The greatest advance in food-invention since men began to eat and women learned to cook. All the goodness of prime beef concentrated, by a new scientific process, into little cubes half-an-inch square. Each cube the right size for a cupful-uniform in food-value-quality-strength and flavour.

Oxo Cubes have none of the disadvantages of beef-extracts and fluid-beefs. They are something quite different, handier neater quicker more convenient and more economical. As a result, the oldfashioned, cumbersome bottle and jar are rapidly disappearing from the kitchen and giving place to dainty tins of Oxo Cubes. Excellent for all kinds of cookery, and a little before-meal and reen-meal luxury that you will enjoy

oportion, the stimulating extractives of beef which tone up the nervous system and aid digestion, and the rich, nourishing protein which feeds the body, and gives it strength-vigour-and health. They can be used as well outdoors, or on longdistance journeys, as in the home. A tin of cubes can be slipped into the vest pocket-the purse-the satchel-ready at any time—anywhere. One cube will make a delicious invigorating drink that will sustain for hours.

# Does the Rain Play Havoc With Your Roof?

If so, it needs recovering with Ruberold. The utility of Ruberold Roofing cannot be too fully emphasised, as

Ruberoid is made in three colours. Ruberoid is light, elastic pliable, neat, low in prime cost casily laid, unaffected by fumes, odourless, damp and dust proof, easy to repair, an is unaffected by HEAT OR (COLD.

With age, Ruberold improves by becoming harder and more "leathery." The moisture in the saturation never dries out, and it always retains its flexibility and elasticity. Write to us and we will give full particulars of this famous roof and floor covering, with lowest prices.

RUBEROID IS THE FINEST ROOF COVERING EVER PUT ON THE MARKET.

# Does the Rain Play Havoc With Your Roof?

If so, it needs recovering with Ruberoid. The utility of Ruberoid Roofing cannot be too fully emphasised as there is no roofwork for which it cannot be used.

Ruberoid is made in three colours. Ruberoid is light, elastic, pliable, neat, low in prime cost, easily laid. unaffected by fumes, odourless, damp and dust proof, easy to repair, an is unaffected by HEAT OR COLD.

With age, Ruberoid improves by becoming harder and more "leathery." The moisture in the saturation never dries out, and it always retains its flexibility and elasticity. Write to us and we will give full particulars of this famous roof and floor covering, with lowest prices.
