SOCIAL HAPPENINGS IN THE TRANS-NZOIA. Show, Naval Visit and a Dinner.

THE TRANS-NZOIA. (SPECIAL CORRESPONDENT'S Kikuyu, Sept. 27.) Although you don't know much about us, we are going strong in the Trans-Nzoia. Last Saturday one of the most successful gatherings on record was held at Zigion Club to raise funds for the Clubhouse. It took the form of a Flower Agricultural Day and last but not least, Baby Show, with several amusing side-shows. Some 200 of our people present, and it was a very good indication of the unity of the District that the Show was so well patronized.

I was seeing. In the evening a dance was held at the Kikuyu Club and it could not have gone better. The arrangements were made by the ladies and the music was all that could be desired. The evening was the most enjoyable of the "Home" yet by one of the members of the club. The show was really first class. Our guests were due to reach the club for tea at 4:30 p.m. but were so late that the party started at 7:30. The dancing was very good and the music was all that could be desired. The evening was the most enjoyable of the "Home" yet by one of the members of the club. The show was really first class.

Reserve energy

To excel in sports, one must eat a simple, simple, energetic, body-building food. Nature supplies such a food for athletes in Quaker Oats. Made from only the most nutritious part of the best white oats, this world-famous food furnishes the body abundantly with vitamins, carbohydrates and mineral salts, the essential elements for perfect nutrition. Quaker Oats a good for young and old, sick and well.

DIFFICULT CHILDREN.

The Eldest.

By Helen Graham C.M.B., etc.

The first of a series of articles on children by the correspondent who writes "The First Baby" will be read by all who have read the first article.

Of all types of unmanageable children, the first born has perhaps the most to suffer from. In his earlier years of investigation, he is constantly being told that he is the first-born, and that he is to be a play to all those people who are in his company. He is to be a petting item. He is to be a show-off of little money. They, having thoroughly enjoyed being the master of his parents (especially) and his playmates, are to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

Maxwell NAIROBI
Brady & Co.

He is to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

He is to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

WHY THE CHILD FAULT?

Emphasis on the fact that it is not the fault of the child to start with, the child should never be allowed to feel superior. The parent's attention should be fixed on the child's behavior, not on the child's faults. The parent should be a guide, not a critic.

The child should be allowed to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

It is to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

It is to be a little more of a master in his own right. He is to be a little more of a master in his own right. He is to be a little more of a master in his own right.

One has but to ask the average motorist to attend before the maintenance of his own car and either he or the operator... The chassis lubrication systems used are of two main types...

Body Flooded Ripples.

When after all, in these days when the car is regarded as a necessity rather than a luxury...

One of the first systems applied to a motor before the war...

One of the first systems applied to a motor before the war was adopted by manufacturers to reduce the weight of the chassis...

Continuous Supply of Oil.

One of the first systems applied to a motor before the war was adopted by manufacturers to reduce the weight of the chassis...

Detaching Oil Supply Failure.

Failure of the oil through any means to pass into one or other of the ends would immediately be detected by the stoppage of the motor...

When the filler is released a spring returns the valve to the closed position...

Cleaning up the Job.

Now there are several ways in which chassis lubrication has been made an easier and cleaner job...

Centralized Systems.

Central lubrication systems are of two main types, one of which is known as the centralized system...

oil from provisionally lubricated parts. It is usually applied from five to eleven bearings distributed in a number of places...

Detaching Oil Supply Failure.

Failure of the oil through any means to pass into one or other of the ends would immediately be detected by the stoppage of the motor...

When the filler is released a spring returns the valve to the closed position...

Cleaning up the Job.

CHEVROLET 1st Choice of the World for 1928. Private or Commercial Purposes. The Motor Mart and Exchange, Ltd. NAIROBI. 1: TON TRUCK CHASSIS 4 Wheel Brakes 4 Speeds Forward £172 Nairobi. Box Bodies £195 Tourer £225 Roadster £217 Coach £260 Nairobi. Dar-es-Salaam. UNGA Ltd., Njoro. The wholesale prices of all our different grades of wheat flour and atta have been materially reduced as from October 1st, and no doubt bakers and storekeepers will make corresponding reductions to the public when their existing stocks have been cleared. Since the early part of 1926 the wholesale price of our superfine white flour has been reduced by nearly 30%. The latest reductions have been made possible by co-operation between the wheat growers, who have agreed to a reduction in the price of wheat, and the two leading millers (Unga Limited of Njoro, and the Kenya Grain Mills Ltd., of Nairobi). These millers have reduced their prices to figures which will be absolutely unprofitable, even with the reduced price of wheat, unless their combined sales are increased by 2,000 bags of flour per month. They have made the reductions in the belief that such an increase is possible.

African Standard GUANDA OCTOBER WEDNESDAY, OCT. 3, 1928

The Show. Although the annual East African Agricultural Show which opened at Nairobi yesterday may not have been had in the happy circumstances anticipated only a few weeks ago, there is no doubt that to whatever extent it may have suffered from the effects of the drought, it still presented to the nation the best picture of the progress and promise of the East African territories obtainable. The amazing variety of the produce of the numerous smallholdings of the world's surface. While that variety and the successful character of the exhibition were cause for satisfaction to those who have been at the preparation of the foundation, such as occasion as the East African Agricultural Show shows a strong appeal to Britain to secure the interest now so willingly and generously displayed in development and raising of the most rapid progress of the great East African empire. It was possible that rain should be the cause of the too sudden termination of this exhibition, the success of which has been made by East African under the influence of Western civilization and of the great importance for good which that civilization is exerting upon native life and thought. Few features of the Show more interesting and more suggestive of the workmanship and the quality of the workmanship in the African arts and crafts section. The occupation of sections

DISTRICT EXHIBITS AT THE AGRICULTURAL SHOW.

Riches of East Africa Revealed.

NANYUKI WINS THE GOVERNOR'S CHALLENGE CUP.

There were eleven exhibits from districts of Kenya and Tanganyika in the competition for the trophy presented by His Excellency Sir Edward Grogan for the best display from any area. Three further exhibits were staged but did not compete.

DROUGHT AREAS MORE SUCCESSFUL.

The various exhibits show that the districts of Kenya and Tanganyika have been more successful in their efforts to overcome the drought conditions than those of the other districts.

Animals.

The first stall, on representing the various districts of Kenya and Tanganyika, was the exhibit of the Nanyuki district.

Plants.

The exhibit of plants was arranged in the order of the districts of Kenya and Tanganyika.

Tools.

The exhibit of tools was arranged in the order of the districts of Kenya and Tanganyika.

Textiles.

The exhibit of textiles was arranged in the order of the districts of Kenya and Tanganyika.

Other Exhibits.

The exhibit of other items was arranged in the order of the districts of Kenya and Tanganyika.

Prizes.

The prizes were awarded to the exhibitors of the Nanyuki district.

Conclusion.

The exhibition was a success and the Nanyuki district was the winner.

Prove it yourself —

FREE PETROL OFFER

On all firm orders accepted for the new Silver Anniversary Buick we offer a free petrol allowance of 11 gallons per day to operate the customer's present car from the day the order is accepted to the day the new Buick is delivered.

It will be plain to everyone that the new Buick marks the highest degree of motor car efficiency and effectiveness ever known—that it is the great car of the world.

Once you have felt the irresistible surge of power from the new Buick 75 to 100 H.P. motors in other make of car will satisfy you.

Starting from a standstill, Buick will thrill you with the greatest acceleration and getaway in any car you have ever experienced.

On the highway, measure this wonderful new Buick against any motor car on the road in power, swiftness, flexibility, and hill-climbing.

These new cars will shortly be here. It is going to pay you to wait and drive one yourself getting first-hand knowledge of the amazing abilities of their dynamic valve-in-head six cylinder engines—abilities so new, so advanced and so epochal as to have no counterpart in the entire field of motoring.

This is not the conventional offer of a "demonstration." You are asked to try one of these new cars yourself when they arrive—to test it with perfect freedom—and to prove to yourself that it is the great car of the world.

KENNEL NOTES

Margaret Collyer

THE COLLIER, "Glad," in whom all correspondents had confidence especially for accuracy of state reports made by her which are on the whole, based on facts.

I have just heard of and piece of news which I am sure will be intended to do credit to the "Bull Dog" and its master at the same time. It was noted very well some time ago that the "Bull Dog" was running a temperature of 104. He was taken to the Laboratory and was found without a doubt to be suffering from "G." "My Dog" was a fine specimen and was found without a doubt to be suffering from "G." "My Dog" was a fine specimen and was found without a doubt to be suffering from "G."

After being at Harlow for three days, the dog developed a temperature of 104. He was taken to the Laboratory and was found without a doubt to be suffering from "G." "My Dog" was a fine specimen and was found without a doubt to be suffering from "G."

thoroughly done in these pens, and I now see no sign of life. I hear from Mrs. Susan of Harlow that her new puppy "Blossie" is a daughter of the late "Bull Dog" and is a fine specimen. I have just heard of and piece of news which I am sure will be intended to do credit to the "Bull Dog" and its master at the same time. It was noted very well some time ago that the "Bull Dog" was running a temperature of 104. He was taken to the Laboratory and was found without a doubt to be suffering from "G." "My Dog" was a fine specimen and was found without a doubt to be suffering from "G."

TURBULENT TRIBES IN TIBET.

Feeble Authority over Passants.

THE PO DISTURBANCE.

The disturbance which broke out in the Po District in Tibet, recently, of which have only been reported in the West, was not of very recent origin. The people who inhabit the valley of the Po are from the Plateau and are, like the Ladakhs and others of the frontier, of mixed origin and are of Tibetan or Chinese descent. The Poas of the Ngam Chu from the point where it breaks through the range of mountains which lie to the West of Shimon Gorge up to its junction with the Tang Po of Gansu. The Poas of Duma are also owners of the Tang Po valley from the Gyama Tsang river which runs east of the Songpan glacier below Fung Kueh down to the Aloo River.

Independent of Lhasa.

The people claim to be independent of Lhasa and this is shown by the small extent of the tribute which has been of late being paid during the tranquillity of the valley. The Poas are known as wild tribes and they live mostly by periodic raiding. They were very suspicious of travellers through their country, whose lives are generally safe. The administration of Duma has been of late when the advent of the Chinese who struck terror into the hearts of the inhabitants by acts of extreme violence.

Five Clans.

The Capital of the country is Shimon. Administration control has been vested in five Clans who are independent under the nominal suzerainty of the Kanam Pa. About 150 nomads in the valley was in a plain called Kavun and two days' march up the valley, and the Government districts are called Pagan Pa. These Clans are collectively known as Kolar Nge (Five Clans) and are named after their ancestors Ngun, Mo Kue, Gonda Kabe and Nyile. They are neither nomadic nor people of any great importance and govern from 15 to 100 families, the richest being Nyile. There are three villages in the valley which are directly under the Government and the Government districts are called Pagan Pa. These Clans are collectively known as Kolar Nge (Five Clans) and are named after their ancestors Ngun, Mo Kue, Gonda Kabe and Nyile. They are neither nomadic nor people of any great importance and govern from 15 to 100 families, the richest being Nyile. A WALK DOWN TRADE STREET.

Not So Representative as Usual.

NEW FEATURES

In every agricultural show in the world the machine men sport for the prizes which always place a big part in public attention, and trade streets in the Nairobi Show was no exception to the rule.

As in previous years, most of the various food firms were represented by fine dining table sets, and much activity at the corner of the ground. The stored articles were fairly taken up, but it was noticeable that these were fewer open air displays than at the last Nairobi show. In this connection it was observed that the big agricultural machinery firms had got gone in for any lavish display and working demonstrations of the various engines, machines and implements on that of last year.

Another section of the commercial community which did not support the Show this year is the motor-car and cycle firms. Two, certain it is, however, were represented, but generally stands of motor cars and trucks were conspicuous by their absence.

It is understood that the motor firms for the absence of both the agricultural machinery and motor organisations from last year's exhibition at the proposed ground through which the country has been passing, and the consequent depression in trade.

A Reviewer.

A new line to Kenya, has, however, appeared in the exhibition. With the inauguration of a hotel, a number of stands equipped with various types of receivers, loudspeakers and general wireless equipment.

A four round the grade rails is being interesting and instructive, with the variety of goods arranged in a manner to catch the eye. The following are details of the stands:

H. W. Bear.

Master H. W. Bear, who are agents for the various types of John Deere agricultural implements, displayed a series of photographs depicting work being carried out by the machinery.

M. B. A. Corporation.

The firm are agents for Crown tractors and Caterpillar farm engines, photographs of which were lavishly displayed.

ments of the Electric Refrigerator. The stand also included a series of Italian furniture, including a settee, table and chairs.

Gilley and Roberts Ltd.

The feature of the exhibit of Messrs. Gilley and Roberts Ltd. was a small daylight cinematograph showing the Caterpillar tractor at work. The projector is a remarkable little machine run by electricity and it throws a picture on to a frosted glass screen on which during the daylight hours a clear picture could be seen. The projector is mounted on the Caterpillar tractor at various kinds of work, excavation, haulage, and general agricultural work. These films were taken at Amoy and Canada, and there was also a series of photographs taken in Kenya showing the Caterpillar at work on the ground for home planting and so on. There were literature and photographic dealing with British engines. Light batteries and floppy oils.

Stephen, Ellis and Co.

Messrs. Stephen, Ellis and Co. had on view and working a Fairbanks-Morse 14 h.p. home light plant, which gives electricity to storage batteries at 80 amperes per hour and can carry 20 light bulbs. The engine itself is very compact. It has three valve wireless set, 1000 watts, and is very compact. It has three valve wireless set, 1000 watts, and is very compact. It has three valve wireless set, 1000 watts, and is very compact.

Stith Avenue Garage.

The Stith Avenue Garage exhibited eight motor cars comprising the latest Hotchkiss touring model, the latest Ford, Talbot and Ericsson. A feature which attracted a good deal of attention was a Lincoln sedan which had been converted into a bus-body, the body built in a hand-body, the body built in a hand-body, the body built in a hand-body.

L. Bess.

The proprietor of the Stith Avenue Garage had another stand set to his motor exhibit, bearing the name of the Venetian Art Works. This was a most attractive and valuable one in that it was an exhibition of local work on an art motor. Here was displayed a collection of work done in Kenya made and done. An imposing grave headstone beautifully carved in stone. Much stone, with an inscription slab in Kenya marble underneath was a fine piece of work, as also was the rest of Kenya carved in local stone and wood with gold.

There was an array of locally manufactured tiles and concrete work, of various designs.

Gilman and Co.

Messrs. Gilman and Co., Ltd. had a Homelight portable electric lighting outfit, consisting of a spring beam and light enough to be carried about with ease. A similar plant worked a self-contained pump. Working demonstrations of these outfits were given.

Keays Brewster Ltd.

The well-known local brewers were prominently represented by an attractive though simple stand. In the background of the stand a wall map was seen, showing the country with Messrs. Keays' trading points, the whole being the standard of Messrs. Keays' brewing. In front of this structure partners stood stacks of the products of the brewery.

Keays Investment Co. Ltd.

This exhibit was one depicting the uses for furniture of East African timber, there being a large range of different types. A solid looking writing desk of Tansania, a dining table and chair set of the same wood, a bedstead, were prominent features. Many other articles of furniture in mahogany wood and teak, of timber, mahogany and upholstered were on view.

Reynolds Jewellery Co.

The firm also demonstrated the high standard of local manufacturers, and in this case it was of glass and silver. The whole exhibit was very tastefully arranged and well displayed. The whole exhibit was very tastefully arranged and well displayed.

Ngugi Ltd.

This was a particularly fine exhibit and was artistically arranged. Around the walls were some fine specimens of mounted birds, some skins, and hares, the last named including a particularly fine one of a Haplorhina monkey. There was furniture upholstered in leopard skin and a series made from cobra hide, all looking excellent. The table, under skin shoes and flower vases of dark hartz were seen on view. The outstanding exhibit was a table, the top of which was of polished mahogany. All this work was carried out in the Nairobi workshop of the firm.

Old East African Trading Co.

This old-established firm had a display of native trade goods and an assortment of a number of hides going through a drying process.

MIDNIGHT FIRE ALARM IN NAIROBI.

A Small Garage Burnt out.

A fire occurred at about 11 p.m. on Tuesday in a small garage in Duke Street, situated next to the premises which belong to the firm of a mill company. The fire was caused by a small gas cylinder which exploded, and the flames spread to the building.

Fire in Duke Street

Flour Prices Reduced

The wholesale prices of all our different grades of wheat flour and atta have been materially reduced as from October 1st, and no doubt bakers and storekeepers will make corresponding reductions to the public when their existing stocks have been cleared.

Since the early part of 1926 the wholesale price of our superfine white flour has been reduced by nearly 30%.

The latest reductions have been made possible by co-operation between the wheat growers, who have agreed to a reduction in the price of wheat, and the two leading millers (Unga Limited of Njoro, and the Kenya Grain Mills Ltd., of Nairobi). These millers have reduced their prices to figures which will be absolutely unprofitable, even with the reduced price of wheat, unless their combined sales are increased by 3,000 bags of flour per month. They have made the reductions in the belief that such an increase is possible.

PRINCE MEETS AFRICAN CHIEFS AT CLOSE QUARTERS.

Presents His Portrait and Speaks to Them in Swahili.

CAMP EXPERIENCES.

Informal Visit Greatly Appreciated by the Native Leaders.

It was a happy thought on the part of His Royal Highness the Prince of Wales that he should make a special opportunity to review acquaintance with the African chiefs, leaders and counsellors who attended the great baraza on Tuesday.

Seeing those natives in the camp and in the formal atmosphere of the baraza gave him no chance to familiarise himself with the individuals, who are charged with the responsibility of directing the tribal thought and organisation in Kenya.

So he agreed to present his portrait to them yesterday in their camp where he would find them free from the influence of the baraza activities.

A STRIKING FAREWELL.

THRILLING new abilities—unknown a few weeks ago—are suddenly made possible in this remarkable car—the result of sweeping advancements in the world-famous Buick valve-in-head engine!

New acceleration like a shot from a gun—dazzling new top speed that few drivers will care to attain—a mighty increase in power in what was already the most powerful motor car engine of its size in the world!

New masterpiece Bodies by Fisher marking the highest degree of dashing, daring, debonair beauty ever achieved by the world's foremost builder of automobile bodies!

And in addition, gorgeous new colours—sumptuous upholsteries—new appointments and conveniences never before known to motor car practice!

See these new Buicks when they arrive. Drive one—Even though you are not an intending purchaser, you are cordially invited to inspect these new creations and to try one on the road.

CORRESPONDENCE.

The editor does not accept responsibility for the correspondence in these columns, and is not responsible for the names and addresses of the writers, nor necessary for publication. Being a matter of good faith, no guarantee is given.

FORCED LABOUR. To the Editor, 'The Standard.' Sir—I understand that the Native Authority Ordinance Bill 1926, has passed its third reading and is about to be enacted. This Bill legalises the labour of the natives under the Native Authorities. I do not fail to imagine the position of those who are thus being forced to work without remuneration. It is not fair to those who are thus being forced to work without remuneration. It is not fair to those who are thus being forced to work without remuneration.
