35 PER CENT. OF LOCUST HOPPERS DESTROYED.

Official Estimate of Campaign Results.

H. F. P. PROBLEME

A report on the locust position has been issued by the Deputy Director of Agriculture. It shows that the locusts have been destroyed in 75 per cent of the areas where they were reported to be present.

It is estimated that less than 10 per cent of the locusts have survived the recent campaign.

Report
All Hopper destruction parties were well withdrawn from all areas.

Fying Swarms
These are present in the Trans-Nairobi, about Taveta, on the Kilimanjaro, on Lake Tanganyika, and generally moving about with no settled direction of flight.

Reservoirs for spray pumps and sprays for use on such swarms are received, but as a means of destruction of flying swarms it is inadvisable to use them, and therefore none are issued.

If swarms are able to burn down the forest, much work will be done, but on account of the fact that swarms are not feeding during the dry season, and therefore none are issued.

Flame Throwing
The experimental use has been withdrawn, much work will be done, but on account of the fact that swarms are not feeding during the dry season, and therefore none are issued.

Estimate of the extent of Hopper destruction achieved during the Hopper Campaign now under way.

It is estimated that with the advent of drier weather better conditions for destruction, with few locusts to report, will be attained.

It is now possible to make an estimate of the extent of Hopper Campaign now under way. It is estimated that with the advent of drier weather better conditions for destruction, with few locusts to report, will be attained.

District	Sq. Miles.	Area over which worked	Percentage destroyed
Northern Frontier	10,000	5,000	50
Kenya	20,000	10,000	50
Victoria Nyanza	15,000	7,500	50
East Coast	4,000	2,000	50
Total	59,000	29,500	50

From this calculation it is indicated that of the total hopper infestation of the zone of the Colony which has been worked over, or, possibly 50 per cent, was destroyed.

It is noted that only the remaining 25 per cent of the locusts in the Northern Frontier Province are unaccounted for, and are to be expected to be destroyed and brought under control, it will not be possible to take action to effect a high percentage of destruction of a hopper infestation in such areas.

It has been observed that young flying swarms from the first laying appear to fly in a direction which will take them over the country in which subsequent laying by the mother swarms has taken place. It will be interesting to observe whether during this coming season there will again occur a concentration of swarms as opposed to what occurred last year.

Goats & Forests.

HOW MUCH IS TAKING A PROBLEME

The way of the locustary officer in West Africa are held as they have been from the original department reports published, but during the course in Nigeria Dr. A. H. Davin was at least surprised when he found that the locusts were being taken in the forest.

It has been found to follow the same rule as the locusts on the whole range of goats, and the case against them, and the animals is not held clearly by him in "Great Trees and Forests" in Cyprus (Middle East Journal and the "The Times" Hall Court, Lodge Hill, N. C., St. 18, 1). Related to the simplest form says "West Africa" the best fact is that for the work of the forest, and indirectly, and the fact in detail, backing them with their own means from other parts of the world showing that wherever there are locusts, the goat, and locust, are not.

other grazing animals, who define names. Within the last few years, the problem in Cyprus has been decided turn for the worse, for during the War years the Department of the Forestry Department was practically concentrated on exploitation, and it was some time after peace was declared that it was noticed that the goats were again accustomed themselves to which, from a forestry point of view, is almost lawless activities. The result of this has been, in effect, by leaving the animals out of the picture open a direct result by now, were taking them but with this control avoided by the trapping, over-coming, and with natural reproduction rates, a problem has been created that demands immediate action, for, to mention but two consequences of the uncontrolled attacks of the animals, the loss of annual percentage growth in the forest is estimated at £25,000, while the water lost to domestic and industrial purposes is estimated to be worth another £100,000 in a country where water-storage has proved to be an ever-present difficulty.

The wrath of the people as to the future is so great as in most agricultural countries, at least, has been immediate and they have opted in the restriction of goat-keeping, and blood of the cover of the villages in the island have been at least a considerable attempt are being made to convert goat-herds into smallholders by offering them land in proportion to the number of goats relinquished, and by supplying them with tools, water, trees, and land.

Progress will be undoubtedly slow for some years, to come, but at least the Government, in doing what it can, and Dr. Davin himself will have the satisfaction of knowing that in his book he has placed on permanent record for his successors a work that is both a warning and a guide.

YESTERDAY'S RACES. LAWN TENNIS. Migrant Sports Club.

First Day of Nairobi March Meeting.

"CAMBRIAN" WINS THE CAMBRIDGESHIRE

The attendance at the Nairobi racetrack yesterday was a small one owing to the weather conditions probably being adverse either on race-going.

There was little note in regard to the racing, the outstanding feature being the win of "Cambrian" in the Kenya Cambridgeshire. It was a matter for regret that "Daphnia" was not seen out, but with having been scratched from all events in the March meeting.

During the afternoon the appearance in the entrance of a little blackbird, possibly a very distinctive young bird, escaped no little notice. The bird had a colorful red breast, orange on the back, the tail being on a level of the color.

HOPEFUL PLATE—For two-year-olds, 5 furlongs. FAVORITE (Captain of the Pack) (Hemlock) 10/1. Mr. Geo. White's HAWKED, 10/1. Mr. G. W. H. BURNELL, 10/1.

COMMERCIAL CONFERENCE SUPPORTS DAYLIGHT SAVING.

Of The Greatest Benefit To The Town Populations.

NO SERIOUS HARDSHIP TO THE FARMER.

No Difficulties Caused by System in Tanganyika.

When the question of standard daylight saving should be considered in Kenya was discussed by the Association of Chambers of Commerce in Mombasa last week...

At the beginning of the discussion the President said that if the resolution put forward by the Nairobi Chamber...

Mr. Morse (Nairobi) said that he had seen on all forms opposed to daylight saving in Kenya and it is a serious defect...

Mr. Masuku (Dar-es-Salaam) said that although the daylight saving had only been law for two years in Tanganyika...

At the close of the meeting Mr. Masuku said that he believed it was not worth the difference of time of one hour...

If anyone was paid whether they worked or not, then of course it would make no difference. Mr. Anson said that everyone had spoken from the point of view of the town...

Mr. Henson said he had been particularly careful to find out the facts and was very glad to see that the resolution on being put was carried with one dissent.

Postal Charges.

ASSOCIATED CHAMBERS WANTS 10 CENTS RATE.

A chapter initial postal rate was advocated by the Association of Chambers of Commerce last week...

Alterations in the original motion were made, those having the effect of making a definite recommendation regarding the rate to be charged...

At the close of the meeting the President stated that this resolution definitely brought forward the rate on newspapers.

At the close of the meeting the President stated that this resolution definitely brought forward the rate on newspapers.

BUSINESS MISSED BY PRESENT P.O. HOURS.

Associated Chambers Seeks Extension.

The difficulties which the commercial community encounters through the fact that the business hours in the main centre in Kenya...

It was stated that at present telegrams are only accepted up to 11 a.m. on Sundays and for that reason...

Mr. Colverson (Mombasa) proposed the following resolution, which was seconded by Mr. Menzies (Dar-es-Salaam):

"That the Postmaster-General of Tanganyika, Kenya, and Uganda be asked to consider the possibility of telegrams being despatched and delivered up to 11 p.m. on week days and on public holidays...

This resolution was carried unanimously.

A further motion by the Mombasa Chamber of Commerce last week proposed a resolution was proposed by Mr. Colverson on behalf of the Mombasa Chamber.

Mr. Colverson explained that in dealing with orders coffee trade of Mombasa quick communications were of the greatest importance...

There was no discussion on the resolution and the motion was carried unanimously.

THE POULTRY WORLD.

The Ideal Egg.

Many Points of Quality.

Eggs are used for two purposes, food and reproduction. In both cases there is an ideal to be aimed at... The shell should be strong and devoid of any roughness.

colour of the egg is not so important, but it is well to remember that a light coloured egg is one in which should produce brown eggs... A good firm shell, smooth in texture, and of a good shape, all eggs with ridges or pores shall pass be discarded.

A thick shell may mean that the whole matter is less than when the shell is thin, but it is not that important... The egg should be fresh and the contents should be of good quality.

Answers to Correspondents. Nairobi: When you a turkey egg after being fertilized? This rather depends how near it is to laying when fertilization takes place.

When an egg is very laid the albumen is usually perceptible, but if it increases in size every day. The contents should be clear from some representing moulds, or dirt arising from development of the germ.

Are all the eggs fertile? It is usually found that the first few or three are infertile, especially if they have been away for fertilization. How many eggs does a turkey lay? The number varies very considerably, but about sixteen is the usual number.

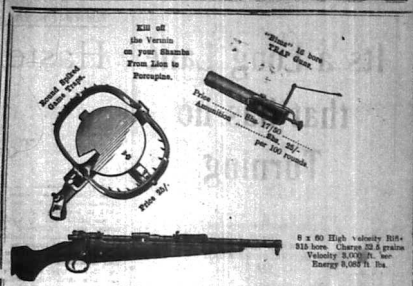

When an egg is very laid the albumen is usually perceptible, but if it increases in size every day. The contents should be clear from some representing moulds, or dirt arising from development of the germ.

Light action internal expanding hydraulic four-wheel brakes. Balanced road wheels. Ornamental, indirectly lighted instrument panel. Saddle seat spring cushions.

CARR, LAWSON & Co., Ltd. Nairobi Nakuru Eldoret Kampala

Topics for the Motorist.

Its a Long Lane that has no Turning

BUT EVEN THE LONGEST LANE IS NEVER MONOTONOUS WHEN TRAVELLING WITH THE RIGHT SPIRIT USE

The Esprit de Cars.

When we published our Free-wheel Number a few weeks ago, several interesting items have been included in this special issue both written by the public and by manufacturers...

Some drivers, for example, sometimes of irritation caused by the pronounced difference in noise between the existing period and the succeeding period with the engine driving. They had got quite accustomed to the same produced by the engine on one side of the continent, but the discontinuity introduced by the free wheel made the engine seem much noisier by contrast.

Exhausting Existing Brakes. Here, then, is one way in which the free wheel may minimize power in motorist design by emphasizing an existing fault and reducing it to a minimum.

AUTOMATIC PARKING BRAKE

An interesting braking system is being developed in France under the name of the Lepetit. The system incorporates the usual

arrangement of small hydraulic cylinders and plungers. The brake pedal, when depressed operates the plungers in the connecting cylinder through the medium of a rod and drives the hydraulic or other liquid into receiving cylinders on the brake flange.

The plunger rod of the general-cylinder is connected to the driver's seat by means of a U-shaped bar supported on either side by rollers that when the driver leaves his seat and his weight is removed from the seat, the latter immediately pushes up the plunger and apply

A Foot-Controlled Air Valve

A device which is in effect a foot-controlled gear air valve in the lower right hand corner of the steering wheel, is the feature of which the incorporation of a steering device to prevent the car from becoming stuck in mud, water or snow arranged that engagement of reverse gear, makes the free wheel and at the same time releases the gear. This device is actually produced in the Peugeot Car and Machine Co. and is so arranged that when reverse is engaged, the motor which is termed a "Punch" mechanism, the work is done, being, apparently, unknown in America.

Some drivers, for example, sometimes of irritation caused by the pronounced difference in noise between the existing period and the succeeding period with the engine driving. They had got quite accustomed to the same produced by the engine on one side of the continent, but the discontinuity introduced by the free wheel made the engine seem much noisier by contrast.

BOPICAL and safety best have no concern for the man who wears AERTEX underwear. The man who wears this wonderful fabric completely ignores the usual questions of temperature and humidity. He is always cool and comfortable, no matter how hot the weather is. In fact, he is always cool and comfortable, no matter how hot the weather is.

Stiff Aching Muscles

Kill Pain at Once!

Cuts and Stiffness and other aches and pains are often relieved with certain consequences.

Get rid of them quickly and completely with Sloan's Liniment.

A single application is an excellent tonic to tired, aching joints and muscles. Lightly applied it penetrates instantly, dissolves accumulation, takes out the cause of the trouble.

Second Application Follows. For three years I suffered excruciating pain on the top of my head. I had a severe headache. After the second application I found my head free of pain. I am free from pain.—Dr. E. Deane, & Co., Dublin.

Sold by all Druggists.

Sloan's Liniment

Dear Sirs: Your letter of December 1925 just to hand.

I am indeed pleased over the way you have handled the sale of my car, both as regards price and quickness of sale.

I was pleased with the purchase of the car, and our second transaction has been equally satisfactory, and I shall certainly come to you for another car or my return to Kenya.

Yours faithfully, (Name on application)

"TAXPAYERS' CANDIDATE."

PRICES: Shs. 5/- and Shs. 3/-

Although the Association of East African Chambers of Commerce... decided that detailed discussions of the Elliot Young Report should take place by each of the young Chamber in preparation for the next half-yearly session of the Association...

It is many years now since an amateur theatrical company in Kenya... the first time that the "Problem Play" was presented in Kenya...

Following the resignation of Lord Delamere... the Nairobian Saturday... the Nairobian Saturday...

Yesterday the "Standard" published the minutes of the deliberations for Nairobi North Eye-Election... Mr. Ernest Carr declares his views...

"TAXPAYERS' CANDIDATE." Mr. Carr says: "The Taxpayers' Candidate" is a very important and interesting subject...

TO-NIGHT, AT 8-45 P.M. Henry Edwards with ISABEL JEANS

On the other hand, Moshi and Arusha representatives were emphatically of the opinion that the settlers in the Northern Province should be transferred to Kenya.

It is a very interesting and important subject... the "Problem Play" was presented in Kenya...

"WARDEN'S RESPONSIBILITY." The play raises the problem of the Warden's responsibility...

"TAXPAYERS' CANDIDATE." Mr. Carr says: "The Taxpayers' Candidate" is a very important and interesting subject...

"TAXPAYERS' CANDIDATE." Mr. Carr says: "The Taxpayers' Candidate" is a very important and interesting subject...

TO-NIGHT, AT 8-45 P.M. Henry Edwards with ISABEL JEANS

Mr. T. J. O'Shea asks the Chamber to avoid the narrow view which would follow from any declaration that economic interests were paramount.

"WARDEN'S RESPONSIBILITY." The play raises the problem of the Warden's responsibility...

COMMUNAL DISCUSSION OF THE CLOSER UNION REPORT.

(Continued from page 9.)

Very brief during the last few days of the session...

It was not only a question of the Union but also of the future of the country...

The Hon. Mr. Mwangi... Later in the morning the subject of the Union...

He suggested that he was quite unable to support Mr. Makulu's view...

Mr. Bloom (Arusha) ordered all that the previous speaker had said...

It was pointed out that the Northern Province should pin its faith on Kenya...

It did not seem that Tanganyika Territory was going to be depressed...

The Chairman pointed out that the Tanganyika railway was at present being run by the Kenya Government...

Later in the morning the subject of the Union was taken up by Mr. Mwangi...

He suggested that he was quite unable to support Mr. Makulu's view...

Mr. Bloom (Arusha) ordered all that the previous speaker had said...

It was pointed out that the Northern Province should pin its faith on Kenya...

Mr. Hesse was in agreement with the suggestion that the matter should be postponed...

Mr. Makulu said that to a large extent the purpose of the Commission was to be a large one...

Mr. Hesse said he hoped that the Commission would be able to do its work...

Mr. Makulu said that to a large extent the purpose of the Commission was to be a large one...

Mr. Hesse said he hoped that the Commission would be able to do its work...

Mr. Makulu said that to a large extent the purpose of the Commission was to be a large one...
