## LIGHT BLUES WIN THE BOAT RACE.

Nairobi.

Victory by Two and a Half Lengths.

BRILLIANT STROKING.

Oxford's Gallant But Fruitless Efforts.

Cambridge for the eighth successive year defeated Oxford University in the annual boat race on the Thames. The crowd which witnessed the trial of strength between the two Universities was the greatest in the history of the race.

The event was one in which the dogged persistence of the Dark Blues crew was brilliantly offset by the manner in which the Light Blues' stroke held his eight to-

Time and again the Oxford men spurted, but their efforts had no effect on their opponents, who continued to go easily, and at the halfway stage it was apparent that Oxford had shot their bolt, and that the race was won

PROBLEMS OF THE DAIRY INDUSTRY.

Combined Experience of 40 Years in the Colony.

"INTENSIVE" vs. "EXTENSIVE."

Dairying Regarded as the Country's Biggest Thing.

Following is the last of the series of articles on the Dairy Industry based on interviews obtained by a Special Correspondent of the East African Standard on a tour of the dairy districts.

It breaks new ground because it is, in sense, the views of two farmers working under different conditions. Yet in the main they agree on fundamental questions.

Disputes with Sir E. Grigg what Natives Pay to Revenue.

the close of Sir Edward Grigg's examination it was intimated that questions on economic issues would be directed to him in private session and the Chair-man said the Committee would probably require him on several further occasions.

Squre of £50,000 or £50,000 was mentioned as a probable cost of a Closer Union Scheme. Sit Advard, who advocates the appointment of a "big man;" as High Commissioner said the extra cost involved in such a selection would be outweighed by the security achieved.

hdeacon Owen of Kavirondo, followed Sir Edward as a witness. He maintained that the natives of Kenya pay twice as much in taxation as the Euro-peans. On the other hand Sir Edward Grigg declared that the native contribution might be taken as a little less than one-third of the whole.

Tribal Activities in the Reserves.

NATIVE TRADING INCREASING.

Difficulties in Regard to Mission

The report of the Chief Native Commissioner of Kenya for the year 1929 contains an interesting and valu-able review of the activities inside the reserves by the natives in furthering their own welfare.

The asionishing progress of the Local Native Councils, is emphasised. This progress, it is stated is most gratifying and encouraging to the authorities who are impressed by the sound outlook of some of the more advanced Councils. Large same of mosey, have been expended by these Councils on some services in the tocsorve.

While trade in the reserves is still largely in the hands of Indians, it is noted with satisfaction, that the native is taking an increasing share in the testing and storekeeping in his own areas. The report does not speak highly of the type of Indian shop-keeper generally in business in native reserves.

to regard to education, the report states that the native defined is perhaps on the theoretic density of the report states that the native density of the report of the purpose, but the action of some of the Missions in suddenly oppering old-time customs in connection with the circumcision of women, has created a difficult and delicate situation.

## THERE ARE MANY REASONS LEADERSHIP FORD For

LONG LIFE

The value of simplicity of design, high quality of materials and unusual care in manufacturing is especially apparent in the new Ford after the first 10,000 miles. Many new Fords have been driven 30,000. 40,000 or 150,000 miles.

### SAFETY

One of the first things you will notice about the new Ford is the quick, effective action of its silent, fully enclosed four-wheel Brakes. Another safety feature of utmost importance is the shatterless glass windshield. It has prevented many serious injuries in collisions.
