The Greatest Medical Discovery of the Century. ESANOFELINA

A Sure Malarial Cure in liquid form for young children. Price Shs. 6/60, Post Free 8/..

A. H. Wardle & Co. Ltd.

CHEMISTS AND DRUGGISTS NAIROBI. Telephone 84

This medicine is a sure cure for malaria, and is especially adapted for young children. It is a liquid form of the active principle of the bark of the cinchona tree, and is free from any harmful or poisonous substances. It is a most valuable and reliable medicine, and is highly recommended by all medical authorities.

The following is a list of the principal symptoms of malaria, and the manner in which Esanofelina acts upon them: Headache, fever, chills, and sweating. Esanofelina acts upon the malarial parasite, and destroys it, thus curing the disease.

It is a most valuable and reliable medicine, and is highly recommended by all medical authorities. It is a liquid form of the active principle of the bark of the cinchona tree, and is free from any harmful or poisonous substances.

# Whenever a tonic is indicated—Take Wincarnis.

Recommended by 17,000 Doctors.

If you are convalescent after illness, run-down, nervous, or anemic, follow the advice of 17,000 Medical Men, and take Wincarnis. It will bring you back to health again in a natural way. By building up your strength, feeding your nerves, enriching your blood, and giving you back the vitality that illness or overstrain has taken from you.

The good Wincarnis will do you a lasting good, for every glass you take is a step further on the road to full health and bodily strength.

Begin taking Wincarnis NOW. Even the first glass will put new energy into you.

**WING-CARNIS**

## GOOD EQUIPMENT MAKES A GOOD FARMER BETTER

# Power Harvester

**1. Drawbar Power**  
**2. Belt Power**  
**3. Power Take-Off**

When you come right down to it, it's remarkable how much power there is in one of these McCormick Deringer Tractors. And how easily you can link it up with the job you have on hand!

Ploughing, power, and power for all drawbar jobs, is available in unending supply through the adjustable drawbar.

Power for stunning engine cutters, hawks and shredders, feed graders, etc., awaits the touch of your hand that throws the wide belt pulley into action.

A third kind of power is available through provision for the power take-off. This form of power is ideal for machines that must be operated as well as pulled. For example, the corn tucker, Harvester Thresher, Power Binders.

The McCormick Deringer engine is a specially built tractor engine, running on large ball bearings. Its perfect success in actual use on thousands of farms proves its ability to do everything you ask of it.

When we deliver a McCormick Deringer Tractor to you it is complete with all necessary equipment—platform, fenders, adjustable drawbar, wide belt pulley, removable hoes, throttle governor, brakes, and provision for the great new tractor improvement, the power take-off. Ask us to demonstrate.

## HANDLING A CAR.

By H. H. WILSON

IN AMERICA

It is a common mistake to think that a car is a machine that can be handled in any way one pleases. In fact, a car is a machine that has a certain character and must be handled in a certain way. The driver must be in control of the car, and the car must be in control of the driver. This is the secret of successful driving.

The first principle of handling a car is to keep the car in a straight line. This is the most important thing a driver can do. If the car is not in a straight line, it will be difficult to control. The driver must keep the car in a straight line, and the car must keep the driver in a straight line.

## CAR CONSTRUCTION.

Noted Manufacturer's Views.

By H. H. WILSON

IN AMERICA

The car is a machine that has a certain character and must be handled in a certain way. The driver must be in control of the car, and the car must be in control of the driver. This is the secret of successful driving.

The first principle of handling a car is to keep the car in a straight line. This is the most important thing a driver can do. If the car is not in a straight line, it will be difficult to control. The driver must keep the car in a straight line, and the car must keep the driver in a straight line.

## SKIDDING.

## A Tremendous Bogey to Drivers.

By H. H. WILSON

IN AMERICA

Skidding is a dangerous condition that can occur when a car is driven on a wet or icy surface. It is caused by a loss of traction between the tires and the road. The driver must be able to recognize the signs of skidding and take the proper action to avoid it.

The first sign of skidding is a sudden loss of steering control. The car will begin to pull to one side, and the driver will find it difficult to keep the car in a straight line. If the driver does not take action immediately, the car will continue to pull to one side, and the driver will lose control of the car.

## General Motors.

W. H. WILSON

IN AMERICA

General Motors is a leading manufacturer of automobiles and trucks. The company has a reputation for producing reliable and durable vehicles. The cars are known for their smooth operation and easy handling.

The company has recently introduced a new line of cars that are designed to be more economical and efficient. These cars are built with high-quality materials and are equipped with the latest in automotive technology.

## STEERING INTO THE SKID.

By H. H. WILSON

IN AMERICA

When a car skids, the driver must be able to steer into the skid. This means that the driver must turn the steering wheel in the direction that the front of the car is pulling. This will help to bring the car back to a straight line.

It is important for the driver to remain calm and in control of the car during a skid. The driver should not panic and should not make any sudden movements. The driver should simply steer into the skid and wait for the car to return to a straight line.

## SHOCKS AND BORNERS.

By H. H. WILSON

IN AMERICA

Shocks and borners are important parts of a car's suspension system. They help to absorb bumps and shocks from the road, and they help to keep the car in a straight line. The driver must be able to recognize the signs of worn shocks and borners and take the proper action to replace them.

The first sign of worn shocks and borners is a noisy ride. The car will make a clunking or rattling sound when it goes over a bump. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

## UNUSUAL ACCIDENT.

By H. H. WILSON

IN AMERICA

A recent accident involving a car that was driven into a wall is a rare occurrence. The driver was unable to control the car and it crashed into the wall. The driver was injured and the car was damaged.

The accident was caused by a combination of factors, including a sudden change in the road surface and a loss of control by the driver. The driver should have been able to recognize the signs of a hazardous road surface and take the proper action to avoid the accident.

LORRY CRASHES INTO CAR FROM THE REAR

By H. H. WILSON

IN AMERICA

## WHAT ONE SHOULD DO.

By H. H. WILSON

IN AMERICA

When a driver is faced with a difficult driving situation, there are certain things that they should do. The driver should remain calm and in control of the car. The driver should take the proper action to avoid the situation and should not panic.

The driver should also be able to recognize the signs of a hazardous driving situation and take the proper action to avoid it. The driver should be able to handle a skid, a loss of control, or a sudden change in the road surface.

## HOW THE EXPERT ACTS.

By H. H. WILSON

IN AMERICA

The expert driver is able to handle any driving situation with ease and confidence. The expert driver is able to recognize the signs of a hazardous driving situation and take the proper action to avoid it. The expert driver is able to handle a skid, a loss of control, or a sudden change in the road surface.

The expert driver is also able to handle a difficult driving situation with ease and confidence. The expert driver is able to remain calm and in control of the car, and the expert driver is able to take the proper action to avoid the situation.

## THE BATTERY.

By H. H. WILSON

IN AMERICA

## THE BATTERY.

By H. H. WILSON

IN AMERICA

The battery is an important part of a car's electrical system. It provides the power that is needed to start the car and to run the electrical accessories. The driver must be able to recognize the signs of a weak battery and take the proper action to replace it.

The first sign of a weak battery is a slow cranking of the engine. The car will take a long time to start, and the engine will not run smoothly. The driver will also notice that the electrical accessories are not working properly.

## THE MOTOR.

By H. H. WILSON

IN AMERICA

The motor is the heart of a car. It provides the power that is needed to move the car. The driver must be able to recognize the signs of a weak motor and take the proper action to replace it.

The first sign of a weak motor is a loss of power. The car will not accelerate properly, and the engine will not run smoothly. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

## THE TIRE.

By H. H. WILSON

IN AMERICA

The tire is an important part of a car's suspension system. It provides the contact between the car and the road. The driver must be able to recognize the signs of a worn tire and take the proper action to replace it.

The first sign of a worn tire is a noisy ride. The car will make a clunking or rattling sound when it goes over a bump. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

## THE WHEEL.

By H. H. WILSON

IN AMERICA

The wheel is an important part of a car's suspension system. It provides the support for the car and the contact between the car and the road. The driver must be able to recognize the signs of a worn wheel and take the proper action to replace it.

The first sign of a worn wheel is a noisy ride. The car will make a clunking or rattling sound when it goes over a bump. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

## THE BRAKE.

By H. H. WILSON

IN AMERICA

The brake is an important part of a car's suspension system. It provides the means for slowing down or stopping the car. The driver must be able to recognize the signs of a worn brake and take the proper action to replace it.

The first sign of a worn brake is a spongy feel. The brake pedal will sink to the floor when the driver presses it. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

## THE CLUTCH.

By H. H. WILSON

IN AMERICA

The clutch is an important part of a car's suspension system. It provides the means for changing gears. The driver must be able to recognize the signs of a worn clutch and take the proper action to replace it.

The first sign of a worn clutch is a slipping clutch. The car will not shift properly, and the engine will rev without the car moving. The driver will also notice that the car is more difficult to control and that it is more likely to skid on a wet or icy surface.

Paraffin Engines 10, 11, 12 and 13 kw

### THE BELT DRIVEN MODEL

Is the cheapest proposition as the dynamo is smaller in diameter, owing to its higher revolutions, it occupies a larger space than the other models, but is just as reliable and will last through the efficiency is slightly reduced because of the belt drive.

## Better Than Ever

Following their traditional policy of constant improvement with no yearly model changes, Dodge Brothers, Inc. during the past year have again vastly bettered their motor car. Never in a similar period have so many fundamental and popular improvements been made.

As a result, sales for 1926 were more than 30% above 1925.

In the Argentine They Know a STUDEBAKER Can Always Be Relied Upon

SUCH a notable record of service as that given above wins the race with the respect of motorists everywhere. The quiet Studebaker L-head motor and the rugged Studebaker chassis are an unassailable combination proved by the testimony of over 900 owners whose cars have delivered from 100,000 to 300,000 miles.

THE reputation of Studebaker cars for utmost reliability and for great excess mileage holds good throughout the world. It is this which has made Studebaker the largest exporter of high-powered cars. We invite you to come in and judge for yourself the advantage of making your next car a Studebaker.

## A Letter from Paris

(By DIANA DASH)

For afternoon wear it is this dainty dress in smoke grey crepe, lined with powder blue percale and opening in front over a wide waist sash.

Some of the advances made in the past for the coming season suggest that the smartest waister is one that fits the body and the fuller shapely lines—first class, but they were very much, the same as very long.

For day wear, little frocks, expressed in plain or soft fabrics in geometric and in crepe de chine with neck, fitting, transparent femininity, two inches above the hips, these are called to-day, but which are frankly called "day frocks" in the past.

Finishing points of the same genre are often made with the light little boleros, "four-bow" type, tucked and front over the full skirt. A very slender, very light blouse at either side helps to keep them in place. Three buttons are especially dainty when extended in transparent velvet or a light pastel shade. Often two buttons of the same color are used on the one neck or two harmonious buttons more intimately attached. Shoppers, and with a sense of downy comfort, there is a little something in the most charming, there is some for a long time.

An alternative to this pattern, that type of gown is the one which opens at the front over a wide panel of pleated fabric, in crepe, in tulle, in a contrasting shade. These frocks also feature the delicate white waist by means of a light shade which features a wide panel with a pleated fabric. A small flower note is embroidered at the back and side, but only

### THE FINE FASHIONS

These fine fashions are in the line of the new season, and are very much in vogue. They are very much in vogue, and are very much in vogue.

### THE YEARS BETWEEN

Between the years of the war and the present, there has been a great change in fashion. The styles have become more practical and more comfortable, and are more in keeping with the needs of the modern woman.

### EAT MORE FRUIT

The apple is an article of diet which is very beneficial to the health. It is a fruit which is rich in vitamins and is easy to digest. It is a fruit which is very beneficial to the health.

The New CHRYSLER FOUR

BUILT AS ONLY CHRYSLER BUILDS

Thousands upon thousands hail the new Chrysler Four as the greatest value to buy and the thriftiest car to operate.

It brings outstanding Chrysler superiorities within their reach—at very low first cost, combined with unequalled operating economy.

By virtue of Chrysler's unique plan of Standardized Quality the Chrysler Four gives you so much more for your money in life, power, comfort, dependability and long life that you will not want to consider any other car anywhere, no matter its price.

Come for a ride in this Finest of Fines.

Chrysler Standardized Quality means that every Chrysler car is built to the same high standards of excellence. This means that you can depend on your Chrysler car for the longest life and the most reliable performance.

### VACANCY

Tenders are invited for the supply to the Kenya and Uganda Railway of 50,000 cubic feet of 1200 motive wood fuel per month from the Njoro Forest Mts. 547 1/2 on the Main Line.

1. A one and three quarter mile siding, 1000 metres long, will be laid to the Forest.

2. The Administration gives no guarantee that the fuel siding will be extended or that timber material will be supplied.

3. A receipt for one of the 200 cubic feet of fuel is payable to the Hon. the Conservator of Forests. The Railway will make the necessary deductions from bills as payments for fuel are made.

4. A security deposit of Shs. 3,000 will be required for the due performance of the contract.

5. A plan of the forest showing the alignment of siding as well as the form of agreement required to be entered into may be seen at the Office of the Chief Stationkeeper or Superintendent of the Line, Kenya and Uganda Railway, Nairobi. Copies will be sent upon receipt of the Shs. 100, which amount will be returned upon receipt of a bona fide tender accompanying the return of the plan in good condition.

Tenders must specify the price per 100 cubic feet of wood cut to specification and stacked as indicated by the Railway. The price quoted to include all Royalties.

Sealed Tenders marked "TENDERS TO WOOD FUEL, NJORO" should reach the Chief Stationkeeper's Office, Kenya and Uganda Railway, Box 40 Nairobi by noon on the 19th March. Late tenders will not be considered.

The lowest or any tender will not necessarily be accepted.

**G. D. RHODES,**  
ACTING GENERAL MANAGER,  
KENYA AND UGANDA RAILWAY

Following is a list of the names of the persons who were present at the Sutton-Smith wedding at Nairobi reported elsewhere in this issue.

Mr. W. H. J. French, a close acquaintance of the bride and groom, presided at the wedding. The bride was accompanied by her father, Mr. J. H. French, and her mother, Mrs. J. H. French. The groom was accompanied by his father, Mr. J. H. French, and his mother, Mrs. J. H. French.

The wedding ceremony was performed by Mr. W. H. J. French, who was assisted by Mr. J. H. French and Mrs. J. H. French. The ceremony took place at the residence of the bride's father, Mr. J. H. French, in Nairobi.

The bride and groom were both dressed in white. The bride wore a long, flowing gown with a full skirt and a high collar. The groom wore a dark suit with a white shirt and a dark tie.

The wedding was a private affair and only a few friends and relatives were present. The ceremony was simple and elegant.

The Government has decided to amend the Kenya Custom Tax. The amendment will affect the duties on certain goods imported into the Colony.

The proposed amendment will increase the duties on certain luxury goods, such as alcohol and tobacco. It will also decrease the duties on certain essential goods, such as foodstuffs and raw materials.

The amendment is intended to raise revenue for the Government and to encourage the development of the Colony's economy. It will be implemented from the beginning of next year.

The amendment will also affect the duties on certain goods imported from the United Kingdom. The duties will be reduced from 10 per cent to 5 per cent.

The amendment will be subject to the approval of the Legislative Council. It will be presented to the Council in the next session.

CLOSER SETTLEMENT IN KENYA.

No. 1.

An Outline of the Work of the Advisory Committee.

THE PROBLEM OF THE POORER CLASS.

(By E. A. Standish, Special)

Kenya has been the scene of a rapid increase in the population of its agricultural districts...

On the spot a settling scheme for the poorer class is being established...

It will be recalled that the settlement of the poorer class in Kenya was one of the main objects of the Kenya Land Commission...

With the demarcation of the boundaries of the settlement...

It is the duty of the Government to see that the settlement is carried out in accordance with the principles of justice and equity...

**NATIVE ASSAULT ON EUROPEAN LADY.**  
**Stunning Blow in the Face.**  
 An assault on a European lady has occurred in the native quarter of Nairobi. The lady, who is the wife of a European gentleman, was returning home from a walk in the park when she was met by a group of natives who, she says, were drunk. They surrounded her and she was struck on the face. The assault was reported to the police and a charge of assault has been laid against the natives. The lady is recovering from her injuries.

The Government has issued a notice regarding the registration of companies. It states that any company incorporated in any country must register with the Registrar of Companies in Nairobi. The notice also provides information regarding the fees and procedures for registration. The Registrar has also issued a notice regarding the payment of the annual fees for registered companies.

**We Hear for London**

London

For the purpose of dealing with the various ailments of the throat and chest, the use of the London Linctus is the best remedy. It is a powerful expectorant and soothes the inflamed mucous membrane. It is equally effective in the treatment of whooping cough, croup, and other respiratory affections.
