ANOTHER WHITE PAPER ON NATIVE POLICY.

Lord Passfield's Reply to Northern Rhodesia.

Views are RECONCILABLE.

Has No Intention of Departing From Stated Policy.

Lord Passfield's reply to a request by the Elected Members of Northern Rhodesia for a conference on the subject of native policy in East Africa has been published as a White Paper.

The Secretary of State's answer is a blunt negative. He declares he has no intention of departing from the policy laid down in 1922 and in his own subsequent Memorandum.

Northern Rhodesian Elected Members either indicated contempt by white politicians or they indicated acquiescence in which they would get equal treatment with natives. By this was meant amalgamation with Southern Rhodesia.

A POSSIBLE DEVELOPMENT.

times, the strike renders the coal-field situation more difficult, before any extension that the advance development will not take place.

The Secretary for Mines, Mr. Shillwell, is determined to continue his office to secure a coal-field settlement and is in touch with the representatives of the miners and miners.

Tomorrow the resumed meeting of the Delegation Conference of the Mines' Federation of Great Britain will examine the feasibility of the proposed settlement.

Mr. Shillwell will also consider arrangements for the proposed settlement before the meeting of the Delegation for the approval of the settlement.

Most of the British coalfields are shut down, and the coal situation there has been a stoppage.—(Times Official News Service.)

"Make Believe"

A PLAY AT THE EUROPEAN THEATRE.

"Make Believe," the final performance of which will be presented at the European Theatre, Nairobi, tonight, the substance of the plot and the cast of characters are as follows:—

Old Baron Anselmino has set himself to write a sensational novel. The play itself from the very early part of Act I, an extremely clever one, and in the subsequent history of it, it approaches the work of Shakespeare. The difficulty of producing such a type of performance is enormous, and so to be a success, striking after that effect.

The first that the critics thought of a hundred times a well-known play, a grand deal of study and work have been put into the preparation of the presentation, and sometimes had to be taught the best play of the time, and some very pretty things have been done. The play is a masterpiece of its kind, and will be played through with us to the satisfaction of the audience.

The play concerns a Professor and three Acts, three being some night scenes in the second and the three acts may be taken as a whole, and in every case the play is a fresh one. Of the three Acts, the second, as presented on Wednesday, was the best, for in that the children were presented their element, having to enter the scene which they themselves had probably played, rather than, like the other two, they had not done.

PRISON RIOT AT DAR ES SALAAM.

Staff Attacked by Convicts.

Sudden Outbreak.

COMPLAINANT REHABILITATED THE FOOD.

(Times Correspondent.)
 Dar es Salaam, December 4.—Two European officers were severely injured, one being brought to hospital today as a result of a riot at the Dar es Salaam prison in which 120 convicts were involved in an attack on the prison staff.

The prisoners refused their food, claiming inadequate, and were ordered to return to their cells. Thereafter a riot was raised of "pigei pigei" and a determined attack on the staff followed. Order was quickly restored by fire fire directed against the rioters, three of whom were injured.

The injured European officers were Superintendent Wilkie, and Mr. Macgregor, the latter having been brought to hospital with serious injuries to the head.

The Government will be asked to hold a judicial enquiry.

POLITICAL ARMISTICE PROPOSED

DELEGATES' ADVICE TO COUNTRY

Withdrawal of Debated White Papers.

A GENERAL ELECTION

To Return to London with Clear and Agreed Policy.

The Rt. Hon. Lord Delamare and the Hon. T. J. O'Shea address a public meeting in Nairobi last evening on the results of their visit to England.

The delegation propose a "political armistice" for two main reasons, one because they do not believe that a satisfactory settlement can possibly be obtained in the present condition of opinion in this country. The second main reason of its adoption is that it is the result of a mass of widespread ideas on East Africa and many grave and well-considered foreign and Imperial problems, and two, because Kenya is suffering during the present economic crisis to waste its efforts in further political controversy.

The main points in the advice which the Delegation gives the country are:

1. That the present Memorandum on Native Policy should be withdrawn.
2. That consideration of Closer Union should be adjourned indefinitely.
3. That the Kenya estates are not preferring any request to the Joint Committee for any immediate step forward in the Colony's constitution.

To settle Inter-Colonial disputes, the delegation propose a Advisory Standing Committee of each Legislature which would meet regularly, alternately in the three Territories to discuss common difficulties and problems.

Emphasis was laid on the fact that this issue will be discussed in all its bearings at a General Election in Kenya after which it is suggested that the delegation return to England to the views of the Colony before the Joint Committee.

Another proposal is a private discussion with the Government of Southern Rhodesia regarding subjects of common interest affecting the issue.

A great tribute was paid to the South African Premier whose intervention is regarded as the most important factor on the whole situation in these territories.

Generally, the Delegation are satisfied that the opinion of responsible people in Britain has changed considerably in favour of the views of the settlers of East Africa.

It is felt that a trace would be the best thing that could happen to the Territories and the best contribution they could make to the mother country, and that the advantage should be taken of the present difficulties in Britain to retire into obscurity for the purpose of concentration on the great economic problems which have brought Kenya to the edge of a precipice.

GENERAL HERTZOG'S PART.

A crowd gathered in the Bazaar, Nairobi, last evening to hear the Rt. Hon. Lord Delamare and the Hon. T. J. O'Shea on behalf of the Kenya Colony. The Rt. Hon. Lord Delamare was the main speaker.

It is not as if we had all been so much interested in African affairs outside our own borders. We have seen and read about them in the papers and in the news. But we have not seen and read about them in the papers and in the news. We have not seen and read about them in the papers and in the news. We have not seen and read about them in the papers and in the news.

Lord Delamare.

INSPIRATION OF GREAT MOMENTS

Lord Delamare who was granted the opinion of the Government of Kenya in a firm and tested way on more than one occasion. He said, "It is a great honour and a great privilege to be asked to represent the Government of Kenya in this country. I am sure that the Government of Kenya will be able to do all that is in its power to bring about the best results for the people of Kenya."

the first thing that I should say is that I am sure that the Government of Kenya will be able to do all that is in its power to bring about the best results for the people of Kenya. I am sure that the Government of Kenya will be able to do all that is in its power to bring about the best results for the people of Kenya.

Opportunity Spelt.

When we arrived in England we realized that we had a great deal to do. We had to do a great deal of work in a very short time. We had to do a great deal of work in a very short time. We had to do a great deal of work in a very short time.

Future of Rhodesia.

I am sure we must all feel that if the Rhodesia case were to be referred to the North-Eastern Africa Commission, it would be a great advantage to the people of Rhodesia. I am sure we must all feel that if the Rhodesia case were to be referred to the North-Eastern Africa Commission, it would be a great advantage to the people of Rhodesia.

Native Policy.

AN ARMISTICE AGAINST FEAR COLONISTS

What it is fair to say that the numerous details of native policy in the Native Memorandum which were set out in the White Paper on Native Policy are not only a great deal of work in a very short time. We had to do a great deal of work in a very short time.

Precedent Labour.

It is not as if we had all been so much interested in African affairs outside our own borders. We have seen and read about them in the papers and in the news. But we have not seen and read about them in the papers and in the news.

The Psychological Moment.

An Anglo-Borneo do not form a political front. People may be of one opinion, but they are not of one opinion. People may be of one opinion, but they are not of one opinion. People may be of one opinion, but they are not of one opinion.

Increased salaries of instructors in stock.

The Elected Members again queried the value of the Amani to Kenya, and suggested that in this year, they will await the results of a Compendium drawn in January before supporting the principle of an annual contribution.

One of the most important motions of the report of the Agricultural Commission is the proposal to divide the Department into two sections. This was supported by the majority of the members of the Department.

The Kenya Department of Agriculture has issued a summary of the Agricultural Census Report for the period April 1914 to March 1915.

Here is a diagram "contribution" of the "Kenya Standard" which I have had some of them...
