## CONDITIONS IN LONDON.

#### Brighter Outlook for Kenya Tea

ring the course of an interview with the "E. A. Standard," Col. W. H. Franklin, H.M. Trades Commissioner for East Africa, gave some interesting information on the present position of the London smaller, and particularly regarding East African produce.

ling with sizel, Got, Franklin said that in order to counteract the fall in prices caused by forced sel-ling by small estates, efforts were being made to consolidate the sizel selling into groups, and thus steady the market and improve prices.

belief that the native will not grow stuff when the price falls below a certain level, is not born out by the Uganda cotton crop this year, which is a record one. The native will not, however, have a greater surplus for purchasing imported goods.

regard to tea, the Indian Tea Cess Committee, in conjunction with the Empire Marketing Board and the E.A. Departmetes Office, has decided to embark upon a campaign in Britain in favour of Empire grown tea.

## Re-assembly of the Federal Structure Committee.

#### SEEKING A SETTLEMENT.

Opening Address by Lord Sankey.

The Federal Structure Committee of the Indian Round Table Conference resumed its sitting at St. James Balate's in Monday wither the Premier, as Chair-man of the Conference, attended to welcome the delegates.

Lord Sankey again presided, but there was little change in the British delegation, except that Sir Samuel Hoare sat as a Ministerial member, as Secretary for India, and Mr. Wedgwood Benn, the late Secretary for India sat as a representative of the Labour Party.

Buring the course of an address of greeting to the del-gates, Lord Sankey said that an opportunity of reaching an agreement, was afforded such as may never come again in their lifetime. He appealed to the delegate not to miss that opportunity. He be-lieved that with patience and goodwill they could and would reach a settlement.

He added that during the last few weeks the situation had been carefully surveyed and alternative modes of dealing with the problems had been prepared.

Prime Minister gave an assurance to the delegates that in spite of recent political events in London, there was no change in public aims towards India, and in private Stendhiliss.

the Editor. "E A. Standard"! Sir,—One sees a good deal in e papers nowadays about the dividual doing his share in tid-g the country over the present ing the country over the present trisis. I wonder how many people in Nairobi have sacrificed themselves in any way for the walfare of the community? One sees women going from office to office looking for work; any rumour of a vacancy for a typist in a firm is the signal for a deluge of applications—mostly from wives whose husbands are out of a job or are under notice, or are earning ridiculously inade-

quate salaries. Yet in spite of this, there are an extra 220 or 225 a month. There are several cases where bashand and wife are working in the same firm, the typics's job, having fallen vacant and immediately seenred by the husband for his wife. This is all very well when the man's income is 2300 ar more it is an absolute disgrace. But when he is getting 2500 or more it is an absolute disgrace.

Prime Minister's Historic and Courageous Speech.

#### A MAJORITY OF FIFTY-NINE.

## Must Remain Until World Convinced of Britain's Unassailable Position.

The formation of a National Government in Britain was confirmed by the of Commons on Tuesday night by 309 votes to 250.

Save for about a dozen members the whole of the Labour Party faced the Minister as his opponents. In the House of Lords Lord Passfield, lately lary of State for the Colonies, led the opposition to the National Government.

In a strikingly vigorous speech the Prime Minister who announced that his salary would be reduced by a thousand pounds a year said: "Already Bis Majesty has led his people by his Royal example; the widow has offered he mite; the unemployed thomselves have written claiming the privilege of shiring the burdens which are going to contribute to the financial stability.

"I sak the House of Commons to uphold the Government in its work.

Will it be long? Will it be short? I know not. One definite thing I can asy—the long of the same have; it is your duty to keep us have, until the critis is passed; until the world is convinced once again that stering is unassistant and that the wages and incomment of our popular are free from threatened.

### Not a "Bankers' Ramp."

The Prime Minister continuered the idea that the crisis had been caused by a bankers' ramp ", although he believed that the banking system required reminision. In a reference to war debts and represents the declared that Britain he burdened itself by its honesty and its generosity in paying its debts and

He paid a tribute to the help given by French and American bankers at a when the alarming outflow of deposits and the danger to the gold reserve d the Bank of England to issue a serious warning.

The leader of the Labour Opposition maintained that the proper way to balance the Budget was to go to those who had most bread and the Labour Party was unwilling to agree to economy at the arpease of the unemployed. They stood by their ideals, principles and Socialist faith.

Mr. Sianley Baldwin admired the courage which had animated the Prime tar, deserted by the whole of his party, and which had caused him to stand desp: "I will form a Government to try and pull the country through."

## Nairobi-Nyeri Road.

Nyeri, Sept. 7.
The Nyeri mints appear to be over for the year, and the weather is clear and bright. The improved condition of the main road from Nairobi may be sauged from the fact that for the first time in its history Nyeri is becoming accustomed to secting parties of Nairobi people motoring up for Sunday lunch and returning the same day.

YOUR SAFETY

every Ford car has a

SHATTER-PROOF

GLASS WINDSHIELD

Fon greater safety in driving, every Ford car is equipped with a shatter-proof plate glass windshield. By reducing the dangers of thing glass it has saved many lives and prevented injuries in automobile scieldents.

secidents.

The value of this important safety factor has been known for years, but its use has been limited by expense. It is brought to you on the Ford as standard equipment only because of the efficiency and economy of Ford methods.

This windshield will withstand a 50% harder im-pact before breaking than plate glass of equal thick-ness, and is more flexible under impact. When struck an unusually hard blow, it will crack, but

Many improvements in methods and material have been made in the past three years, so that today shatter-proof glass is recognized as one of the greatest contributions to motoring since four-wheal nger from flying glass is minimized.
