The Kenya Legislative Council opened its fifth session yesterday in Nairobi.

This will be the last Budget session, under normal circum-stances, over which His Excellency the Governor, Sir Edward Grigg, will preside. His tour of office comes to an end about September next year.

Dealing with finance he pointed out that the locust cam-paign had cost £52,000 and the damage by locusts was estimated at £50,000 while the cost of lamine relief totallet £50,000. He explained that, tating the cost siteration are the Colony, in consequence of the policy mineral properties of the colony, in consequence of the fore-going mineragency measures had exceeded the revenue this year by £180,000.

His Excellency said the long delay is the Kikuyu country, and that agitation had spread at the question of fernale circumcision which was now being advocated in its most brutal form.

FURTHER PRESS COMMENT ON WILSON REPORT.

Critical Views By Independent Journal

SHPPORT BY IRISH NEWSPAPER.

General Opinion Either Neutral or Unfavourable.

Most of the comment appearing in British journals on the report on East Africa by Sir Samuel Whoen is other of neutral character or is unfavorable. Several journals, however, announce that they will comment further on the report at a later stage.

The "Economist" considers that the report is likely to make the situation more difficult. The journal does not think the present Government would accept the responsibility of weakening the previous Government's policy of native interests being paramount.

The "Tright Times" supports the recommendations.

native interests being paramount.

The "Trish Times" supports the recommendations contained in the report, and says that would give the people on the spot a chance to obtain greater influence in the conduct of their own affairs. 40

That's Corona's Middle Name!

A portable rypewriter, to give the yeers of service that Corona gives, must be built substantially. Provision has to be made for the unexpected bumps and falls that are bound to come to a ma-chine that is easily carried anywhere.

You may not treat your Corona roughly, we hope you won't; you may not even travel with it; but, just the same, you will be glad to know that it is built as "stand the gaff"—a sturdy, cheering little companion.

HOULD UNUSED LAND GO BACK TO CROWN?

Proposal Defeated in the Legislative Council.

WEAK LAND LAW.

Too Many Speculators Who Have Benefitted Without Work.

Member of Legislative Council for West Kenya made an unsuccessful attempt in Council yesterday to get support for a motion that alienated agricultural land not being properly used, should revert to the Crown.

maintained that a landowner's obligation to earry of development conditions did not cease when he obtain his title.

Acting Commissioner for Lands and Settlement pointed out that the title was granted immediately an auction was held and the only way the Government could recover the land was by bringing an action in the High Court.

Member for the Lake could not contemplate the motion. He said it would be prejudicial to settle-ment and the fact remained that titles had been grant-ed that in many cases had changed hands or passed to mortgagess.

he added: 'Under existing Ordinances far too many speculators have qualified for titles and secured their deeds and have allowed farms to lie title, relying on the work of progressive neighbours to enhance the value of their holdings.'

1930 BUDGET FOR THE RAILWAY AND PORT.

Interest Burden of Three Quarters of a Million.

RAILWAY RESERVE \$1,300,000.

Loss on the Port Estimated at £40,000.

The Bailways and Harbours Budget for 1930 issued this week shows an estimated surplus of Railway revenue of £200,000 from which will be deducted a loss on the Port of £40,000.

The combined interest charges for the year will be three-quarters of a million sterling.

Despite these burdens, the Railway hopes to contribute to its various funds £538,052 and after carrying out its betterment and renewals programme, to have in hand at the end of 1930 a surplus amounting to £1,300,000.

A curious item appears in the Railway Estimates. Pro-vision is made for the loss of £25,000 as "Sacrifice of revenue consequent on proposed abolition of the Country Produce Rates." The item suggests that the Railway is anticipating a change in policy.
