WHAT WHISKY SHOULD A MAN ORDER?

Avoid the imitation in your drink or bottle of asking merely for a whisky. Be more specific. Ask for White Horse, and have the bottle brought to you right.

This is a good start. Having arrived at your question about the quality of your drink you now know how to adjust the question as you wish, and in a moment or two, you will be drinking the whisky which cannot be bettered. So much and beautifully blended. Scotland's Senior Whisky.

A column devoted to the interests of the Junior Branch of the E.A.S.P.C.A. Edited by the Hon. Secretary, Box 865, Nairobi.

There was a good deal of work to be done during November, getting everything ready for our Birthday celebrations. These exercises got off to a fine start, and each of the schools should have a meeting by now.

Our new ledger has arrived and a few have already been given out. I think you will all agree that it is a great improvement on the old, they will save a day's copy holding like a book in the front the letters E. A. S. P. C. A. in white on a black background which makes them so very easy to read.

As will the fact that it is purchased for the use by the school on our own by Long fellow. We can now provide an entertainment for all our members where there is a standard machine. It can be used by any one, but I am hoping to be able to take it myself and show it to our members of Limuru, Kenyan, Oligi and Nairobi next term and as well will be shown in Nairobi.

Pine Whistles.

There was a very encouraging number of entries for the competition, "How to keep your pine bumpy and healthy." The first four weeks of criticism. Competitors must keep to their subject matter and try to write lively. You are not asked to write an essay, but to tell me why you must keep your pine bumpy and healthy. You can do this by washing and they need not use soap. One will see why you will wash and they need not use soap. If they want to use one bottle one they should be able to use some pine oil. A very good second or third place prize is the best of food. A prize of \$10 is given to the person who has a particularly good letter, an excellent essay, that keeps you to look after them.

The Christmas Party.

A happy Christmas to all members of the E. A. S. P. C. A. and their personal families.

"A righteous man is a model of wisdom."

"Heaven's compassion for the lowly is great."

"No child is without of his father's love."

Forget it, these are our Christmas wishes for you.

The Christmas party of this year will be very grand to every one who is present.

Those who have the most, the most money, the most money, the most money.

And who loves the most, the most money, the most money.

(Nairobi Whistles.)

Competitive for December.

Prizes are offered for the best

of any animal or manna which he has recognized. Others had and notes must reach the club by Dec. 11th, 1936. No late entries will be accepted, and entries will be made with your own eyes.

JAMES WATSON'S LETTER.

JUST A QUESTION of how much you want to spend

You cannot buy a better, more completely equipped, more spacious, versatile, useful car. And it looks just as good as it is! If you must spend for spending's sake, you can pay more; but you can't buy more miles out, more mileage; this is offered in the new Ford.

Nothing of the carrying capacity and performance tends to little, in fact, to run, or to keep it fast over years, after year.

For economy coupled with efficiency, comfort and performance, you can spend more for Ford prices but you cannot buy better than Ford value.

TRIGGERS

To the Editor: "The Standard," Sir—Will someone who has experienced in the matter inform me...

(1) Is there any known record for the amount of time which the finger shall be held in the trigger?

(2) After a finger has been extended, can it be retracted by the composition of the trigger?

(3) I have been experimenting with all the usual triggers, but without success.

I have also tried over many years all the known devices for putting an after the finger a spring on the trigger. The best of them seem to be by pulling the finger in the line rather than by retracting the trigger, and all of them are very unsatisfactory.

THOMAS MORGAN,

JUST A QUESTION

of how much you want to spend

THE FORD VICTORIA.

You cannot buy a better, more completely equipped, more capable, versatile, motor car. And it looks good, looks as good as it is! If you must spend for spending money, you can pay more; but you can't buy more money, so, more money, than is offered in the new Ford.

Nothing of the varying capacity and performance seats so little, to be, in, run, or to keep in first rate order, year after year.

For economy coupled with efficiency, comfort, harnessed by performance, you can spend more than Ford prices but you cannot buy better than Ford value.

ANTI-DUMPING MEASURE IN SOUTH AFRICA.

Countries Which Have Left Gold Affected.

A SPECIAL DUTY.

Sterling to be Reckoned at 18 Shillings to Union's £.

The trade of many countries with South Africa will be affected by the Union Government's decision to impose an exchange dumping duty on goods the importation of which is detrimental to South Africa because of the latter's maintenance of the gold standard.

The decision was announced and came into effect on Saturday.

The dumping duty will be assessed on the basis of the pound sterling being worth eighteen South African shillings.

The effect of the new order will be felt in Kenya which exports coffee and other produce to the Union.

Order in Force.

Proctor, December 12. In Britain, Ireland, the New Free States, Canada, Alaska, New Zealand, the Argentine, Uruguay, Ecuador, Panama, and Chile, the dumping duty will be assessed by the devaluation of the pound sterling from being an exchange dumping duty on goods the importation of which is detrimental to South Africa because of the latter's maintenance of the gold standard.

NAIROBI MUNICIPAL ESTIMATES.

THE OBYEDON MEMORIAL.

As anticipated, when the estimates for 1932 were put up for consideration by the Municipal Council, a special meeting on Thursday afternoon, while the session was protracted, there were not many serious points touched upon, and as a result the estimate did not require any revision.

Mr. H. Humphrey Esq., and Mr. C. C. Ullah said if the amount of which Dr. van Buren had been instructed to receive was not the amount intended that it was to be reported by Mr. van Buren to the Municipal Council that person the Mayor was to be asked to report to the Council of the Board of Trustees, and there was no objection to the Committee of the Municipal History Society, The report of the responsibility of raising the money for the monument each year to use their income as a fund for the monument capital of the Museum, but some of the money naturally went in current expenses.

The original estimate for 1932 was £200, which was later cut to £100. The Government had been asked to contribute £100, but it was believed that £200 was not sufficient for the year. It was estimated that the reason for the Municipal Council not effecting it was that the Municipal Council was not getting the money in the proper way; that the charges were not in proportion to the work done, and that it was not approved by the Municipal Council. The charges in question were not in proportion to the work done, and it was not approved by the Municipal Council.

Mr. Esdaile, in reply, said that the person was being supported mainly by voluntary contributions, at a salary of £800 a year. They had quite a large number of people who had given a complete state of mind. It was not at all that the Mayor had got to be satisfied and indeed it was a pity that he had not been able to do so. The person was being supported mainly by voluntary contributions, at a salary of £800 a year.

THE UGANDA BUDGET ESTIMATES.

Searching Queries by Unofficial Members.

P.A. OFFICE.

Grant of £100 A Year to be Dissolved.

(STANDARD) CORRESPONDENT

Kampala, December 8

THE 1932 Estimates were fully discussed in Legislative Council yesterday and the Unofficial Members naturally practically every item and proposed expenditure, the grant of £100 a year to be dissolved, the Council met after 7.30 p.m. having to adjourn to the 10th inst. The papers before it.

It will appear that this has been the most searching enquiry into Government expenditure in the history of Uganda. Yesterday morning the Council adjourned order-day, at the request of the Unofficial Members the Hon. Mr. D. P. M. pointed out that the Unofficial Members might be called to information on the subject of the Department which may not be clear and give reasons for certain items in their Estimates.

On re-assembling the Unofficial Members opposed the grant of £100 to the African Institute solely on account of the fact that the African Typographical Institute at Entebbe was being conducted. The argument was that Uganda controlled to contribute to the Institute in other countries but it was not seemed to contribute to Uganda funds for similar purposes.

They further queried the £1,000 grant to the East African Medical Service and requested the Unofficial Members to be informed as to whether or not £100 this sum which the Government withdrew (about one and a half million) for the same purpose. The Unofficial Members and hon. members. The possibility is being examined by the Unofficial Members are also writing to the Colonial Office, the British Legation and the British Legation may be deleted from the Estimates.

The East African Office.

On the arguments that the country did not receive value for money amount of £100 paid to this Dept. and Information Office.

FLAT RACING'S CLOSURE

Muddled November Handicap Sweeps Likely to Harm

QUESTIONERS IN PARLIAMENT

(MEMBERS' CORRESPONDENT)

London, Dec. 13 (By Air Mail) This was the last of the flat racing season in England, and it is the first time in the history of the flat racing season that the number of starters was so large that there was not room for them on the course at Caulfield.

The muddled November Handicap was due to the fact that the number of starters was so large that there was not room for them on the course at Caulfield. It is needless to say that such a large number of starters is not only a nuisance to the spectators but also a nuisance to the race itself. It is needless to say that such a large number of starters is not only a nuisance to the spectators but also a nuisance to the race itself.
