## SERIOUS FIRE AT THE KENYA GRAIN MILLS.

Outbreak Thought to be Due to Spontaneous Combustion.

CONSIDERABLE DAMAGE.

Some of the Machinery and Large Stocks of Wheat Destroyed.

Damage estimated at many thousand pounds, apart from the loss which will accrue through the instruption in working, was caused as a result of a fire at the Kenya Grain Mills, Nairobi.

The alarm was given early vesterday morning and the firemen directed their chief efforts to saving that portion of the building, at that time untouched by the fames, and containing the most important part of the machinery.

The outbreak is thought to have been the result

UGANDA ARGUS

Noise strictly speaking is sound of any kind but although we have the authority of the Faalmist for speaking of it in a joyful connecion, usually the word is associat tion, usually the word is associated with sounds that are anything but plessant and the dictionary definition of the word as "any over-loud or excessive sound" is the one which is generally sceepted as being most appropriate. It ed as being most appropriate. It is in this sense that the subject of noise is receiving the attention of several notable scientists in Bri-tain who, our London correspondent reports, are organising a de-putation to wait upon the Minisputation to wait upon the Minister of Health with a view to dis-cussing "the increase of unnecessary noise in this highly mechanically and against the state of the freet upon the health and will-being of the individual." It is indicated that the deputation will not only onfine itself to a liceuselon on the situation created in Priviate by roof treffs. but want of the put 

sounds of traffic it is curious that sounds of traffic it is curious that comparatively little has been ac-complished in the way of counter-acting mechanical noises. It is even true that for the most part there has been a tendency to add to the unpleasant sounds insepar-able from much in the realm of to the dispensate amond inspired to the dispensate the control inspired does not often say-plenting mote-does not often be within, at the lower said the line within, at the properties of the control of the displeasary of the young a generation in the Comp, we does to suggest that the insensation properties and see without a sub-tine that noise is worknown, at the hopk it is possible that in the position and see a design that the proposed of many this properties and see a finally this description. # BUCK EAT CROPS.

You cannot persuade them not to, but you might utilise the fruits of your husbandry at second-hand by eating the buck. The purchase of a good rifle fulfills three purposes. You get exercise, you get pretection, and you get meat. A rifle, property treated, will lest ten years. If you don't get value out of it in this

A rine, property treated, will least ten years. If you don't get value out of it in this period, you can't shoot; if you can't shoot, you need a better rine. Shooting straight, or a straight shooting rine, is merely a matter of horse sease. If you shoot badly, we can only assume that your weapon is at fault. Call and see us shoot it.

SAYS A MEN'S CLOTHES EXPERT:

"Half the secret of well-fitting evening dress is a well-fitting dress shirt underneath . . . . . " Any man who isn't careless about his clothes knows this is

true.

It is because Consulate Dress
Shirts are tailwad to the figure
to faultlessly that you find a
growing number of well-dressed
men buying them regularly—
and refusing all others.

Such clean - fitting comfort! they say. Such immediacy of
