# KENYA'S COAST ROAD TO MALINDI.

## A Resort Known Only to a Fortunate Few.

### THE SAKABI BRIDGE.

#### Gigantic Structure in the Heart of the Jungle.

A trip along Kenya's coastal road—or rather sandy track—to Malindi is a glorious holiday, states Kinnaird in a letter to *The East African*, during the course of an article on a visit to this charming little town.

Mr. O'Leary writes as follows: Malindi and its glorious beach is only known as present to the tourists for the few days that the opportunity of making this trip is through the brief summer of a room at night in the hotel. The distance from Mombasa to Malindi is only seventy miles, and under normal conditions this can be done in a day. It is a half to four hours, depending on the weather, to reach the station for the train to Malindi.

The first ferry is from Malindi to Sakabi, and this is a short one, but will be obtained shortly when the Nile bridge is open to traffic. The next ferry is at Misungu, and this is a long one, but will be obtained shortly when the Nile bridge is open to traffic. The next ferry is at Misungu, and this is a long one, but will be obtained shortly when the Nile bridge is open to traffic. The next ferry is at Misungu, and this is a long one, but will be obtained shortly when the Nile bridge is open to traffic.

Evolution of a Naitive Tractor. For the last few years the Government has been busy with the construction of a railway track from Malindi to Mombasa. This is a long and difficult task, and it is not yet completed. The Government has also been busy with the construction of a road from Malindi to Mombasa. This is a shorter and easier task, and it is now almost completed.

The first improvements which have been made in the Malindi road, and especially the section near Malindi, have been the construction of a road from Malindi to Sakabi. This is a short and easy road, and it is now almost completed.

Eleven miles from Malindi and six miles from Sakabi, a road now comes to the wonderful beach of Malindi. This is a road which is over 600 years old, and it is now almost completed. The road is made of earth and is very good for the purpose.

of the most wonderful beaches in the world. The beach is very long and very wide, and it is very beautiful. The water is very clear and very blue, and the sand is very white and very soft.

The "Park of Parks" Bridge. For the last few years the Government has been busy with the construction of a railway track from Malindi to Mombasa. This is a long and difficult task, and it is not yet completed.

# COUNCIL DEBATES THE RAILWAY ESTIMATES.

## Helpful Criticism by Elected Members.

### EXPORT RATES ON MAIZE.

### Little Left for Farmer at Present Market Prices.

Consideration of the 1931 estimates of the Kenya and Uganda Railways and Harbours occupies the first item on the agenda of the meeting of Legislative Council on Monday, the 12th inst. The members of the Council are to be kept by the speaker, a good looking figure, minutes the General Manager and the Chief Engineer.

**Compassion with 1932.** For the first time since 1922, the 1931 Railway Budget is a credit account. Since 1922 the Railway Budget has been a debit account, and it is now with a balance reference to the Government. The reason for this is that we have today, in order to meet the increased cost of the railway transportation system, to have increased during the present financial year.

In 1922 we had a 700 miles of line, our gross revenue was £1,000,000 and our expenditure was £1,000,000. In 1931 we have 1,500 miles of line, our gross revenue is £2,000,000 and our expenditure is £2,000,000. This is a very serious situation, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**The 1931 Bill.** It is on this Bill that this remarkable figure has been brought about, and it is a very serious situation. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Spins Talk.** The first figure is said, "It is the cost of the railway system, and it is one of the most serious of the financial year." The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**The Railway Position.** (Continued from page 15.) A departure from the present budgeting policy would have similar results. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

Members are aware, my very hon. friend, that the railway revenue is low, and that the cost of the railway system is high. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Working Costs.** The other factor which is the average cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Export Rates on Maize.** The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Spins Talk.** The first figure is said, "It is the cost of the railway system, and it is one of the most serious of the financial year." The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

£200,000,000 is directly made up of the Government's revenue. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

# RAILWAY ESTIMATES DEBATE.

(Continued from page 16.)

**New Lines.** Between the Island and Malabar, we have carried out extensive diversions and repairs to the railway system. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

the estimated cost during 1931 has been increased owing to additional work on the railway system. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

**Madras Revenue.** Turning to the revenue side, I may state that the Government has to meet the cost of the railway system, and it is one of the most serious of the financial year. The Government has to meet the cost of the railway system, and it is one of the most serious of the financial year.

# For most work at least cost

WHAT a vehicle does, not its purchase price, is the true test of its value to you.

The sheer outstanding ability of Albion's trucks is proven in their ability to do their work steadily, speedily, year after year, remarkably trouble-free even under the most arduous conditions, and to do it with a definite and considerable saving in running and upkeep cost, makes them invariably the cheapest of all vehicles to use.

Write for details of the 30-CV. Albion. Local country of other models 2, 2 1/2, 3, 4 and 5 tons.

### RAILWAY ESTIMATES DEBATE

(Continued from the 17th.)

Minority Chair, Sir Percy. General of the Belgian Colonial Office, on the subject to be reported to the Congo. We welcome the opportunity of reporting on the facilities at the Port and on the various other works available for handling the considerable quantities of traffic which pass over our system.

The ultimate aim of any extension from Kampala outward to the coast, or to the north, will be to connect Kisumu, or Mombasa, or Malindi, or Lamu, or Berbera, and it is of the first importance to know what arrangements will be made for the handling of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

to know from the papers that suggest that the Government will not go to work having received the necessary information from the various sources which will be available for handling the considerable quantities of traffic which pass over our system.

Further, too, on the other hand, it is possible that the Government will not go to work having received the necessary information from the various sources which will be available for handling the considerable quantities of traffic which pass over our system.

Another industry which they might also be able to handle is the transport of goods. It is of the first importance to know what arrangements will be made for the handling of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. It is impossible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast.

It is not possible to make any estimate of the traffic which will be carried over the railway in the event of any extension northwards to the rich areas of the coast. **SPECIAL NATIVE LABOUR RETURN**

**To Cover the Whole of the Country.**

A general labour return of all native labour, the Department of Labour Registration has opened by Mr. Robinson. With the Dominion's labour returns, which are made annually, it is desired that a complete return of the labour force of the Dominion should be made. It is a return of the labour force of the Dominion, which is not only a return of the labour force of the Dominion, but also a return of the labour force of the Dominion.
