EARLIEST MAN MEET WITH VIOLENT DEATH? Interesting Revelations on Finds at Oldoway. SCIENTIFIC LECTURES.

Species of Hippopotamus Which Had Perisopic Eyes.

Week marks a epoch in the cultural life of Kenya since for the first time a series of organized scientific lectures and lectures is being held in the capital.

Dr. L. S. Leakey with his wife and two children, Mrs. Mary Leakey and their two children, Mr. and Mrs. Richard Leakey, were present at the lecture.

Dr. Leakey suggested that from the manner in which the skeleton was found the man had been bound up and his body placed in shallow water.

Dr. Leakey, a British mammalian paleontologist at the British Museum spoke fascinatingly of some of the prehistoric animals which roamed over East Africa in prehistoric times.

Fascinating Discoveries. Dr. Leakey's lecture was a most interesting one and was well attended.
