Work of the E.A. Dependencies Office in London During 1930.

serding to the report for 1930 of the Eastern African Dependencies Trade and information Burseu in London, the year was one of the most difficult in regard to trying to encourage settlement. These difficulties were of a world-wide nature and were not confined to any particular territory.

of the chief reasons was that owing to the finan-cial depression, fathers, who would have been prepared to finance their sons sufficiently to start them in farming, either decided not to do so, or postponed their intention until better times.

also most unfortunate for Kenya that after ers also most unfortunate for Kenya that after experiencing three bad seasons, the good crop sea-son should have co-incided with the crash in world prices. This made it all the more necessary not to give encouragement to young men to go out without capital or employment.

crimately, states the report, this gave rise to en-tirely unfounded rumours that the office was deli-berately discouraging settlement. This rumour was an entirely false one, and every encourage-ment was given to those in possession of sufficient capital. All enquiries were followed up deligently.

re than 4,000 interviews were held with enquirers, and altogether 520 entries were made in the Pros-pective Settlers' Register. The pupil scheme continued to be regarded favourably by parents desiring to give their sons farming careers.

mya retained the primary position of preference among the various territories, with Morthern Rhodesia a good second. During the last two or three months of the year Morthern Rhodesia vied closely with Kenya for first place.

DISCUSSION AT THE SYNOD.

Subjects Before the Session Held in Nairobi.

fourth session of the Mombasa Diocesan Synod was held in Nairobi during last week, when the Bishop of Mombasa presided over a large gathering of clery? and lay delegates Subjects under discussion includ-ance and the subject of the Church in East Africa.

question of the reunion of Churches in the Eastern African territories received the cordial support of the synod, which welcomed the great desire for such a union. African speakers resolution pleaded for union in place of division. A resolution was carried approving of a conference to discuss the matter.

The Synod also passed a resolution emphasising the importance of religious instruction in schools, which it was felt fell far short of what was needed.

The Church Missionary Society has offered to transfer the Mombasa Cathedral, which is their property, to the Diocesan Trustees. This offer was gratefully accepted.
