

POWER

Where Power Counts Most

WHEN the task to be accomplished is difficult—when stamina, dependability and unfailing power are essential—the advice of those who know is, "Buy a Buick!"

In Buick for 1928, greater power, and greater get-away are imparted by vital engine improvements... greater grace and beauty are provided in its new low-swinging hoodies by Fisher... greater versatility and riding comfort result from built-in hydraulic shock absorbers and tailored seats.

Drive a Buick for 1928 to-day—and find out why Buick is so popular where power counts most.

OPTIMISTIC OUTLOOK FOR COTTON CROP.

Improvements Counted by Dots. Marston.

"STANDARD" CORRESPONDENT, Kampala, Jan. 7.
Everyone is busy now getting ready for the opening of the season which is now almost upon us. The weather is now fine and looks set to stay so, so it is quite of the many stores we have expected about lately, the crop ought to be quite good. Certainly the feeling is one of optimism by all concerned. According to the latest Government Monthly Cotton Report, the weather conditions were generally more favourable throughout the season. Profiteers and a satisfactory rainfall was reported from most of the cotton producing areas. In the Eastern Province, while the later sowings are expected to be abundant, those of May, June and July are said to be doing well. Crop yields were improved immensely during the period rainfall in the latter half of the month was not so dry a fairly good crop should now be obtained. In the Uganda Province, the rainfall for the month was satisfactory and gives further favourable conditions for the average crop should be expected. In the Northern and Western Provinces prospects are fair and probably has started.

Due to the higher price of Liverpool cotton rising at present the Government Report 1928, which is worked on a sliding scale, will be six cents per lb. this year against two cents per lb. last season.

Indignant Ginners.

Great indignation has been caused amongst the ginners of this country by a last minute change in the opening of the buying season for the District of Bunwan. This has suddenly and without any warning been put forward a fortnight with new arrangements to make. Not only are the ginners affected but the Banks will have made their arrangements for the sale will now have to expedite the forwarding of funds.

We understand that at a committee meeting of the Uganda Cotton Association, hurriedly called, it was unanimously decided to send a telegram to the Government who is at present away on safari, who is protesting strongly against this sudden decision of the Government and pointing out the financial

disturbance that will be caused generally by all the parties concerned.

Cotton Board.

A meeting of the Cotton Board held on January 29th, 1928 at which the following business will be dealt with:—Minutes of Application for transfer of the Kasesungu Ginners' Branch to the District of Ntambaga, Entebbe, to a site at Ntambaga, Entebbe District.

Chamber of Commerce.

At a meeting of the Chamber of Commerce on the 29th inst. the draft of their Memorandum of Federation was decided upon and this to be sent in to the Government to be presented to the British Commission which is in the U.K. in this country this month.

The Annual General Meeting was fixed for January 27th.

Tourist Taxes.

PROPOSED DUTY ON LADDERS IN FRANCE.

"STANDARD" CORRESPONDENT, Paris, Dec. 21.

Not everybody in the Chamber of Commerce in this country is satisfied that the proposed duty on a tax at French ports will be a complete success. It will be levied on Frenchmen and foreigners alike, and Frenchmen are naturally likely to choose a port of their own country for embarkation or landing. But tourists—there have been so many impositions of this kind since the War. The tax on hotel visitors has vexed the minds of many others, and was quite generous, people, and even wealthy Americans complained of the little pin-pricking duties which were laid upon them, they, and everywhere, so they may show to land in France.

The Minister of Public Works is quite happy about it, but then those who create levees and taxes are often sore. He says that a traveller who has paid thousands of francs to get to a new hotel in France. There are people who look back on their own hotel as the last straw, but that need not be gone into, until the question comes up for ratification by the Senate.

Expert Opinion
There is no better judge of whisky than the drinker in the field. He knows the value of whisky of flavor, and taste. "LONG JOHN" Scotch Whisky characteristically pure and mature.

effect and tends to make the speed of the car appear higher than it is.

This illusion is strengthened by the fact that the car is always in the fall line of the wind. One may do 70 M.P.H. in comfort when one is well protected from the wind. One may do 70 M.P.H. or two or three times as fast when the wind is blowing from the rear.

Motorcycle and Note.

The popularity of motorcycles in certain circles, and especially in a section of the daily Press, is widely attributable to an illusion. The modern motorcycle is very much better, although that was not the intention of its designers, than the old-fashioned motor-cycle.

In addition, the narrow corner of the road is not so wide as it used to be, and the motor-cycle is not so fast as it used to be.

Deceptive Speed.

There is nothing so deceptive as speed, and nothing is more difficult to estimate correctly. The trouble is that one does not rely on the eye, but on the ear.

An Unpleasant Situation.

There is no more unpleasant situation than to discover a small car in the traffic where one is driving. One can only hope that the car will stop before it reaches one.

the chassis is both in and out of the ground when loading.

The sensation of speed when a car is running away is not so great as it is when it is standing still. Many experienced motorists have been estimated to have been in a state of panic when they were in a car which was running away.

Deceptive Brakes.

In the same way, it is almost impossible to judge the quality of the brakes of a car by the way it is running.

Effect of Bad Springing.

A greater impression of speed is generally given by a badly sprung car than by one which is well sprung.

When the Screen is Omission.

A curious illusion is sometimes obtained by driving with fast wheels.

Cut down those bills!

You can save on your automobile costs by running on "BP" motor oil. BP motor oil is the most efficient of all motor oils. It is the only motor oil that is guaranteed to give you the most mileage per gallon.

KENYA VISITED BY AN EARTHQUAKE

Severe Tremors. Rift Valley the Centre of the Disturbance.

Damage to Homes.

AN UNUSUAL EXPERIENCE FOR THE CAPITAL

The Colony as a whole had a somewhat alarming experience on Friday night when there were severe earth tremors lasting for the most part for rather less than a minute.

The shocks were most severe in the Rift Valley where at some points six distinct tremors were experienced between 9 o'clock on Friday night and six o'clock on Saturday morning.

A chimney stack fell near Nakuru and in other districts houses were cracked.

In Nairobi motor cars parked near the Club began to move and many people left their homes apprehensive to return during the week-end.

The last earth tremor of any consequence in East Africa was that which visited the district in February 7. It lasted for about a minute in Kampala and was accompanied by a loud roaring sound. The waters of the Victoria Nyanza were considerably agitated.

A curious report of the disturbance of Lake Nakuru in Tanganyika is reported by a traveller who arrived in Nairobi during the week-end.

TANGANYIKA LAKE PHENOMENON

There was particularly alarming news from Nairobi and throughout the Colony.

The earthquake was the most severe recorded in Nairobi on Tuesday morning, when many stories were told of curious events.

At the Nairobi Club where a dance was being given, the music was interrupted by a number of shocks which caused the dancers to be thrown off their feet.

At Nairobi it is reported that the earthquake was so severe that many houses were cracked and the walls of buildings on the same level were tilted.

At Nairobi it is reported that the earthquake was so severe that many houses were cracked and the walls of buildings on the same level were tilted.

At Nairobi it is reported that the earthquake was so severe that many houses were cracked and the walls of buildings on the same level were tilted.

PREPARING FOR THE NEXT ELECTION

British Premier Confident of Success.

WORLD OUTLOOK.

(TREMOR SEVERE ASSET?)

If I live I pledge myself to fight the British cause. I believe I shall win, but the only condition is that I must be a member of the British Empire.

The Premier regarded the outlook as most hopeful and stated that most progress had been made in Europe in the last three years than in any equal period since the war.

The Premier regarded the outlook as most hopeful and stated that most progress had been made in Europe in the last three years than in any equal period since the war.

"IRONITE"

FOR DUSTLESS, WATERPROOF AND LEASEPROOF FLOORING AND PAVING.

IRONITE forms a dense compact homogeneous floor that fulfills every possible requirement under conditions where the heaviest traffic predominates. The hardening effect resulting from the use of IRONITE steadily increases with age, and much surpasses the strength and durability of any other concrete floor. AN IRONITE TOPPING can be laid on any existing concrete floor.

WEAR-PROOF & WATER-PROOF Specified by the World's Leading Architects.

Wholesale Stocked:

READ WHAT THE S. A. MEDICAL RESEARCH INSTITUTE
HAYS TO SAY.

THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH
805 Exhaustive Test and PROVES THE VALUE OF KOMO

"For as many years past eminent Medical Authorities have been available for either contemporary's statements or references...
Quite recently the South African Institute for Medical Research conducted a series of experiments in which were tested a number of spraying fluids, and in making the investigation the efficiency of KOMO as an insecticide was taken as the minimum standard at which to aim."
It was found that some 25 fluid ounces of KOMO—the quantity suggested by the Manufacturers—definitely killed every fly in a room of 1,200 cubic feet within three hours from spraying."

ALTHOUGH NO LESS THAN THIRTY SEVERAL LIQUID SPRAYS WERE USED IN THESE EXPERIMENTS, KOMO ALWAYS CAME BY FAR THE MOST SATISFACTORY RESULTS.

ALLEGATIONS AGAINST TANGANYIKA GOVERNOR.

COMBINED DEBATE.

Evaluating the Land Laws of the Territory.

Unconquered Story of 50,000 Acres Application.

Allegations that the Governor of Tanganyika is evading the law in the allocation of large tracts of land to the Southern Highlands were made the subject of a debate in the House of Commons during question time on December 22.

Mr. James Hudson (Lab. Independent) asked the Under-Secretary of State for the Colonies whether he is aware that in the unoccupied areas of Tanganyika a month's application for 50,000 acres in the line of a road for sheep-walking has been made by the administrator to the administrator to be completed by the end of the month of the 1st of 5,000 acres. He said he would like to know what he will be told to the same effect by the Under-Secretary of State for the Colonies.

In this way, or in any of the other forms in which Quaker Oats serve it daily in your home.

SURPRISE! It's the members of your family by serving them with "Sweet Quaker Oats Flitters." A new dish, different from the ordinary and positively, nutritious, tasty and easy to digest. All the goodness and all the softness of oatmeal in a new and interesting form to all.

EXTRA BLENDED TO ALL.

What far surpassed oatmeal for breakfast?

Has not "Hannibal" perhaps contained two distinct virtues?

Captain Ritchie happens also to be Chief Game Warden but it seems rather hard lines if that fact should deter him from enjoying his private recreation.

"Hannibal" is "quite playing the game" to attack an official published in a purely personal matter (nevertheless) where the editor of the "Evening Service" derided him from indulging himself through your columns? Yours etc.

LESLIE J. TARBTON

IN HIS MAJESTY'S SUPREME COURT OF KENYA AT NAIROBI.

CIVIL CASE No. 250 of 1907.

S. Jacobs, Ltd., versus Plaintiffs.

1 Civil Service (B.E.A.) Co-operative Society Limited and
2 East Africa Co-operative Society Limited (in liquidation) Defendants.

TAKE NOTICE THAT

Pursuant to an Order of His Majesty's Supreme Court of Kenya at Nairobi, dated the twelfth day of December, 1907, we have been duly instructed to sell the property referred to in the heretofore known as Public Auctioneer, and in accordance therewith.

WE SHALL SELL BY PUBLIC AUCTION at our Salerooms, Muting Building, Haile Selassie Street, Nairobi, on

Monday, 16th January, 1909,
at 2-30 p.m.

precisely, the property concerned—

SCHEDULE OF PROPERTY.
ALL THAT piece or parcel of land situate in Elliot Street in the Township of Nairobi in the Nairobi District of the Ukenia Province in the Colony of Kenya comprising 2081.25 square feet, or thereabouts, known as Plot Number 109, numbered and thirty six section number Five of Fortian number two hundred and nine together with the building known as "Hamilton House" erected and being thereon which said piece or parcel of land is more particularly delineated and described on the plan of the said land situate in the said District of Nairobi, and as aforesaid, dated the 20th day of December, 1911, (registered in the Crown Lands Registry at Nairobi) and as also described in the Title Deeds of the First and Second Parties herein (George the Fifth of the one part and Oswald John Edwards and Henry Cliff Cliff (both therein described) of the other part and thereon bordered red hold for all of the unexpired residue of a term of 99 years from the 15th day of August, 1911 at the yearly rental of Rupees 75 and subject to the covenants and conditions on the part of the Lessees contained or implied by the said indenture.

AUCTIONEER'S REMARKS.
"Hamilton House" was constructed by Mr. George Blowers a few years ago, and was built with a view to easy extension, and can be altered and adapted as circumstances require. It has a handsome stone front which consists of ground floor, and two upper storeys. The Nairobi Corporation are the present tenants, while the upper floor has a suite of rooms occupied as a flat. Adjacent to the main building, there is a lock-up store of wood and iron with a stone floor, while sundry out-houses (including a concrete store) complete the buildings. "Hamilton House" should appeal to investors in view of the building schemes now contemplated for the immediate vicinity, which will undoubtedly ensure considerable appreciation in the value of this property.

Particulars of leases, rentals, etc., can be obtained from the Auctioneers.

The Title Deeds will be inspected by arrangement, and any further information may be obtained from Messrs Harrison, Hamilton, and Mathews, Solicitors, Nairobi House, Nairobi.

MUTER and OSWALD, Auctioneers, etc., NAIROBI.

'STANDARD' CORRESPONDENT. Manaburu, Jan. 8. The M.C.C. met last evening at the Club House yesterday. Baking first Eastern Province all out for 150, and the M.C.C. on going in were dismissed for 80. Oshing taking five wickets.

Cambridge University

Cambridge University met to discuss the new scheme for the Light House before the Inter-Allied Conference.

There is no doubt that the great match of their year was fought on Friday, Jan. 5, within a space of three days, that the Cambridge team suffered before only a defeat at the hands of the Waratahs, suffered two bad hits.

The Waratahs themselves, coming their second tour of Wales, managed to defeat Cardiff by 15 points to 5, and this time gave a display of their undoubted capacity for recovery.

The County Championship preliminaries were completed for the South West division, when it was concerned when Cornwall at Gloucester were able to draw with Gloucestershire, and so were able to fight on for a place in the two semi-finals.

A very hard game at Twickenham, in which the forwards were mainly in the picture, led to the Harlequins beating Leicester by a try to nil.

A SECOND SERIES OF EARTHQUAKE SHOCKS YESTERDAY

Alarm at Fort Hall.

NUNS' NARROW ESCAPE WHEN WALLS OF BEDROOM COLLAPSE.

Five Nine Miles Long in Lake Baringo Area.

Reports received by the Standard yesterday show that some parts of the country suffered somewhat severely from the earthquake on Friday night. Nuns attached to the Roman Catholic Mission at Fort Hall had a narrow escape from death. They were killed or wounded, particularly in the kitchen where the walls of the building collapsed. Two further shocks were experienced in the Fort Hall and Nakuru areas yesterday morning.

ANOTHER EXPLOSION IN BERLIN.

The Second Disaster within a Week.

(TELEGRAPH BUREAU'S AGENT.) Berlin, Jan. 9

Berlin has experienced its second serious disaster by explosion within the space of a few days. The city was aroused early this morning by a noise resembling thunderclap—due to an explosion in the Dahlem suburb. A villa was wrecked, and of its occupants, including two professors who were engaged in chemical experiments, two were killed and eight seriously injured.

MR. TIM HEALY RETIRES FROM ACTIVE LIFE.

A Farewell Banquet in Dublin.

(TELEGRAPH BUREAU'S AGENT.) Dublin, Jan. 9

A felicitous atmosphere permeated the proceedings at the banquet given by the Executive Council of the Irish Free State in honour of Mr. Tim Healy on the eve of his retirement as Governor-General. The function was attended by both the Roman Catholic and Protestant Archbishops. Speaking on the Anglo-Irish relationships, Mr. Healy emphasized the fact that the English in past years did not interfere in any Irish matter to the extent of a little or nothing. Commenting on the talk of "Our foreign king," he said: "This latter is a gentleman, and we know his politics, which we know much about those who talk about his interference in Irish affairs."

P. & O. LINES COLLIDE AT TILBURY.

Effect of the Winter Gale.

WIDESPREAD HAVOC.

A severe gale visited the British Isles today doing considerable damage to land and sea. Deaths and injuries to persons, caused by the falling of trees, poles and the falling of roofs from the tops of houses, are reported from all parts. Two Peninsular and Orient steamers collided at Tilbury. The "C. Ramak" having passengers on board was blown over the side and crashed into the "Moolind". The "Ramak" was damaged, but no passengers were hurt, but no passengers were hurt, but no passengers were hurt.

HOUSES WRECKED IN SABUKIA VALLEY.

Several villages near Nakuru state that the earthquake on Friday demolished numerous houses.

(STANDARD) CORRESPONDENT Nairobi, Jan. 9

Very serious earth tremors were felt here evening at 10.45 which lasted for several seconds. Buildings of the time varied from ten to ten seconds. The shocks were felt over a very large area though at the time of writing it was not long ascertained if Kismayo was affected, but as Kismayo had the shock it is presumed Kismayo was affected. There were seven or eight distinct vibrations, all of which were felt. The first shock began to fall, the first for some time.

THE DEFENCE FORCE.

RECENT QUESTIONS IN THE HOUSE OF COMMONS.

Several points of interest in connection with the Defence Force (Ordinance) have been raised in the House of Commons recently. Mr. Tombs (Labour, Leicester) asked the Under-Secretary of State for the Colonies whether the full improving occupation of land made in Kenya had been fully advised by the Colonial Office, whether under the oath of allegiance to the King was included in the terms of service, and whether it was necessary to provide persons to whom it will apply, and what is the number of persons in the Colony who possessed a licence.

GOVERNOR OF S. AUSTRALIA.

KING APPROVES OF NEW APPOINTMENT.

(BY WIRELESS.) Sydney, Jan. 6

The King has approved of the appointment of Col. Hon. Alexander Hore-Radcliffe, V.C., to the Governor of South Australia in succession to Lieut.-Gen. Sir Tom Bridges—British Official Wireless Service.

MR. LLOYD GEORGE ON TOUR.

ARRIVAL AT SOUTH AMERICAN PORT.

(BY WIRELESS.) Rugby, Jan. 6

Mr. Lloyd George, the Liberal Premier, accompanied by Dame Mary Lloyd George and other members of his family has arrived at Rio de Janeiro—British Official Wireless Service.

THE DUCKY'S BROTHER.

TO MARRY ONE OF HIS NIECES' BRIDEMADEMS.

(STANDARD) CORRESPONDENT London, Dec. 15

The engagement was announced on Saturday of Captain H. D. Ducky, of the 1st Battalion, The Buffs, to Miss Elizabeth A. L. Ducky, the daughter of the late Major Ducky. The bride is the daughter of the late Major Ducky, who was killed during the Boer War. The bride is the daughter of the late Major Ducky, who was killed during the Boer War.

AMUNDSEN "INSULTED."

SEQUEL TO A R.G. SOCIETY BANQUET.

(STANDARD) CORRESPONDENT London, Dec. 15

Mr. Amundsen has been "insulted" by the Royal Geographical Society. The society has refused to grant him the honor of membership. The society has refused to grant him the honor of membership. The society has refused to grant him the honor of membership.

POWER

Where Power Counts Most

WHEN the task to be accomplished is difficult—when stamina, dependability and unflinching power are essential—the advice of those who know it, "Buy a Buick!"

In Buick for 1928, greater power, and greater get-away are imparted by vital engine improvements... greater grace and beauty are provided in its new low-swing bodies by Fisher... greater roadability and riding comfort result from built-in hydraulic shock absorbers and tailored seats.

Drive a Buick for 1928 to-day—and find out why Buick is so popular where power counts most.

The Kenya Quick Letter File.

for up-to-the-minute Filing Systems. This is one File.

This is the one file which makes all your papers available immediately!

- Illustration No. 1 shows the file with the papers securely bound into the folder. Every paper is in position for immediate reference.
- One of the great advantages of this file is that the margins are plainly visible, thus you have a complete reference to all details on the pages.
- Remember, that you can remove or add any paper you wish without disturbing the other papers in the file. Your papers are always in order—always ready—always ready! It is the only filing system which definitely appreciates any other file placed on the market.

The mechanism is fitted with genuine leather, in an elegant factory case. The fittings are metal and highly nickel-plated.

The only file that fits all the advantages of the lever arch file.

NATIVE CULTIVATION OF UGANDA COTTON.
Not Bound to Injure Quality.

COUNCIL QUESTIONS.

The question of native cultivation of cotton was asked by Hon. H. H. Hunter, who asked the Director of Agriculture, Uganda Legislative Council, about the present position of native cultivation of cotton and how to improve the quality of Uganda cotton.

The Hon. the Director of Agriculture, in reply, said:—

The Hon. H. H. Hunter then asked whether any deterioration in the quality of Uganda cotton has occurred since the present position of the quality of Uganda cotton has occurred, what steps (if any) are being taken to counteract such deterioration?

The Hon. the Director of Agriculture, in reply, said:—

No deterioration has occurred to any knowledge. Last season Uganda exported a larger proportion of first quality cotton than in any previous season.

The Hon. the Director of Agriculture replied:—In the Eastern Province native foodstuffs are not produced for the moment. There will probably be a shortage in some crops at the end of this season, and in January, but it will be possible to meet this without calling on the communal reserve.

In February it will probably be necessary to have recourse to the communal reserve for certain crops. In Uganda generally speaking the staple crops are the cereals, such as maize, sorghum, and millet, and these are not stored in large quantities. However, a shortage of food exists, and this is being remedied by Government. Reports from the Northern Province indicate a shortage of food in that area, and this is being remedied by Government. Reports from the Western Province, in the absence of a recent report from the Provincial Commissioner, Kampala, will enable the position in other than satisfactory.

High Court and Hospital.
FORMER IN KAMPALA TO COST £25,000.

The building of an Assize Hospital and a new High Court was considered at the Executive meeting of the Uganda Legislative Council.

The Hon. J. J. Amis asked the Hon. the Chief Secretary—whether the Government is intending to build the Assize Hospital in the year 1928 or not?

The Hon. the Chief Secretary:—Plans for a High Court building at Kampala have now been prepared and £20,000, the estimated cost of the building, has been included in the Budget for the year 1928. The building has been included in the Budget for the year 1928. The Government is still in possession of the land for the site. This Government is still in possession of the land for the site. This Government is still in possession of the land for the site.

FOOD SHORTAGES IN UGANDA.
Reserve to Compensate Necessary.

GOVERNMENT STATEMENT.

Questions on food supplies and the position of stocks in the Province were asked by Hon. H. H. Hunter, at the December sitting of the Uganda Legislative Council. The Hon. the Director of Agriculture, in reply, said:—

The Hon. H. H. Hunter then asked whether any deterioration in the quality of Uganda cotton has occurred since the present position of the quality of Uganda cotton has occurred, what steps (if any) are being taken to counteract such deterioration?

The Hon. the Director of Agriculture, in reply, said:—

MOTOR TOPICS

CARELESSNESS!
Cause of Many Driving Mistakes.

ALL AVOIDABLE.

These carelessness in driving is a difficult subject on which to write, for it is hard to demonstrate in words, significance or great hard driving and maintenance in the car. Nevertheless, it is an important subject, and one which cannot be neglected without at least one instance of carelessness coming to light. It may be the fault of another driver, a pedestrian, a cyclist, or the driver himself may be partly of the fault. It is not to discover and carelessness is allowed to remain, it is to take oneself and everyone's driving career when carelessness is allowed to remain.

There are many instances of carelessness which may have already resulted in a risk. Not only are many "old" cars "old" but they may not be repaired, there are also many "old" cars which are not repaired, and the latter two cases can be considerably reduced by a constant drumming of the safety-first slogan into the minds of all users of public highways. The human element, however, can never be replaced; therefore the writer has compiled the following list of carelessness—found often after later experience to be most and from which cannot be so frequently repeated, or so heavily stressed.

Some of the worst cases of carelessness occur in connection with parking. A driver, for instance, leaves his car just round a blind corner; it passes the writer's conclusion how say any one could be so foolish as to place his vehicle in a position where, in the night, at any moment, he is liable to another car, not to mention the possibility of his coming in collision with some serious collision between two other vehicles advancing to separate them.

Thoughtless Parking.
Parking cars carelessly, even in official parking places, often causes accidents and trouble to other drivers, which could easily be avoided by a little forethought. For example, many no-renter cars have no readily obtainable in the car just and before it about a yard away from the back so that it projects into the path of other traffic.

Another variation of this form of thoughtlessness is the "too" many private laws of development of the service station as well as a positive that there were cases of houses sufficiently close to the street.

The writer has often noticed the motorist who in which some careless handling petrol. They "dash" the motor about and which nothing of a tank, right up to the edge should the latter happen to be beside the bonnet and in any position to the exhaust pipe, there is every likelihood of a serious fire if the spirit catches over some splashes on the floor-board. The family manufacturer's verdict that and generally place the other traffic on the opposite side to the exhaust pipe.

There are all sorts of ungraceful, almost comical, and undignified "changing on top" is not an easy thing to do, and a pedestrian might have of getting out of their difficulty.

Creeping tentatively up a steep hill, almost as had an engine too hot, for in either a split second or a moment of carelessness, which is always risky if the back of the car is not a better child, he should, out of decency, if not safety, stop.

Happy, the one-time accident driver in which was exposed to the fact it is a method of catching traffic coming down a hill is liable to be moving through the man who has to "crash" up a hill has practically no control in hand to get out of the way in a hurry.

A form of carelessness which is very prevalent is the way many motorists pass those which are either being ridden or led. A small car, or a horse or another truck of a softly passing car is sufficient to cause a horse with any sense to rear and plunge.

It is not to do in a hurry with a front has been the cause of many a fatality. Children particularly are

AFTERMATH OF THE LONDON FLOODS

Insufficient Warnings Given.

CAUSED BY FLOOD WATERS OF RIVER MEETING ABNORMALLY HIGH TIDE.

Fen Country Also Experiences Severe Inundations.

Following the catastrophe in the London area caused by the Thames overflowing its banks, the question is now being asked as to the responsibility for the absence of warning. The high water was caused by a flooded river meeting a spring tide with a gauge behind it which a combination has not been known within living memory.

It has been suggested that the national drainage system is inadequate to deal with such occurrences as this, and there is the danger of disease as the result of the flooding of the sewers.

Other parts of the country have been similarly affected particularly in the Fen district which is a perilous state.

Further details as to the effect of the flood are published below.

RELIEF FUNDS OPENED.

(BY WIRELESS)
Sunday, January 7.
London wireless districts from Hemsteadstead and surrounding areas flooded in the early hours of the morning. The high tide was due at 1.0 a.m. and about an hour before that the Thames began to overflow its banks into the low-lying areas in the City, Westminster and the Strand.

The water made its way over the embankment at the Strand and the houses were flooded. The water was in the Strand and the houses were flooded.

KOMO The Insecticide

IT POSITIVELY KILLS FLIES, FLEAS, BUGS, ANTS, ROACHES AND MOSQUITOES. READ WHAT THE U. S. MEDICAL RESEARCH INSTITUTE HAS TO SAY.

THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH. Exhibits Test and PROVES THE VALUE OF KOMO

"FOR many years past eminent Medical Authorities have been investigating the merits of spraying flies as a means for the destruction of flies and other pestiferous insects."

It was found that some 24 cubic centimeters of KOMO—a quantity suggested by the Manufacturer—definitely killed every fly in a 1,000 cubic feet within three hours "bona fide."

ALTHOUGH NO LESS THAN THIRTY-THREE LIQUID FLAYS WERE USED IN THESE EXPERIMENTS, KOMO GAVES BY FAR THE MOST SATISFACTORY RESULTS.

CORRESPONDENCE

PRODUCER GAS PLANTS

To the Editor, "E.A. Standard."
 Sir—I have seen Decker Producers Gas Plants advertised as a guarantee of good health. Having just examined the same, I am sorry to state that they are not what they are cracked out to be.

THE BARTHELEMY

To the Editor, "E.A. Standard."
 Sir—I have written to you on the morning I had rather a severe cold, and as you were in the city when you hear I was hoping you may mention in some way, with the assistance of the medicine, I am sure you have not forgotten a drop! My bed began to rock like a rocking chair, and I was nearly thrown out of my bed. The early hours of the morning were very uncomfortable, and I had had the earth shake.

METEORIC PHENOMENA.

To the Editor, "E.A. Standard."
 Sir—I am a student of the University of Nairobi, and was extremely a large globe of meteoric gas from the atmosphere of a meteorite.

To the Editor, "E.A. Standard."
 Sir—I shall be very glad to hear of many of your readers in other parts of the Colony being so well pleased with the success of your enterprise, and the success of your enterprise, and the success of your enterprise.

DEVELOPMENT OF THE FLYING HABIT IN KENYA.

Growing Popularity of the Nairobi Aerodrome.

NGONG THRILLS.

Commercial Air Lines Throughout East Africa Bound to Come.

A new week-end hobby and one that is becoming increasingly popular with people in Nairobi and district is aeroplaning which includes both flying and watching other people fly. The flying aerodrome is a popular resort for crowds of people of different races every Saturday and Sunday and in fact is becoming a serious rival to the City Park.

THREE TYPES OF AIR MACHINES.

One of the most interesting developments in post-war aviation is the use of the ultra-light airplane. Some after the war have been made of wood and canvas but the machines with which aviation is today being equipped with are today being built with extraordinary strength and economy.

The safety of the machine was demonstrated Sunday afternoon when a flight of six machines was made on the plains of Kilimanjaro over the night flight trials. As soon as the trouble, which was not of a serious nature, developed, Mr. Hainisch, the pilot, picked his way through the ground, and landed with a perfect landing.

During the week-end a representative of East Africa Airways accepted an invitation from Messrs. Hainisch Ltd. to make a passenger flight in the aeroplane.

After getting over the initial start that there was only one plane which is a person used to flying in a bi-plane, it was not long before the excitement of the actual flying experience.

On all British production, the Moth naturally excites interest in any British Colony, and it is not long before admiration is added.

When on Sunday a Standard following the starting of the engine intermediately awarded three points to the Moth.

It is interesting to know that the first experiment, one of which was successful, in the use of an engine in this type of aeroplane.

SOME roads change with every variation of the weather. To-day they are hard, sharp ruts; to-morrow, soft, slippery ooze.

The heavy reinforced side walls of Goodyear Heavy Duty Truck Pneumatics successfully combat these ruts, and the deep diamond blocks of the All Weather Tread provide traction under all conditions.

UPLAND GOVERNMENT AND FEDERATION.

Views to Await Arrival of Commission.

LEGISLATIVE QUESTION.

The Hon. H. H. Hamster asked the Honourable the Chief Secretary, at the December meeting of the Upland Legislative Council—

Whether Government intends to put forward the views on the subject of Federation; if so will an opportunity be given to debate the matter.

The Hon. the Chief Secretary—The Government will discuss with the Commission on Upland Union the questions of Upland Union and Federation. The Government does not intend to put forward views on the subject before the arrival of the Commission. It is assumed that in the latter part of the question which suggests that the subject should be debated, the Honourable Member refers to a debate in the Legislative Council. This assumption is correct. I would invite the attention of the Honourable Member to the Statements of Orders of the Council.

Smart Police Work.

EARLY ARREST FOLLOWS WEEK-END ROBBERIES.

During the period between closing time on Saturday and opening time on Monday morning, thieves engaged Messrs. Moore's Bookshop by means of a night call at the back of the premises. A few shillings were taken out of the till and some fountain pens were stolen.

During the same period thieves obtained the premises of Messrs. H. W. Best & Co., again, by means of a night call. In this case they were unable to find much which appeared to be worth a new pipe and a pencil-case. The report followed on Monday afternoon when it is understood that the police raided some quarters in River Road and a native was arrested. It is alleged that he had in his possession fountain pens, a pipe, a pencil case and a box, 300, etc.

Lord Cranworth's Shop.

AN EFFORT TO GET OUT THE MIDDLEMAN.

"STANDARD" UNDERSTANDS

As already announced in the Standard Lord Cranworth is in conjunction with two friends, in opening a shop in the "Butcher's Market," Ipswich, chiefly for the sale of mutton, and possibly vegetables.

The idea is to cut out the middle man's profit. Lord Cranworth and his friends, Major Armstrong and Captain Cragg, who are farmers at Grandisburgh, Suffolk, feel that there is a great discrepancy between prices received by the producer and those charged to the consumer. All the produce sold in their shop will be raised on their farms.

Other titled people who have adopted "straight from the farm" methods are Osmund De la Warr, who runs a business in the business side of a milk shop in Sussex, and Lord Hamilton of Dalrymple, who also runs a milk shop.

I asked Lord Cranworth for the details of his scheme and he gave me the following interesting little note—

"Agricultural conditions in E. Anglia are the worst within the memory of man. Most of my tenants have given notice, and I find myself trying to farm a very large area under the most depressing circumstances. This is an effort, whereby by getting into direct touch with the consumer, we hope to realize a price which will more nearly coincide with the cost of production. Our friends have been very kind in promising their support, but it is a very difficult proposition about a business which I know to be a most difficult one—"

East Africans in London.

Visitors to London may now include, Mr. H. B. Marshall of De-es-Sidani, Mr. E. A. Holey Turu of Eldoret, and Mr. Kenneth D. Jones, Messrs. Kenia, Major J. E. Willocks of Kenya, and Mr. T. W. Ferryman, O.B.E., Deputy Chief Secretary of Uganda, are in Britain on leave. They are Messrs. W. D. Scholten, Eldoret and O. M. Fletcher, Administrative Officers, from Uganda.

Expert Opinion

There is no better judge of whisky than the drinker in the East. He knows the value of alcohol. He knows the value of character of flavor, and finds "LONG JOHN" Scotch Whisky characteristically pure and mature.

The Kenya 'Quick' Letter File.

for up-to-the-minute Filing Systems. This is one File.

This is the one file which makes all your papers available immediately.

- Illustration No. 1 shows the file with the papers securely bound into the holder. Every paper is in position for immediate reference.
- One of the great advantages of this file is that the margins are plainly visible, thus you have a complete reference to all details on the page.
- Remember, that you can remove or add any paper you wish without disturbance to the other papers in the file. Your papers are always ready to use. It is the one file which definitely suppresses any other file placed on the market.

The mechanism is fitted with mica covers, in an extra lockless case. The fittings are metal and highly metal-plated.

The only file with all the advantages of the lever arch file.

A GREAT EAST AFRICAN EXPLORER.

Man Who Searched for Snow-capped Mountains.

BARON VON DER DECKEN

The discovery of a new land which Baron von der Decken discovered in 1905 to 1910 in the East. He was the first to discover the snow-capped mountains in the East. He was the first to discover the snow-capped mountains in the East. He was the first to discover the snow-capped mountains in the East.

...which the rest of the party placed their tents on shore. On the 1st of October, without any previous warning, the snow fell heavily on the camp. The snow fell heavily on the camp. The snow fell heavily on the camp.

The Third Expedition. The aim of the third expedition was to explore the region between Kilimanjaro and Lake Victoria and to see if it was possible to reach the East Coast.

The idea then came to reach Mt. Kenya by the way of the East Coast. He arrived in Mombasa in September, 1904, and had a great success, not only there but at all the principal capitals of East Africa.

On the 15th of November it was reported by Mahabali Spoke that von der Decken and Lick had been captured at Bardera on or about the 1st of October, and were being held at the camp.

THE WEAR.

Effect of Springs on Modern Cars.

VARYING STRAINS.

One of the most illuminating methods of studying automobile performance is provided by an examination of the varying conditions which follow changes in design.

The modern motor car, although still the only in detail constructed from sheet metal, differs from the open-top models of 1914 in almost every particular.

Probably the most noticeable change is in the chassis of the modern car. It is the most important, like in the case of reliability in the modern motor car.

The chassis of the modern motor car is a masterpiece of engineering, and it is the most important part of the car.

The chassis of the modern motor car is a masterpiece of engineering, and it is the most important part of the car.

MOTORING TOPICS

shows that these effects of vibration, even when artificial road is being laid out for the test. It is the conditions of use and the type of road that these many conditions a certain time is usually within the control of the driver.

When a car is used all the year round the tires are subjected to strains of varying nature. The driver should be considered that these strains today are quite different from those encountered by tires of three, or even two years ago.

Quite apart from any increased vibration resulting from the general adoption of high speed engines, road speeds have increased, and it is well known that this is a prime cause of tire wear.

For racing purposes special tires are constructed, but because there is any variation in the quality of the material used, but for the smallest reason that an ordinary type would be used.

With an increase of touring speed it cannot be said that printing has improved proportionally. A touring car should be made of rubber which can be used for more than 100 miles.

With an increase of touring speed it cannot be said that printing has improved proportionally. A touring car should be made of rubber which can be used for more than 100 miles.

pressure has little effect upon a high-pressure type, but steady wear is being done by the constant use of standard, the wear under varying conditions would be those for which it was designed.

Comfort and Speed. If motor sports required speed for speed alone or for comfort alone, it is to be considered that the most desirable and speedily at the moment. The best conditions of the body are strenuous and the body has to be made as comfortable as possible.

For racing purposes special tires are constructed, but because there is any variation in the quality of the material used, but for the smallest reason that an ordinary type would be used.

With an increase of touring speed it cannot be said that printing has improved proportionally. A touring car should be made of rubber which can be used for more than 100 miles.

there is at the wheel of a Buick type. It is the conditions of use and the type of road that these many conditions a certain time is usually within the control of the driver.

When a car is used all the year round the tires are subjected to strains of varying nature. The driver should be considered that these strains today are quite different from those encountered by tires of three, or even two years ago.

Quite apart from any increased vibration resulting from the general adoption of high speed engines, road speeds have increased, and it is well known that this is a prime cause of tire wear.

For racing purposes special tires are constructed, but because there is any variation in the quality of the material used, but for the smallest reason that an ordinary type would be used.

With an increase of touring speed it cannot be said that printing has improved proportionally. A touring car should be made of rubber which can be used for more than 100 miles.

Cut down those bills!

You can save on your running costs by using "BP" motor oil. It is the most economical and reliable. And it is unexcelled for power.

Anglo-Persian Oil Co. (Nero) Ltd. Sole Distributors in East Africa.

Reliable

This new Four is the true Dodge Five in the high capacity of its real power. An engine, gear, axle shaft and springs are of chrome vanadium or other costly alloy steel, giving great strength and long wear, but with minimum expense.

Starting is instantly easy because of the great leverage exerted by the starting gear, and the reduced friction resulting from ball-bearing starting rollers.

The famous Dodge Brothers' 134" motor features quiet, reliable engine performance with exceptional speed, surplus power and quick acceleration more than adequate for every need.

SERIOUS EARTHQUAKE HAVOC IN PORT HALL DISTRICT.

Mission Churches and Houses in Ruins.

SUBUKIA DAMAGE.

Seismic Records Obtained in Three Continents.

Friday's earthquake, which was recorded on Seismographs in three continents... the forerunner, but the most serious, of a series of tremors of Kenya, particularly at Subukia and in the Fort Hall district...

Canon Lecky has addressed through the "Standard" an appeal for funds to relieve the distress and repair the damage caused in the district. He gives a graphic account of the experiences of many unfortunate people in the neighbourhood of Fort Hall...

TRAPPED IN A SHAKING HOUSE.

It was a "STANDARD" CORRESPONDENT writes from London, January 9. Friday's earthquake which was registered at West Bromwich, Birmingham, (Daily) Washington, and Cairo, it is supposed that the intensity of the disturbance was in Asia.

A Redding Tour.

Canon Lecky, Acting Secretary for the C.M.E. in his letter to the Standard, States: "Receiving a message by special courier from the Rev. Canon Lecky, I had been told that he had been doing some work at Redding, and that he was on his way to visit the various Stations in and beyond the Fort Hall district."

It is interesting to note that several of them in a very recent, the Fort Hall district seem to have been particularly hard hit. The Rev. Canon Lecky, who is now in Nairobi and surrounding districts, I have heard that he has been condemned for habitation and will have to be demolished and replaced by a new building...

Another Nairobi Tremor. A number of people in Nairobi have reported that they were awakened in the early hours of yesterday when another slight earthquake was recorded. This was shortly before 5 o'clock.

House Damaged.

"STANDARD" CORRESPONDENT writes from Subukia Valley about 0.45 of Friday night. The earthquake was done by the Subukia Valley. The house was built with stone blocks and was very strong. It was not damaged.

People who had been in the house at the time of the earthquake had been in the house at the time of the earthquake. The house was built with stone blocks and was very strong. It was not damaged.

People who had been in the house at the time of the earthquake had been in the house at the time of the earthquake. The house was built with stone blocks and was very strong. It was not damaged.

Will your shirt face the laundry?

If it is a Consulate Shirt, the question does not arise; it is anticipated by the most binding guarantee that has ever been given—that can ever be given—about shirts in the wash.

Its pattern will stay the same; its colour will stay the same; its length, its girth, its cut, its texture—they will all stay the same. As it starts, so will it stay.

If it doesn't—we will replace it. We will replace it to show you the Consulate name.

MUTER and OSWALD, Auctioneers, Agents, NAIROBI.

IN HIS MAJESTY'S SUPREME COURT OF KENYA AT NAIROBI.
 CIVIL CASE No. 250 of 1927.

S. Jacobs, L.D., Plaintiff.
 1. City Service (B.E.A.) Co-operative Society Limited and
 2. East Africa Co-operative Society Limited (in liquidation) Defendants.

TAKE NOTICE THAT
 Pursuant to an Order of His Majesty's Supreme Court of Kenya at Nairobi, dated the twelfth day of December, 1927, whereby the said City Service Co-operative Society was ordered to be liquidated, and the property referred to in the following Schedule by Public Auction, and in accordance therewith,
WE SHALL SELL BY PUBLIC AUCTION at our Salerooms, Motos Building, Hardinge Street, Nairobi, on

Monday, 16th January, 1928, at 2-30 p.m.

precisely, the property concerned—

SCHEDULE OF PROPERTY.
 ALL that piece or parcel of land situate in Eliot Street in the Township of Nairobi in the Nairobi District of the Umtambo Province in the Colony of Kenya comprising 960.2 square feet or thereabouts known as Plot Number nine hundred and thirty six Section number Five of Portion number two hundred and nine together with the building known as "Hamilton House" erected and built thereon which said piece or parcel of land is more particularly delineated and described on the plan annexed to an indenture dated the 20th day of December, 1911, registered in the Crown Lands Registry at Nairobi in Volume No. 31 of A VII 1912 and made between His Most Gracious Majesty King George the Fifth of the one part and Oswald John King George and Henry Cliff (both then deceased) of the other part and therein boreth red held for all the unexpired residue of a term of 99 years from the 1st day of August, 1911 at the yearly rental of Rupees 75 and subject to the covenants and conditions contained in the Lease or contract in or implied by the said Indenture.

AUCTIONEER'S REMARKS.
 "Hamilton House" was constructed by Mr. George Blowers a few years ago, and was built with a view to easy extension, and can be altered and adapted as circumstances require into a handsome residence, while that consists of ground floor, and two upper stories. The Nairobi Corporation are the present tenants, and the upper floor has a suite of three sundry out. Adjacent to the main building, there is a lock up store house and iron and wood store. The two lock up store houses (including a concrete store) complete the buildings. "Hamilton House" should appeal to investors in view of the building being a concrete one, and situated in the immediate vicinity, which will undoubtedly ensure considerable appreciation in the value of this property.
 Particulars of leases, rentals, etc., can be obtained from the Auctioneers. The title deeds may be inspected by arrangement, and any further information may be obtained from Messrs Harrison, Hamilton, and Mathews, Solicitors, Nairobi House, Nairobi, or

MUTER and OSWALD, Auctioneers, etc, NAIROBI.

Registered 'PUDLO' Trade Mark

BRAND CEMENT WATERPROOF POWDER.

IS SAFE AND PERMANENT—It cannot fail to waterproof cement. Tested by the most eminent authorities.
 The face of Cement work is made finer in texture, more stone-like.
 The colour of Cement work is made brighter and it can never become dirty.
 There is no odour. It is not injurious to health. Awarded the Certificate of the Institute of Hygiene. The setting of Cement is not affected.
 No special knowledge is required to use it. Especially is easier to work when the Powder is added. It is then more plastic.
