OVERNMENT OF INDIA OPPOSES CLOSER UNION.

Change of Opinion Since November.

MR. SASTRI'S EVIDENCE.

Delhi Keenly Concerned in Native Representation

es of the Government of India in regard to East ican questions, were put before the Joint Com-tee in London by the Rt. Hon. S. Sastri, P.C., as

Government of India considered that Natives should be appointed to the Central Council and the Kenya Legislativ Comnoil. If that was impossible the Native views should be represented by officials but if that was undestrible ther Europeans and Indiana should be appointed equally for the purpose.

out at length the Indian grievances and laid parti-dar stress on their desire for a Common Roll as idence of equality of status and partnership.

Sastri also objected to the assumption that if a measure was opposed by the Indians it could still be applied whereas if the Europeans opposed it, it would not be done.

obviously need puncture resistables for time, lost through delay may mean the sacrific of solicity or life.

Spiked!

The world's largest tyre manufacturer has perfected for you an ALL-RUBBER tube which not only resists punctures but seals leaks by automatic compression. When inflated a special thick cushion of live, plastic, tough and springy rubber becomes highly compressed. In

this condition, the tube is highly resistant to penetration by any object.

Should the tube be pierced by any sharp object such as a nail, thorn, etc... the compression squeezes and seals the live, plastic rubber around the object. Air cannot escape. When the object is withdrawn, the compression crowds the hole permanently shut.

This perfected Goodyear tube
ACTUALLY SEALS PUNCTURES. It is ALL-RUBBER...
it contains no filler to leak out,
and it does not lose its efficiency.

It fits any casing ... the same as a regular tube.

Savings in expense for punctures and tyre repairs and the longer life of the tyres themselves more than compensate for the difference in cost.

The Chairman expresses the view that Rr. Sastri's scheme of reachibe wat "a zomewhat artificial—zomewhat dangerous— political vyetem."

nutually, in reply to a Labour Member, Mr. Sastri admitted that if the Common Roll was introduced, many Indians who now had a vote would be de-prived of it.

d Lugard maintained that the British people in Kenya occupied a very special position as original axplorers, original makers of treaties with the natives, the builders of the Railways, etc.

n fact " said Lord Lugard, " Kenya is an English Colony and not an Indian Colony."

Chairman also questioned whether constitutional affairs in Kenya not directly affecting the Government of India, were the concern of the Belhi Administration. This had reference to Mr. Sastri's statement that the Government of India was interested in native representation.
