PROBLEM NO. 1187. By A. C. Challenger. Black to play.

White to move in two moves.

The danger with this is claiming false for which Black is just able to beat.

PROBLEM NO. 1188. By G. S. Carpenter. Black to play.

White to move in three moves.

The best composition may get a few more chess players interested in these more problems.

Edith Cavell... the German military had used out...

END GAME

By the Rev. F. E. Cunningham.

White to play and win. Two knights and king can only draw against a rook king. This interesting ending illustrates how the possession of Pawns is a detriment to Black by preventing stalemate...

KENYA CHAMPIONSHIP

Kenya Section.

The present state of the Indian tournament is as follows:—Barkat Ali 21 points, with two games (against Popalal and Anant) still to play. He has the title if he beats Popalal's 19. The other competitors in the Indian Tourney are points and two to play. Barkat Ali 20 points and one to play. Amin 8 and three to play. Khush Bux 6 and Anzaba 4, with one to play. Mulla 4 and four to play. For 2 and two to play.

The European Section is fairly certain to win by the present holder of the Kenya Championship by Sir Hugh Knott. He has the position safe by his to finish off the present race with I. H. H. man, which will be played this week.

Should Barkat Ali win the Indian title, the match between him and the English Champion for the Championship of Kenya would be held over.

very interesting and also... you occasion has been... **FRENCH DEFENSE.** The following is one of the good ones obtained for us at the French Chess Congress...

HOME BROADCASTING QUALITY - RECEPTION

Realism, purity of tone, plenty of volume, no distortion, ease of operation... these are some of the advantages offered by the PHILIPS CASAPHONE, the most advanced musical instrument on the market.

Although specially designed for reception of gramophone music, the CASAPHONE may be utilized to obtain a wonderful reproduction of gramophone music, imparting new life and beauty to your oldest records... It's indeed one of the finest products ever conceived in the famous Philips Research Laboratories.

Unusual features Increase the value of the FORD TUCK

The Ford 14-ton truck offers you long, reliable hauling service at remarkably low cost. Many features of the chassis combine to make it a value far above the price. Important among them is the new rear axle, which has a spiral bevel gear of special design, with axle-mounted pinion. The housing is unusually strong. Because of the three-quarter floating type of construction, the axle shafts serve only to turn the wheels, without carrying any of the weight of truck or load. A 4-speed transmission provides a wide, flexible range of speed and power. The Ford truck can make fast trips with safety and economy, and it has the power to carry heavy loads over soft ground and up steep grades. Bodies on the front wheels have been enlarged to the same size as those on the rear, providing increased bracing area and a high degree of safety. Brake-rods are used, assuring positive control. A simple and effective adjustment is provided on each wheel.

favourite place for them is in front of the bodice. Quite a big bow is placed in the position of the blouse décolletage and it may comprise three or four large flat flowers in soft tissue, velvet, silk, mosseline or finest metal being attached to make the focus. A fat spot of smaller flowers may be made up, but tissues it is most necessary to be a little hard.

When the neck line is round in front and V-shaped, at the back the flowers are posed at the back—sometimes at the waist line. A princess gown of white tulle or velvet had a high neckline and a bow on top up by a small velvet strap which passed round the neck, from the strap radiated three velvet bands which reached the waistline and were caught down with a fat row of six shadred wire coloured roses.

Not uncommon is a slight swelling round the ankle joints. This is remedied by wearing little elastic puttees at night. Wind a length of three-inch elastic round each ankle, starting under the instep and finishing there so four inches up the foot. The puttees should be tight enough to affect swelling, but not so tight as to impede circulation. Otherwise, instead of curing the swelling, they will be inclined to aggravate the trouble.

Heating the foot of the bed at night by inserting two small blocks under the mattress will, perhaps, do more than anything else to relieve the tired ankles, by assisting the natural return of blood to the heart.

Swapping a Woman's Suffering.

One of the secrets of success in repairing women's clothes is soaking the thing you get into warm water, so that it may be allowed as glass as paper. If a top-grip shirt comes long and narrow, try to bring it up to match for an old piece. This is it should be done in water, so that it may be allowed as glass as paper. Do not become misled by the advertisement for the "shackled" shoe, which is made of the finest steel.

If you would be very nice and up-to-date, you will wear little hammer-head shoes.

"Miss" shoes are showing these days, which are so "new" to wear that they make a young face look extraordinary and old of one youthful. They are partly descended from boots, but some of their style comes from the 18th century bonnets which were worn by all the demure beauties. One of the most becoming had a bonnet brim laid flat round the face and attached to a gathered crown. After making a little at the ears, as the fold is turned over, the brim goes across the back of the head, finishing with a very loose, fairly large bow on the side of the head.

The jeweled clip is in demand as an ornament on the new type of hat. It is some impossible to do without it, for it holds down graceful little folds as nothing else can, and in a way that is just right. A lovely model is the black silk velvet, with the applique crown and a very simple fold round the hat was pulled down over the ears, which diamond clips were placed to flash on a level with the crown.

From grain ribbon is used with velvet, and with soft fur fabric many of the smaller beauties were mantled in "baindour" and worn with jaunty small bows of red and white "light" low will often appear on a black hat; or a very black, but white, "corolla" will be placed over against the side of a crown-fitting cap.

It is charming to see flowers on evening frocks since since. The

WEARY FEET AND TIED ANKLES

Simple Remedies.

Warm days are often unkind to the feet, and tired soles which, sometimes tend to swell, especially towards evening—are not infrequently the sequel to a busy day.

A tepid footbath, to which a little oil of Cologne and a pinch of borax have been added, is wonderfully refreshing to weary feet and legs. Still more relief is felt if they are afterwards gently massaged with the spirit and dusted over with powder. Equal parts of borax, acetic, French chalk, calamine and olive root make a delightful preparation for this purpose.

Much discomfort is sometimes caused by hard skin under the feet. This can be removed by rubbing with pomace soap while in the bath. Apply a little cold cream afterwards, to keep the skin smooth and soft.

"GUESSER" DINNER

"GUESSER" Dinner on the Menu.

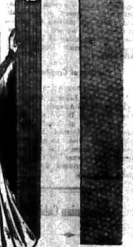

Most of us still feel a dash of "guessing" when a "surprise" dinner is given on the table. The "surprise" may be merely an orange, which has been put

into halves and had the pulp scooped out so that the skin may be filled with chopped fruit. It is scooped out again and filled with the fruit beaten up with cream; is another surprise dish that always "goes" well. There are various other fillings to experiment with; Marmalade and Fruit salads being amongst them. You can keep the shape of mackerel by cutting off a slice from the fattest part and scooping out the fruit from this, completing the opening, after filling, with a slice of sponge-cake spread with raspberry jam and decorated with almonds and angelica.

The surprise of finding an ice within a hot chocolate sauce is a never-failing source of delight. The "hot" sauce is made from a couple of ounces of hot chocolate melted over hot water in a small saucepan. An ounce of thick cream is added, and a teaspoonful of boiling water is poured very gradually over the mixture. The most convenient for ten minutes, sweetened, stirred, and slightly sweetened, stirred, and poured while hot over the individual portions of ice-

The Railway Club

ENCOURAGING SUCCESS OF DOUBLE BILL.

The dramatic section of the Nairobi Railway Club added to its laurels by the programme presented last week. The members who undertake a considerable amount of work in the interest of the Club, and particularly those who are endeavoring a considerable amount of work in the interest of the Club, and particularly those who are endeavoring a considerable amount of work in the interest of the Club...

The Tanga Incident.

The double bill at the Railway Club Theatre, which was appreciated by large audiences, included "The Monday's Five" and the English version of "The Cradle Song." The Jacobs team in the version of melodrama—a strong plot working to a climax with the minimum gusto and external force. It has been widely noted...

astonishes the company did splendid work although in the surroundings the story lost much of its dramatic beauty of narration. There may be interest with regard to whether or not Sir Donald Cameron is connected with the incident at Tanga, but so far no report has been received from the Governor of Tanganyika.

"The Cradle Song" needs for its proper appreciation the finest available setting. It was impossible within the restricted limits of the Club's stage to suggest the various scenes and the story of the convent. Neither was it possible to obtain for so many parts, such a complete expression of character, the range of talent such a day demands. In all the circum-

What About Your Vehicles?

Are they just delivery wagons or are they the advertisements of your business wherever they go? Smart vehicles attract the attention of thousands of prospective customers and gather goodwill and increased business will result from making a good impression on them.

"Daimler" is used on so many cars and commercial vehicles at the factories that automobile engineers everywhere agree that nothing equals "Daimler" in beauty, economy and durability. It is practically immune from the effects of rusting, and petrol, salt, dust, and acid are ideal for East African conditions.

No one should buy a Motor Car without a demonstration. In these days when true economy and wise investment are so important, no one should buy a motor car without thorough demonstration. What does it cost for insurance? How long will it last? What kind of convenient dealer facilities stand back of it? Is the car safe and easy for a woman to handle? We invite the strictest possible investigation of the new Ford cars. Study their design. The careful workmanship that enters them. The unusual materials and methods that are employed. The sincere dealer attention which Ford owners always command. Careful motor car investment is necessary to-day. Invest for years of enjoyable, profitable motoring. Ask now for a thorough demonstration and explanation of the new Ford car.
