The image was a representation of a man, and was made of wood. It was placed in the building by some of the natives. The image was a representation of a man, and was made of wood. Points to remember when buying Boots. **Point 1. Shape.** Boots for children should be the correct shape to allow natural development of the feet. **Point 2. Quality.** They should be of good honest leather which gives the boot form to it and the most healthy covering for the feet. **Point 3. Style.** A child's boot should be as smart in appearance as stylish lasts. **Point 4. Price.** Children have a way of 'getting through' boots quicker than grown ups and Price is therefore a consideration.
