The importance of the principle of protection for young countries was ad-mitted by many delegates from Tanganysha although mitted by many delegates from Tanganysha although the industrial force should be careful selection of the industrial that the protection should be reviewed from time to time.

GET THE THRILL OF FINE CAR VNERSHIP.

Everything about this new Chevrolet reflects the fine car standards to which it is built.

Magnificent bodies by Fisher reveal the style, beauty and painstaking crafsmanship which have made Fisher famous all over the world for fine coachwork.

Everyone anticipated that Chevrolet would produce a remarkable car-but no one ex-pected such a sensational six cylinder motor —such delightful handling case—such mar-velleus contort—and a fuel economy of better than 25 miles for the gallon !

And furthermore no one believed that it would be possible to produce such a car in the price range of the four!

If you have not made a personal inspection of the New Chevrolet, we urge you to do so at your earliest convenience.

A ride tells a wonderful story ! We cordially invite you to come and have a demonstration at any time in any model of car.
