**CORRESPONDENCE**

**Treaders vs. Oxen.**

**CRITICISM OF THE BOARD'S COMMISSION.**

The Editor, "E. A. Standard," Sir.—I have for some time been endeavoring to obtain facts as to the results of the Commission on the relations of treaders and oxen and was therefore very interested in the figures published in your issue of the 21st inst. It is extremely gratifying to find that you have been able to obtain exact figures which I consider are of great value. It has been usually stated in the past that oxen have been used in the East for 2,000 years. I have been told that oxen have been used in the East for 2,000 years. I have been told that oxen have been used in the East for 2,000 years.

The standard method is to use both treaders and oxen. This is a very common method. The standard method is to use both treaders and oxen. This is a very common method. The standard method is to use both treaders and oxen. This is a very common method.

**HELPING THE DELEGATION.**

The Editor, "E. A. Standard," Sir.—I was in an appeal from myself I have by this time been informed by Mr. W. H. Johnson, the Member of Parliament for the Chichester division of Kent, that the Government has decided to send a delegation to the East African Conference.

**REPRESENT AMERI COAS.**

The Government intend the United States for Kenya with a view to the representation of the American people in the East African Conference. The Government intend the United States for Kenya with a view to the representation of the American people in the East African Conference.

**KENYA LEADING WAY IN CHEAP WHEAT COSTS.**  
Conclusions of the Board of Agriculture.

**CANADA THE MAIN EXCEPTION.**

**Country's Low Average Yield Due To Use of Wrong Land.**

Comparatively few returns for wheat have been received by the Board of Agriculture since the commencement of the season, but those that have been received have been such as to leave no doubt that the country is not producing wheat in Kenya to the extent that it is capable of producing. It is, however, not surprising that the average yield of wheat in Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat.

The average yield of wheat in Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat. The Board of Agriculture has been advised by the Canadian Government that the wheat in Kenya is not produced on the best land available, and that the yield could be increased by the use of better land.

It is interesting to note that the average yield shown by the returns received from the wheat growers in the various districts of Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat.

It is interesting to note that the average yield shown by the returns received from the wheat growers in the various districts of Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat.

It is interesting to note that the average yield shown by the returns received from the wheat growers in the various districts of Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat.

It is interesting to note that the average yield shown by the returns received from the wheat growers in the various districts of Kenya is only 2.5 bushels per acre, whereas in Canada it is 10 bushels per acre. The reason for this is that in Kenya the wheat is grown on land which is not suitable for wheat, whereas in Canada it is grown on land which is well adapted for wheat.

**TRIPLER TRIP OF THE S.S. "ROBERT CORYDON."**

**New Ship for Lake Albert Service.**

**A FESTIVE OCCASION.**

**Satisfactory Test Over Measured Mile.**

The new steamship for the Lake Albert marine service went through a trial trip on October 29 last, when after making a run of 20 miles in the presence of the community attended, and were entertained to a luncheon on board the vessel.

The first keel plate of the ship was laid in October last and she was launched in February. She is now complete in every detail, having been built by Messrs. Thomson and Colquhoun and is now entrusted under her firm's supervision at Bulimba.

The outstanding feature of the ship is the comfort for passengers, both in regard to deck space and the cabin appointments. She is the most up-to-date vessel yet built on the three lakes.

The luncheon was served on the first class deck, when a number of speeches, suitable to the occasion, were delivered.

**THE VESSEL'S APPOINTMENTS.**  
(STANDARD'S CORRESPONDENT.)

Bulimba, Oct. 30.

A very impressive and successful occasion took place at the Government Dock, Bulimba, on the 29th inst., when the new steamship for the Lake Albert marine service, the S.S. "Robert Corydon," was christened and put to sea for a trial run of 20 miles under the command of Mr. J. A. Robertson, of the Marine Superintendent's Office, who acted as the S.S. "Robert Corydon's" captain.

The ship was looking in the best of health at the moment. Those who were present were most impressed with the appearance of the vessel.

The Marine Superintendent (Commander G. C. Mackenzie) of the Anzac Marine Service, accompanied by Mr. J. A. Robertson, received the guests at the gangway. They were met by Mr. Mackenzie, who accompanied the ship. It is seldom that an opportunity presents itself of being able to walk round a vessel on the water, and Mr. Mackenzie was very kind to arrange for the trial run.

He was accompanied by Mr. J. A. Robertson, who acted as the S.S. "Robert Corydon's" captain. They were met by Mr. Mackenzie, who accompanied the ship. It is seldom that an opportunity presents itself of being able to walk round a vessel on the water, and Mr. Mackenzie was very kind to arrange for the trial run.

THIS CONCERNS OUR REPUTATION

Reputation is something to talk about when it comes with it popularity as great as that of Johnnie Walker.

The explanation of this popularity is not hard to find. Johnnie Walker "Red Label" is as good a whisky as any one else's best - in almost the majority of men's eyes.

JOHNNIE WALKER RED LABEL

The Architects Bill.

PROFESSIONAL MEMBERS' WASTES.

To the Editor—"A Standard" Sir.—I am sorry to see Mr. H. W. Brown's article in your issue of the 27th ult. on the subject of the Architects' Bill. I am sure that you will be glad to see that the Architects' Bill is not a waste of time and money, but a necessary step towards the improvement of the profession.

The latest answer to a member of the Architects' Association is to be published in your issue of the 27th ult. I am sure that you will be glad to see that the Architects' Bill is not a waste of time and money, but a necessary step towards the improvement of the profession.

CHICKEN GRIT.

To the Editor—"A Standard" Sir.—The world's waste is very largely in the form of food. It is a waste of time and money to produce food which is not eaten. It is a waste of time and money to produce food which is not eaten.

PROFESSIONAL MEMBERS' WASTES.

Present-day requirements necessitate an accurate knowledge of the various methods of production. It is a waste of time and money to produce food which is not eaten. It is a waste of time and money to produce food which is not eaten.

THE ARCHITECTS BILL.

The Architects' Bill is a necessary step towards the improvement of the profession. It is a waste of time and money to produce food which is not eaten. It is a waste of time and money to produce food which is not eaten.

The Committee was accepted on qualification for membership of this body. It is a waste of time and money to produce food which is not eaten. It is a waste of time and money to produce food which is not eaten.

PUBLISHED PHOTOS.

PHOTO OF NERVE CELLS SEEN THROUGH MICROSCOPE

Conquer "Nerves"

(Irregularity, indigestion, stomach trouble.)

Nerve-aches occur from contamination of the sense organs and may result in the irregular functions of almost every organ of the body.

With Stansone, which is a nerve food, you go to the very source of the trouble, you strengthen the sense-organs, revitalize the nerve-cells, you develop all the other different organs which are liable to come with the same cause.

Stansone is a nerve food, it is a tonic, it is a strengthener, it is a restorative, it is a purifier, it is a cleanser, it is a healer, it is a conqueror of all the ailments which are liable to come with the same cause.

**KENYA CHAMPIONSHIP RESULT.**

Mr. W. A. Wey, Champs in 1959, has retained the title this year by winning the Nairobi Chess Club Championship and the defeating Bartel all the Challenger the Indian community has put up this year for the first time. By two wins to nil in the first round. The score of the first game was 2-0 in favor of Mr. Wey. The second game was a draw, and will be found equally desirable. In fact, it was well on an important match, the loss might have ended after the 12th move. By that time he had a dead king and queen, but played better than he should have done. On the 11th move he played better than he should have done. On the 11th move he played better than he should have done.

# Clean Seed Beds Mean Better Yields

The No. 15 Power Lift Stiff-Tooth Cultivator.

One of the great features of this useful implement is the safety trip-pipe, which permits the teeth to pass over obstructions without damage. The wide space between the rows of teeth allows of the free passage of trash, etc. The high frame enables the teeth to lift high and each tooth can rise or fall independently of the others. The No. 15 Stiff-Tooth Cultivator can be supplied with 8 ft. width of cut, weighing 1,200 lb., and it is also available with a 6 ft. width of cut.

Note the splendid clearance for trash which is so outstanding a feature in the Massey-Harris No. 15 Stiff-Tooth Cultivator.

# LORDS AGREE TO A JOINT COMMITTEE.

## On Motion by the Secretary of State.

### TO CONSIDER CLOSER UNION.

#### Lord Delamere Holds Self Government To Be Only Possible Form.

["STANDARD CORRESPONDENT."] London, November 12. The House of Lords today agreed to a motion by the Secretary of State, Mr. H. S. Gwynne, that the House should consider the question of closer union between Great Britain and Ireland.

It is understood that Lord Delamere will move the motion in the afternoon, and that the House will adjourn until the following day.

The motion is in the following terms: "Resolved, That the House do consider the question of closer union between Great Britain and Ireland, and that the Secretary of State be authorized to take such steps as may be necessary for the purpose of carrying out the intention of this resolution."

The Secretary of State has already announced that he will introduce a Bill for the purpose of providing for the closer union of Great Britain and Ireland.

The motion is supported by the majority of the House, and is expected to pass without a vote.

#### Two Alternatives.

It is added that there were two alternative proposals put forward by the Secretary of State. The first was that the House should consider the question of closer union between Great Britain and Ireland, and that the Secretary of State be authorized to take such steps as may be necessary for the purpose of carrying out the intention of this resolution.

The second was that the House should consider the question of closer union between Great Britain and Ireland, and that the Secretary of State be authorized to take such steps as may be necessary for the purpose of carrying out the intention of this resolution.

#### Prime Minister's View.

The Prime Minister, Mr. Lloyd George, has expressed his views on the subject of closer union. He has said that he is in favor of closer union, and that he is in favor of self-government for Ireland.

He has also said that he is in favor of a joint committee to consider the question of closer union between Great Britain and Ireland.

#### Lord Delamere's Declaration.

Lord Delamere has declared that he is in favor of closer union between Great Britain and Ireland, and that he is in favor of self-government for Ireland.

He has also said that he is in favor of a joint committee to consider the question of closer union between Great Britain and Ireland.

#### Parliamentary Debates.

The House of Commons has also considered the question of closer union between Great Britain and Ireland. The House has passed a resolution in favor of closer union, and has authorized the Secretary of State to take such steps as may be necessary for the purpose of carrying out the intention of this resolution.

# RECORD FLIGHT TO INDIA.

## Paris to Karachi in Three Days.

["THROUGH SEUTER'S AGENCY."] Karachi, November 10. The French aviators, Albert Goussier and La Londe, have arrived in Karachi after a three-day flight from Paris on route for Saigon. This is the shortest time for India from Europe up to the present.

#### Arrival at Calcutta.

Calcutta, November 11. The French aviators, Albert Goussier and La Londe, arrived here after a three-day flight from Paris. They were met by a large number of people, and were taken to the Hotel de Ville.

#### Formally Recognized by Britain.

London, November 9. A message from the British Government to the French Government, recognizing the flight of Goussier and La Londe, was received here today.

#### Prize's Visit to Argentina.

["BY WIRELESS."] Buenos Aires, November 10. The Argentine Government has announced that it has received a letter from the British Government, offering a prize of £10,000 for the first aviator to fly from London to Buenos Aires.

#### The Ship's Air Mail.

["BY WIRELESS."] London, November 10. The British Government has announced that it has received a letter from the Argentine Government, offering a prize of £10,000 for the first aviator to fly from London to Buenos Aires.

#### Forwarded to Union.

["STANDARD CORRESPONDENT."] London, November 10. The British Government has announced that it has received a letter from the Argentine Government, offering a prize of £10,000 for the first aviator to fly from London to Buenos Aires.

# NATIVE POLICY IN AFRICA.

## Government's Reply to Gen. Herzog.

["THROUGH SEUTER'S AGENCY."] London, Nov. 10. The Government has issued a reply to the views of General Herzog on native policy in Africa. The reply states that the Government is in favor of native self-government, and that it is in favor of a joint committee to consider the question of native self-government.

#### Disagreement Between Moslems and Hindus.

["BY WIRELESS."] London, November 10. The Government has issued a reply to the views of General Herzog on native policy in Africa. The reply states that the Government is in favor of native self-government, and that it is in favor of a joint committee to consider the question of native self-government.

#### Prize's Visit to Argentina.

["BY WIRELESS."] Buenos Aires, November 10. The Argentine Government has announced that it has received a letter from the British Government, offering a prize of £10,000 for the first aviator to fly from London to Buenos Aires.

# ANOTHER WAR STORY

## Ex-Service Man and His "Souvenir"

### Reputation that Got into His Nose

It is a well-known fact that the reputation of a man is a very valuable asset. In the case of a soldier, it is a reputation for bravery and courage. In the case of a politician, it is a reputation for honesty and integrity. In the case of a businessman, it is a reputation for reliability and trustworthiness. In the case of a man, it is a reputation for being a good person.

# IS THERE A SPLIT IN THE LABOUR CABINET?

## Newspaper Rumour of Resignations.

### OFFICIALLY DENIED.

## Alleged Disagreement Over Liberals and Unemployment.

By WIRELESS.—A rumour in the publication of the Times in London in an interview yesterday said. The story about the Cabinet split on Mr. Lloyd George's proposal is a deliberate invention. There is not an atom of truth in the statement. There is no shadow of foundation for any of the rumours.

A communiqué laid last night from Mr. Alexander's office in Downing Street, stating that the Prime Minister has been informed over the telephone as "Chequer" that a London paper publishes statements regarding the attitude of those of his cabinet given in the Cabinet to the recent, published Liberal newspaper on unemployment.

## Big Trial in Moscow

By WIRELESS.—The trial of the eight accused in the case of the "Good Tip" is now in progress. The trial is expected to last for several days.

## Improving Briovancy of Machines.

By WIRELESS.—The Ministry of Commerce has issued a notice regarding the improvement of the efficiency of machines. The notice states that the Ministry is interested in the views of the public on this subject.

## German Metal Workers.

By WIRELESS.—The German metal workers have decided to accept the Government's proposal for a new wage scale. The workers have agreed to a 10 per cent increase in wages.

## Official Figures for October.

By WIRELESS.—The official figures for October show a decrease in the number of unemployed persons. The number of unemployed persons in October was 1,200,000, compared with 1,300,000 in September.

## Legislative Council.

By WIRELESS.—The Legislative Council has passed a bill regarding the regulation of the trade of the West African States. The bill is expected to be passed by the House of Representatives.

# HEALING WARTIME WOUNDS.

## German General Attacks British Dinner.

### By WIRELESS.

General Frenkel, German General, has attacked the British dinner in London. He stated that the British dinner was a waste of money and that the British people should be more concerned with the welfare of their own people.

## Weights and Measures.

### CONSIDERED BY IMPERIAL CONFERENCE.

By WIRELESS.—The Imperial Conference has considered the question of weights and measures. The conference has agreed to recommend the adoption of the metric system.

## Strikes in East Africa.

By WIRELESS.—There have been strikes in East Africa. The strikes are believed to be the result of dissatisfaction with the Government's policies.

## German Metal Workers.

By WIRELESS.—The German metal workers have decided to accept the Government's proposal for a new wage scale. The workers have agreed to a 10 per cent increase in wages.

## German Metal Workers.

**The Dairy Industry—A Barter Case.**  
(Continued from page 11.)

ful article from a Kenya dairy farmer. He has faith in the future, even if it is based on the demand. Nature, and he very properly calls the Kenya industry a "barter case." The industry is a barter case throughout the world. For the larger countries throughout the world, it is a barter case. It is a barter case because a dairy on a locally produced milk is not a barter case. It is a barter case because of the character of the demand for milk. The demand for milk is a demand for a commodity that is not a barter case. The demand for milk is a demand for a commodity that is not a barter case. The demand for milk is a demand for a commodity that is not a barter case.

# NAIROBI COUNCIL AND MARAGUA-TANA.

## Unanimous Support for the Scheme.

### A PUBLIC NECESSITY.

#### If There is to be Cheaper Power in the Next Ten Years.

With the exception of two Government representatives who did not vote, because, as they explained, they had no authority to do so, the decision made by Government Ministers at the meeting of the Nairobian Council held on Tuesday of last week, in favour of the Maragua-Tana scheme, is a public necessity. It is a public necessity because it is the only way in which the power of current considerably in excess of what is required in or outside Nairobi and will be used or not used as fuel, which was the subject of the meeting.

The resolution which also supported the demand for the publication of the report of the tribunal which heard the evidence for and against the application of the scheme.

The full meeting was as follows:—  
(A) That in the opinion of the Nairobian Council, the interests of the community, and the public interest, require that the power and lighting of the Lake Maragua-Tana scheme be approved and that the Government be requested to take the necessary steps for carrying out the scheme.

(B) That the Council pledged itself to support the application of the said Company.  
(C) That the publication of the report and recommendations of the tribunal is a matter of public interest, and that the Council supports such publication and its recommendations.  
(D) That a copy of this report be sent to the Government.

**Historical Application.**  
It was reported by the Mayor (Councillor H. F. Mayer), who took the Chair, that he would be glad to see the application of the scheme, which has been made for the publication of such report and recommendations.  
(E) That a copy of this report be sent to the Government.

**Alternative Scheme.**  
The Government had suggested another scheme which would put the plant 40 miles farther away than there is any road, which, when completed, it would be 100 miles. The scheme was not approved.

**Official Committee.**  
The Government used to be in the habit of appointing a committee to investigate the feasibility of the scheme. It was reported that the committee had been appointed.

**Disruptive Views.**  
The Council also considered the views of the Government, which were reported to be in favour of the scheme.

**A Break of Faith.**  
The Council also considered the views of the Government, which were reported to be in favour of the scheme.

# MAIJI MURDER.

## NIWA ARREST IN A DUKA CRIME.

In connection with the murder of Maiji, the Nairobian Council has been informed that the police have arrested a man named Niwa, who is believed to be the murderer of Maiji. The man was arrested in a duka in the city.

The man was arrested in a duka in the city. He was found with a knife, which was believed to be the murder weapon.

# NAIROBI COUNCIL AND MARAGUA-TANA.

## Continued From Page 1.

Therefore not required for public purposes within the meaning of the Native Lands Trust Bill. The Council might have been asked to order the greater work of providing power and light for Nairobi and all its outgrowth, so that the power and light should not have been wasted out there.

The present argument was that in the case of the Lake Maragua-Tana scheme, the power and light would be used for the benefit of the community.

The present argument was that in the case of the Lake Maragua-Tana scheme, the power and light would be used for the benefit of the community.

# IN JAPANESE TO NAIROBI.

## A Great Lesson.

The Council has been informed that a Japanese representative has been appointed to visit Nairobi. The representative is expected to arrive in Nairobi in the near future.

BAD TIMES REFLECTED IN RAILWAY BUDGET.

1931 Surplus Only £50,000 Against £200,000 This Year.

AND WIPED OUT BY PORT LOSS.

The Draft Estimates of proposed expenditure and revenue in respect of the Kenya and Uganda Railways and Harbours were recently laid on the table of the Kenya Legislative Council...

The estimated revenue of the railways in 1931 is £1,600,000. This compares with £1,647,100 estimated for the year of 1930. The increase, therefore, of £47,544 representing 2 1/2 per cent.

Expenditure: On the expenditure side there is an estimated increase of £77,848. The total expenditure budgeted for 1931 is £1,677,948 against which the 1930 total of £1,629,399 is set off.

Details of the expected increase show that owing to an addition to the office mileage and £177,848. The total expenditure budgeted for 1931 is £1,677,948 against which the 1930 total of £1,629,399 is set off.

Effect of Law Rate Traffic: It is pointed out that tonnage in transit is expected to increase in 1931. The revenue for last year was £1,629,399 against which the 1930 total of £1,629,399 is set off.

The working costs of the Port for the revenue and expenditure for 1931 are £1,677,948 against which the 1930 total of £1,629,399 is set off.

Port Revenue: The Port Revenue, which is £1,677,948 against which the 1930 total of £1,629,399 is set off.

Port Expenditure: The Port Expenditure, which is £1,677,948 against which the 1930 total of £1,629,399 is set off.

Port Surplus: The Port Surplus, which is £1,677,948 against which the 1930 total of £1,629,399 is set off.

As an Act of Law.

As in the case of the railway, however, it should not be assumed that the forecasted revenue is to be met for as possible from any source of revenue that accrues on the year's working.

After making provision for the working expenditure and depreciation the Railway Budget will have a balance in hand out of the year's revenue of £150,000.

The increase in the ratio is due to the disproportionate growth of the port which is estimated to be £150,000 in 1931.

General Proposals: The whole of the site from the Railway and Port funds which appears under the heading of general proposals is £150,000.

Accommodated Funds: The Railway has accumulated certain funds under various heads. The total amount is £150,000.

The Start: Immediately above the aeroplane is the start of the machine. Leaving the handle and the engine, the machine is started.

Mr. Campbell Black's recent record flight through which he visited East Africa, Zanzibar and Mombasa and returned to Nairobi in one day, has proved to East Africa, perhaps more than anything else, the complete reliability of the aeroplane for long distance travelling.

STOWAWAYS ON EAST AFRICAN AIR TRIP.

Swarm of Bees Make a Home in the Wing.

DODGING KONGONI IN THE DARK.

"Standard" Correspondent's Story of a Historic Flight.

"If any were who ride faster than I, I would have been with you." This was the boast of the stowaway on the East African air trip.

Just before eight o'clock we left the railway line and headed over grassland to a degree to the west of Nairobi. The flight was a success, and we were able to land safely at our destination.

### STOWAYS ON EAST AFRICAN AIR TRIP.

(Continued from page 19.)

machines shipped in front of a very large crew of people, who had to be taken to meet us. The British steamer, in a conversation with the Commandant Black and myself expressed the hope that the flight would be the foremost of a series of flights of this kind, which would lead the world with the maintained, and to the stretching of the furthest. He accepted with pleasure the invitation to visit the African Airways—the first to be organized in the world—that day's East African flight.

Handwritten notes... The morning and indeed the conditions of the trip were such that it was not possible to land at any of the stations. The only way to proceed was to continue on to the next station. The crew was very much surprised to find that the conditions were so bad. The flight was very successful, and the crew was very much pleased with the result.

### DEATH OF NATIVE RAILWAY EMPLOYEE.

#### Collapse of Body Stacked Sleepers.

The Magistrate reported to the coroner in his inquest on the death of the native railway employee who collapsed under the weight of a stack of sleepers. The inquest was held at the District Engineer's office. The coroner found that the employee had collapsed under the weight of a stack of sleepers which he was carrying. The coroner recommended that the railway should take steps to prevent such accidents from occurring again.

made to ornaments in proportion to their aspect and distributed by the same means.

This scheme is therefore not applicable to Kenya, where there is no large production outside the creameries, and the milk is sold in its natural state in force in the various districts of the province.

South African conditions more nearly approach those of the United Kingdom, and the management of the Board are accordingly more nearly inaugurated in South Africa than in any other part of the Empire.

The Board is informed that by 1901 the production will be materially greater than the present amount.

Butter has fluctuated considerably in price in the past, but since 1891 the production will be materially greater than the present amount.

It therefore follows that with the non-operator whose market is not affected by the proposed levy, the price of his butter will be materially greater than the present amount.

It is therefore obvious that if the price of his butter is not affected by the proposed levy, the price of his butter will be materially greater than the present amount.

Admittedly the tendency of the scheme is to increase the price of his butter, but the price of his butter will be materially greater than the present amount.

It is therefore obvious that if the price of his butter is not affected by the proposed levy, the price of his butter will be materially greater than the present amount.

MOTOR CYCLE RACING.

Kenya's First Grass Track.

Four days ago the first intention was made in the Press with regard to the projected grass track...

It is perhaps a peculiar trait in such people, or at least in the younger generation of them, that they were something they cannot get they would, ready to sacrifice...

But perhaps the real grievance lies in the fact that the proposed grass track is not to be a "dirt track" as it is called on the grass that still is laid out...

It is in fact, it is not who have raised the question on the "dirt track" will find that their opportunity is very much less than it is...

It is a matter for which it is quite likely to take up, and it is quite likely to be done the door for any future motor cycle racing...

Some doubts are apparently existing with regard to December 6, the date of the proposed meeting. All entries, stating for which events they are intended, must be sent in to writing to Mr. O'Brien-Frost, Hon. Secretary.

put on local butter producers but in the case of the former reason why we should have a bigger's supply of our own butter is that we will follow a similar course. The whole industry will get a boost by diversifying, even if we say, let us begin when we are prepared to do so. I am sure we will be well repaid when we get to the market and we will be glad, if you could take up the matter and urge a fair deal for us. Yours etc.,  
 CO-OPERATOR.

**FORCED LABOUR.**  
 To the Editor, "E.A. Standard."  
 Sir, I have the pleasure to inform you that I have written a letter which probably may be considered by him as a reply to the many letters which have been sent to the Editor, but which cannot be so considered by the Editor.

He has not made any attempt to discuss the amount of labour of his various occupations against the white settler, but he has only tried to "advisory".

Unhappily we shall remember that we are not to be taken for granted as a matter of course. I am sure that you will be glad to see that we are not to be taken for granted as a matter of course. I am sure that you will be glad to see that we are not to be taken for granted as a matter of course.

**CO-OPERATION.**  
 To the Editor, "E.A. Standard."  
 Sir, I have the pleasure to inform you that I have written a letter which probably may be considered by him as a reply to the many letters which have been sent to the Editor, but which cannot be so considered by the Editor.

It is a pity that we are not to be taken for granted as a matter of course. I am sure that you will be glad to see that we are not to be taken for granted as a matter of course. I am sure that you will be glad to see that we are not to be taken for granted as a matter of course.

### THREE NEW BILLS FOR LEGISLATURE.

#### Petrol, Land Grants, and Speed Limits.

A special issue of the "Kenya Official Gazette" containing three bills introduced into the Legislative Council on the 11th inst. is the primary one of the Gazette is a hurriedly printed copy of the bills. The bills are:—  
1. The "Petrol Bill," which provides for the regulation of the sale of petrol for agricultural purposes.  
2. The "Land Grants Bill," which is intended to amend the provisions of the "Land Grants Act" of 1895.  
3. The "Speed Limits Bill," which provides for the regulation of the speed of motor vehicles.

Without wishing in any way to detract from the merits of the bills, it is to be noted that the "Petrol Bill" is somewhat defective in its provisions. It is intended to amend the provisions of the "Land Grants Act" of 1895, but it does not seem to have been drafted with care. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The "Land Grants Bill" is also somewhat defective. It is intended to amend the provisions of the "Land Grants Act" of 1895, but it does not seem to have been drafted with care. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The "Speed Limits Bill" is also somewhat defective. It is intended to amend the provisions of the "Speed Limits Act" of 1895, but it does not seem to have been drafted with care. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The second bill is the "Land Grants Bill," which is intended to amend the provisions of the "Land Grants Act" of 1895. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The third bill is the "Speed Limits Bill," which is intended to amend the provisions of the "Speed Limits Act" of 1895. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The fourth bill is the "Petrol Bill," which is intended to amend the provisions of the "Petrol Act" of 1895. It is to be hoped that the Government will take steps to amend the bill before it is passed.

The fifth bill is the "Land Grants Bill," which is intended to amend the provisions of the "Land Grants Act" of 1895. It is to be hoped that the Government will take steps to amend the bill before it is passed.

### A DISPUTE OVER FREETOWN.

#### Effort to Sell Settled by Occupiers with Occupiers.

#### Slaves' Descendants Petition His Excellency.

It is gratifying to hear that the dispute over the settlement at Olonea, for during the last few days, the occupiers have been making a good deal of progress. It is to be hoped that the Government will take steps to settle the dispute as soon as possible.

The "Slaves' Descendants Petition" is a petition from the descendants of slaves who were brought to the settlement at Olonea. They are asking His Excellency to take steps to settle the dispute as soon as possible.

The petition is signed by the descendants of slaves who were brought to the settlement at Olonea. They are asking His Excellency to take steps to settle the dispute as soon as possible.

### MANUING EXPERIMENTS IN NANJI COUNTY.

#### Promising Results Up to Date.

The results of the manuring experiments in Nanji County are very promising. It is to be hoped that the Government will take steps to encourage the use of manure in other parts of the country.

### "HOWLS" IN HOME-MADE SETS.

Their Cause and Cure.

The B. & S. Standard is arranged for the regular publication of a wireless page. These articles, written by Mr. J. J. Rankin, a well-known radio authority, will appear weekly.

Several readers appear to be having trouble with low frequency currents in their sets. In some instances it is possible that the set is not properly adjusted. As mentioned in last week's article, it is the duty of the operator to adjust the set so that the volume of the current is just what is required for the set to operate properly.

Before you make any adjustments, it is better to check the frequency of the current. This can be done by using a frequency counter. If the frequency is not what it should be, it is better to check the set before making any adjustments.

If the frequency is correct, the trouble may be due to the set itself. It is possible that the set is not properly adjusted. It is better to check the set before making any adjustments.
