REATMENT OF SUBJECT RACES IN AFRICA.

The Problem in the Eastern Territories.

LESSONS FROM HISTORY.

Native's Capacity for Cultural Advance.

an article published recently in the "East African lard," Canon G. W. Biominald of Zazniara, dealth as about of Black and White in East Africa," he advocated an interpretation of the lides of para-cy of native interests which, he said, seemed to be und reasonable. In the following article, Canon field commands this interpretation on hatorical

ealing with the African's capacity for cultural co, the writer states that the evolution of man has at more than half a million years. Africans, there-any he 1,000 years behind the British, but this period grificant when set in the whole vast context of

CREDIT SYSTEM IN KENYA.

Strong Criticism by Judge in Bankruptcy Court.

"A MOST GLORIOUS COUNTRY."

In the Bankruptcy Court yesterday, Mr. Justice Stephens strongly criticised the credit system in kenya. He sand: "This is a most giorious coun-try, to come to. You can get any goods for no-thing, and when you can't pay, you just go bank-rupt and smile."

in one case a debtor started business as a contractor in 1928 with no capital and with a debt of £300. He obtained two motor formes on credit, without any

obtained two motor forms on credit, without any part payment.

was pounted out that none of the creditors were pre-sent in Court, which drew from his monour on-conservation, "they are not keen on their money, I suppose."

Swarm of Bees Make a Home in the Wing."

ODGING KONGONI IN THE DARK.

Standard" Correspondent's Story of a Historic Flight.

story of the historic flight from Nairobi to Dar es Saisam, Zanzibar, Mombasa and back to the Karya Gapidal, made by Mr. T. Campbell Black in the Puis Moth. "Knight Templar," the pro-perty of Wilson Airways, on Thursday, is told be-low by Captain H. Dunkerley of the "East Afri-can Standard" who accompanied the machine.

new records were made:

- 1. Pastes; times between every point
- 2. First landings on two new East African aero-dromes—Zanzibar and Mombasa.
- 3. The linking of three territorial capitals in one

only untoward incident—and it might have been a serious one—was the discovery that a swarm of of bees were stowaways on the flight.

Coastal Mail Service is one of the interesting possi-bilities, opened out by the journey.

DRAMATIC EVIDENCE IN R 101 ENOUIRY.

Airworthiness Questioned by Inspecting Officer.

HOLES IN THE GAS BAGS.

Dangerous Condition of Airship Prior to the Fatal Flight.

ther dramatic evidence was heard at the enquiry into the R 101 disaster on Friday, when two belated docu-ments were produced.

related to the fact that loss of lift was believed to be due to holes in the gashage caused by folding with nuts and bolts in the structure, which would amount to one ton per square inch of opening in twieve hours. The other document stated that a permit to fy was granted up to September 19, and declared that owing to recent modifications points of fouling amounted to thousands

ed whether he would have granted a certificate of air-worthiness to R 101 before her last flight an officer of the Cardington Inspection Department replied; "I am afraid I would not have done so."

Sir John Simon, at the close of the evidence said, "I shall require an explanation as to why these documents were not produced before."

BELATED DOCUMENTS.

the enquiry into the B 101 disas-ter, when Sir John Simon an-nounced that he had just received, belatedly, two documents from

Structure Fouling Gasbags.

The second was a report from the Inspecting Department, and stated that a permit to fly was granted to the it io) till September 10. It declared that owing to re-cent modifications the gashags were fouling the streetural nuts and bolts and added that "this is

l experta gave evidence at 101 enquiry to-day, both ex-g their opinion having having that no

Cardington.

The first was from the designer, Colonel Hichmond to Major Scott, dated September 8 and related to a report that Flight-Commander Irwin on September 1 had found the ship heavy in handling. Colo-nel Bichmond estimated that the of the R 101's gas bags and the nel Richmond estimated thus voloss of fift was due to holes in the gasbag which would amount to one ton per square inch of opening in 12 hours and expressed the opin-ion that "this result is somewhat startling and emphasises the great importance of guarding against brokes in these ships." chmond, her designer, and Mr,

activate of the Cardington ins-cision Department, were produc-ic reterring to hales which occur-din the takes during June. Fight foremeasier levin, com-ception and the companies of the pro-sent of the companies of the pro-positive of the pro-positive of the pro-positive of the pro-toner of and wrote to Major Scott, the restor of Airship development culating that the loss of lift rized out at about one ton per sare inch of opening in 12 hours, it asking for particulars of any les found from time to time by

Ineffectual Padding.

Mr. McWeels also wrote to the Ministry regarding the chaffing gas been spinst the nuts or the which, despite peading, reveal belos and chated that until a contract of the chaffing and the contract of the chaffing and the chaffi

and boths and added that "this is very serious as the points of foul-ing occur throughout the ship and amount to tholesands." The re-port appresed the opinion that pudding did not provide a perma-wood be a hig undersking which might necessitate the removal of the bags from the ship. "Therefore," the report adds, 'untill the master is seriously taken in head and remedied if to

THE STANDARD PROBLEM OF KENYA'S DAIRY INDUSTRY.

> Proposed Levy of 25 Cents per Pound on All Butter.

TO EQUALISE EXPORT LOSS.

Unlikely to Result in an Increased Cost to the Consumer.

During the course of a memorandum on the problem of the regulation and control of the dairy industry in Kenya, the Board of Agriculture states that a rapid increase took place in production during the past few years resulting. From the co-perative -organisation of the industry. It therefore became necessary to find an outliet for the surplus overness.

bowseer, export of a highly pershable cosmodity as butter required special organisation, this could only be indertaken by the sanalyamical cooperative to the constraint of the constraint of the constraint of the state of the constraint of the constraint of the constraint of the fagures have been enabled to elsey the advantage of the tighte prise in the local market, while the co-operative createries have borne the whole burden of the Colony's exports amounting to 83 per cent. of their total production.

meet this difficulty, the Board recommends the estab-lishment of a Central Darry Industry Board, with fairly wide givers, to control the industry. It is recommended thit; the Board shall impose a levy of 20 centra per points on all butter sold locally, subject to certain conditions, the resulting fund to be paid to the Marketing Committee of the Commercies, not to any other local the commence of the perspec-tagements which may be apposited for the purpose.

In order to safeguard the local consumer, the Board recom-mends that if the levy system should operate unduly to penalise the consumer, a remedy must be applied either by means of price fixation or a reduction on import tariffs. It is considered, however, that com-resistent should petition should secure that the levy is not passed on to the consumer.

CENTRAL BOARD PROPOSED.

and the Gooperative Oreaneries alone 1,000,000 lbs; and the Gooperative Oreaneries alone 1,000,000 lbs; is expected. This expert relieves the process of the total case of the total case of the total case of the total production. Of this, 65 2/8 per cent of the Other Oreaneries the Control of the Other Oth The Board of Agriculture, has utter, and 33 1/3 per cent is creamery

1931 the production will be mat islly greater than the presentationates for 1989.

pinet in hardwork was been "An "It mercoparative vision state in the mercoparative vision state in the mercoparative vision state in the manufacture of the Son, 3.7 for least deep better, and Son, 3.7 for least deep better, and state of the Son, 4.7 for state of the Son, 4.7 for state of Son, 4.7

niside to creameries in proportion to their expect, and distributed by from to the farmer.

This sebence is therefore not applicable to Kenya where there is a serge production catalide the cream, any production catalide the cream, mor does it, appear that a funite, system in, force in New caland would solve the problem.

In the Union of South Africa enditions more nearly approxi-tate to those in Renya, and the ecommendations of the Board are
