ARAB DEMANDS FOR PALESTINE.

Delegation to London Disappointed.

(THROUGH REUTER'S AGENCY.)
 London, May 12. The Palestine Arab Delegation has filed a statement expressing their disappointment with the result of their "first" mission by the British Government with which the British Government will not be in touch. The delegation expressed their views on a number of subjects, particularly on land, immigration, and the grant of the constitution. His Majesty's Government has taken note thereof.

It was pointed out to the delegation that the sweeping conditional concessions demanded by them were wholly unacceptably, and would render it impossible for His Majesty's Government to carry out their obligation under the Mandate. It was made clear that no proposals could be considered which were inconsistent with the requirements of the Mandate.

Demands.
 The Colonial Office in announcing the end of the conversation in London, referred to the demands of the Government and the Palestine Arab Delegation. The delegation expressed their views on a number of subjects, particularly on land, immigration, and the grant of the constitution. His Majesty's Government has taken note thereof.

It was pointed out to the delegation that the sweeping conditional concessions demanded by them were wholly unacceptably, and would render it impossible for His Majesty's Government to carry out their obligation under the Mandate. It was made clear that no proposals could be considered which were inconsistent with the requirements of the Mandate.

Headaches

Equally effective for the sequel to a chill, or have their origin in excessive or strenuous work, or are the result of excessive indulgence in alcohol, or tobacco—Headaches make life a torture. What more understandable, then, than the desire for a dependable remedy?

Take the best help—rapid and reliable—in all painful conditions.

Best Tablets of ASPIRIN

It is to say the genuine, original "Bayer-Aspirin." In headache, neuralgia, indigestion, rheumatism, neuritis, and fever, "Best Tablets of Aspirin" have always proved their wonderful efficacy. It is a solid one in the original "Bayer" package (see illustration), which bears a genuine "Bayer" cross—the world-famous "BAYER" CROSS.

ITALY'S NAVAL POLICY.

A REVIEW OF THE LONDON CONFERENCE.

(THROUGH REUTER'S AGENCY.)
 For two hours today, Mr. Grandi surveyed the London Naval Conference in the Chamber. The most striking part of his speech was that which dealt with Italy's naval policy. He declared naval parity with the other nations, and the right of nations to arm themselves with ships of the same tonnage as those of the other nations.

It was clear that the new rates were not of great importance, but that the force represented important. Italy's naval policy was to be based on parity with the other nations, and the right of nations to arm themselves with ships of the same tonnage as those of the other nations.

NEW CANADIAN CUSTOMS TARIFFS.

Increased Imperial Preference.

(BY WIRELESS.)
 Monday, May 12. Mr. W. Graham, the President of the Board of Trade, replying to questions in the House of Commons today, said that the Government had learned with great interest of the tariff changes recently introduced by the Canadian Government. These changes were proposed upon the part of a representative mission on the part of the Canadian Government.

It was clear that the new rates were not of great importance, but that the force represented important. Italy's naval policy was to be based on parity with the other nations, and the right of nations to arm themselves with ships of the same tonnage as those of the other nations.

ANOTHER LINK IN "NANDI BEAR" CHAIN.

Strange Discovery by a Ruanda Mission Doctor.

THE "URUTURANGWE"

Skull Identified in Nairobi as That of Giant Hyæna.

(Special to the "East African Standard" by Dr. J. E. Church.

Perhaps it may interest some people to hear of yet another episode of the mysterious "Nandi-Bear" case. In Belgian Ruanda natives called this animal the "Uruturangwe," it was called out to the light and skin and skull before I had any idea that it had been recently much reported on the same.

On February 20, after having unsuccessfully set out for a lion which had been man-eating in the neighbourhood of Uruturangwe, I left Uruturangwe with the "claw" which had been found in the stomach of the lion. Two days later I was in a remote place where they had possessed the remains of a "bear" and had killed an "Uruturangwe." I had never heard of a "Uruturangwe" before and was quite familiar with the native names of all the common animals.

They gave me a very large skull which I took home with me. It was a large hyena, and others told me that it was a hybrid between a lion and a leopard. It all agreed that it was very dangerous and killed oxen, goats and sometimes man and children; even in broad daylight.

At the Kill.

On arriving at the spot, after dark, I was led down to a valley by the chief and some men, and I thought at first to be a young lioness, but on closer investigation saw that it was a very large spotted hyæna. It was attacked with the chief for dragging me out to see a dead hyæna, but he and the men with him assured me that it was not a hyæna, but a lion. The man named it for me, and I took it to the house. It was a large spotted hyæna, and I took it to the house. It was a large spotted hyæna, and I took it to the house.

Hyæna.

This animal is a fairly definite proof that such an animal may be at any rate did once exist. It may be that there was a new animal which existed in Central East Africa up to a few centuries ago, and which then became extinct as some disease such as Rinderpest, or some natural cause, or that the natives still have some idea of this animal with any accuracy. It is a large spotted hyæna, and I took it to the house. It was a large spotted hyæna, and I took it to the house.

Bold Hyæna.

In my hospital at the present time I have three cases of hyæna-mania, all occurring at night when the people were sleeping in their huts. One of the patients was a young man of the area, in another a native of a large part of right foot was taken out of the huts and the patient was trapped under a lion's head and was then brought to the hospital.

"HEALTH WEAT" AT MOMBASA.

Another Show to be Held This Year.

Following on the success last year of the "Health Weat" at Mombasa, it has been decided to organize a further exhibition this year. The show will take place from the 15th to the 25th of the month.

The show will be held in the Arab School and it is proposed to have a further exhibition this year. The show will take place from the 15th to the 25th of the month.

Midnight Murder.

One told me that it was got through a very small hole in a hut, and finally got on the sleeping mat, suffocating him by gripping the throat or mouth in the man's eye jaws, but eventually escaped and was removed with the dead body.

Red and Black.

The identity of this mysterious animal should be looked upon as a definite proof that such an animal may be at any rate did once exist. It may be that there was a new animal which existed in Central East Africa up to a few centuries ago, and which then became extinct as some disease such as Rinderpest, or some natural cause, or that the natives still have some idea of this animal with any accuracy.

A TANGANYIKA AGENCY IN LONDON.

With Sole Job to Select New Settlers.

COMMITTEE PROPOSAL

Increased Vote for Present East African Office Suggested.

(STANDARD CORRESPONDENT.)

Dec or Salcam May 10. The committee appointed by H.E. Sir Donald Cameron last December has presented a scheme for the disposal of the land in the East African settlement in Tanganyika. The committee included Indian, Danes, and European and Indian unofficial members, and the Legislative Council. The committee of reference included the Commissioner of Tanganyika, Colonial Development Fund, Government and the Hilton Young report, the latter being a statement urging the Government to take the responsibility of controlling the quality of settlers and emphasizing the importance of the settlers being men of experience and with material resources necessary for success, with qualities catering in just dealings with natives, thus earning their respect and confidence.

The committee was also advised to study the 1920 settlers scheme.

No Racial Discrimination.

The committee, after thorough discussion, found that a settlement scheme for non-natives was essential for the needs of the territory. They suggest the establishment of a Land Settlement Board with members in London. An Agricultural Development Fund is also essential for the provision of assistance to the present and future immigrant settlers.

It is considered that any scheme of settlement must apply all races without discrimination, and all proposals are made on this basis.

Land Settlement Board.

The committee also examined the question of the nature of the quality of settlers, and suggested that the quality of the settler was essential to the Government that the quality of the settler was essential to the Government that the quality of the settler was essential to the Government.

Financial Assistance.

For the purpose of the settlement scheme, it is recommended that the Government should provide financial assistance.

SEEKING A SOLUTION OF THE PROBLEM OF INDIA. Conciliation and Compromise Essential.

"THE TOMMY AND THE SEPOY." Britain's Responsibility and Indian Nationalism with a Joint Destiny.

A soldier who spent many years in India and who, during his stay and since, has continued to study Indian affairs, pleads today for the spirit of conciliation and compromise in the settlement of the affairs of India.

He points out that any constitutional proposal which ignores the British contention and a proper conception of Britain's responsibilities to the millions of people who had no practical application.

But he does not forget the legitimate aspirations of Indian Nationalism (although he deplores the reckless actions of extreme elements regardless of the possibility of irreparable economic, political and social disaster) and urges that the policy be found a formula which will permit Britain and India to move along together to their joint destiny.

Note the elements of STRENGTH, POWER, and BEAUTY of DESIGN in the Heavy-Duty International. This same sturdy construction is embodied throughout our entire speed line.

King of the Highway

In this great automotive age the success of International Trucks stands like a beacon on the horizon. Coming into prominence like a thoroughbred destined for victory, International Harvester has scored a triumph in truck engineering and in popular approval throughout the world. The basic reason is twofold: International trucks are soundly built on twenty-five years' experience in automotive manufacture — and International performance is safeguarded by a Company-owned truck service organization without a peer in the industry.

International Trucks include the 1-ton; the 1 1/2-ton Six-Speed Special; Speed Trucks, 1 1/2 and 2-ton; and Heavy-Duty Trucks to 4-ton. Catalogues on request.

AMATEUR ATHLETIC MEETING.

Nairobi Railway Club's Promotion.

The adverse weather conditions which have rained during the past several months have held up the ground preparations of the Nairobi Railway Club in connection with the Amateur athletic gathering which is being promoted for June 2. The conditions have also tended to slow up training, the local entrants having to "plough" through a water-clogged under-track. These handicaps are particularly unfortunate in view of the proximity of the meeting. The entries to date have been exceedingly good, and as the closing day for these is October day, May 31, the list may be expected to be very materially increased in these intervening days. Entries should be forwarded to the Hon. Secy, P.O. Box 78, Nairobi.

Some very fine Cups have been secured for the various open events and also for some of the confined races, while the prize list generally is very complete. Special arrangements are being made for the accommodation of spectators in regard to seating and also in regard to the parking of cars. Official programmes of the meeting are expected to be on sale in Nairobi on Monday June 2.

The following is the list of events—

- 800 Yards Flat Race. European Railway Staff only.
- 100 Yards Flat Race. European Railway Staff only.
- 100 Yards Flat Race. Asiatic Railway Staff only.
- 100 Yards Flat Race. African Railway Staff only.
- 100 Yards Flat Race. African Railway Staff only.
- 100 Yards Flat Race. Open to All Kenya—European only.
- High Jump. European Railway Staff only.
- One Mile Relay (4 x 440). Open to all Kenya—European only.
- 100 Yards Flat Race. European Railway Staff only.
- Long Jump. European Railway Staff only.
- One Mile Flat Race. European Railway Staff only.
- One Mile Relay (4 x 440). African Railway Staff only.
- 100 Yards Hurdle Race. European Railway Staff only.
- 120 Yards Hurdle Relay (4 x 120). Open to all Kenya—European only.
- One Mile Flat Race. Open to all Kenya—European only.
- 50 Yards Flat Race. European Ladies—Railway Staff only.
- 200 Yards Flat Race. Open to all Kenya—European only.

NONDESCRIPTS AT RUIRU.

Good Back Play by Visitors.

For the second time since the start of the season Non-descripts appeared at Ruiru to fall a victim to the local players. The match should have been a close one, but due to the latter ground being very hard, the venue had to be changed. The venue had to be changed to the Ruiru ground, and the match was played there. The local players played their best game of the season to score their second win over Ruiru in the scope of a fortnight. The visiting team played well and in the eighth fashion, and were away from the play of the home team. The latter was in contrast to the last time, when those who were lacking in thrust into those handling and passing was poor over some throwing in the air. Non-descripts had the better service from the wicket, getting possession from the vicinity of base, and the result was that their bats were frequently sent in action. On this occasion in which Ruiru did secure however, there was no rhythm to their forenoon.

There was little to do at the close of the first half, play being mostly at mid-stump. The visitors looked very good, and their three wickets were often in motion. More dangerous was the line than their opponents, the opening batsmen, when Wilmsworth took the "biff" side, and after James had handled, Stoddard went over at the corner. The difficult task was in hand.

Half-time: Ruiru 0, Non-descripts 1 try, 9 points.

Non-descripts had much the best of matters in the second period. There and again Wilmsworth and Smallwood were present, and their fine handling and their repeated runs always carried.

THE SOUTH AFRICAN WINES

AND VAN DER HUM

The Ruur forwards, who were without Ostrum and Wierbroeck, showed a very good game. Robb's kicking was deadly accurate, and was very precise. Wilford gave a very precise and accurate game. The play was safe, rather than brilliant, and on Saturday's showing, was certainly the most successful since tried out in the position. The game was a very close one, and usual, played a rare defensive game, leading to a determined attack, leading to a determined attack, leading to a determined attack.

It seems strange that Ruiru, who have been one of leading teams for the past three seasons, should have been out of the game, and a really effective back line. It is in all the more strange when it is remembered that they are one of the best teams in the country, and that they are a very good team.

The Ruiru forwards were, on the whole, very good, and fully merited their victory. The game was very interesting, and the result was a very good one. The result was a very good one.

ATHORF OR TULLYCROSS FOR THE KEMPTON "JUBILEE."

Notes on the Nakuru Race Meeting.

The Two Thousand Owners who last week by Sir Hippo Harte's decision in the Derby, were fortunate two lengths in front of the other two horses, but were with Major Courtenay's "Silver Hare" and other horses, were ill-luck. "Doblie" was trained by the late Mr. J. P. M. O'Connell, representing a branch of the family of the late Mr. J. P. M. O'Connell, who was bred by Col. Charles Harkin, and it is a fine specimen of a horse, bred by "Doblie" out of "Miss Ruby" and the Two Thousand, the Derby and the St. Leger. "Doblie" was also bred by Col. Charles Harkin and her dam, "Nepheuse" was got by "King" from "The Duke" bred by Lord Kaula. "Doblie" is a chestnut, bred by "Doblie" and the Derby winner who did him out of "Doblie". He was bred by Lord D'Abernon who was in 1911, Agn Khan, for whom he was sold for £100, and other good races collectively won £2,100. An excellent horse "Doblie" did not win a race in the last two years. He was bred by Lord D'Abernon who was in 1911, Agn Khan, for whom he was sold for £100, and other good races collectively won £2,100. An excellent horse "Doblie" did not win a race in the last two years.

At the Kempton race meeting on his year old form "Doblie" was not so good as he was in his previous years. He was bred by Lord D'Abernon who was in 1911, Agn Khan, for whom he was sold for £100, and other good races collectively won £2,100. An excellent horse "Doblie" did not win a race in the last two years.

(Lairig).

Thus the two year old form was well won out for the winners of the Derby and the St. Leger. "Doblie" was also bred by Col. "JOURNEY'S END."

Fine Interpretation of a Wonderful Play.

Behold Mr. R. C. Sherrill's play "Journey's End," which is being produced in the Theatre Royal this week. It will have been a year and a half since the first of the most strikingly impressive dramatic efforts of the year. "Journey's End" is more than a play that has been a success of the generation who know the way to the theatre. It is a play that is a support to the cause of the theatre. It is a play that is a support to the cause of the theatre. It is a play that is a support to the cause of the theatre.

VITAMINE FEATURES OF COFFEE.
An Old Theory Exploded.
The following article on Vitamin Features of Coffee is taken from the Journal of the Jamaica Agricultural Society.

Not inaccurately defined as a study of proportions alone, in the last resort, the objective scientific effort is to ascertain in what manner a relationship of factors is established as a premise of true balance. The science of vitamins is one of those efforts that have been made to determine the relative value of food material in the nourishment of the human being. And by scientific method, in this reference, is meant that the human body will be most efficiently sustained against disease.

The theory so far has been that there are no vitamins present in coffee. And, in emphasizing this, the purpose of the writer is to start off by emphasizing that should it ever be possible to prove otherwise, a very satisfying discovery will be made.

There is some of who is not familiar with the modernization of coffee as an unobtainable stimulant. Because possibly, of the prejudice with which the beverage is viewed, it is very difficult in England to obtain an appreciable supply. And, it is not so fortunate. At the same time the writer is not forgetting that, as a nation, the English are prone to tea, also known as an undesirable stimulant.

This theory, that there is no vitamin content to this beverage, has been regarded as being overdone. It is not difficult to explain. Vitamins were regarded as being susceptible to increase in temperature, that it is not so. It is now known that at the roasting temperature of coffee, say 180 degrees, any

CREDIT FACILITIES FOR KENYA AGRICULTURE

His Excellency the Governor, Sir John Gigg, has approved the publication of the following statement on the subject of short term agricultural credits. The statement, which was issued yesterday reads:

Kenya is suffering, in common with the rest of the agricultural world, from the heavy fall in world prices for agricultural products, and has also suffered from the last few months from abnormal climatic conditions which have done to the detriment of local produce to overseas markets, with a consequent delay in credit facilities.

The Agricultural Commission, in their report, recommended that the provision of further credit facilities to the agricultural community should be investigated; and, in view of the difficulties referred to above, the Governor invited the Board of Agriculture to report on this recommendation.

The report of the Board of Agriculture, the Government covering, subject to the approval of the Secretary of State, that any additional facilities should be provided, immediately a further announcement will be made as to the date on which legislative Council will be summoned to vote the necessary appropriation. It will meantime instruct the Government to investigate the formation of boards in Kenya to receive the grant application to the Government, and to submit a report on the subject which is being submitted to the Secretary of State in Nairobi.

The Secretary of the Horticultural Society has received the following report from the members of the society for the year ending 31st March 1930.

WATERING PLANTS
In watering plants which are not in flower, it is better to use a weak solution of fertilizer. This will help to keep the plants healthy and will also help to keep them from getting too dry.

IN ANSWER TO AN ENQUIRY
In answer to an enquiry from a member of the society, I have to say that the society has no objection to the use of the word 'Standard' in the title of a book.

PEDIGREE PRAMS

BUILT LIKE CARS - WITH STEEL BODIES.

Need needs no mentioning to prevent distortion by climatic conditions. Warping and splitting, paint cracking and uneven opening are entirely eliminated by the use of silver finish steel for the bodies of Pedigree Prams.

Our practice has placed this method of constructing beyond experiment, and each of the steel bodied Pedigree Prams is quite impervious, though possessing many features hitherto only possible on high priced production.

Detailed attention has been paid to the upholstery, springing and baby's comfort in general. You cannot find better value in any pram, and for these reasons we are confident that you will find greatest satisfaction in Pedigree Prams.

THE "PARK" PRAM.

Specifications: Body 30" x 30" on top; bed length 30", depth 18". Lined out in a bold design which accentuates the remarkably fine finish of the steel body. Upholstery: Newly tinged synthetic leather, which is soft and matches the colour of the body. Apron: Combined with storm flap provided optimal protection for baby's feet. Floor: Fitted with special mats to match upholstery. Plated adjustable spindles. Handles: Fitted and fitted with rubber grip. Fold down to save space. No loose parts. Chassis as above. Pedigree chassis, extremely quiet, resilient, and strong. Whiskers: 11 Westwood type, rim, and strong. Wheel: 11 Westwood type, rim, and strong. Handbrake: 11 Westwood type, rim, and strong. Colour: Grey and Blue.
