Their driving comfort is equally superior. No road shocks can be transmitted through the steering sear, because of the special road shock diminstor. The Buck controlled Servo internal expanding brakes are the best four wheel brakes yet designed. The Fabersoning UV, windshield is completely non-plars, adding greatly to the safety and comfort, of night driving.

The riding qualities of these cars are superb. Their long wheelbase, low center of gravity, Lovojoy double-acting hydraulic shock absorbers and new spring suspension set new standards of ease and
