Where Power Counts Most

WHEN the automobile is used as a means of transport it is difficult to find a more satisfactory and reliable machine than the Buick. It is not only a fast and powerful motor, but it is also one of those who know it, they will tell you.

In 1928 the Buick is even more powerful and reliable than in 1927. It is now a more powerful and reliable machine than ever before. It is now a more powerful and reliable machine than ever before. It is now a more powerful and reliable machine than ever before.

REPLY TO CRITICISM OF MEDICAL DEPARTMENT.

Following is the text of the original article which appeared in The Kenya and East African Medical Journal for November.

In the course of a general criticism of the system of Government in Kenya by a member of the Legislative Council referred to in the report in the E.A.M.J. Standard, in the Medical Department of Government as "a department of the Government which is in the opinion of the other members of the Council, a department which would be better off to be abolished." We have endeavored to do our best to reply to this criticism in the best manner possible.

We do not mean to say that we are in a perfectly healthy state of mind. We have made it our business to look for the good in the work of the Government. We have endeavored to do our best to reply to this criticism in the best manner possible. We have endeavored to do our best to reply to this criticism in the best manner possible.

NEW HOTEL PROJECT FOR MALE.

STANDARD CORRESPONDENT: Some time ago I mentioned that a hotel was about to be started at Union Vale. This project has now advanced in importance and from a small effort to start life on a more imposing scale.

A private company has been formed for the purpose, shareholders being Messrs. Edward Lawson, Mr. F. M. M. Gordon, Mr. J. Marshall and Messrs. J. J. Brown. The project is to be the building of a new hotel at Union Vale.

There is a magnificent view of the harbor and the island from the site of the hotel. The hotel will be a pleasure house, a place where one can see and enjoy the sea.

Reliable

This new Four-cylinder Dodge runs in the high velocity of its vital parts.

All together, gears, axle shafts and springs are of correct materials or other costly alloy steel, giving great strength and long wear, with low maintenance expense.

Steering is amazingly easy because of the great leverage exerted by the steering gear, and the steering suspension is of the most modern type.

The famous Dodge Brothers "124" motor brings quiet, reliable engine performance with extra power and quick acceleration—surely the most adequate for every need.

Those who have visited Oxford, near Oxford, when the last winter months will have observed a first factory on course of erection at the extremity of the street, of a group of about two miles in length, and of a total area of about 100 acres. This is the work of Morris Motors Ltd., Ltd. and is the first of its kind in the world. It is the first of its kind in the world, and is the first of its kind in the world.

quarter, which includes a shop, garage, and a house, over the rear wheel and the window.

The steel operation consists in fastening the various sections of the body together. This is done on a jig, or form fixture, each set more secured to its fellow by electrical spot welding and pneumatic riveting, and overhanging welding is also used for certain parts and the whole shell is set on a specially fitted floor and post that could be seen at once.

The electric spot welding process essentially of a pair of heavy copper electrodes, one of which is moved on a horizontal track, and the other is held in position by a spring, and is applied to the sheet metal, which is held in position by a special fixture. The electrodes are made of a special material, and are held in position by a special fixture.

Subsequently the body is painted, and is then ready for the next stage of the process.

EAST AFRICAN PUBLICITY OFFICE

No. 4.

THE CHEESE-PARING POLICY OF THE UNIMAGINATIVE.

Luxury and Parsimony.

The finances of the East African Publicity Office are a strange revelation of wrong methods. Instead of spending probably the money voted for its purpose, and asking for more, to help the good work, the Office has accumulated since 1925 a reserve of £1,000. In other words it has deliberately refrained from spending one-third of the money given to it.

Figures of the expenditure show that salaries and travelling expenses account for over one-third of the annual cost, rent light etc. another third, the D.O. 10 per cent, and the amount spent on paid advertising and exhibitions is less than a fifth of the annual total. The Publicity Office has become an Unimaginative Savings Bank.

£1,000 DOLE TO THE D.O.T.

The D.O.T. has received a grant of £1,000 from the Government. This is a very large sum for the D.O.T. and will enable it to carry out its work more effectively. The grant is a vote of confidence in the D.O.T. and its work.

Expenditure

The expenditure of the Publicity Office for the year 1927 is as follows:—
Salaries and Travelling Expenses £350
Rent, Light, etc. £350
D.O. 10 per cent £100
Paid Advertising and Exhibitions £100

Into His Stride

The Publicity Office has taken a long and hard run, but it is now into its stride. It has managed to accumulate a reserve of £1,000, which is a very large sum for the Office. This shows that the Office has been very economical in its expenditure.

THE MOTORING HOLIDAY.

Brief Overhaul May Save Trouble on Road.

THE ESSENTIAL POINTS

It is a well known fact that the motorist who takes his car to the garage for a brief overhaul before starting his motoring holiday will find that the car is in a better condition than when he started.

Tyres and Brakes

The condition of the tyres and brakes is of the greatest importance to the motorist. It is essential that the tyres should be in good condition and the brakes should be adjusted.

MOTURING TOPICS

CHANGING THE DISTRIBUTOR

The distributor is one of the most important parts of the engine. It is essential that it should be in good condition and that the spark plugs should be adjusted.

Oil and Adjustment

The oil should be changed at regular intervals and the engine should be adjusted. It is essential that the motorist should take care of his car and that he should not neglect any part of it.

UP HILL ON TOP!

The motorist who is driving up a hill should be aware of the fact that the car will not run as smoothly as when it is driving on level ground. It is essential that the motorist should take care of his car and that he should not neglect any part of it.

THE BRITISH "BP"

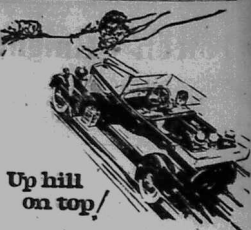

The British "BP" is a well known brand of motor oil. It is essential that the motorist should use the best quality of oil and that he should not neglect any part of his car.

FUTURE PROBLEM OF TRANSPORT. Railway and Road Co-ordination.

EMPIRE NEEDS

The great problem of transport in the Empire is one which has become more acute than ever. The demand for goods and services is increasing rapidly, and the existing means of transport are inadequate to meet the requirements. The future of transport is a problem of the first importance, and one which must be solved if the Empire is to maintain its position as a world power.

Editor in Gael. COMIC OPERA OF A VIENNA FAPER.

A Vienna publisher, Alexander Wass, was recently sentenced to several months' imprisonment for the publication of a comic opera, "The Aristocrat," which was a satire on the Emperor and his court. The opera was a success, and the publisher was acquitted. The case is a reminder of the importance of freedom of expression in a democracy.

PUBLIC MEETING—NAKURU, JANUARY 7th 1928 TO BE HELD AT THE NAKURU HOTEL AT 11 a.m.

To discuss the following resolution passed at a meeting of Honorary Inspectors held at Nakuru on December 16th, 1927.

This meeting is of the opinion that Government should provide by Legislation that in 1929 in the Administrative District of Nakuru and Ravine, all Maize and Sorghum refuse be destroyed before February 7th and that to Maize or Sorghum be planted before the 15th February, 1929.

A further resolution was passed as follows— It is necessary for the control of the Stalk Bore that Government prohibit in the Administrative areas of Nakuru and Ravine the planting of any Maize or Sorghum before the 15th February, 1929.

The latter resolution is not for discussion at the meeting.

POWER

Where Power Counts Most

WHEN the task to be accomplished is difficult—when stamina, dependability and unflinching power are essential—the advice of those who know is: Buy a Buick.

In Buick for 1928, greater power, and greater get-away are imparted by vital engine improvements. Greater grace and beauty are provided in its new low-swinging bodies by Fisher. Greater roadability and riding comfort result from built-in hydraulic shock absorbers and tailored seats.

Drive a Buick for 1928 today—and find out why Buick is so popular where power counts most.

A Popular Ambassador.

PROSPECTIVE CHAPOSIN IN PARIS TAKES

["STANDARD" CORRESPONDENT] PARIS, Dec. 1.—There is constant talk just now of the prospective change at the British Embassy in Paris, although nothing is known definitely of Lord Crew's plans. Whether he is willing to extend his period of office or is anxious to go home to England directly is, of course, some one to have been ascertained even by his friends.

Lady Crew recently bought a country house on the Riviera at Epaves, quite near the father's old factory, near the Riviera, and this has been taken by some people as an indication that the French offer him in past time and the fact that Crew is a well-known diplomat.

The French appointment is probably the most delicate of all the diplomatic posts for the British Government in this and at the same time, one of the most highly coveted. Lord Crew has a long and distinguished record in the colony. He has been in the East for many years, and there is a strong possibility that he will be asked to take over the office of ambassador in Paris.

Lady Victoria Bullock

Lady Victoria Bullock has been mentioned with some frequency ever since the news of Lady Victoria Bullock's marriage to Lord Crew, and it is thought that she will be asked to take over the office of ambassador in Paris.

It is thought that she will be asked to take over the office of ambassador in Paris. She has a long and distinguished record in the colony. She has been in the East for many years, and there is a strong possibility that she will be asked to take over the office of ambassador in Paris.

Famous Pigeon Dead.

SAVED FROM CAPTURE BY THE GERMANS

The most famous pigeon in Europe, which was recently exhibited recently at the Crystal Palace, and during the war was saved from capture by the Germans at Roubaix by Mr. O. W. Richardson, a local Pigeon expert.

Charles was bought from Sir Frank Warner at the Crystal Palace in 1912 for £100 by Mr. Frank Vandenwe, a partner in a Roubaix firm of wires and cable manufacturers. The owner at the time of the war was called to service in the French army, and therefore asked Sir Richardson who was his friend, to take care of the bird, then expecting that within a few weeks the Germans would be in Roubaix.

Death Penalty. When the Germans arrived, one of their first actions was to search the keeping of burning persons under penalty of death for Mr. Richardson's Pouter, named Charles. As he said, "I made up my mind I would treat the Germans and keep that pigeon, which I wrapped up as a piece of newspaper in my sock pocket."

One day the bird was wrapped up in a piece of newspaper, when some German soldiers came to his bedroom in order to find out what he had done. As he had wrapped up the bird in a paper and was nowhere to be seen.

Fortunately the soldier who had come in order to find a light for a German officer in the room, saw as they left, the bird wrapped up in a piece of newspaper in my sock pocket, and found his way to the bird and found his way to the second floor.

Marriage or Prison.

IT PAYS TO FERTILISE

In experimental tests on growing coffee carried out it was found that the best results were obtained from a mixture of the following fertiliser in the named quantities per acre: 230 lbs. Sulphate of Ammonia, 150 lbs. Nitrate of Potash, 300 lbs. Epsom. It was found that the trees were far healthier, crops bigger and the quality of the coffee berries resulting in a profit of £15 per acre over areas which had not been treated in the above manner.

We carry stocks of Epsom, Sulphate of Ammonia and Nitrate of Potash.

SOME HOURS OF THE MICROPHONE.

These Moments in a Wireless Studio. IMPROMPTU MUSIC

I have been listening a lot of (trifle) was the casual performer. I was at the D.B.C. stations in the early days of its activities. I was the unfortunate witness of a very interesting and amusing incident in the Daily Express. It was on a B.B. night, I remember, when we had an impromptu concert for myself and two other persons, who were at the time, as I am fond of mentioning, and who I was broadcasting live. I was asked to play a special impromptu concert.

I began to read the story of the impromptu concert, and I was surprised to find that the two other persons, who were at the time, as I am fond of mentioning, and who I was broadcasting live, I was asked to play a special impromptu concert.

Only those who have tried it can know how helpful it is to smoking out of the usual, before the microscope, with the only visible difference, the color and the texture behind the ordinary and the ordinary behind the microscope. I have tried it, and I think I ever felt a bigger flow than I have after preliminary announcements of a St. George's Day programme. I started back to the station, as proposed. There were only the British, dear friends, or those who walk up your flag, but I had a lot of fun. Two of our artists, who had sent me a long letter, had written a general strike last year, and I was so glad to be able to serve in a time and a place, with an extraordinary, and I think, with a good deal of success. The artists were and due to the fact, it was the first time that I could be heard, and I think I must perform myself. I was so glad to be able to serve in a time and a place, with an extraordinary, and I think, with a good deal of success.

To have just sent in (Standard) the "Money Market" article in California. The article is presumably written from official data, in it is stated that a report that shows the state of the market without it being necessary to hand the same, as prepared from a formula worked out especially by the State Agricultural Authorities of California. It is a very reasonable to expect that if a successful report can be produced by the Agricultural Department, our Agricultural Department should be able to supply the other platform with a similar report.
