## Dazzling Smiles

Are Dull Smiles Polished Bright

**DO NOT** believe your teeth are naturally "off color" and dull. You can restore them to amazing whiteness in a new way leading dentists advise!

Use your tongue across your teeth and you will feel a film. A slippery coating that covers them, absorbs stains, hides their color and invites tooth decay.

Just obtain a tube of the dentifrice called Popodont. Combat that film tonight; clear white teeth are beautiful. Note the amazing difference to your smile.

**Special Popodont Test**  
To prove results buy a tube of Popodont, the quality dentifrice — for sale everywhere. Or send for 30-day free use to:

### Nairobi Notes.

#### URGENT NEED FOR HEAVY RAIN

**["RAIN-SEEKERS" OVERSEAS]**  
Nairobi, April 14. Rain still stands in need, though several good showers have fallen since the beginning of the week.

An immense swarm of locusts has been coming in a circle during the last few days and on Friday formed a huge pink screen from the outer fringes to the front of the province. The animals swarmed, raised above 400 ft. above the ground.

Trade representatives of Nairobi firms find difficulty in obtaining orders and local employers of labour are giving notice to members of their staff, owing to the hard times. Business is likely to stagnate until work is commenced on the railway on July 1, when the advent of outside labour will improve conditions.

The underground service is operating on the Southern farms of the district, using the four services from Eldoret Laboratory.

**Low Rivers.**  
The underground drought the stream through Lord Egerton's farm rivers as the Kempti had completely dried up. All the other rivers are extremely low and the trout fishing is in consequence disastrously poor.

Handled as usual to the Agricultural Department on Thursday last was 28 for the week only and as most local wheat farmers have planted, a few heavy soaking rain storms are urgently required to germinate the seed.

Mr. and Mrs. W. K. Bantani are shortly leaving for Europe and their large stock farms—"Swan Valley"—will then be managed by Mr and Mrs. C. M. P.

The Senior Commissioner's newly established office at Nairobi is now in process of being linked up by telephone with Meru and the main system.

**Rapid Dividends.** Kenya Savings Bank Company announces dividends which, apart from one small dividend on the First Preference, are the first paid since the reorganisation in 1934. The company is controlled by Imperial Chemical Industries, and Lord Malchaire is the chairman. Dividends are at 8 per cent. per annum on the First and Second Cumulative Preference shares for the two years 1937 and 1938 and 12 1/2 per cent. on the Preferred Ordinary shares for the year 1939.

### Cane Preservation.

#### PRINCE OF WALES JOINS THE SOCIETY.

The Prince of Wales has consented to become patron of the Society for the Preservation of the Fens of the Empire, a new organization in East Africa has been also since announced with all kinds of big game, and expressed his admiration for the expert management of wild creatures which Africa still possesses.

His Royal Highness has always been a keen wild life preservationist, and in a number of visits that he should have become patron of the Society, which has done so much good work during the last two-and-a-half years in conserving the fast diminishing fens of the Empire.

The society was founded in 1900 by a group of animal lovers, with the object of securing better returns in the great herbage lands left lying empty all over the Dominion and Colonies. It has helped in the formation of the many zoological and national parks which are now to be found throughout the Empire. There is, however, much more work to be done in this direction, and the society needs further support in order that it may continue to carry out its objects efficiently.

The society's secretary at Colonial 7, Grosvenor Gardens, will know for his work in the formation of the splendid Kenya National Park recently opened in South Africa.

#### A Native Forester.

The following paragraph which appeared in a London evening newspaper suggests that new and useful publicity ideas are being brought to bear on the work of the East African office in London:

An item of human interest is included in the last statement on conditions in Kenya Colony, issued by the Eastern African Department, Trade and Information Office in London. It is to the effect that a tree in a certain district of Kenya, according to local native tradition, only when it is cut down, according to the wishes of the Kikuyu tribe, leading their faith in this case, are strong their people to undertake increased planting.

### Commercial Aviation.

#### DEVELOPING EMPIRE ALL-KINDS-DEERS.

Great interest was manifested in the meeting organized by the Committee of Commerce in support of commercial aviation held at the Common Store House on February 27.

During the course of the meeting Major Sir Humphrey Legatt presented the following resolution: "That the meeting of members and others interested in commercial aviation, impressed with the importance to the future of the country of developing the air service, requests the Council of the Chamber to authorize the formation of a Civil Aviation Section of the Chamber."

Sir Humphrey said that if in the future commercial work did not assist in the development of commercial aviation, it would not survive through lack of information as to the possibilities of the industry. He said that the history of the world showed that when a nation ceased to build its own air force there had been something wrong with its transportation system. They had recently had the case of the airline of the Empire of Wales in regard to airmanhood; but what could a development do, asked Sir Humphrey, who has been condemned to a "dinky cart" while his competitor had a motor car? "What other nation had rapid means of communication that we were not in the position of the time, was the question. There was great need today for such a body as the London Chamber of Commerce to take the lead in the direction of developing airmanhood in the country."

#### Kenya Laws

Intimation has been received that His Majesty's power of disallowance will not be exercised in respect of the following Kenya Ordinances—Amendment of the Arable Widows' and Orphan Pension Ordinance, 1937. Amendment of the Law relating to Municipalities and to provide for matters incidental thereto; an Ordinance to enable Local Authorities to impose and collect rates; an Ordinance to provide for Local Government in Rural Areas and for the establishment of District Councils; an Ordinance to amend the Public Health Ordinance; and the Ordinance to repeal the Trading with the Enemy Ordinance.

**SMALLPOX SCARE IN FRANCE.**

**Drastic Regulations to be Enforced.**

**PASSENGERS FROM ENGLAND TO BE VACCINATED.**

**To include All Travellers by Air and Ship and Also Those Traversing the Country.**

The smallpox scare has spread to France, where drastic regulations to prevent infection have been enforced.

All mail-boats from England must hoist the quarantine flag before entering port, while names, addresses and destinations of all passengers must be supplied. All passengers must be vaccinated before landing or produce a certificate of vaccination dated within the previous two months.

The same regulations regarding vaccination also apply to air passengers and to those crossing French territory to other destinations.

The various tourist organisations oppose the regulations, and the opinion is expressed that they will tend to restrict traffic generally, as tourists will be compelled to visit the Continent.

**VACCINATION ARRANGEMENTS.**

(THROUGH LETTERS AGENT.)

London, April 16. — A heavy blow to Franco's trade is being dealt by the drastic regulations to prevent smallpox infection. All mail-boats from England must hoist the quarantine flag before entering port, while names, addresses and destinations of all passengers must be supplied. Each passenger must be vaccinated before landing or produce a certificate of vaccination dated within the previous two months. All air-passengers are also to be vaccinated forthwith.

Effect on Tourist Traffic. — The effect of tourist organisations in London were estimated as the order and said it would do.

**Disarmament.**

**OPENING OF TROUBA CONFERENCE.**

(THROUGH LETTERS AGENT.)

Geneva, April 16. — At today's meeting of the Disarmament Committee, Mr. Dixon declared that the Soviet Government for disarmament was the only great nation. A Chinese delegate submitted a scheme for the abolition of compulsory military service.

Her statement implied that the German delegation would not give Geneva delegates but a solution had been reached on outstanding issues, namely the effective and permanent of land and sea forces.

The committee adjourned until April 17 after agreeing to the proposal for the proportional programme reduction of all arms.

**Russia and Turkish Peace.**

The result of the discussion was a message for the Soviet Government, as the Turkish peace movement will be the subject for discussion. A Turkish delegate for disarmament has been named and provisions for the fitting out of the maximum equipment of the army.

States possessing arms that may be allowed to increase their forces.

NAIROBI'S NEED A BIG AREA

THE URGENT necessity for more land is a fact which has been felt for some years. The present area of Nairobi is insufficient for the increasing population and more serious cases of overcrowding have become more pronounced. The district officer has several times expressed his anxiety to acquire more land for the city and the Government has been unable to do so.

**An African Tragedy.**

**MUHAMMARED NATIVE WHO WAS "DEBORIZED."**

"NATIVE" OBSERVERS:-  
I wonder if East Africa can produce such an interesting letter as the following, which was addressed to a distant office on the West Coast of Africa, whose heart was duly touched.

And so on opening this copybook I find the words of a deborped person, and a very pathetic and most childlike expression.

Who was violently deprived of a (swearing) by your gooddies for his own sake the occasion this catastrophe so falling on your own head, and would yourself an walking home at the moon a set of five straps were and custom surround children with your pocket filled with maintenance a d. Not a secondary suspicion, pry my lastable and proceeding with a jabbed and proceeding with a jabber to the den of doom, my heart and intestine filled with culpable homicide, but I am not, though I have, through the lion's den will proceed to my own home of evil. As to reason given by yourself acquire for my deborped the interpretation was taken.

TO ALL: It was impossible that myself who has played a victim of children, and my lastable of love, can have a lastable in his mortal frame, but the same departure of eleven months monthly has left me on the verge of the above of deborped and despair.

I hope this vision of horror meet each your dream this night, and good Angel will meet and preserve your heart of honor. Moreover so that you will awake and with as much alacrity as may be compatible with your personal safety, will begin to expiate your sin.

FAMINE AND LOCUSTS AGAIN CREATE SERIOUS OUTLOOK.

Special Agricultural Schemes in Native Reserves.

THE FUTURE OBSCURE.

Careful Watch Being Kept on Export Trade: Warning to Maize Dealers.

The position created by a combination of locusts and drought is one which is viewed with considerable anxiety by the authorities.

The Board points out that while the immediate needs of the famine-stricken native areas have met, reports of the presence of large swarms of locusts are regarded as being very serious.

A statement of foodstuffs shows that subject to careful control of exports and provided the meeting is careful, there will be sufficient to meet the general needs.

Meanwhile those engaged in the maize trade are warned not to make contracts for overseas or for foreign territories without first obtaining export licences.

EVASIONS OF CONTROL MEASURES.

The Food Control Board has issued the following communication to the maize trade.

**(Nairobi Correspondent.)**  
Dip-28-Salam, April 12.—The rains, supposed to have broken last week, but once again, have been so heavy that they have not only been a liability but a serious obstacle to the progress of the settlement. The Government, which is at present obtaining land for the settlement, has been very busy in the past few days in the matter of the settlement, and in consequence has not been able to attend to the other hand, if the working of the settlement was to be carried out by the Government, and continued to be worked by one or more companies under license, the whole of the Central District would be a very different matter. The settlement of the Government is at present in a very advanced stage. There was a full and frank discussion of the various points of policy on which there is a difference of opinion between the Government and the settlers. At the same time, the Government is at present in a very advanced stage of the settlement. In view of the approaching visit of Sir Donald Wilson, the Government has invited all the associations to send delegates to Dip-28-Salam to discuss the Central District Report with a view to finding a basis for a Memorandum which will embody the views of the whole country. To assure a really representative gathering of representatives will not stand in the way of the settlement. The Government will pay the expenses of the delegates. It is possible that the Congress of Associations will take advantage of the opportunity and hold a session in Dip-28-Salam. This would probably simplify matters by allowing the delegates to find many points in common before presenting their views to the Government.

has not been withdrawn, but will be discussed at a later date. It is understood that the meeting of the Executive Committee will be held on the 15th inst. Last January the Bill was introduced, and it was a very pleasant surprise to the non-official members of the Executive Committee that the Government was so ready to take up the matter. It was stated that a walk-out possibility had been suggested by the Public Manager. Great opposition was aroused which was not only a matter of course to the Secretary of State from the Chamber of Commerce but also to the Government. The Government would not be able to do the same efficient service as at present obtained under the present system.
