Possibilities for the Future

EXPORT DIFFICULTIES.

Valuable Contribution by the Consulting Committee.

Considerable interest is at present focussed on the possibility of the establishment of export trade in frozen ports. The whole position of the pig industry in Kenya was discussed recently at a meeting of the Pig Consulting Committee which was held in Nairob

Of particular value is the review which has been issued regarding the present position and the suggestion which are made for the future as to the improvements necessary in breeding and in types before a satisfactory export trade can be anticipated.

Another point which requires exceful investigation is stated to be the disposal of surplus pigs which are unmarketable.

The following article reporting the meeting has been forwarded by the Secretary of the Pig Consulting Committee.
