RELIGIOUS CONTROVERSY IN MALTA.

Representations to the Vatican. AN IMPOSSIBLE POSITION. Interference by the Church in Domestic Politics.

Correspondence between the British Government and the Vatican regarding the controversy in Malta has been published. This correspondence offers a... A note written by the British Minister to the Holy See expresses the opinion that the root of the trouble is the intense participation by priests in local politics...

It is also stated that cases have occurred recently in which priests and laymen in the confessional whether they intended to vote for the Constitutional Party, and if the answer was in the affirmative, had refused absolution.

A pastoral letter was also cited which declared it to be a grave sin to vote for Lord Strickland and his candidates. Lord Strickland and his Ministers agreed to pledge themselves to urge their supporters to refrain from provocative intemperate in regard to the Church by the Vatican, however, refused to return to give instructions to the clergy to abstain from participation in local politics.

LONDON NAVAL TREATY PROPOSALS.

Criticized by Conservative Leader. ENOUGH DEMAND? Premier Repeals Policy of the Government.

Mr. Stanley Baldwin, the Conservative leader, today said that a House of Commons debate must be arranged to examine and report upon the proposals for London and the Intermediate Treaty for Limitation and Reduction of Armaments. He stated that the best thing one could do in this country was to do nothing at all.

I found myself in the interests of the *British Branch of the H.S.P.A.* Edited by the *H.S.P.A. Secretary, Mrs. H. C. Nichols.*

I was glad to welcome two new members last month, all from Yorkshire. These, Osgilby I was surprised they way they have now attended they were from the school for the E. S. F. C. A. The puppy of Elizabeth (which) sends to a gift of forty shillings that on Mrs. Miller says that each child sent a shilling I have asked for their names so that I can observe the money sent as a gift. This money was "redeemed" by the kind and unselfish help of Miss Margaret Galtley sent as another ten shillings money she had earned by giving help to sick animals. We are indeed grateful to her and I am, use the amount.

A letter from Emma Tait, an old nursing, from Glasgow on her way home says. "Some of the passengers and very nice had some of them quite so good as George." I found it is a lovely baby and with a lovely third coat of the bestest for there was one. He comes up on deck for exercise every morning and afternoon. He is just full of life when he is on deck and runs after the others but when he is in his cage he stays all the time.

The results of the Junior Essay have come but I must keep them secret until we get the Master's results from England. I read through a good many of the Essays and as some of you did not seem to know a tremendous amount about your subjects I thought I would tell you something you might write about when you had.

What We Owe to Animals.

The world would be a queer place without animals, birds or insects! It has been said that if there were no birds, the insects would eat all the vegetation and the animals and man would not possibly live. Think for a moment how much we depend on animals for clothing, to make our homes and so on.

carefully and thoughtfully done in making them such a small price. I hope we shall not have any more accidents.

Competitions for June.

Prizes are offered for the best drawing of any domestic animal by the 15th inst. (closed by July 15, 1924).

Division 1. (18 years and under) Must be drawn from life. Division 2. (14 years and under) Must be a drawing from memory. Division 3. (10 years and under) Must be drawn from life. Division 4. (Children up to 10 years and under) Must be drawn from the above divisions.

A Pig and a Dog.

There was once a pig and a dog that were great friends. The pig would come to the dog and the dog would come to the pig. One day the pig was out in the field and the dog was with him. The pig was very fat and the dog was very thin. The pig was very kind and the dog was very clever. One day the pig was out in the field and the dog was with him. The pig was very fat and the dog was very thin. The pig was very kind and the dog was very clever.

The Homestead Parrot.

(For those who may want to make a pig.)

I found a little turtle on the beach when I was on the roof at play. I put him in a cardboard box and carried him away. His little head was striped with gold. His shell was water-dark and brown. I think I was the gladdest child of my child in town. But when the night came I was sleeping.

So, when you see my pig I shall have had him for a long time. I shall have had him for a long time. I shall have had him for a long time. I shall have had him for a long time.

that the matter should be referred back to the Committee for further deliberation. The report supported Councilor Meyer, saying that he would not support the bill unless it provided any amount in levying upon the "beneficial" of the roads. Instead of the roads, it would be levied upon the "beneficial" of the roads, but not upon the roads themselves. This was the main point of view, but they had not the same opinion at this point of view.

They had at the same time a plan which was proposed by the Law-Committee, which was to levy upon the roads themselves. This was the main point of view, but they had not the same opinion at this point of view.

Question of Common Council.

Councilor Meyer appeared to have been the only one who had not supported the bill. He had not supported the bill, but he had not supported the bill. He had not supported the bill, but he had not supported the bill.

Councilor Meyer said, "I have not supported the bill, but I have not supported the bill. I have not supported the bill, but I have not supported the bill. I have not supported the bill, but I have not supported the bill."

With respect to Councilor Meyer, the speaker did not wish to say anything more. He had not supported the bill, but he had not supported the bill. He had not supported the bill, but he had not supported the bill.

Tribe to Lord Lansdale.

L.Y.A. AND MISS MILLER VISIT.

(STANDARD CORRESPONDENT)

London, by Mail. Last Commander Lewis Mountrath, a cousin of the King, who has been in field while playing at polo at George. He was one of a field members appearing some time ago, accompanied by three Sir Roger Kepp. During the game he was injured and taken home severely. He was taken to the Victoria Hospital, where it was found that his left collar bone was fractured. He is expected to be laid up for two months. Lady Lewis Mountrath arrived the same evening from London. Lord Lewis Mountrath is a keen polo player and captain of some naval cadets, known as the "Blondes" who propose to compete at Henley, but has the season.

Much enthusiasm has been aroused here by the decision of the South Wales to the decision of the Earl of Lansdale to go on three days visit to Cardiff, and the mining valleys. It is intended to pay a national tribute to his great appreciation by endeavoring to pay the same at Wales' premier charitable institution, Cardiff Infirmary, at a cost of one thousand guineas, and every sporting interest has been stimulated by the idea. Boxing, professional boxing, has been proposed to be given a national tribute, and it is said that the Earl of Lansdale has offered to pay a national tribute to his great appreciation by endeavoring to pay the same at Wales' premier charitable institution, Cardiff Infirmary, at a cost of one thousand guineas, and every sporting interest has been stimulated by the idea.

(STANDARD CORRESPONDENT) London, May 11. France has had a very bad shock in the Rugby field over the death of Michael Prada, a 20 year old schoolboy of the Lyceum, who died in hospital at Bordeaux, after being back while he was playing in the first final of the French Rugby Championship. The police of Bordeaux, and officials of the French Rugby Federation are holding independent enquiries into the death, which, it is asserted, was caused by a blow on the head. Prada was apparently back while on the ground by the French Representative, Pailhous, and another player had struck the back and twisted it. M. Loubert, the referee made a great complaint of extreme negligence, and a ruling has been ordered of France for attempting to attack an opponent, and other player, backdoor, for the present, pending the report of the enquiry. Prada's death is the subject of much comment in the French Press, and it is agreed that Rugby has become a great deal too rough in France, and the general feeling is that the rules present and the time these are taken Rugby in France.

Future of Golf in Britain

World's Greatest Writer.

(STANDARD CORRESPONDENT)

London, May 10. Mr. W. G. Webb, C.E., an American and English was successful in his own country to see the United States Golf Association to be named all over the world. Mr. Webb will uphold the U.S.A. Golf Association's view of the game which he has first to take the British view by itself, although, in the country, there was a strong feeling of opinion as to whether he would ever achieve the fame predicted for him.

The Pennsylvania Negro Commission are apparently supporting the claims of George Quinby, the American Negro lawyer who won the world's championship of the world's championship. Quinby is a really formidable figure standing 6 ft. 10 in. and weighing 170 lbs. He has been steadily supported by the American authorities who were the world's title has come up for discussion, but now Pennsylvania, the State in which Quinby was born, will officially pass his claims, we are informed. Therefore, no one will be acknowledged in that State as having won the title. The main objection of Quinby is of course in regard to present places are in fact Quinby and Max Schmeling to box for the title on June 18, but will be a strong contender in the person of young Shikhar Singh, who is believed to be the best of the South at the Ceylon Stadium, Ceylon, on June 5.

Tested Cartridges
See All Standard Issues of Rifle, Pistol & Revolver

Every cartridge produced by Remington must pass rigid inspection at many steps from raw material to finished product.

Millions of cartridges are used in actual shooting tests for velocity and accuracy. These are chosen at random from each lot of finished cartridges. If any fail to meet the high standard set, the entire lot is rejected.

These rigid tests have built up a great faith among buyers in Remington cartridges.

THE MOMBASA ELECTION.
Pelling takes place at Mombasa
on Saturday night the Port seat
is contested between three
two candidates, both of whom
have won much public acclamation
the recently serving Member, Mr.
E. A. Beaudet (who departs)
for Mr. C. Munzinger and Mr. J.
H. Clark. Mombasa is a small
place and nomination in the past
has occurred for a lot. In addition,
the port town has few men
where the being in Mombasa
the various public service staff
of an municipality of Council, an
appointment which is not only
connected with the members of
Council but is a much greater
share in time through the many
ranks of a local community.
Other forms of public work
naturally follow upon the
Colony's legislature. Some
visions in Mombasa, in consequence,
have tended to be influenced by
considerations of a very local
character and representation of
Council has in the Council has been
arranged more often on a basis of
reciprocity than otherwise. This
is very important to the rest of
the Colony that the votes of Mombasa
should be heard in the Com-
munity of the country. It is more
provingly so. Mombasa, it be
the opinion of the Council should
be considered in the same
low question but increasingly
upon the great issues which are
before the Council, it is believed
it has been a representative
and influential body for
for long that a representative
seat exists between the High-
land and the Coast.

Agricultural Critic.

CRITICISM OF THE RATE OF INTEREST.

To the Editor, "E.A. Standard."
 I am glad to see your Government plan of helping agriculture by lending money on simple security at 4 per cent, so farmers already up to their eyes in debt as at present will be relieved.

To me, it looks like offering a case of lending long term to a borrowing man, and it is just about as useful. What we first want is an assurance from the Standard that the Government has been a success in producing which has not during the season. From the Colony will not be repeated.

By your own report, it is evident that you produce more than you can sell. You are not to get world prices when they are at their lowest and are reduced to their profits when prices are high. And now the Government has decided to lend (that is, to give) money to make good a deficit which you have made in your own crops. I fear for the credit of the Government and Mr. Huggins, unless some of your money is spent together with some for grain in bulk, and some for planting plants and sprouting corn. Under present conditions a quantity of unproductive grain is stored all over the country which it has to be sold at a loss to make room for the grain which is needed to seed and to plant. The Government has to be satisfied to sell its grain at a loss to make room for the grain which is needed to seed and to plant. The Government has to be satisfied to sell its grain at a loss to make room for the grain which is needed to seed and to plant.

It is a pity that the Government has to be satisfied to sell its grain at a loss to make room for the grain which is needed to seed and to plant. The Government has to be satisfied to sell its grain at a loss to make room for the grain which is needed to seed and to plant.

WILBERT WALKER.
 Nairobi, June 6, 1910.

If it is clearly being recognized that world prices are down, as all the world knows, it is not generally recognized, for some reason or other, that the Government should do something to help the farmer. The Government should do something to help the farmer. The Government should do something to help the farmer.

The only for the stricken industry is to be met as at present moment economy.

The individual farmer is something in every possible way, by the Government. It is not to be a success in producing which has not during the season. From the Colony will not be repeated.

Every possible avenue of assistance, in addition to the Government's plan of lending money on simple security at 4 per cent, is to be met as at present moment economy.

BROOKLANDS RACING TRAGEDY.

Collision Mars Double Twelve Hour Race.

CRASH AT 100 MILES PER HOUR.

[STANDARD] CORRESPONDENT.
 London, (By Mail).
 One of the worst accidents in motor racing in the country occurred when two cars, heading at more than 100 miles per hour collided during the double 12 hours race at Brooklands. The crash resulted in a singular victory for British cars in general.

The tragedy at which two were killed and the injured occurred when the first day of the double 12 hours race was almost over with only an hour and a quarter to run. At the time the two cars were on the straight by the Grand Prix at about 100 m.p.h., following by two other Talbos, which were sent very close, the first Talbo being driven by the Frenchman, little Austin in front of the other Talbos. The Frenchman seemed to add and turned back into the track in front of the two cars. The Talbo in front, which was flying about 200 m.p.h. at the time, came into a crowd of spectators.

Scene of Collision.
 In an instant all was confusion as the car plunged into the crowd. The spectators, like a white plume, were sent flying into the air, and portions of the car shot into the air. The Frenchman was thrown out of the car and was killed. The other car, which was driven by Mr. Herbert and his co-driver Mr. Dury, was sent flying into the air and was also killed. The driver of the other car was sent flying into the air and was also killed.

The other death occurred among the spectators Mr. Horworth of Chesham, Illinois Avenue, Ashford, Middlesex, being killed. The driver of the other car was sent flying into the air and was also killed.

among among the injured spectators were being transported to hospital. Mr. Horworth died immediately. The other two were sent flying into the air and were also killed.

Later about 15 of the injured were taken to hospital. The other two were sent flying into the air and were also killed.

Each Africa will feel an interest in the gloomy story of Anglo-American tragedy. In the fatal years between 1907 and 1910, British cars were almost over the finish line in the 12 hours race at Brooklands. The Frenchman seemed to add and turned back into the track in front of the two cars. The Talbo in front, which was flying about 200 m.p.h. at the time, came into a crowd of spectators.

SWAZI CATTLE.

To the Editor, "E. A. Standard."

I remember rightly, Professor Nalanda gave me the opinion, last year, that Kenya was not ready to handle the Swazi cattle industry. I am glad to hear that the Government are now prepared to take the matter up.
