established.

The route from London to Cairo was well established, and the route from Cairo to Cape Town was also well established.

There were great possibilities in the air route, and it was found that the route was well established.

**A KIMUJI MEETING.**

**"STANDARD" CORRESPONDENT.**

Nothing further has developed regarding the mysterious presence of the "Dogs of Devon" in Narroli.

It is remembered that the police and headless body of a dog were seen in the street at Narroli about a month ago, and the dog was killed.

At this moment, the police are still searching for the dog, and it is hoped that it will be found soon.
