# GOOD EQUIPMENT Makes a Good Farmer Better

## Successful Farming is Power Farming! And McCORMICK-DEERING Play a Big Part In Such Success

Successful farming is synonymous with machine farming. More than that, it is nowadays the same as power farming. Soil culture, fertilization, seed selection, and proper crop rotation are of great importance, but all come to naught in these days of high costs if the practical matter of producing and harvesting crops is not handled swiftly and efficiently.

We are proud of the fact that we are in the business of passing McCormick Deering Machines on to the men of this unity for such swift, efficient operation. Proud, because they are the best and most modern machines it is possible to And we sell the McCormick Deering power with which you can operate them to best advantage.

The builders of McCormick-Deering Farm-Operating Equipment have made better and better equipment for 94.

The builders of McCormick-Deering Farm-Operating Equipment have made better and better equipment for 94.

The farmer who is equipming himself for the ears. In the future they will, no doubt, build it still better and more efficiently.
