The greatest advance in food-invention since men began to eat and women learned to cook. All the goodness of prime beef concentrated, by a new scientific process, into little cubes half-an-inch square. Each cube the right size for a cupful-uniform in food-value-quality-strength and flavour.

Oxo Cubes have none of the disadvantages of beef-extracts and fluid-beefs. They are something quite different, handier neater-quicker-more convenient-and more economical. As a result, the oldfashioned, cumbersome bottle and jar are rapidly disappearing from the kitchen and giving place to dainty tins of Oxo Cubes. Excellent for all kinds of cookery, and a little before-meal andbetween-meal luxury that you will enjoy.

Oxo Cubes contain in exactly the right proportion, the stimulating extractives of keef which tone up the nervous system and aid digestion, and the rich, nourishing protein which feeds the body, and gives it strength—vigour—and health. They can be used as well outdoors, or on longdistance journeys, as in the home. A tin of cubes can be slipped into the vest pocket—the purse—the satchel—ready at any time-anywhere. One cube will make a delicious invigorating drink that

will sustain for hours. TINS OF 6, 12, 50 AND 100 CUBES.
