STARTLING SCIENTIFIC DISCOVERY.

OLDWAY ADDS AGES TO HUMAN HISTORY.

Fossil Evidence Found in Tanganyika.

MAKER OF CHELLEAN CULTURE.

Sequel to German Professor's 1913 Discovery.

Discoveries likely to stretch the scientific world, have been made at Oldway in Tanganyika, by the East African Archaeologist.

The presence of a Dinotherium in the same bed as a human skeleton, and the discovery of tools of the Chellean epoch, prove that, at least in East Africa, the modern type of man, homo sapiens, existed much earlier in world history than evidence found elsewhere in the world has ever suggested.

Oldway will compel scientists to revise their conceptions of the evolution of man.

A Dinotherium Cue. 'E.A. Standard' Specimen.

The East African Archaeological Expedition has just announced the discovery of a fossil of the Dinotherium, a prehistoric animal, known to the world as the mammoth.

In the last four days of the expedition, the bones of a Dinotherium were found in the same bed as a human skeleton.

PREMIER'S FAITH IN INDIA.
(Continued from page 3.)

General Hailey had followed his own sense and had pulled in his reins on the subject of the Indian questions and a great many days had been spent in the study of the subject. As a result of the findings of the Commission the Indian controversy would meet again before him in the past. He insisted that the Indian should be treated as a British subject and not as a subject of the Crown. It is still difficult to see the point of this.

After referring to the findings of the Commission the Premier said he was, as a result, an all-India Federationist. He said that the Indian people were a united people and that the Premier's policy was to give them a united government. He said that the Premier's policy was to give them a united government. He said that the Premier's policy was to give them a united government.

The New and Wonderful Permanent Waves

HOW TO GET IT FOR 50/-
Owing to un satisfactory results caused by former advertising agents all over the world the well known hair dressing experts, ELLIOTT (Paris-London) has introduced a new and improved method of permanent waving. No electricity is used, only the well known 'TOWELL'S' method of waving. The hair is treated with a special preparation which is applied to the hair and the hair is then washed with a special shampoo. The hair is then dried and the waves are set. The waves are permanent and do not require any special treatment.
Mr. Florence, the High Class French Hair Dressing Expert, is in Nairobi, to perform this new and improved method of permanent waving. He will be in Nairobi from 15th to 25th December. He will be in Nairobi from 15th to 25th December. He will be in Nairobi from 15th to 25th December.

Agricultural Policy

Mr. H. H. Asquith, December 5...

Further discussion of measures contemplated to meet the economic situation...

proceedings of the House of Commons...

Before the House rises for the adjournment...

Government will make a definite statement...

in the agricultural policy, which is being...

will include the acceptance...

not only of the principle of a quota...

concluded until after the Ottawa Conference...

British, he said, must claim...

the right exercised by other...

countries to direct her tariff...

policy according to her own...

interests...

recent French tariff on...

British exports was particularly...

irritating to the British...

industry because it did not...

apply to some of the principal...

commodities which were causing...

trouble in depressed areas...

and it came up for a...

new, further, rationalizing...

the British Government...

strong representation...

France and he pointed that...

would very shortly receive...

direction.

He saw no reason why...

the Government or the value...

of sterling should be set...
