MISHAP TO AFRICAN FLIGHT WACHINE

Cobham Held Up at

THROUGH REUTER'S AGENCY ! Malta, Nov. 30.

Sir Alan Cobham has been the victim of ill luck since his arrival here on November 26. The first mishap occurred when the starboard wingtip float was carried away.

The flying boat was moored pending the subsidence of the rough sea in order to permit it being hauled up he slip-way for renair but the swell got worse and carried away the port wingtip float.

The repairs will probably take a few weeks. Mr. Carberry's Flight. FORKER ARRIVES AT

THE INDIAN STATUTORY COMMISSION

Earl Winterton Explains the Situation.

THE TWO MAIN CONSIDERATIONS

-

The House Eughy, Nov. 22.

The House Commons passed the Hotel River of Commons passed of the Indian Statiotry Commission Bill.

Earl Winterion, Under-Secretary this sense to be raised by the responsition to the fiscure to be raised by the responsition of the River mithout division the second the Indian Statutory upon the lissues to be raised by this enquiry—a representability which it could neither share with nor hand over to any other country. The second point was that the composition of the com-mittee and every detail of method contemplated for its enquiry form-aid one integral whole which stood or fell together.

sion Bill.

Earl Winterton, Under-Secretary
the Iodis in moving the second
reading said it was necessary to
piller the provisions of the Governsecond of Iodis Act, 1919 which
provided that the Statutory Commission was to be appointed at
the expiration of ten years. The
green till proposed to substitute
for the years' the worst "within
fact the years' the worst "within
fact the years' the worst "within
fact the years' the worst "within
the second of the proposed to the second of the
measurement of the words."

Earl Winteron pounds out that the Third Assembly under the Gevenment of India Art. would still the Park period of this and that the Park period of this and that the Park period of the Art. Winter-side some time on the spring of 1920—that was to say when the Commission would probably have side some time of the Park of the Commission would probably have similarly before in his written dis-report. Therefore the Geome-ment could plain that the Bull His not materially affect the spirit of that Art. There was a recom-sendation of a joint safest com-sendation of a joint safest com-sendation of a joint safest com-sendation. The 1917 Declaration.

nised in this country and in as being unsurpassed in crity as interpreting the policy the Recommendation of the simittee was that no material age should be made in Indian attitution within ten years. On a point be had a twofold answer make. Firstly, this particular-immendation had reference to

they were in a position to exercise it with due regard to the interests of all concerned. recommendation made lontagu-Cheimsford Re-Attempts had been made to Attempts had been made to draw a comparison between condi-tions prevailing in India and condi-tions prevailing in Souther In-land or Berph. Asyone who had any knowledge of these countries would know such a comparison was professably disacious. Both Teyry and Southers, Ireland were the condition of the condition of the Teyry and Southers, Ireland were the condition of the condition of the reveal subcondition of India had ever been.

Home Government to Contribute £20,000

Lendon, Nov. 25.
The House of Commons has un-nimously approved the appoint-sent of the Indian Statutory Com-

and emphasising their case. If his contention were accepted, that the responsibility of Parliament was supreme was it really contented that Parliament could not carry out its obligations under the declaration of 1917 and its obligations the heat of 1919 of 1919 of

tion under the Act of 1919 of surveying and reviewing the Indian situation through the agency of the Commission and taking the necessary action. It was absurd to say that the Commission, conto say that the Commission, con-claining representatives carefully chosen from both Houses of Parlia ment with a chairman who was in the very centre of the frent ran-tioth in Parliament; and in the legal profession was not an instru-ment whereby Parliament was able by discharge its responsibility.

Continuing Earl winterious and it was perfectly possible to be a realist in this matter of high

country. The second point was a million of superior of the sense with the second point of the sense with the second point of the sequence of the second continued to the secon

3 to 4 Times MORE WEAR in Holeproof Ex-Toe Hosiery!

A NEW development in manufacture gives Holeproof Ex-Toe Hosiery greater wear, where ordinary hose wears out quickly.

By actual test, Holeproof Ex-Toe Hosiery wears 3 to 4 times longer. The new "Ex-Toe" feature does it!

Strong, wear-resisting threads, skilfully woven in at the heels and tone, prevent holes and tears. These points of greatest strain are safeguarded against wear.

Holeproof Ex-Toe Hosiery costs no more than ordinary hose. Buy Holeproof Ex-Toe the next time you need hose. You will like them for their faultless appearance and their economy. Kettles Roy, Ltd., P.O. Box 100, NAIROBI

The Conference was then adjourned until the afternoon when
the delegates met in private.

NEED ZAM-BUK'S QUICK CLEAN HEALING.

MANY world-famed travellers, sportsmen and explorers, have written wonderful tributes to Zam-Buk as a soothing healer and reliable first-aid. Major F. Forbes-Leith, on his 8,500 miles motor dash from London to Quetta, carried Zam-Buk with him.

Mr. Frank Scudamore, the celebrated author and war correspondent, who passed unscathed through 29 battles, says that Zam-Buk saved his life by rescuing him from poisoned ulcers.

These are but two examples, ret they strikingly emphasise he power of Zam-Buk.

In millions of homes in every part of the civilised world this wonderful herbal balm is daily performing the same valuable healing work. Directly Zam-Buk is smeared on a jagged cut, wound or ob-

atmate sore, healing begins. Pain, swelling and inflamma-tion is allayed by Zam-Buk, dangerous germs are killed and expelled, poison and corruption are drawn out, and there is a speedy growth of new akin.

Zam-Buk's wonderful secret of healing lies in the rare power of its pure herbal oils and extracts and to its complete freedom from the animal fats found in ordinary ointments and dressings.

NATIVE INTER-TRIBAL

Motorists everywhere are trying and buying the new World Morris

THE new Morris "World" models were introduced just twelve months ago. During that short time they have fully proved how well they filled a long felt need. For this is a car typically British in workmanship, in performance, and in economy. And in its design are embodied those features essential for universal motoring. The" World" radiator combines handsome lines with ample cooling power; the re-designed chassis spells strength with comfort; the Dunlop "buttressed" tyres add to that comfort and ensure big mileage.

In the "World" Morris you buy a car that will do 30 miles per gallon of petrol; 1,000 miles per gallon of oil; that will give you ten years honest service, and this year still better bodies, still more models, still greater value. Is it any wonder that motorists everywhere are trying and buying the "World" Morris?

at the Cost of mere **Transportation**

6-Cylinder Smoothness and Dash-High-sompression Power and Pen-sermance-Size and Roominess with-out Unwieldness-Steady Riding Without Useless Weight-So Miles an hour all day long—and far greater speed when wanted—Riding Ease Like Gitting—Zonomy of Price, Operation and Maintenance

Essex alone combines all these Super-Six achievements. They result from completely original design, with a chaesis as brilliantly engineered in every detail as its exclusive Super-Six Motor.

Every part is designed and built in true balance with every other part. Clutch, transmission, axles and frames are specially engineered to make a perfect unit. This gives compactness. Yet it also adds 15x to the length of the body without extending beyond the rear axle---a great advantage in safety and riding comfort.

Its Super-Six motor developing more than 21 times the rated power of this size motor, converts waste heat to power and gives an economy in fuel and oil never assopower and gives an economy in fuel ciated with such outstanding ability

Its vivid brilliance of performance reveals in a single ride a smoothness and quiet, a road-swimming case and searing exhibitation that is actually like flying. Greater

in power, more versatile in all performance, larger, roomier and more beautifully, appointed, it is astural that a public accustomed to great things from Essex accord it even higher popularity than its predecessor.

Here, at the cost of mere transportation you get luxury, comfort and performance that makes ownership a real joy

KENYA A HEAVY LOSER IN IVORY REVENUE.

SATURDAY, DEC 3, 1997

The Jubaland Problem.

IS SMUGGLING DONE WITHIN THE COLONY

The Lamu correspondent of the "East African Standard" deals in the following article with the Serious loss in revenue suffered by Kenya since the cession of Jubaland.

Lamu Ivory sales have practically ceased to exist.

He declares that out of Game Department profits money should be found for a vigorous stamping out campaign and hints that probably the samgeling takes place within the borders of the Colony itself.

People on the Tana have no faith in international

GAME WARDEN'S PERSONAL INVESTIGATION.

(" STANDARD " CORRESPONDENT !

A New Suggestion.

The Chief Game Warden accompanied by Assistant Game Warden MacArthur, Mrs. Ritchie, and Miss the state of the s Sheila Macdonald, have been stay-ing in Lamu recently. The party bave taken some two months Tana River Valley, and, in addition to going into several matters affecting game—including the seriously important one of the smuggling of ivory out of the country—have found time to make which they brought through.

which they brought through.

The information that I gathered from the party regarding grains in Tanaland and the adjoining perition of the N.F.D. Jying between the Tana River and the international boundary, confirms that previously supplied me by a member of the Juhaland Boundary Commission and prairies and others.

ESPONDENCE

(Continued from page 40.)

To add this class of wheat to "Equator" would be to make it worse and I do not believe that worse and I do not believe that any bates would accept any flour with say more than 10% of this class of wheat in it. This claw of wheat should not be locally used of any other purpose than for the making of atta. If it be of the right kind it would fetch a pay-ing price for export as a macaroni wheat.

Up to date there has not been enough of really A1 good bread wheat to go round and I should imagine the millers have done a smagne the millers have done a service to the country in blending the different kinds of wheats grown so as to make a very pass-able flour instead of milling what they have known to be the good wheats alone and standing idle for

now doing in the 6000 to 7000 feet country and keeps tolerably free from rust then in a short time all our local flour will be made from "flovernor" and those grow-ing Equator will have to be con-tent with a second class export market unless they can get on to some other better milling wheat for the higher altitudes.

some where better munny ween-fer the higher attribution, the four-that "Goerrases" "Managist" etc., are that "Goerrases" "Managist" etc., are are worth inner than "Squates" and other such like wheats and "This would have the different and other such like wheats and "This would have the, offert of operating the wheats, which the other on the grown. On this point there is a let in what Dr. Ferben-ther wheat pool have arranged to pay for wheat or a besis which at the Krays Parmers in their fact wheat pool have arranged to pay for wheat or a besis which extress. I want the state of the extreme wheat, which is a state good dreum wheat, which is a that good dreum wheat, which is the tandly heavier and thearfore would be a poll more for then proof "Govern-teed and the poll of "Govern-teed and the state of the bread maker we have.

3. Dr. Forber refers in "Mar-visit" and if this what sam re-place "Equatior" at the higher elegations that the some it is ex-ficient to the same in the set page in speed military and the made Chanida. For it is compara-tively a new when and Red Fife had made Chanida. I think long be-fore "Marquis" ame into being. 4. Dr. Purbes states that it is the foar of links filter must that the foar of links filter must that had the care surely a ther semi-derations: 3. Dr. Forbes refers to "Mar

It is probably the biggest yield-er we have ever had. It is characterised as a good baking wheat by such authorities as Prof. Biffen. Mr. Constantine and Mr. Torr.

5. Dr. Furbes resommends Capt. 5. Dr. Forbes reseamends Capt. Burton to try wheath from all over the world. To devoje much time to this would most probably be waste and a great deal was done in this line af ar back as 1908 and actually, in the year 1911, 144 varieties from different parts of the world were tried at Kabete. Njoro and Lumbwa.

6. Dr. Forbes advises farmer

any wheat their the militers want is a very averaging statement and a very averaging statement and a very averaging statement and very averaging very state of the very state of very to some in absoluted many the discrete very state of very to some in absolute very to some in absolute very to some in absolute very to some in a state of very state of very to some in a state of very state of very to some in a very to some in

5000 feet to 10,000 and I think

5000 test to 10000 and 1 thinks this must be a printed a verse for in this district alone 700,000 bags of make were raised at alliable of from 5000 to 7000 test. The state of names replace Equator.
These are, a number of estincy different qualities required to make a satisfactory bread wheat Sciaher Henry Coremor, nor Reputer Henry Coremor, nor Reputer, nor locally grown Machine and the Coremor is the best all round bread wheat at present grown in singertant quality and other wheat must be breaded with it to make yet in the country, but it is deficient in one important quality and other wheat must be breaded with it to make yet his deficiency.

that a very off when adversely address the time recording makes. And the state of t make up this deficiency.

The speaked flour referred to by
Mr. J. R. Torr was not made entirely from Kenya Governor, and
AT regret their AT guide unissentionally gave him the impression
that it was. It was a blead up

Market N "STANDARD " CORRESPONDENT,

The Feetham Commission.

The next question discussed but-ween them was the Feetham Com-mission. Major Ormsby-Gore stated that so fee as he knew, no official approval of the recommen-dations of the Commission had been given, and that what the Covbeen given, and that what the low-ermor meant in his speech when he said that the Report with re-gard to Nairobh had been approved by the Recertary-eff-lister, proba-ries and the Report of the Re-gard to Agriculture and the Re-gard to Agriculture and the Re-gard terms, that he liked the Report. Major Oremby Gone further stat-ed that, at any rate, the Geremor-th and the Report.

would take into consideration the legal developments is Kenya on this subject, and when a still is a troduced in the Legislative Coun-cil, the Colonial Office would have an opportunity of considering it. Mr. Malik informed Major the Indians will stop payment of and Taxes

Stamp Duties Bill. EANZIBAR GOVERNMENT RECONSIDERING THE QUESTION.

The Government of Zanzibar re-pently proposed the introduction of a Stamp Duties Bill as one of two methods of raising additional revenue, the other being an in-crease in the import duties from crease in the import duties from 10 to 15 per cent.
As a result of criticism and opportion, nattendarly on the part of the Indian commercial owners, the Indian commercial owners with the Legislative comment did not propose for the present to proceed with the Stamp Duties Bill.

Flaw Discovered in the In the Logislative Council on

In the Logislative Council on Monday the Solicitor General moved the second reading of the Arms and Ammuniton (Amend-Arms and Amstumiton (Amend-ment) Ordinance. Mr. Bruce ex-plained that the object of the Bill was to make at clear that a loeme insued, under the Ordinance must be a license for each firearm. The first license insued to any one indi-vidual in any one year would own like 6/2 instead of Bla. 5/2 as at

SHS. 10.

The second residue was passed and there the Bill was examined at the Bill was examined as the Bill was examined as the Bill was examined as the Bill was a second was a second was a second to the loss of measures to the Colony by reason and second was a second of persons to the Colony of the Bill was a second of persons to the Bill was a second of persons and the Bill was a second of persons to the Bill was a second of persons and the Bill was a second of

arm instead of perhaps 20 or 30.

The Solicitor General who was almost insule by at the Press table was understood to say that under orising Ordinance only one fee was understood to the first license and that others were issued.

ARRIVALS STRAMBIR DEPARTURES

Sometime or other a great writer said that there was nothing in a name

So far as names are concerned "Smith" sounds about as good as "Jones." But if Jones was just the man for a certain job you woudn't holler for Smith, would you!

It's just that way with Belting.
When you ask for "Rainbow" you're specifying the name of a belt that can't be equalled for service.

And that's what you want, isn't it?

Try one Rainbow Belt.

Hand Power Toggle Lever.

Straw Presses

"The Little Nipper"

This Press-is constructed on the principle of the well-known Perpetual Press, but adapted for hand power. It makes a bale 14 in. by 18 in. by 36 in. long. By the Toggle action a very high degree of compression is attained without excessive labour. It is suitable for hay, straw, paper, cotton waste, sisal and all kinds of fibrous material.
