**THE GLADSTONE CASE.**

Lord Gladstone, the son of the late Prime Minister of Great Britain, William Robert Gladstone, whose name was a household word in the latter half of the nineteenth century, has vindicated the reputation of his father in an action for libel brought against him by Captain Wright, the author of a recent volume of reminiscences. It is fortunately a rare thing in the history of law that a man of five of public men are subjected to a posthumous examination of his character and the more frequent the reputation of his father is a desirable method of settling public opinion on the merits of a public man. The result will be for the maintenance of the reputation of public life open which the Parliamentary service of generations of men such as Gladstone have been based on and which they have been inspired and guided.

**LORD GLADSTONE GETS THE VERDICT.**

Grand Old Man's Character Vindicated.

["REUTERS SPECIAL AGENTS"]

London, Feb. 2.—Lord Gladstone's victory over the reputation of his father in an action for libel brought against him by Captain Wright, the author of a recent volume of reminiscences, was said today by Lord Gladstone's biographer, the Hon. Mr. J. C. H. Jones, who was referring to Mr. Gladstone's character and the more frequent the reputation of his father is a desirable method of settling public opinion on the merits of a public man. The result will be for the maintenance of the reputation of public life open which the Parliamentary service of generations of men such as Gladstone have been based on and which they have been inspired and guided.

**Power Power Power**

1. Drawbar Power  
 2. Belt Power  
 3. Power Take-Off

When you come right down to it, the remarkable how much power there is in one of these McCormick Deering Tractors. And how easily you can link it up with the job you have on hand!

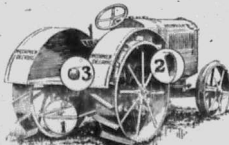

Ploughing power, and power for all drawbar jobs, is available in unfailing supply through the adjustable drawbar.

Power for running engine rollers, buckers and shredders, feed graders, etc. awaits the touch of your hand that throws the wide belt pulley into action.

A third kind of power is available through provision for the power take-off. This form of power is ideal for machines that must be operated as well as pulled. For example, the corn picker, Harvester Thresher, Power Blenders.

The McCormick Deering engine is a specially built tractor engine, running on large ball bearings. Its perfect strokes in actual use on thousands of farms proves its ability to do everything you ask of it.

When you deliver a McCormick Deering Tractor to you it is complete with all necessary equipment—platform, fenders, adjustable drawbar, wide belt pulley, removable fuge, throttle governor, brakes, and provision for the great new tractor improvement, the power take-off. Ask us to demonstrate.

LAZ TRACTORS DO IT CHEAP EFFICIENT SIMPLE RELIABLE MECHANICALISED FARMING AND TRANSPORT. Experience in many districts in East Africa has proved that ploughing costs with these Lanz Tractors range from 60 cents to Shs. 2.20 per acre for fuel and lubricating oil, depending upon the nature of the soil, depth of ploughing and whether on or new land. Soil Cultivation with the 22 h.p. Lanz and disc or tyre cultivator is equally cheap. Mains Shelling with power provided by the smaller tractors costs only 1 1/2 to 2 1/4 cents per bag. Average Plough Capacity on medium soil are three to four furrows for the 22 h.p. Lanz, and 6 to 8 for the 35 h.p. Lanz. All Lanz Tractors operate on Crude Oil, costing about one shilling per gallon or less, according to district. They are the most simple to operate, and thoroughly reliable tractors on the market. No carburetors, distributors, wiring, magnets, or inlet and exhaust valves to get out of order. Their sturdy construction, low B.M. and freedom from complication, run at a low rate of depreciation. CROSS Power KEROSINE

Pulling Power For Every Tractor... KEROSINE is a power fuel for tractors which has been perfected by Shell petroleum chemists in co-operation with the world's recognised authorities on internal combustion engines.

Being an exceptionally volatile volatile kerosene, Cross provides complete combustion in tractor engine, and thus delivers the maximum amount of power with low fuel consumption and minimum wear on parts.

**Get Transport you can depend on**

THERE is no vehicle you can so confidently depend on as an Albion. It will give you years of economical service, with a constant freedom from breakdowns which will more than justify your choice.

Do not be hard on buying a cheap-built vehicle, however low the price. It means committing yourself to repair bills; to a dead loss through excessive running charges; to

costly waste of time and trouble through breakdowns; to the necessity of fresh capital outlay in two or three years when your "cheap" vehicle is worn out and must be replaced.

For over 26 years the British-built Albion has maintained a world-wide supremacy for lowest running cost, combined with greatest reliability and strength of life. Decide on an Albion. It will pay you over and over again.

**THE SCREEN WIPER**  
How It Should be Adjusted Properly

**ADJUSTING CLEAR LENSES**

Automatic screen wiper, like the new "Road Sweeper" from the factory, should be adjusted to the proper position. The wiper should be adjusted so that it will wipe the screen evenly and not leave any streaks. The wiper should be adjusted so that it will wipe the screen evenly and not leave any streaks. The wiper should be adjusted so that it will wipe the screen evenly and not leave any streaks.

The most important thing to remember is that the wiper should be adjusted so that it will wipe the screen evenly and not leave any streaks. **Drives out Drudgery**

HEAVY tool handles, dirty ash cans, sooty pots and pans—why have you put up with them so long? The New Perfection will relieve you of these drudgeries. It is a clean and dependable. It will do all the cooking in your home. This is quickly too, because the New Perfection burns Laurel. Laurel itself gives a flame of intense and regular heat. Laurel is very economical.

## KISUMU-KHARTOUM Air Service Selects Buick

DEMANDING a car possessing extreme reliability under severe conditions - power, speed, strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd., have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men, whose intui-

tive knowledge, experience and keen appreciation of fine engineering is probably not exceeded in the world to-day.

The route of this car may lie across the sandy desert - over rock strewn wastes - through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

Chogoria Mission Hospital. The accommodation provided for a ward of about 20 patients. There is provision for 100 beds and a large hospital building. In 1925 the number of attendances at hospital was 17,000 and there were 300 operations, apart from many X-ray cases. It is noteworthy to know that an enormous number of patients are coming to the Chogoria Hospital for relief. The infant mortality among children was 100 per cent compared with 475 among other natives. Chogoria, in the foothills of Mt. Kenya, is one of the most important of the Church of Scotland Missions in the Colony and is the heart of a very large active population.

By A. H. HARRISON, F.R.S.E.

NOTE: The chess columns will be discontinued from today until next week, owing to the absence of solutions to the problems before which appear. I hope to have a column this week, but I have not time to write up any chess news for my article. I shall return to the Editor for publication through the ordinary way of the Editor. The Secretariat of all the Kenya Chess Clubs will be glad to help in the arrangements of matches and tournaments taking place at the Standard Chess Club as well as the Kenya Chess Club.

**BRITISH VICTORY**

M. FABOUX, writing on the Paris Motor Show in the "Motor", October 12th, 1926.

SAID:

Finally, the Paris Motor Show enables the British 'amateur proprietors' to be satisfied by an important victory—that of the well-bassed Dunlop rim, which is so well known to English readers. It is surprising that such a simple idea was not introduced much earlier in the history of motoring. Hardly was it introduced to the French public by the Dunlop concern than it sprang into the greatest favour.
