e plebiscite in Prussis for the dissolution of the Diet, which has been organised by the extreme Nationalist party, is not expected to succeed. The result was expected to be announced yesterday.

entire police force was ordered to be on duty with grenades, carbines, steel helmets and armoured cars. It is censidered, however, that an armed bid for power either by the "Nazis" or Communists, is smilkely.

renuous campaign has been undertaken by both sides in the plebiscite, and the result is anxiously awaited by all Germany and most of Europe.

A New Goodyear Development

that adds miles to tyres

A few months ago a Special Compound, whose formula has been carefully guarded, was added to the rubber used in the manufacture of Goodyear Tyres.

This new compound makes Goodyear Tyres more heat resisting and age proof, and adds miles and miles of extra service to what was already the world's longest wearing tyre.

The New Heavy Duty Goodyear Tyres which are now on sale in Kenya and Uganda are made with this heat resisting compound.

That small and steadily dwindling body of motorists who have never used Goodyears before will obtain an entirely new conception of big mileage and low operating cost with a set of these new heat and age resisting tyres.

ARE HARD

To-day everybody is looking for ways and means to economize. Economy is best achieved by judicious buying. Quality, service and price are the three chief

points to be considered. Without any one of these you cannot buy to the best advantage. An inspection will soon reveal that these and many other equally important features are incorporated in the 1931 CHEVROLET

FOR PUBLIC DISCUSSION.

The Association of E. A. Chambers of Commerce dis-cussed at Mombasa the question of Road vs. Rail competition.

While agreeing that the Railway should be protected against unfair competition, the Association regarded the recently published Bill as a measure which would penalise one section of the commentity and pileded extensive powers in the hands of the Board and aboud he recommitted for public discussion their amendment.

Uganda is opposed to the Bill and wants through traffic exempted.

While the refer had risen since 1914 by 50 per cent, the sirefle had uhe risin by probably 500 per cent, the sirefle had uhe risin by probably 500 per cent, so that the railway was not doing its best in any way whatever. On the marine services side, these was also the competition now by dhows. The Railway Administration should realise its duty to the public as common carriers.

Mr. H. F. Bargman (Nairobi) was gled to know that the railway had its present terifu under revision, and the whole object of the Bill under discussion really constrained on the problem of motor competition on the Mombasa-Nairobi road. This, he said, had arisen from the railways lack or unterprise in meeting competition. arises from the railway's lack or undergrise in meeting competition on a very bed read. He had put forward a solution within he looped the Ballway Council would adopt, a rate per 100 lb. on classes not tirely meet the competition. COMMERCE AND THE RAILWAY POLICY.

How the Chambers Voted at Mombasa.

HINT TO UGANDA.

Change in Principle Might Mean Loss of Taper Rate Benefits.

to division of opinion among the Chambers of Com-mense in regard to the Railway rating policy is dis-closed by the following fuller report of the five hours debate at Mombasa.

voting was interesting. The Chambers favouring postponement and opposed to the principle of a change in rates were those associated with farming districts: Eldores, Kitale or Makuru, with partial support from Dar es Salaam and Nairobi.

Chambers supporting the introduction of the haul-age cost as the minimum rate were Kisumu, Mom-bass, the Eastern Province of Ugazida, the rest of the Dar es Salaam delegates—and one Tanga-nylka producing district, Moshi.

as emphasised that Uganda might suffer from any change in the present principle because where-as to-day the Protectorate gains an advantage through the taper rates, it might have to bear an increased burden by the introduction of flat rate principles.

representative of the Railway informed the meeting that according to now figures, the average cost of mile, squal to 8th 3178 pt correction, per ton mile, squal to 8th 3178 pt can contain the square of the 8th 3178 pt can adopted, the increase would be Ca. 30 per bag. The General Manager of the K.F.A. declared that such an addition might Mil the inclusive.

The General Manager's Report gives the average revenue as 2.3 cents.
