HOPEFUL OUTLOOK AT THE NAVAL CONFERENCE.

Compromise on the Tonnage Question.

CONVERSATIONS CONTINUING.

(By WIRELESS.)
Rugby, Jan. 30.—The modifications which British delegates have made to the programme of naval construction are being received in a friendly spirit by a Parliamentary committee by Mr. Alcock, First Lord of the Admiralty.

He said that the British naval programme was defeated from the beginning of 1912 and approved by Parliament very early in the year following an eight inch gun ship. The programme was not a target towing vessel, two sloops and three submarines. Within these three remaining alterations in the programme would be provided. It would be provided after the conclusion of the Naval Conference.

Presently the programme of Mr. Alexander in reply to the first question said that there were at present 64 British Royal Cruisers built and four to be advanced stage in construction.

Asked to state the British naval estimates in each of the years 1910 to 1919, Mr. Alexander said that the estimates approved by the Washington Treaty were delivered in 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, RUSSIAN EMIGRES IN PARIS.
Abolition of Ex-Carist General.

(THROUGH NEWSPAPERS.)
A week's intense investigation by the police have failed to throw the whereabouts of the Russian emigrants, the Grand General, Kozloff, the Russian officer in the Grand Duke Nicholas as head of the Russian office in Paris. Evidence leads to the belief that the Grand General is in a motor car on leaving his residence for a meeting of officers, and was abducted by Soviet secret agents. M. Dorpalig, the Soviet Ambassador in Paris, has now notified the French Foreign Ministry that Kozloff's supporters were organising a raid on the Embassy at Paris under the leadership of the ex-Russian General Miller.

Newspaper Subscriptions.
Mr. D. Dorpalig, 3, Boulevard de la Paix, Paris, has been authorised by the French Foreign Ministry to receive the French Government and asks whether France prefers to negotiate with White Guard emigrants or maintain diplomatic relations with the Soviet. It is impossible to perfectly divide that normal diplomatic relations are necessary between the White Guard leaders in the French Parliament and the Soviet Government. Their actions were only intended to bring about the withdrawal of revenue and management of a certain company which is jeopardising the availability of the Soviet Embassy in France.

Police Protection.
In response to M. Dorpalig's request the Government has decided to place the Soviet system of police protection for the Soviet Embassy in France.

EUROPEAN SETTLEMENT IN TANGANYIKA.
Secretary of State Asked for 100,000 Acres.

(WARDEN'S CORRESPONDENT.)
The Joint East African Board of Commissioners, that the Association of Colonies with City friends, has written to Lord Easdale asking specially that 100,000 acres be set aside for European settlement in Tanganyika in which case the Board would be forthcoming to give effect to the settlement. It was pointed out that as matters stood it was impossible to raise money there were three courses open, namely, to accept the settlement, meet it or amend it.

The Joint East African viewed upon the Government's suggestion that the House of Lords should be asked to amend to provide that the Joint East African Board of Commissioners should continue to operate in principle until the House of Lords. The reasons for the limitation are that the House of Lords "cannot pass a permanent legislation but that it is possible to amend the law by a resolution of the House of Commons."

Australian Loans.
SUBSCRIPTIONS LIST FOR COMMISSIONERS

(THROUGH NEWSPAPERS.)
The Commonwealth Government is inviting subscriptions for the extension of the 4 per cent Loan of 10,700,000 maturing on March 15 to be issued at 100 per cent for seven years. The total amount is also made to holders of the 622,000,000 loan maturing in December.

A New Governor.
SIRMAN TO SUCCEED AN OFFICER.

(BY WIRELESS.)
His Majesty has approved the appointment of Air Vice-Marshal Sir Philip Dallas to be Governor of the State of New South Wales in succession to Admiral Sir Dudley De Chair. The latter's office will shortly expire, Sir Philip Dallas will shortly be Sir Philip Dallas.

CONFLICT BETWEEN LORDS AND COMMONS.
Unemployment Insurance Bill.

(BY WIRELESS.)
The Cabinet may after modifying the Parliament Labour Party offer to compromise in the case of the House of Lords which has refused to pass the Unemployment Insurance Bill. It is officially stated that the meeting of the Premier at the meeting of the House of Lords is being the duration of the Bill there were three courses open, namely, to accept the amendment, meet it or amend it.

The meeting decided to support the Government's suggestion that the House of Lords should be asked to amend to provide that the Joint East African Board of Commissioners should continue to operate in principle until the House of Lords. The reasons for the limitation are that the House of Lords "cannot pass a permanent legislation but that it is possible to amend the law by a resolution of the House of Commons."

PROTECTING TRADE CREDIT.
National Public Opinion.

The annual general meeting was held on Thursday evening at the Society which held a full measure of support from the commercial community. The Society was established for the protection of trade credit and has already fifty-one members. The Society works on a simple but efficient basis. Members may apply to the organization for information before opening new accounts and if they want a list of their customers properly classified, the Society will inform them where the classification is free from that of other members, thereby enabling the trader and commercial houses to give special attention to accounts which give trouble. In cases where a customer has offered difficulty to members of the Society, the organization can be passed on to other members who apply for the machinery designed to enable the public to consider current issues in connection with the organization. The Society has already issued appropriate memoranda and by bringing before the public a representative list of firms, on behalf of the general public, would find the time and the satisfaction of the public in touch with affairs. The Association on the present lines meets our views exactly. Public meetings have been held on major issues and the Standing Committee has recently held itself informed of the trend of views by presenting thorough and unbiased reports into questions affecting the public welfare. Write the public continuously and non-party lines. The Executive for all shades of town opinion, a full board. The views of the public are the only ones presented at the present moment and with an adequate knowledge of the facts, it is desirable for all those who have to accept responsibility for their actions. It is a serious reflection on Members who fail to ever know their own mind on any subject, and it is equally serious to depend upon its opinion. Perhaps there is still a certain amount of public opinion, people, relating to be discouraged, especially in those public-spirited people, who are not to be discouraged. PROTECTING TRADE CREDIT.
National Public Opinion.

The annual general meeting was held on Thursday evening at the Society which held a full measure of support from the commercial community. The Society was established for the protection of trade credit and has already fifty-one members. The Society works on a simple but efficient basis. Members may apply to the organization for information before opening new accounts and if they want a list of their customers properly classified, the Society will inform them where the classification is free from that of other members, thereby enabling the trader and commercial houses to give special attention to accounts which give trouble. In cases where a customer has offered difficulty to members of the Society, the organization can be passed on to other members who apply for the machinery designed to enable the public to consider current issues in connection with the organization. The Society has already issued appropriate memoranda and by bringing before the public a representative list of firms, on behalf of the general public, would find the time and the satisfaction of the public in touch with affairs. The Association on the present lines meets our views exactly. Public meetings have been held on major issues and the Standing Committee has recently held itself informed of the trend of views by presenting thorough and unbiased reports into questions affecting the public welfare. Write the public continuously and non-party lines. The Executive for all shades of town opinion, a full board. The views of the public are the only ones presented at the present moment and with an adequate knowledge of the facts, it is desirable for all those who have to accept responsibility for their actions. It is a serious reflection on Members who fail to ever know their own mind on any subject, and it is equally serious to depend upon its opinion. Perhaps there is still a certain amount of public opinion, people, relating to be discouraged, especially in those public-spirited people, who are not to be discouraged.

Senior Commissioner's Warning and Advice to His People.

Markham Jan 31. A Party, attended by the Chief, District Officers and members of the Mukamba Local Native Council was held at Mukamba on January 31 and 1st and 2nd of the district were present. The Hon. F. P. O'Connell, Senior Commissioner of the Province on whom the summons was called, in addressing the meeting, said that he had this was probably the last occasion on which he would have the opportunity of meeting them together.

He stated that he had been asked to enable him to speak to them on various matters connected with the district and country in general. The message he had to give them was only partly in the nature of a warning. He said that he was not at all as a threat as he would not be in contact with them for many years.

He expressed the opinion that in the future they had better be content to live in peace and to give the Chiefs and their assistants the message and advice that he had to give them to live in peace.

Political Meetings. Recent attempts to organize political agitation were made by the Wakamba at their meetings. Two meetings had been held in the district and it was to be made the basis of political propaganda in the future.

SMALLPOX OUTBREAK IN MOMBASA.

Unbusiness Aroused on the Island.

STANDARD CORRESPONDENT.

Mombasa, Jan. 30. Considerable uneasiness has been aroused in Mombasa on account of the official intimation made that an outbreak of smallpox had been discovered. As was briefly intimated by the "Standard" the outbreak has been traced to a child which was brought to the hospital, the being taken to the hospital, the being taken to the hospital, the being taken to the hospital.

The subsequent parts of this outbreak will, no doubt, be read out with a little later, and the outbreak will, no doubt, be read out with a little later, and the outbreak will, no doubt, be read out with a little later.

Outlook Reviewed.

The disappointing part of the outlook in this Review will be the need of a further body of money to be raised in order to meet the expenditure of the Government for the year 1929-30.

THE S. A. STUDENTS' RUGBY TOUR.

THE LAST TEST.

An anxious moment in the third and last test played at Nairobi on Saturday. The Students, as reported in this issue, certainly defeated Kenya, when last the Colony gave the finest display of aggressive Rugby yet seen in the country and prevented the visitors from winning a single point in the second half. The Students completed the all-empire tour with their fine action.

FAREWELL DINNER TO S. A. STUDENTS.

Touch Line Extended from South to East Africa.

FINANCIALLY SUCCESSFUL.

Following the Rugby test match on Saturday, a farewell dinner by the South African Universities Students was given in the Avenue Hotel by the Rugby Union of Kenya. Highly prominent in the Kenya team, the hosts of the farewell dinner were Mr. J. G. Nankin and Missy connected with the sporting life of the Colony were present.

After an excellent dinner, a number of speeches dealing with the tour were given. Dr. A. D. Williams, president of the Rugby Union, presided. The following telegram was received during the day from Mr. McNab Mundell, Editor, and read as follows:

"Kenya Clubs very pleasant memories. Students visit. Wish them success. Look forward to further Rugby lessons in the not too distant future."

"Listen to Me."

In proposing the last of the "South African Universities team," Dr. Williams said:

"Listen to me." I and the other executive members of the Rugby Union feel tonight rather like the Marathon runner who has at last entered the Stadium and is about to complete the final lap, the ball has rung all the while, the energy is being concentrated on successfully reaching the top.

It is a little over a month since we met the pleasure of welcoming our visitors in Nairobi. No one at that time realized what we were in for and no one could predict what would happen. The gentleman spirit that watches over Rugby came to our assistance and I think I may safely say that the tour has been an unqualified success—should the only step to confine certain rumours that we finished on a high note.

My definite statement that financially we were sound; that our staff had to sell upon the guarantee; that fortune favouring us and having paid our debts, we shall definitely have a small balance on the right side.

Now, if we analyse the success that have contributed to this success, the first and most obvious one is the conduct, character and civility of the visiting team, even in the course of their experience have I used a superlative to more than the sound of the football. Never during the whole tour, either on the field or off it, has any "unpleasant" incident occurred.

And strict training are inevitable. They have done this so that they to be successful must be taken seriously that it must be played with the brain as well as the body. The visitors have shown a commendable unselfishness and combination both on and off the field. All their matches. Moreover, they have played better in the spirit of the game and dinner football I serve wish to see.

Therefore, without which no team can hope for success, has been very evident and it was Captain, Mr. Standard-Derby, they have had the advantage of having an excellent leader, a forward and a strict disciplinarian. We thank them for the lessons they have given us and we trust the defeat that has been inflicted on us has been received in the same sporting spirit as the winners have shown in gaining their victory. However, we must not be depressed by the magnitude of the score, here's a comforting fact, the 1st British team to visit Kenya via Madagaskar was very much and scored 22 points to 8.

With regard to the Kenya players, I think they are a very good team only the "best" players, I do not think they are a very good team of holding a team composed of young and properly fit players are immense. No University or other public institute exists in this country and the training of the former and has business is a goodly list them for a strenuous game at Rugby.

Words of Thanks.

Another and equally important contributory factor to the success of this tour has been the unstinted and support that has been accorded to us by the residents of Kenya. Finally, it is my privilege to thank publicly the members of the Tour and Finance Committees, Messrs. Worthington, Joffe and Brock and their assistance, and not directly connected with the organization of the tour but rather the amount of work that has had to be performed.

Secondly, I wish to thank, most heartily, the guarantee who gave us such solid financial backing on the bank and without which the tour would have been impossible. In this connection and just to show our gratitude, I wish to say that I had a spontaneous offer a few days ago from one of the members who had no idea of the state of our finances, to go home with me in my long, vigor, enthusiasm

up to half the full limit of any one guarantee. I.e., £100.

Thirdly, and those don't think there is any order of merit in this catalogue one was a dash of gratitude to Mr. Galt, the Mayor of Nairobi, who has been enthusiastic and has fully supported and expressed the spirit of Nairobi.

Then I am ashamed to confess that the Rugby Union of Kenya of their own (a state of affairs which I trust will be remedied this year) and so we were dependent on the generosity of other Clubs. Parliaments Club with which I should like to accept the policy that we should be able to give us the use of our all and offered they have assisted us in every way possible to make the most convenient of their time and facilities. Mr. Galt and Mr. Galt have not been in the least ground and offered us ground, friends and other benefactors. Various other Clubs, the Civil Service Athletic Club, Nairobi Club, the Police Club, have assisted us in various ways.

Concrete Assistance.

Particularly gratifying to me was the concrete assistance in the way of a gift of money from our friends, the Football Association of Kenya, when the President, Mr. Spence, I have to say.

We also wish to thank our friends throughout the country who have been so kind to visit us and have shown such a splendid example of hospitality. I think especially of the members of Colloid Kirkwood, and Ernest McNeil, who have been so kind to visit us and have shown such a splendid example of hospitality. FAREWELL DINNER TO S. A. STUDENTS.
(Continued from page 31).

We are indeed grateful and we now realize to the full extent what it means by the severance of the ties that bind us to the various Hotels, particularly the Avenue, Oshkoff and Terry's, and to the various Theatres. The printers we thank for their assistance given and the hospitality offered to our visitors.

The Sporting Spirit.

Lastly to the rugged players of this country, particularly to those who have turned up unflinchingly to practice and train, not only on the team, I tender our thanks, without them, and without the spirit that actuates them, we should have been hopeless. To the general public and to those individuals who have been unconditionally left out on these remarks, our best thanks are due, the slightest compliment I can pay them is to say that we are their support and that this support has been given in full measure and in the sporting spirit which this country is a justly proud of.

Tribute to Mr. Wedderburn.

And now, Gentlemen, before concluding my speech, there is just one word which I should like to say—You will remember that I have previously stated that many constituency letters were sent to the success of this tour, now not the least of these is the splendid effort of Mr. Wedderburn and the other Students, viz. Mr. Hagen Smith, Mr. Cooper and myself. I think it is fair to realize the immense amount of work that the other constituency members have performed in South Africa before the team came. Mr. Hagen has been tireless in forwarding our interest.

Mr. Cooper has proved himself an efficient and most tactful manager. He has been unusually popular as a disciplinarian I take of my last to you. We have a pleasure to meet him and to work with him.

To Mr. Finlay, who is also a member of the Transvaal Rugby Union, we are very grateful, in connection with his help and his letters have proved most instructive and his assistance has made friends wherever he has been and he will live long in our memory and his famous catch phrase has already been recorded that anyone which is justly fit due. He has wanted his a trophy in the South in assisting to arrange this tour; he is a genuine sportsman and without this as a referee that he is a pity good one we should have had in difficulties, as casualties have been numerous, but Mr. Finlay and Mr. Bryan (whom we are confident on the members who will hold him have been on the side).

The toast was coupled with the name of Mr. Cooper.

For Famed Hospitality.

Mr. Cooper's Manager of the touring team, in the course of his big reply said a warm and glowing tribute to the wonderful ones they had had on the tour, and to the marvelous hospitality of the people of Kenya. They had come to the Colony on a mission and had been treated as if they could look back on the tour with some degree of retrospect. What had struck the Students most had been the exceptionally cordial and enthusiastic manner with which they had been received in all parts of the country. Not alone had it been from the Rugby union, but from people of all shades of opinion. This confirmed the hearty and cordiality of the local hospitality of Kenya.

As a longer tribune to me, particularly during that what had been an initial tour of the five days of which a sporting tour to the various parts of the country. He thought it was due to the conditions of this wonderful game. Other sporting men who sell were, would soon follow such and what the people of South Africa heard the Students paying tribute to Kenya and the sportsmen.

Some soft football bodies would be seen to grant other tours. A Genuinen Gesture. It had been a genuine gesture to ask a South African University team to come on this missionary tour. Kenya had invited a party of impressively young men who had taken the opportunity of acquainting and appreciating what had met them. They had learned to appreciate the dominating influence and address in the country, their impressions would be well disseminated on their return. South, and they would benefit both Kenya and South Africa.

Mr. Cooper paid a tribute to the sporting values of the game. There had been nothing of the grim atmosphere of the international affairs about it. In conclusion to express thanks to the hosts of the Students during their stay. It had been a happy thought on the part of the Rugby Union to provide private lodging rather than host the party into hotels. It had been the means of affecting them a better opportunity of learning the difficulties besetting the Colony, and of coming to a better understanding of the people.

The Warden the Mayor, Mr. C. Ullah said: In return for such hospitality as Kenya has been able to afford you have provided us with an exhibition of clean and scientific Rugby Football which has been a pleasure to watch. Your travels, however, do not end there, the amount of good fellowship you have shown, under the careful guidance of your worthy manager, Mr. Cooper, is of an inestimable value, more especially as between two parts of the great Continent, the knowledge of which to many of us is limited.

The perering atmosphere during your tour has not been so much that of a casual team as that of a family of sportsmen. The wide comradeship which you have driven in here will, I am sure, be further reflected in the commercial relations which are bound to emerge as the result of this tour. You have kept the touch line from South Africa to East Africa. Keep it taut and make it a means of transport for thought and ideas which will increase our relationship and help to raise the standard of life in all parts, Africa.

When you come back, and I hope that will be soon, and when you have distributed the knowledge of your experiences amongst your own people, I venture to say you will be accompanied by many of your supporters whose hearts of Kenya Colony may now be said to have been successfully buried.

Saka Bona Union.

The results of the matches have to me been but of secondary importance. The great accomplishment, the spirit of the enterprise and the success which has attended it, apart from the football itself, is that, after many years to come we shall all sound the praises of those on both sides who have been responsible for bringing about this opportunity to meet each other and to meet a sporting manner. I feel proud that it has taken place during my year of office and while it is difficult to adequately express my appreciation of such an event, as this, I hope I say have the pleasure, you to return, of extending a hand of welcome, saying "Saka Bona Union."

Mr. J. G. Finlay spoke in similar terms as Mr. Cooper of the local hospitality shown to the students by the people of Kenya. He referred to the part played by the Transvaal Rugby Union in bringing the tour about. The success attending it had been fitting tribute.

Congratulations to the third Kenya team for the splendid display they had given were offered by Mr. V. W. Standard Driver, Captain of the touring side. He also paid a tribute to Mr. Cooper, Manager, for the manner in which he had conducted the tour. A brief reply was made by Mr.

Results of Saturday's Matches.

(STARBUCK CORRESPONDENT.)
London, February 7.
In wet weather, and on heavy grounds, a full league programme so far as England was concerned was carried out on Saturday. Despite the heavy snow and the generally adverse conditions ruling, scoring was fairly high. In the Third Division both sections, one game resulted in a goal, while two others ended with nine and six goals respectively. Only one league game was played north of the Great Ouse, where Greenock Morton and the Arbroath clashed at Cupriolow, the visitors winning.

The following are the results.

KIKUYU OPPOSE THE MARAGUA-TANA SCHEME

Evidence Before the Tribunal at Fort Hall.

LAND EXCHANGE REJECTED.

The native point of view in regard to the Maragua-Tana Exchange Scheme was made known to the Tribunal at Fort Hall. The evidence was given by the Chief Justice, Sir Jacob Mathew, Rev. Canon Leakey, Mr. H. H. Hargreaves, the Chief Native Commissioner and the Local Government, Lands and Settlements.

Mr. L. P. Fontaine, the District Commissioner at Fort Hall, was one of the witnesses. When he was asked by the Chairman (Sir Jacob Mathew) whether, if the Exchange Scheme was approved, he was favourably considered by the Maragua people, he replied that he had 1,500 acres in extent which he would be prepared to give in exchange for the same amount of land which the natives would have to surrender.

He added that the area of the grazing land available was roughly 2,000 acres at the junction of the Maragua and Tana rivers. He thought that some of the farms in that area had not yet been cleared. The land he referred to was not low lying ground, but was of the same quality as the 1,500 acres which would be given in exchange. He thought that the natives were also living on the same quality of land, but that the natives were not so numerous as the Maragua people.

Speaking of the area which the natives would have to give up, he said that it was about 600 acres of agricultural land and that the natives would be unable to cultivate it. He said that the natives would be unable to cultivate it, but that they would be able to use it for grazing. He said that the natives would be able to use it for grazing, but that they would be unable to cultivate it.

Referring to the Chief Native Commissioner, Mr. Maxwell, Mr. Hargreaves said he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. Hargreaves said that he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. Hargreaves said that he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

said that that fell would be developed by 2,000 acres and would be worth for a sum of £40,000, and if that the contract they could do it in 18 months.

That appearing that was not sufficient for the Power Company's requirements, about three miles to the river there was another waterfall in the Maragua River, about 200 feet. Mr. Hargreaves believed it could be harnessed, but only if it was by walking over the head with an aerial. It was the same river that now flows through the Maragua Ltd. power works. The probability was that the upper fall could be harnessed to yield about 1,800 h.p.

If that was not sufficient, Mr. Hargreaves would be prepared to supply the Maragua Power Co. to buy up the Maragua and Tana rivers. He said that the Maragua Power Co. had been formed for the purpose of the river without any flooding whatever and without any disturbance to the natives. He said that the Maragua Power Co. had been formed for the purpose of the river without any flooding whatever and without any disturbance to the natives.

Mr. Hargreaves said that he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

The District Commissioner was asked by Mr. Hargreaves whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. L. P. Fontaine thought that that particular transaction was not in the interests of the natives. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. Hargreaves said that he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. Hargreaves said that he did not know whether the natives were in favour of the scheme. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

It was only the sense of being moved which the thought was an injustice to them. In the European opinion it was just, but it made the natives understand that would be very hard indeed.

He thought that another remedy would be to give the natives a right of way to the land. In a statement Dr. Mathew said to the Tribunal that he was prepared to give the natives a right of way to the land. He said that he was prepared to give the natives a right of way to the land, but that he thought that they would be in favour of it.

It was further stated that as the only technical evidence submitted to the Tribunal was that some of the members of the Tribunal had been asked to investigate, and the Director of the Maragua Power Co. had undertaken the work, the Commission would not be prepared to offer any facility but should give any expenditure incurred which was not covered by the Government, but which was happy to defray it.

Native Evidence. Upon a native witness, and he had been granted the price of land in exchange. He did not think anybody would give up the acquisition of the land because the people were very fond of it. He said that he did not know whether the natives were in favour of the scheme, but that he thought that they would be in favour of it.

Mr. S. H. Le Postolle who had been recalled, said as a private individual he was not qualified to estimate as to the small sale of the land, but that he thought that the natives would not be satisfied with the price offered.

When asked if any other persons were regarding land acquisition whether it would ever be possible to satisfy the natives' demands of the land taken with it on the Maragua River, Mr. Hargreaves said that he would always be prepared to buy up as much land as the natives would want, but that he thought that they would be in favour of it.
