### The Nairobi Land Case.

In the Town Magistrate's Court at Nairobi.

Transfer Decree No. 4 of 1906.

### Order of the Court.

The debtor is before the Court on ation:
an application to commit him to (1)
civil imprisonment for not paying the amount of decree made him in the High Court on the 21st. August 1906 for Rs. 35,915-6-0. The decree was transferred to this Court decree was transferred to this Court for execution and application for execution was made on 13th, Septem-ber 1906; the application was ad-journed to 20th, September, as it appeared that the debtor intended to appeal against the decree; it now appears that the debtor has no intention of appeal and that the security which the debtor stated he would be

able to offer does not exist.

The facts, leading up to this appli cation are somewhat peculiar, and appear from the plaint and other document, filed in the High Court action, which are now before me.

Quite briefly, they are as follows: The debtor entered into contracts med from bins an indemnity-ragainst ny costs and damages he may fide incur and " be compelled to pay in regard to any action which may be brought "against him by the said Grant' in respect of his agreement to sell the land to Grant, and the debtor undertook to bons ride defend any such case and resist any such claim for damages to the best of his

### ZANZIBAR.

There were all sorts of rumours going about during the week, some rumours even going so far as to state that four Indians have been murdered and many shops looted. As to the lost there were certainly a few shops looted of such trifles as eigarette papers, eigarettes and The Zanzibar Authorities only borrowed three Companies of K. A. R. from British East Africa to tide over the difficulties until a Man-of-war arrived from the South: A strong ad released Lord Delamere from his feeling is growing in official circles that the police pay must be increased that the majority of the askaris in order to make ends meet have had recourse to the Indian money conduct, is that Lord Delamere was lender, which class of person in not satisfied with the way in which had found to the lender which he l thought he had better take what he which it is likely some positions could get and further that he thought will be vacant. We understand the will be vacant. We understand the ring leaders will be punished though most of them are German subjects and have asked for protection.
